Domain Linkages and Privatization in Social Security Jun-Young Kim,Per-Gunnar Svensson.2018-02-06 This title was first published in 2000: This volume is based on papers presented at the sixth International Research Seminar on Issues in Social Security, held by FISS on 12-15 June 1999 in Sigtuna, Sweden. The book relates to the discussion about the merits of improving the incentive structure of social security programmes by privatization. The first part contains two important chapters - the first looks at the interaction between programmes and how they make one of them to serve the purposes of the other. This mechanism is termed domain linkage. The second chapter deals with welfare state programmes that contain behavioural risks, like health insurance, sickness benefits, unemployment and disability insurance - where moral hazard is a potential problem. The second part of the book groups a number of international comparative studies. The first three deal with retirement issues, and the fourth looks at the development of poverty and income distribution.

Vulnerabilities, Care and Family Law Julie Wallbank, Jonathan Herring.2013-11-26 While in the past family life was characterised as a haven from the harsh realities of life, it is now recognised as a site of vulnerabilities and a place where care work can go unacknowledged and be a source of social

and economic hardship. This book addresses the strong relationships that exist between vulnerability and care and dependency in particular contexts, where family law and social policy have a contribution to make. A fundamental premise of this collection is that vulnerability needs to be analysed in a way that gets at the heart of the differential power relationships that exist in society, particularly in respect of access to family justice, including effective social policy and law targeted at the specific needs of families in mutually dependent caring relationships. It is therefore crucial to critically examine the various approaches taken by policy makers and law reformers in order to understand the range of ways that some families, and some family members, may be rendered more vulnerable than others. The first book of its kind to provide an intersectional approach to this subject, *Vulnerabilities, Care and Family Law* will be of interest to students and practitioners of social policy and family law.

Marital Agreements and Private Autonomy in Comparative Perspective Jens M Scherpe.2012-02-24 This book deals with a subject that has recently been the focus of debate and law reform in many jurisdictions: how much scope should spouses have to conclude agreements concerning their financial affairs - and under what circumstances should such agreements be binding and enforceable? These marital agreements include pre-nuptial, post-nuptial and separation agreements. The book is the result of a British Academy-funded research project which investigated and compared the relevant law of England and Wales, Australia, Austria, Belgium, France, Germany, Ireland, the Netherlands, New Zealand, Scotland, Singapore, Spain, Sweden and the jurisdictions of the United States. In addition to chapters on these jurisdictions, the book includes a chapter on the 'English practitioner's view'. It also provides a comparative analysis of the different matrimonial property regimes and the rules on marital agreements that explores underlying themes and principles and makes recommendations for regulating marital agreements. A key theme is the function and effect of marital agreements in the different jurisdictions. Thus, each chapter first explains the underlying 'default' rules for ancillary relief/matrimonial property and maintenance. It then analyses the current rules for marital agreements, and gives a brief account of the private international law rules. The book provides a comprehensive source of reference on ancillary relief/matrimonial property and maintenance and the rules on pre-nuptial, post-nuptial and separation agreements in 14 jurisdictions. It offers guidance for academics and practitioners dealing with international matters, and a basis for discussions on law reform. 'I applaud the vision and perseverance of Jens Scherpe in having conceived this book and, with so much distinguished help, in now bringing it to birth. I will be using it for many years and I warmly invite my fellow family lawyers across the world to do likewise.' Foreword by The Rt Hon Lord Wilson of Culworth, Justice of the Supreme Court of the United Kingdom
