**Procurement by International Organizations** Elisabetta Morlino.2018-11-30 How do international organizations procure goods, services and works to carry out their institutional mission? How does this procurement activity affect individuals? Does the procurement relationship between international organizations and private subjects bring an even distribution of rights and duties? Are international organizations accountable to private subjects and states when allocating their resources through procurement? The book explores the complex phenomenon of procurement by international organizations from the point of view of the relationship between international organizations and private subjects. It provides, for the first time, a systematization and conceptualization of the emerging rules and practices of procurement by international organizations. It also identifies the international political dynamics and interplay of interests underlying these rules and practices. In doing so, it shows how these dynamics shape the exercise of international public authority over private subjects, and the scope of private subjects' rights vis-à-vis international organizations.

**Whose Child Am I?** Susan J. Terrio.2015-05-01 In 2014, the arrest and detention of thousands of desperate young migrants at the southwest border of the United States exposed the U.S. government's shadowy juvenile detention system, which had escaped public scrutiny for years. This book tells the story of six Central American and Mexican children who are driven from their homes by violence and deprivation, and who embark alone, risking their lives, on the perilous journey north. They suffer coercive arrests at the U.S. border, then land in detention, only to be caught up in the battle to obtain legal status. *Whose Child Am I?* looks inside a vast, labyrinthine system by documenting in detail the experiences of these youths, beginning with their arrest by immigration authorities, their subsequent placement in federal detention, followed by their appearance in deportation proceedings and release from custody, and, finally, ending with their struggle to build new lives in the United States. This book shows how the U.S. government got into the business of detaining children and what we can learn from this troubled history.

**Major Challenges Facing Higher Education in the Arab World: Quality Assurance and Relevance** Adnan Badran,Elias Baydoun,John R. Hillman.2019-03-25 This book focuses on two crucial issues that need to be addressed as a matter of urgency by universities in the Arab region, namely (a) conducting independent assessments of the quality of their teaching, research, administration, governance, and planning; and (b) determining the relevance of their teaching, research, and societal impacts. Although well-established around the world in manufacturing industries and private-sector service industries, including the research and commercialisation arms of the major universities and research institutes, it is only in recent years that quality-assurance (QA) assessments have started to be applied to most aspects education. Several Arab universities are adopting various forms of QA but some variants are little more than bureaucratic "box-ticking" exercises with minimal commitment by staff to the ultimate aim of continuing self-improvement. This book will be of interest to senior management at faculty and departmental level and above in all Arab universities specifically, and more generally in Islamic institutions of higher education. Senior management in other universities, especially in the developing world will benefit from its analyses and recommendations.

**The Privatization of Peacekeeping** Lindsey Cameron.2017-10-31 Private military and security companies (PMSCs) have been used in every peace operation since 1990, and reliance on them is increasing at a time when peace operations themselves are becoming ever more complex. This book provides an essential foundation for the emerging debate on the use of PMSCs in this context. It clarifies key issues such as whether their use complies with the principles of peacekeeping, outlines the implications of the status of private contractors as non-combatants under international humanitarian law, and identifies potential problems in holding states and international organizations responsible for their unlawful acts. Written as a clarion call for greater transparency, this book aims to inform the discussion to ensure that international lawyers and policy makers ask the right questions and take the necessary steps so that states and international organizations respect the law when endeavouring to keep peace in an increasingly privatized world.

*Governing in a Global World* Maria J. D'Agostino,Marilyn Marks Rubin.2017-11-28 Governing in a Global World captures the panorama of women governing around the world. Even though the modern era marks history's greatest advancements for women, worldwide they hold fewer than 30 percent of decision-making positions and are often missing from negotiating tables where policies are made and conflicts resolved. The opening chapters present trends and context for studying women in public service by focusing on path-setters across the globe, the status of women in the world's executive and legislative bodies, and their participation in public service across several nations. Later chapters examine power, leadership and representation of women in public service, with several chapters looking at women governing from a regional perspective in the Middle East, Sub Sahara Africa, Latin America, and China. The final chapter presents empirical evidence that shows how policies to increase women's representation in the public arena reduce gender inequality more than any other policy intervention. Taken together, the chapters illustrate the worldwide importance of, and challenges to, promoting gender equality and women governing.

**Coast Guard** John P. Hutton.2011-08 The Coast Guard manages a broad \$27 billion major acquisition portfolio intended to modernize its ships, aircraft, command and control systems, and other capabilities. Previous reports have discussed the Coast Guard's significant acquisition challenges, including project challenges in its Deepwater program. They identified problems in costs, management, and oversight, but also recognized several steps the Coast Guard has taken to improve acquisition management. This report: (1) assessed Coast Guard capabilities to manage its major acquisition programs; and (2) determined the extent to which the Coast Guard leverages DoD and other agency contracts or expertise to support its major acquisition programs. Illus. This is a print on demand report.

*UNICEF (United Nations Children's Fund)* Richard Jolly.2014-04-03 This book provides an in-depth analysis of UNICEF's development and operations, whilst exploring the significance of UNICEF's achievements and the reasons behind them. UNICEF is one of the best known organizations of the United Nations system and the oldest of the UN's development funds. It is also the part of the UN which consistently receives support from all countries round the world, including the United States. This book brings out the wider reasons for UNICEF's success and popularity, setting them in the context of UNICEF's evolution since 1946 and drawing lessons for other international organizations. The book argues that, despite its problems, international action for children, built substantially on non-economic foundations, is not only possible, but can be highly successful in mobilizing support, producing results and making a difference to the lives of millions of children. This will be of great interest to all scholars of international organisations, development, human rights and the United Nations system.

Safe and Effective Medicines for Children Institute of Medicine,Board on Health Sciences Policy,Committee on Pediatric Studies Conducted Under the Best Pharmaceuticals for Children Act (BPCA) and the Pediatric Research Equity Act (PREA).2012-10-13 The Best Pharmaceuticals for Children Act (BPCA) and the Pediatric Research Equity Act (PREA) were designed to encourage more pediatric studies of drugs used for children. The FDA asked the IOM to review aspects of pediatric studies and changes in product labeling that resulted from BPCA and PREA and their predecessor policies, as well as assess the incentives for pediatric studies of biologics and the extent to which biologics have been studied in children. The IOM committee concludes that these policies have helped provide clinicians who care for children with better information about the efficacy, safety, and appropriate prescribing of drugs. The IOM suggests that more can be done to increase knowledge about drugs used by children and thereby improve the clinical care, health, and well-being of the nation's children.

**Biointeractions of Nanomaterials** Vijaykumar B. Sutariya,Yashwant Pathak.2014-07-29 An examination of the widespread application of nano materials in biology, medicine, and pharmaceuticals and the accompanying safety concerns, Bio-interactions of Nano Materials addresses the issues related to toxicity and safety of nano materials and nano systems. It covers the interactions in biological systems and presents various tools and methods used to evaluate the nano toxicity and nano safety issues. Written by leading scientists, the book focuses on the bio-interaction of nano materials, covering various techniques and tests which have been developed to evaluate the toxicity of materials at the nano level. The book highlights the challenges of bio-interactions of nano materials and possible solutions to those challenges. It addresses the assessment and characterization of nano systems in bio-environments, toxicity and bio-sensing devices for toxicity assessment, carbon nano tubes and pulmonary toxicity, and nano toxicity of solid lipid nanoparticles. It also discusses nano safety concerns and solutions, including the effects of nano particles on different organs and regulatory implications of nano materials. These particles may be used to encapsulate drugs, recognize biological markers, or visualize body tissues among many other possibilities, all enabling their widespread application in biology, medicine, and pharmaceuticals. Indeed, these nano materials may have beneficial effects that have not even been imagined. This book gives you an understanding of the safety issues, how to assess for them, and how to mitigate them to move forward in research and development of new applications for nano materials.
