**The Brooklyn Follies** Paul Auster.2007-04-01 From the bestselling author of Oracle Night and The Book of Illusions, an exhilarating, whirlwind tale of one man's accidental redemption Nathan Glass has come to Brooklyn to die. Divorced, estranged from his only daughter, the retired life insurance salesman seeks only solitude and anonymity. Then Nathan finds his long-lost nephew, Tom Wood, working in a local bookstore—a far cry from the brilliant academic career he'd begun when Nathan saw him last. Tom's boss is the charismatic Harry Brightman, whom fate has also brought to the ancient kingdom of Brooklyn, New York. Through Tom and Harry, Nathan's world gradually broadens to include a new set of acquaintances—not to mention a stray relative or two—and leads him to a reckoning with his past. Among the many twists in the delicious plot are a scam involving a forgery of the first page of *The Scarlet Letter*, a disturbing revelation that takes place in a sperm bank, and an impossible, utopian dream of a rural refuge. Meanwhile, the wry and acerbic Nathan has undertaken something he calls *The Book of Human Folly*, in which he proposes to set down in the simplest, clearest language possible an account of every blunder, every pratfall, every embarrassment, every idiocy, every foible, and every inane act I had committed during my long and checkered career as a man. But life takes over instead, and Nathan's despair is swept away as he finds himself more and more implicated in the joys and sorrows of others. *The Brooklyn Follies* is Paul Auster's warmest, most exuberant novel, a moving and unforgettable hymn to the glories and mysteries of ordinary human life.

**Catholicism Contending with Modernity** Darrell Jodock.2000-06-22 This 2000 book is a case study in the ongoing struggle of Christianity to define its relationship to modernity, examining representative Roman Catholic Modernists and anti-Modernists. It sketches the nineteenth-century background of the Modernist crisis, identifying the problems that the church was facing at the beginning of the twentieth century.

**R. Crumb Comics** R. Crumb.1998-10-01 The stories are presented in luxurious format and binding. Two editions are available: 500 numbered copies in a Deluxe cloth slipcase and signed by Robert Crumb; and a special edition with an original artwork, limited to ten copies (price on request).

**Exploring Chaos** Nina Hall.1994 Chaos theory is giving scientists fresh insights into all sorts of unruly phenomena—from dripping faucets to swinging pendulums, from the vagaries of the weather to the movements of the planets, from heart rhythms to gold futures. In this collection of front-line reports, edited for the general reader, internationally recognized experts such as Ian Stewart, Robert M. May, and Benoit Mandelbrot draw on the latest research to trace the roots of chaos in modern science and mathematics.

**Writing Architectural History** Aggregate Architectural History Collective.2021-12-14 Over the past two decades, scholarship in architectural history has transformed, moving away from design studio pedagogy and postmodern historicism to draw instead from trends in critical theory focusing on gender, race, the environment, and more recently global history, connecting to revisionist trends in other fields. With examples across space and time—from medieval European coin trials and

eighteenth-century Haitian revolutionary buildings to Weimar German construction firms and present-day African refugee camps—Writing Architectural History considers the impact of these shifting institutional landscapes and disciplinary positionings for architectural history. Contributors reveal how new methodological approaches have developed interdisciplinary research beyond the traditional boundaries of art history departments and architecture schools, and explore the challenges and opportunities presented by conventional and unorthodox forms of evidence and narrative, the tools used to write history.

**Fire In the East** Paul Bracken.2010-12-14 On May 11, 1998, India began testing nuclear weapons. The world will never be the same. The Indian test of five atomic bombs, and the Pakistani tests that answered a few weeks later, marked the end of the arms control system that has kept the world from nuclear war for half a century. As Paul Bracken, professor of management and political science at Yale University, explains in this landmark study, they signal the reemergence of something the world hasn't seen since the sixteenth century-modern technologically adept military powers on the mainland of Asia. In *Fire in the East*, Professor Bracken reveals several alarming trends and secrets, such as how close Israel actually came to a germ warfare attack during the Gulf War, why globalization will spur the development of weapons of mass destruction, how American interests are endangered by Asian nationalism, and how to navigate what he names the second nuclear age. *Fire in the East* is a provocative account of how the Western monopoly on modern arms is coming to an end, and how it will forever transform America's role on the stage of international politics.

*French Comedy on Screen* R. Lanzoni.2014-10-30 French comedy films occupy a specific cultural space and are influenced by national traditions and shared cultural references, but at the same time they have always been difficult to classify. This book investigates the different methods in which these comedies textually inscribed and exemplified a variety of cultural and historical landmarks.

**LTUR** Eva Margareta Steinby.1993 This is the fifth in a multivolume set that contains 2,300 entries on the topography of ancient Rome. The *Lexicon Topographicum Urbis Romae* provides an up-to-date account of current research on public and private buildings and monuments constructed within the Aurelian walls through the early seventh century A.D. Both classical and Christian structures are discussed, whether identified through archaeological remains or known only from ancient or later sources. Each volume is heavily illustrated with drawings, photographs, floor plans, and maps.

Raymond Bellour Raymond Bellour,Allyn Hardyck.2012 This volume brings together 20 illustrated essays written between 1981 and 1989 by Raymond Bellour, one of the world's most prominent film theorists.

Letters from Liselotte Charlotte-Elisabeth Orléans (duchesse d').1998 Married in 1672, at 19, to Louis XIV's bisexual brother, the Duke of Orleans, Liselotte began her voluminous and fascinating correspondence from the Court of Versailles which she continued until her death 50 years later, making her the greatest chronicler of her day.

Bananas and Plantains John Charles Robinson,Víctor Galán Saúco.2010 Bananas and plantains are major fruit crops in the tropics and subtropics, making a vital contribution to the economies of many countries. In the last 15 years, substantial changes have occurred in banana production, among them the increased importance of fungal and viral diseases and their serious impact on Cavendish export cultivars, smallholder plantains and cooking bananas. Changes in production systems such as protected greenhouse cultivation, organic, fair-trade and integrated cultivation and their respective certification schemes have also become prominent. This book provides an accessi.

**Travels and Archaeology in South Chile** Junius B. Bird,Margaret Bird.1988-05 This is a remarkable book by one of the true geniuses in the field of anthropology during this century and one who provided valuable data for specialists in other disciplines as well.--H. M. Wormington An engaging manuscript that should charm a broad audience.--Thomas F. Lynch The field notes of Junius, and Peggy's diary, are valuable records of the excavations, artifacts, and interpretations of the best archaeologists to work in the southern tip of South America.--James G. Griffin Junius Bird's

three great archaeological field achievements--at the Strait of Magellan in Chilean Patagonia, in the Atacama Desert of northern Chile, and at the sites of early coastal dwellers in northern Peru--made his reputation as a New World prehistorian. His work in south Chile is especially important, since it established the great antiquity of human populations in South America. Until now, most of Bird's Chilean data remained unpublished, but this rich collection of field notebooks from his 1936 and 1937 excavations makes this primary information available for the first time. Included in this volume are new data from Bird's excavations at Palli Aike, Fell's Cave, and Cañadon Leona as well as Cerro Sota and Mylodon caves. Excerpts from his published articles plus contributions by Juliet Clutton-Brock and Vera Markgraf reinforce the book with major new information about these truly pioneering investigations. Complementing the technical data are excerpts from the field journal kept by Margaret (Peggy) Bird. Witty, charming, and personable, her writings convey the more human aspects of Bird's research while interpreting his theoretical ideas. Finally, the many photographs taken by the Birds add a striking visual dimension to this volume. The Birds' fieldwork took place under conditions, and with a spirit, vastly different from those of most researchers today. The texts and teamwork revealed in *Travels and Archaeology in South Chile* will appeal to everyone concerned with the heavily debated question of earliest peopling in the Americas, with South American anthropology and archaeology, and with the days when archaeology truly meant exploration.

**Paolozzi and Wittgenstein** Diego Mantoan, Luigi Perissinotto.2019-05-10 This impressive edited collection investigates the relationship between British Pop Art pioneer Eduardo Paolozzi and the philosopher Ludwig Wittgenstein. At this time, when Paolozzi's oeuvre is in the process of being rediscovered, his long-time fascination with Wittgenstein requires thorough exploration, as it discloses a deeper understanding of his artistic production, further helping to reassess the philosopher's actual impact on visual arts and its theory in the second half of the 20th century. With 13 diverse and comprehensive chapters, bringing together philosophers and art historians, this volume aims at retracing and pondering the influence of Wittgenstein on the idea of art in Paolozzi, thus giving an unprecedented insight into Wittgenstein's philosophy as employed by contemporary artists.

**War and Imperialism in Republican Rome, 327-70 B.C.** William Vernon Harris.1985 Between 327 and 70 B.C. the Romans expanded their empire throughout the Mediterranean world. This highly original study looks at Roman attitudes and behavior that lay behind their quest for power. How did Romans respond to warfare, year after year? How important were the material gains of military success--land, slaves, and other riches--commonly supposed to have been merely an incidental result? What value is there in the claim of the contemporary historian Polybius that the Romans were driven by a greater and greater ambition to expand their empire? The author answers these questions within an analytic framework, and comes to an interpretation of Roman imperialism

that differs sharply from the conventional ones.

Power in Ideas Kirsten Adams,Daniel Kreiss.2021-05-13 This Element develops an analytical framework for understanding the role of ideas in political life and communication. Power in Ideas argues that the empirical study of ideas should combine interpretive approaches to derive meaning and understand influence with quantitative analysis to help determine the reach, spread, and impact of ideas. This Element illustrates this approach through three case studies: the idea of reparations in Ta-Nehisi Coates's "The Case for Reparations," the idea of free expression in Mark Zuckerberg's Facebook policy speech at Georgetown University, and the idea of universal basic income in Andrew Yang's "Freedom Dividend." Power in Ideas traces the landscapes and spheres within which these ideas emerged and were articulated, the ways they were encoded in discourse, the fields they traveled across, and how they became powerful.

*Building Community Schools* Margrit I. Kennedy.1979 UNESCO pub. Report on research into school construction and architecture, and community use of school buildings and teaching equipment - reviews planning, financing and administrative aspects, gives examples in Africa, Asia and Latin America, and mentions the manufacture of saleable products on school premises, including handicrafts in rural areas, and alternating training. Bibliography pp. 149 to 155, diagrams, flow charts, references and statistical tables.

*Architectonic Space* Hans van der Laan.1983 Architectonic Space is the most complete and coherent treatise on the nature, purpose and meaning of architecture that has so far been attempted. It is the product of its author's lifetime pursuit of an idea that has haunted him from childhood: a search for the archetypal basis of the act of building. Seeing architecture not merely as the expression, but as the precondition of human culture, Hans van der Laan believes that its principles must be sought within architecture itself, rather than in technological, social or ideological factors. His buildings and writings stand out like tablets of stone amid the prevailing uncertainty and opportunism. The style and method of his book its rational building up of an argument founded on simple everyday experience remind one forcibly of the early Greek thinkers, just as Van der Laan's architecture recalls the houses and cities of the ancient world.

**Diplomatics** Luciana Duranti.1998 Diplomatics was originally developed in France during the seventeenth century in attempts to prove the authenticity of archival documents. It was later refined in European universities as a legal, historical, and philological discipline, and in the twentieth century it has primarily been applied to medieval and early modern documents in order to evaluate their authority as sources of research. Diplomatics embraces the perspective of the modern archivist, and investigates the origin, development, and application of diplomatic concepts. It examines the organizational and evaluative effectiveness of diplomatic concepts in the context of modern records and archival systems, and looks at the relationship between originality and authenticity in records. The physical and intellectual form of records is examined, and the traditional methodology of diplomatic criticism is clearly explained and augmented by tips concerning its archival use. Diplomatics was originally a series of six articles that appeared in *Archivaria*, the journal of the Association of Canadian Archivists. In addition to those six articles, this volume contains an introduction that provides a broad synopsis of diplomatics, including its unused potential to help rethink record organization and use in a multimedia age fraught with increasingly complex informational problems.

**On the Government of Rulers** Ptolemy of Lucca,Thomas Aquinas.2010-11-24 Ptolemy, considered a proto-Humanist by some, combined the principles of Northern Italian republicanism with Aristotelian theory in his *De Regimine Principum*, a book that influenced much of the political thought of the later Middle Ages, the Renaissance, and the early modern period. He was the first to attack kingship as despotism and to draw parallels between ancient Greek models of mixed constitution and the Roman Republic, biblical rule, the Church, and medieval government. In addition to his translation of this important and radical medieval political treatise, written around 1300, James M. Blythe includes a sixty-page introduction to the work and provides over 1200 footnotes that trace Ptolemy's sources, explain his references, and comment on the text, the translation, the context, and the significance.
