Genealogical Fictions María Elena Martínez.2008 Genealogical Fictions examines how the state, church, Inquisition, and other institutions in colonial Mexico used the Spanish notion of *limpieza de sangre* (purity of blood) over time and how the concept's enduring religious, genealogical, and gendered meanings came to shape the region's patriotic and racial ideologies.

Doing Business in 2005 .2005 *Doing Business in 2005: Obstacles to Growth* is the second in a series of annual reports investigating the scope and manner of regulations that enhance business activity and those that constrain it. New quantitative indicators on business regulations and their enforcement can be compared across more than 130 countries, and over time. The indicators are used to analyze economic outcomes and identify what reforms have worked, where and why. Topics in *Doing Business in 2005* include: Licensing and Inspections: Having registered a business, now what? In most countries, firms face a myriad of sector specific licenses as well as inspections to enforce compliance. The *Doing Business* database constructs two sets of indicators on the regulation of operations. One measures the steps, time and costs of complying with licensing and permit requirements for ongoing. The other assesses the enforcement of regulations through two of the most common types of inspections-labor and tax. Registering Property: Property registries were first developed to help raise tax revenue. What was good for the tax authorities has since proven to be good for strengthening property rights-the registries strengthen incentives to invest, facilitate trade, and expand access to credit. New indicators cover the steps, time and cost to register property. Measures of the legal provisions that strengthen property rights and the efficiency of property registries are also developed. Protecting Investors: Corporate governance issues are often thought to affect only publicly listed companies in developed countries. In fact, corporate governance is relevant for every large privately held company that has more than one owner. New indicators examine several possible types of shareholder expropriation, including related-party transactions, guarantees and loans to company managers and directors, mergers and acquisitions, disclosure of ownership information, and treatment of conflicts of interest. Including a new emphasis on gender, *Doing Business* not only provides insights into business constraints throughout the world but highlights particular barriers faced by women. *Doing Business* is a comprehensive resource that no investor, economic adviser, business developer, or economic policymaker should be without.

Thirty Acres Ringuet.1989 *Thirty Acres* traces the course of one man's life as he enters into the age-old rhythms of the land and of the seasons. At the same time, it is a novel on a grand social scale, spanning and documenting the tumultuous half-century in which a new, industrial urban society crowded out Quebec's traditional rural one.

Orientalism and Race T. Ballantyne.2016-01-03 This study traces the emergence and dissemination of Aryanism within the British Empire. The idea of an Aryan race became an important feature of imperial culture in the nineteenth century, feeding into debates in Britain, Ireland, India, and the Pacific. The global reach of the Aryan idea reflected the complex networks that enabled the global reach of British Imperialism. Tony Ballantyne charts the shifting meanings of Aryanism within these 'webs' of Empire.

Science, Voyages, and Encounters in Oceania, 1511-1850 Bronwen Douglas.2014-03-26 Blending global scope with local depth, this book throws new light on important themes. Spanning four centuries and vast space, it combines the history of ideas with particular histories of encounters between European voyagers and Indigenous people in Oceania (Island Southeast Asia, New Guinea, Australia, New Zealand, and the Pacific Islands).

Perspectives on Grammaticalization William Pagliuca.1994-08-25 This is the second of two volumes deriving from papers presented at the Nineteenth Annual UWM linguistics Symposium held in Milwaukee in 1990. It focuses on the evolution of grammatical form and meaning from lexical material, which has reinvigorated historical analysis and theory and led to advances in the understanding of the relation between diachrony and universals. The richness and potential of some of the leading approaches to grammaticalization are here illustrated in thirteen selected papers.

Religious Themes and Texts of Pre-Islamic Iran and Central Asia Gherardo Gnoli.2003 The volume contains forty-one papers dedicated to the distinguished Iranianist by colleagues, friends and former students, and a complete bibliography of the dedicatee. The papers deal with a variety of themes relating to Zoroastrianism, Manichaeism, Christianity, Buddhism and the multifarious religious history of pre-Islamic Iran approached mainly, but not exclusively, from a historical and philological point of view. The volume also contains a number of previously unpublished or untranslated religious texts as well as re-editions and new translations. The papers cover all Old and Middle Iranian languages, New Persian and other New Iranian languages.

The Role of Women in Work and Society in the Ancient Near East Brigitte Lion,Cécile Michel.2016-09-12 Economic history is well documented in Assyriology, thanks to the preservation of dozens of thousands of clay tablets recording administrative operations, contracts and acts dealing with family law. Despite these voluminous sources, the topic of work and the contribution of women have rarely been addressed. This book examines occupations involving women over the course of three millennia of Near Eastern history. It presents the various aspects of women as economic agents inside and outside of the family structure. Inside the family, women were the main actors in the production of goods necessary for everyday life. In some instances, their activities exceeded the simple needs of the household and were integrated within the production of large organizations or commercial channels. The contributions presented in this volume are representative enough to address issues in various domains: social, economic, religious, etc., from varied points of view: archaeological, historical, sociological, anthropological, and with a gender perspective. This book will be a useful tool for historians, anthropologists, archaeologists and

graduate students interested in the economy of the ancient Near East and in women and gender studies.

The Invention of the Jewish People Shlomo Sand.2020-08-04 A historical tour de force that demolishes the myths and taboos that have surrounded Jewish and Israeli history, *The Invention of the Jewish People* offers a new account of both that demands to be read and reckoned with. Was there really a forced exile in the first century, at the hands of the Romans? Should we regard the Jewish people, throughout two millennia, as both a distinct ethnic group and a putative nation—returned at last to its Biblical homeland? Shlomo Sand argues that most Jews actually descend from converts, whose native lands were scattered far across the Middle East and Eastern Europe. The formation of a Jewish people and then a Jewish nation out of these disparate groups could only take place under the sway of a new historiography, developing in response to the rise of nationalism throughout Europe. Beneath the biblical back fill of the nineteenth-century historians, and the twentieth-century intellectuals who replaced rabbis as the architects of Jewish identity, *The Invention of the Jewish People* uncovers a new narrative of Israel's formation, and proposes a bold analysis of nationalism that accounts for the old myths. After a long stay on Israel's bestseller list, and winning the coveted Aujourd'hui Award in France, *The Invention of the Jewish People* is finally available in English. The central importance of the conflict in the Middle East ensures that Sand's arguments will reverberate well beyond the historians and politicians that he takes to task. Without an adequate understanding of Israel's past, capable of superseding today's opposing views, diplomatic solutions are likely to remain elusive. In this iconoclastic work of history, Shlomo Sand provides the intellectual foundations for a new vision of Israel's future.

The Travelers' World Harry LIEBERSOHN, Harry Liebersohn.2009-06-30 An unforgettable voyage filled with delightful characters, dramatic encounters, and rich cultural details, *The Travelers' World* heralds a moment of intellectual preparation for the modern global era. Harry Liebersohn examines the transformation of global knowledge during the great age of scientific exploration. We now travel effortlessly to distant places, but the questions about perception, truth, and knowledge that these intercontinental mediators faced still resonate.

Tribal Names of the Americas Patricia Roberts Clark.2009-10-21 Scholars have long worked to identify the names of tribes and other groupings in the Americas, a task made difficult by the sheer number of indigenous groups and the many names that have been passed down only through oral tradition. This book is a compendium of tribal names in all their variants--from North, Central and South America--collected from printed sources. Because most of these original sources reproduced words that had been encountered only orally, there is a great deal of variation. Organized alphabetically, this book collates these variations, traces them to the spellings and forms that have become standardized, and supplies see and see also references. Each main entry includes tribal name, the parent group or ancestral tribe, original source for the tribal name, and approximate location of the name in the original source material.

On the Admission of Women to the Rights of Citizenship Marquis de Condorcet.2020-07-31 "On the Admission of Women to the Rights of Citizenship" is a 1789 essay by French philosopher Nicolas de Condorcet. Marie Jean Antoine Nicolas de Caritat, Marquis of Condorcet (1743-1794), more commonly known as Nicolas de Condorcet, was a French mathematician and philosopher who espoused equal rights people of all genders and races, a liberal economy, free public instruction, and the importance of a constitutional government. Said to have been the very embodiment of the ideals of the Age of Enlightenment, Condorcet died in prison as a result of his attempting to escape French Revolutionary authorities. Within this essay, he argues that, according to the Declaration of the Rights of Man and Citizen, rights are universal; and if that is indeed true, then they should apply to all adults—women included. A fascinating example of early feminist literature, "On the Admission of Women to the Rights of Citizenship" will greatly appeal to those with an interest in the history of feminism and its most notable proponents. Read & Co. Great Essays is proudly republishing this classic essay now in a new edition complete with a specially-commissioned new biography of the author.

Arabic Administration in Norman Sicily Jeremy Johns.2002-10-07 In the late eleventh century, Sicily - originally part of the Islamic world - was captured by Norman, French and Italian adventurers, led by Roger de Hauteville. For the next 150 years, Roger and his descendants ruled the island and its predominantly Arabic-speaking Muslim population. Jeremy Johns' 2002 book represents a comprehensive account of the Arabic administration of Norman Sicily. While it has generally been assumed that the Normans simply inherited their Arabic administration from the Muslim governors of the island, the author uses the unique Sicilian Arabic documents to demonstrate that the Norman kings restructured their administration on the model of the contemporary administration of Fatimid Egypt. Controversially, he also suggests that, in doing so, their intention was not administrative efficiency but the projection of their royal image. This is a compelling and accessible account of the Norman rulers and how they related to their counterparts in the Muslim Mediterranean.

Truth, Love & A Little Malice Khushwant Singh.2003-02-10 Born in 1915 in pre-Partition Punjab, Khushwant Singh, perhaps India's most widely read and controversial writer has been witness to most of the major events in modern Indian history from Independence and Partition to the Emergency and Operation Blue Star and has known many of the figures who have shaped it. With clarity and candour, he writes of leaders like Jawaharlal Nehru and Indira Gandhi, the terrorist Jarnail Singh Bhindranwale, the talented and scandalous painter Amrita Shergil, and everyday people who became butchers during Partition. Writing of his own life, too, Khushwant Singh remains unflinchingly forthright. He records his professional triumphs and failures as a lawyer, journalist, writer and Member of Parliament; the comforts and disappointments in his marriage of over sixty years; his first, awkward sexual encounter; his phobia of ghosts and his fascination with death; the friends who betrayed him, and also those whom he failed.
