The Language Loss of the Indigenous G. N. Devy, Geoffrey V. Davis, K. K. Chakravarty.2016-02-26
This volume traces the theme of the loss of language and culture in numerous post-colonial contexts. It establishes that the aphasia imposed on the indigenous is but a visible symptom of a deeper malaise — the mismatch between the symbiotic relation nurtured by the indigenous with their environment and the idea of development put before them as their future. The essays here show how the cultures and the imaginative expressions of indigenous communities all over the world are

undergoing a phase of rapid depletion. They unravel the indifference of market forces to diversity and that of the states, unwilling to protect and safeguard these marginalized communities. This book will be useful to scholars and researchers of cultural and literary studies, linguistics, sociology and social anthropology, as well as tribal and indigenous studies.

Bantu Holomisa Bantu Holomisa, Eric Naki. 2018-11-01 Bantu Holomisa is one of South Africa's most respected and popular political figures. Born in the Transkei in 1955, he attended an elite school for the sons of chiefs and headmen. While other men his age were joining Umkhonto weSizwe, Holomisa enrolled in the Transkeian Defence Force and rose rapidly through the ranks. As head of the Transkeian Defence Force, Holomisa led successive coups against the homeland regimes and then became the head of its military government. He turned the Transkei into a 'liberated space', giving shelter to ANC and PAC activists, and declared his intention of holding a referendum on the reincorporation of the Transkei into South Africa. These actions brought him immense popularity and the military dictator became a liberation hero for many South Africans. When the unbanned ANC held its first election for its national executive in 1994, Holomisa, who had by now joined the party, received the most votes, beating long-time veterans and party stalwarts. He and Mandela developed a close relationship, and Holomisa served in Mandela's cabinet as deputy minister for environmental affairs and tourism. As this biography reveals, the relationship with both Mandela and the ANC broke down after Holomisa testified before the Truth and Reconciliation Commission, among other issues, that Stella Sigcau and her cabinet colleagues had accepted a bribe from Sol Kerzner. After being expelled from the ANC, Holomisa formed his own party, the United Democratic Movement, with Roelf Meyer. As leader of the UDM, Holomisa has played a prominent role in building coalitions among opposition parties and in leading important challenges to the dominant

party. This biography, written in collaboration with Holomisa, presents an engaging and revealing account of a man who has made his mark as a game changer in South African politics.

African Pilgrimage Retief Müller.2016-04-01 Years after the end of Apartheid South Africa remains racially polarized and socially divided. In this context pilgrimage and travelling rituals serve to help those who often find themselves at the bottom end of the social ladder to make sense of their world. This book describes a South Africa that is made up of a number of different fragmented worlds. The focus is on the Zion Christian Church, one of the largest religious movements in southern Africa, and a good example of indigenized African Christianity. Pilgrimage plays an important role in reintegrating some of those fragmented worlds into something approaching wholeness. This book tells the story of how the enduring ritual of pilgrimage is transforming African religion, along with the lives of ordinary South Africans.

Religious Environmental Activism Jens Köhrsen,Julia Blanc,Fabian Huber.2022-12-20 This volume explores how religious and spiritual actors engage for environmental protection and fight against climate change. Climate change and sustainability are increasingly prominent topics among religious and spiritual groups. Different faith traditions have developed green theologies, launched environmental protection projects and issued public statements on climate change. Against this background, academic scholarship has raised optimistic claims about the strong potentials of religions to address environmental challenges. Taking a critical stance with regard to these claims, the chapters in this volume show that religious environmentalism is an embattled terrain. Tensions

are an inherent part of religious environmentalism. These do not necessarily manifest themselves in open clashes between different parties but in different actions, views, theologies, ambivalences, misunderstandings, and sometimes mistrust. Keeping below the surface, these tensions can create effective barriers for religious environmentalism. The chapters examine how tensions are manifested and dealt with through a range of empirical case studies in various world regions. Covering different religious and spiritual traditions, they reflect on intradenominational, interdenominational, interreligious, and religious-societal tensions. Thereby, this volume sheds new light on the problems that religions face when they seek to take an active role in today's societal challenges. Religion and AIDS Treatment in Africa Dr Marian Burchardt,Dr Rijk van Dijk,Ms Thera Rasing,Professor Hansjörg Dilger.2014-09-28 This book critically interrogates emerging interconnections between religion and biomedicine in Africa in the era of antiretroviral treatment for AIDS. Highlighting the complex relationships between religious ideologies, practices and organizations on the one hand, and biomedical treatment programmes and the scientific languages and public health institutions that sustain them on the other, this anthology charts largely uncovered terrain in the social science study of the Aids epidemic. Spanning different regions of Africa, the

authors offer unique access to issues at the interface of religion and medical humanitarianism and the manifold therapeutic traditions, religious practices and moralities as they co-evolve in situations of AIDS treatment. This book also sheds new light on how religious spaces are formed in response to the dilemmas people face with the introduction of life-prolonging treatment programmes.

Shembe, Ancestors, and Christ Edley J. Moodley.2008-08-18 The Christian axis has shifted dramatically southward to Africa, Asia, and Latin America, so much so that today there are more Christians living in these southern regions than among their northern counterparts. In the case of Africa, the African Initiated Churches-founded by Africans and primarily for Africans-has largely contributed to the exponential growth and proliferation of the Christian faith in the continent. Yet, even more profoundly, these churches espouse a brand of Christianity that is indigenized and thoroughly contextual. Further, the power and popularity of the AICs, beyond the unprecedented numbers joining these churches, are attributed to their relevance to the existential everyday needs and concerns of their adherents in the context of a postcolonial Africa. At the heart of Christian theology is Christology-the confessed uniqueness of Christ in history and among world religions. Yet this key feature of Christianity, as with other important elements of the Christian faith, may be variously understood and re-interpreted in these indigenous churches. The focus of this study is the amaNazaretha Church, an influential religious group founded by the African charismatic prophet Isaiah Shembe in 1911 in the province of KwaZulu-Natal, South Africa. The movement today claims a following of some two million adherents and has proliferated beyond the borders of South Africa to

neighboring countries in Southern Africa. The book addresses the complex and at times ambivalent understanding of the person and work of Christ in the amaNazaretha Church, presenting the genesis, history, beliefs, and practices of this significant religious movement in South Africa, with broader implications for similar movements across the continent of Africa and beyond.

The Mail & Guardian A-Z of South African Politics Paul Stober, Barbara Ludman.2004 The A-Z of South African Politics 2004 is an essential and entertaining guide for navigating the corridors of power in South Africa today. Written by Mail & Guardian reporters and other experts associated with the award-winning newspaper, the book will give readers an under-the-skin look at the country's political movers and shakers. Three previous editions of the A-Z of SA Politics have been best sellers. The M&G decided to compile a fourth edition after continual requests by readers and booksellers for another edition looking at who's in, who's out and who's important in South African political life - and what it means for the rest of us. This lively reference work covers national government, judges, priests and premiers -- and those people, out of government, whom it would be folly to ignore.

Pastoral Interventions During the Pandemic Mookgo Solomon Kgatle, Collium Banda.2022-09-16 This book provides an interdisciplinary exploration of the challenges faced by pastoral ministry in South African Pentecostalism as a result of the Covid-19 pandemic, as well as some interventions

being made to manage these challenges. Contributors present descriptive approaches to churches' reactions to lockdown measures, and especially the adaptations generated within Pentecostalism in South Africa. Through a variety of approaches—including pastoral care, virtual ecclesiology, social media, and missiology—contributors offer intervention techniques which can help readers to understand the unique role of Christian ministry during the pandemic, in South Africa and beyond.

Dialogue and Syncretism Jerald D. Gort.1989 A new series emerging from discussions within an interdisciplinary research group at the Free University of Amsterdam, CURRENTS OF ENCOUNTER will deal with specific concerns of theology of religion, philosophy of religion, and comparative religion. In addition, the series will explore the relation between the Christian faith and contemporary culture as well as the encounter between Asian, African, Latin American, and Western contextualizations of Christianity. The aim of CURRENTS OF ENCOUNTER is to stimulate discussion and reflection on its theme from various presuppositional and methodological points of view. The underlying assumption of this aim is that the interdisciplinary avenue—neither an exclusively positivist nor a purely normative theological approach—provides the best means of access to a better understanding of the problems and potentialities inherent in the encounter between Christianity and the world of which it is a part -- Book cover.

An Introduction to Pentecostalism Allan Anderson.2004-05-13 Global Pentecostalism and Charismatic Christianity in all its diversity is the fastest expanding religious movement in the world today. Allan Anderson, a former Pentecostal minister and a leading authority on global Pentecostalism, aims to make more visible the 'non-western' nature of Pentecostalism without overlooking the importance of the movement emanating from North America. Offering an innovative

interpretation of Pentecostalism, he takes seriously the contributions of the Majority World to its development and, concentrating on its history and theology, reflects on the movement's development and significance throughout the world. Anderson also examines those theological issues that helped form a distinctive spirituality and how this relates to different peoples and their cultures. Finally, Anderson discusses the development of Pentecostal and Charismatic Christianity in the different countries from its origins at the beginning of the twentieth century to its theological emphases in the present, together with the impact of the processes of globalization.
