High Nature Value Farming in Europe Rainer Oppermann, Guy Beaufoy, Gwyn Jones. 2012 High Nature Value (HNV) farming is inherently valuable for biodiversity and forms a living cultural and natural heritage. HNV farmland comprises semi-natural pastures, meadows and orchards, as well as species-rich arable land, and often retains a wealth of landscape features. HNV farming is present in all European countries, with a diversity of types and extent. Apart from being the cornerstone of European farmland biodiversity, these types of farming provide a multitude of other services for society, including sustainable rural economies, and the rich social fabric and character of Europe's landscapes. The environmental, socio-cultural and territorial significance of HNV farming is increasingly recognised, but greater awareness is needed amongst policy makers and the wider public. Cluny Brown Margery Sharp.2016-04-12 An unconventional parlor maid upends the lives of an aristocratic family in prewar England Cluny Brown refuses to know her place in society. Last week, she took herself to tea at the Ritz. Then she spent almost an entire day in bed eating oranges. So, to teach her discipline, her uncle, a plumber who has raised the orphaned girl since she was a baby, sends her into service as a parlor maid at one of England's stately manor houses. At Friars Carmel in Devonshire, Cluny meets her employers: Sir Henry, the quintessential country squire, and Lady Carmel, who oversees the management of her home with unruffled calm. Their son, Andrew, newly returned from abroad with a Polish émigré writer friend, is certain the country is once again on the brink of war. Then there's Andrew's beautiful fiancée and the priggish town pharmacist. While everyone around her struggles to keep pace with a rapidly changing world, Cluny continues to be Cluny, transforming those around her with her infectious zest for life. "An entertaining story of England just before the war . . . Top drawer reading." —Kirkus Reviews

Embryos in Deep Time Marcelo Sánchez-Villagra.2012-04-03 How can we bring together the study of genes, embryos and fossils? Embryos in Deep Time is a critical synthesis of the study of individual development in fossils. It brings together an up-to-date review of concepts from comparative anatomy, ecology and developmental genetics, and examples of different kinds of animals from diverse geological epochs and geographic areas. Can fossil embryos demonstrate evolutionary changes in reproductive modes? How have changes in ocean chemistry in the past affected the development of marine organisms? What can the microstructure of fossil bone and teeth reveal about maturation time, longevity and changes in growth phases? This book addresses these and other issues and documents with numerous examples and illustrations how fossils provide evidence not only of adult anatomy but also of the life history of individuals at different growth stages. The central topic of Biology today—the transformations occurring during the life of an organism and the mechanisms behind them—is addressed in an integrative manner for extinct animals.

Three Bags Full Leonie Swann.2010-10-29 A witty philosophical murder mystery with a charming twist: the crack detectives are sheep determined to discover who killed their beloved shepherd. On a hillside near the cozy Irish village of Glennkill, a flock of sheep gathers around their shepherd, George, whose body lies pinned to the ground with a spade. George has cared devotedly for the flock, even reading them books every night. Led by Miss Maple, the smartest sheep in Glennkill (and possibly the world), they set out to find George's killer. The A-team of investigators includes

Othello, the “bad-boy” black ram; Mopple the Whale, a Merino who eats a lot and remembers everything; and Zora, a pensive black-faced ewe with a weakness for abysses. Joined by other members of the richly talented flock, they engage in nightlong discussions about the crime, wild metaphysical speculations, and embark on reconnaissance missions into the village, where they encounter some likely suspects. Along the way, the sheep confront their own all-too-human struggles with guilt, misdeeds, and unrequited love. Funny, fresh, and endearing, it introduces a wonderful new breed of detectives to Canadian readers.

The Disappearance of Haruhi Suzumiya (light novel) Nagaru Tanigawa.2012-09-04 What if you woke up one morning, and everything changed? It's one week before Christmas Eve, and Haruhi and the S.O.S. Brigade (a club for her high school's strangest and most extraordinary students) are gearing up for holiday festivities. But just before the fun kicks off, Kyon, the only normal member, wakes up in a weird alternate dimension, one where Haruhi attends another school entirely, Nagato the time traveling robot is just an ordinary human, and Mikuru (the cute girl of Kyon's dreams) doesn't even recognize him-in other words, S.O.S. Brigade never existed. The only clue Kyon can find is a bookmark left by the robot version of Nagato, which leads him on a quest back in time, where he interacts with the storyline from Bamboo Leaf Rhapsody, a short story from the previous Haruhi book, The Boredom of Haruhi Suzumiya. This fun and quirky holiday tale is reminiscent of A Christmas Carol and It's a Wonderful Life.

Theodor W. Adorno Gerhard Schweppenhäuser.2009-03-16 Theodor W. Adorno (1903–1969) was one of the twentieth century's most important thinkers. In light of two pivotal developments—the rise of fascism, which culminated in the Holocaust, and the standardization of popular culture as a commodity indispensable to contemporary capitalism—Adorno sought to evaluate and synthesize the essential insights of Western philosophy by revisiting the ethical and sociological arguments of his predecessors: Kant, Nietzsche, Hegel, and Marx. This book, first published in Germany in 1996, provides a succinct introduction to Adorno's challenging and far-reaching thought. Gerhard Schweppenhäuser, a leading authority on the Frankfurt School of critical theory, explains Adorno's epistemology, social and political philosophy, aesthetics, and theory of culture. After providing a brief overview of Adorno's life, Schweppenhäuser turns to the theorist's core philosophical concepts, including post-Kantian critique, determinate negation, and the primacy of the object, as well as his view of the Enlightenment as a code for world domination, his diagnosis of modern mass culture as a program of social control, and his understanding of modernist aesthetics as a challenge to conceive an alternative politics. Along the way, Schweppenhäuser illuminates the works widely considered Adorno's most important achievements: *Minima Moralia*, *Dialectic of Enlightenment* (co-authored with Horkheimer), and *Negative Dialectics*. Adorno wrote much of the first two of these during his years in California (1938–49), where he lived near Arnold Schoenberg and Thomas Mann, whom he assisted with the musical aesthetics at the center of Mann's novel *Doctor Faustus*.

Kirchner and the Berlin Street Deborah Wye, Ernst Ludwig Kirchner, Museum of Modern Art (New York, N.Y.).2008 Ernst Ludwig Kirchner's remarkable series of paintings known as the Berlin Street Scenes is a highpoint of the artist's work and a milestone of German Expressionism, widely seen as a metaphor for modernity itself through their depiction of life in a major metropolis. Kirchner moved from Dresden to Berlin in 1911, and it was in this teeming city, immersed in its vitality, decadence and underlying sense of danger posed by the imminent World War I, that he created the Street Scenes in a sustained burst of creative energy and ambition between 1913 and 1915. As the most extensive consideration of these paintings in English, this richly illustrated volume examines the creative process undertaken by the artist as he explores his theme through various mediums, and presents the major body of related charcoal drawings, pen-and-ink studies, pastels, etchings, woodcuts and lithographs he created in addition to the paintings. The volume also investigates the significance of the streetwalker as a primary motif, and provides insight on the series in the context of Kirchner's wider oeuvre.

Do We Dream Under the Same Sky Rirkrit Tiravanija.2015 Published in conjunction with the eponymous installation at Art Basel 2015, DO WE DREAM UNDER THE SAME SKY is an extension of the collaboration between artist Rirkrit Tiravanija, architects Nikolaus Hirsch and Michel Müller, and chef Antto Melasniemi. Designed by Hirsch and Müller as an outdoor shelter, the installation, made of modular bamboo and steel, welcomes visitors to engage in discussions while participating in the convivial atmosphere of shared food. This supplemental publication includes interviews, texts, images, and poems that illuminate the installation's properties of self-sufficiency and how it was conceived as a new component of Tiravanija and Kamin Lertchaiprasert's ongoing project the land, a self-sustaining artistic community near Chiang Mai, Thailand. At the end of the festival, the structure will be transported to Thailand and will be the first building block of a new workshop on the land. In a continuation of conversations among artists surrounding the land, this book explores urbanization in a post-rural condition, the act of building as a collaborative process, and land as a concept that can exist outside of ownership. A discussion with Hirsch, Tiravanija, Melasniemi, and Jörn Schafaff reflects on the way in which the installation builds on the land's objectives relating to improvisation, collaboration, and the questioning of institutional structures. Also featured in the book are recipes developed by Melasniemi on the occasion of this installation-as-workshop, where the public is invited to participate in the cooking

process. Wonder Girls Paola Gianturco, Musimbi Kanyoro. 2017-10-10 Wonder Girls: Changing Our World is the first photographic book to document groups of activist girls (age 10 to 18) globally. It's award winning and inspiring! Paola Gianturco and her eleven-year-old granddaughter documented the work of fifteen girl-led nonprofit groups in thirteen countries in Asia and Central Asia, North and Latin America, the Middle East, Africa and Oceania. They interviewed and photographed 102 girls. If you think girls are the future, prepare to be dazzled. These girls are changing our world right now. Groups of activist girls age 10-18 are transforming our world: improving education, health, equality and the environment; stopping child marriage, domestic violence, trafficking and war. Their imagination and courage radiate through their stories, all told in their own words. In this book, you will watch girls lobby U.S. senators; see Mexican girls invent mobile phone apps to solve social problems; meet Malawian girls who convinced Parliament to outlaw child marriage. You will eavesdrop on Ugandan girls as they advocate for girls' rights at a UN meeting. And you will meet other girls as they write blogs, petitions, poetry, create radio shows, videos, invent dances, songs and works of art to promote their causes. Wonder Girls: Changing Our World is a call to action to help these girls accomplish their important work. Alex Sangster's sections, the finale of each chapter, tell you how. The book's Foreword was written by Musimbi Kanyoro, President and CEO of the Global Fund for Women, the world's largest grant-making organization that benefits women and girls internationally. The Global Fund for Women will receive 100% of the authors' royalties from this book.
