This title was originally published in 1989.

*Rocking Horse Road* Carl Nixon. 2010-12-01 Much more than a murder mystery, this powerful novel is about coming of age and loss of innocence. The body of a teenage girl is found on the beach in the days leading up to Christmas, 1980. It's an event that makes a huge impact on all those who live along Rocking Horse Road, which runs through the Spit, a long 'finger of bone-dry sand' between the ocean and the estuary. It's an event that for one hot summer brings together a group of fifteen-year-old boys and then keeps them linked for the rest of their lives. Evolving from Nixon's celebrated short story, this compelling novel shows New Zealand turning upon itself during the 1981 Springbok Tour. It examines how early events can influence the rest of our lives, and probes ideas of community, collective memory and story-telling.

**Preoccupations** Seamus Heaney. 2014-01-13 Nobel laureate Seamus Heaney's first collection of prose, *Preoccupations*, begins with a vivid account of his early years on his father's farm in Northern Ireland and his coming of age as a student and teacher in Belfast. Subsequent essays include critical work on Gerard Manley Hopkins, William Wordsworth, John Keats, Robert Lowell, William Butler Yeats, John Montague, Patrick Kavanagh, Ted Hughes, Geoffrey Hill, and Philip Larkin.

American Science in an Age of Anxiety Jessica Wang. 2000-11-09 No professional group in the United States benefited more from World War II than the scientific community. After the atomic bombings of Hiroshima and Nagasaki, scientists enjoyed unprecedented public visibility and political influence as a new elite whose expertise now seemed critical to America's future. But as the United States grew committed to Cold War conflict with the Soviet Union and the ideology of anticommunism came to dominate American politics, scientists faced an increasingly vigorous regimen of security and loyalty clearances as well as the threat of intrusive investigations by the notorious House Committee on Un-American Activities and other government bodies. This book is the first major study of American scientists' encounters with Cold War anticommunism in the decade after World War II. By examining cases of individual scientists subjected to loyalty and security investigations, the organizational response of the scientific community to political attacks, and the relationships between Cold War ideology and postwar science policy, Jessica Wang demonstrates the stifling effects of anticommunist ideology on the politics of science. She exposes the deep divisions over the Cold War within the scientific community and provides a complex story of hard choices, a community in crisis, and roads not taken.

Children of the Sun Hilary Fannin, Maxim Gorky. 2024-05-24 I am attempting to colonise the last frontier. Time, Elena, time. If we could inhabit different iterations of self, we could undo all the mistakes of the past. Don't you see? Hilary Fannin's radical adaptation of Maxim Gorky's classic 1905 dark comedy reworks the original text and draws it into the here and now. *Children of the Sun* is the story of a small family and their quixotic collection of acquaintances, entertaining and enraging each other while, unseen beyond their fragile walls, their world is being reshaped by unstoppable forces. The play asks how we survive without the benefit of hindsight and whether science, art or love are capable of saving us from uncertainty and destruction. Co-produced by Rough Magic and the Abbey Theatre, *Children of the Sun* premiered on the Abbey stage as part of Rough Magic's 40th-anniversary year in April 2024. This edition was published to coincide with that production.

*The Nimble Reader* Roderick McGillis. 1996 Practical criticism of three classic or soon-to-be-classic children's books - Maurice Sendak's *Where the Wild Things Are*, E. B. White's *Charlotte's Web*, and Chris Van Allsburg's *The Mysteries of Harris Burdick* - provides the substance of the *Nimble Reader*. McGillis employs these texts as well as others to explain the basic tenets and processes of criticism and to discuss criticism's usefulness in enhancing our understanding of children's literature. He skillfully balances theoretical discussions of various types of criticism - archetypal, psycho-analytical, political, structuralist, poststructuralist, reader response, and the New Criticism - with practical analysis of his primary texts and other works. With his engaging choice of texts, emphasis on practical criticism, and inclusion of bibliographies of both children's literature and works on literary theory and criticism, McGillis has succeeded in producing a dual-purpose volume: *The Nimble Reader* not only demonstrates a new approach to children's literature as a serious object of study but also represents one of the clearest presentations of literary theory published to date.

*Consumers, Tinkerers, Rebels* Ruth Oldenziel, Mikael Hård. 2013-09-17 Who has decided how Europeans have dressed and dwelled? Traveled and dined? Worked and played? Who, in fact, can be credited with the shaping of Europe? Certainly inventors, engineers, and politicians played their parts. But in the making of Europe, consumers, tinkerers, and rebels were an unrecognized force - until now. In this book, historians Ruth Oldenziel and Mikael Hård spotlight the people who 'made' Europe - by appropriating technology, protesting for and against it. Using examples from Britain and the Continent, the authors illustrate the conflicts that accompanied the modern technologies, from the sewing machine to the bicycle, the Barbie doll to personal computers. What emerges is a fascinating portrait of how Europeans have lived, from the 1850s to the current century.

**Maigret Stonewalled** Georges Simenon. 1974

The Japanese Consumer Penelope Francks. 2009-10-15 By the late twentieth century, Japanese people were renowned as the world's most avid and knowledgeable consumers of fashion, luxury and quality, while the goods that embodied their tastes and lifestyle were becoming a part of global culture. Penelope Francks' book offers an alternative account of Japan's modern economic history from the perspective of the consumer. Tracing Japan's economy from the eighteenth century to the present, she shows how history has conditioned what Japanese people consume and compares their experiences with those of Europe and North America. In so doing the author presents a lucid and informed account of everyday life in Japan, exploring what people eat, how they dress, the household goods they acquire, and their preferred shopping and leisure activities. This beautifully illustrated book succeeds in making economic history palatable and entertaining. It will be a treat for students and all those interested in Japanese society and culture.

**Moral Progress in Dark Times** Markus Gabriel. 2022-11-15 The challenges we face today are unprecedented, from the existential crisis of climate change to the global security threats posed by aggression in Ukraine and elsewhere. Add to this the crisis of liberal democracy and we seem to be swirling in a state of moral disarray, unsure whether there are any principles to which we can appeal today that would be anything other than particularistic. In contrast to this view, Markus Gabriel puts forward the bold argument that there are guiding moral principles for human behaviour. These guiding principles extend across cultures; they are universally valid and form the source of universal values in the twenty-first century. In developing what he calls a 'New Moral Realism', Gabriel breathes fresh life into the idea that humanity's task on our planet is to enable moral progress through cooperation. It is only by achieving moral progress in a way that incorporates universal values - and thus embraces all of humanity - that we can avoid the abyss into which we will otherwise slide. Written with verve, wit and imagination, Gabriel's call for a new enlightenment is a welcome antidote to the value relativism and nihilism of our times, and it lays out a moral framework within which we

can work together – as surely we must – to deal with the great challenges we now face.

**Unruly Eloquence** Bracht Branham.1989-02-05 Branham expounds with sophistication and subtlety the essential ingredients of Lucian's satirical humor. He makes frequent reference to its importance for comic theory and literary history.

**Trafficking Materials and Gendered Experimental Practices** Maria Rentetzi.2008 Maria Rentetzi surveys the experimental practices of radioactivity research in early-twentieth-century Vienna, focusing on radioactive materials, instruments, women's work in physics, and gendered skills. She shows how experimental cultures in radioactivity-scientific practices employed by gendered subjects who shared a certain material and epistemic style of research--were constructed and reshaped by socialist politics in Vienna at that time. She also explores the different ways experimental practices affected men and women in laboratory sciences. Rentetzi expands the notion of material culture to include not only instruments and objects but also materials that operated as both commodities and objects of scientific inquiry. She tells a multifaceted story of how purified radium ended up on laboratory benches and who extracted and isolated it from tons of residues; the individuals who designed experiments and instruments for probing radium's properties; and those who carried radium outside of the physics laboratory and into the clinic and medical amphitheatres. Rentetzi examines how the architecture of the laboratory affected men's and women's scientific work and the way in which its urban setting reflected assumptions about scientific cross-disciplinary collaborations. Following the circulation of radium and the pursuit of power through strategies of partnership and collaboration, Rentetzi redraws paths of scientific exchange and transfers the reader from scientific laboratories to hospitals and from academic to industrial sites.

**Cold War Kitchen** Ruth Oldenziel,Karin Zachmann.2011-01-21 The kitchen as political symbol and material reality in the cold war years. Richard Nixon and Nikita Khrushchev's famous "kitchen debate" in 1958 involved more than the virtues of American appliances. Both Nixon and Khrushchev recognized the political symbolism of the modern kitchen; the kind of technological innovation represented in this everyday context spoke to the political system that produced it. The kitchen connects the "big" politics of politicians and statesmen to the "small" politics of users and interest groups. Cold War Kitchen looks at the kitchen as material object and symbol, considering the politics and the practices of one of the most famous technological icons of the twentieth century. Defining the kitchen as a complex technological artifact as important as computers, cars, and nuclear missiles, the book examines the ways in which a range of social actors in Europe shaped the kitchen as both ideological construct and material practice. These actors—from manufacturers and modernist architects to housing reformers and feminists—constructed and domesticated the technological innovations of the postwar kitchen. The home became a "mediation junction" in which women users and others felt free to advise producers from the consumer's point of view. In essays illustrated by striking period photographs, the contributors to Cold War Kitchen consider such topics as Soviet consumers' ambivalent responses to the American dream kitchen argued over by Nixon and Khrushchev; the Frankfurter Küche, a European modernist kitchen of the interwar period (and its export to Turkey when its designer fled the Nazis); and the British state-subsidized kitchen design so innovative that it was mistaken for a luxury American product. The concluding essays challenge the received wisdom of past interpretations of the kitchen debate.

Franz Kafka, the Eternal Son Peter-André Alt.2018-09-17 Franz Kafka remains one of the most influential writers of the twentieth century. His novels, stories, and letters are still regarded today as the epitome of the dark, fascinating, and uncanny, a model of the modernist aesthetic. Peter-André Alt's landmark biography, Franz Kafka, the Eternal Son, recounts and explores Kafka's life and literary work throughout the cultural and political upheavals of central Europe. Alt's biography explores Franz Kafka's own view of life and writing as a unity that shaped his identity. He locates links and echoes among the author's work, life, and surroundings, situating him within the traditions of Prague's German literature, modernity, psychoanalysis, and philosophy as well as within its Jewish culture, arts, theater, and intellectual tradition. In this biographical tour de force, Kafka emerges as an observant flaneur and wistful loner, an anxious ascetic, an ecstatic and skeptic, a specialist in terror, and a master of irony. Alt masterfully illuminates Kafka's life not as source material but as a mirror of his literary genius. Readers begin to see Kafka's unforgettable novels and stories as shards reflecting the life of their creator.

*Jules Et Jim* Henri Pierre Roché.2011 In free-spirited Paris, Jules and Jim live a carefree, bohemian existence. They write in cafés, travel when the mood takes them, and share the women they love without jealousy. Like Lucie, flawless, an abbess, and Odile, impulsive, mischievous, almost feral. But it is Kate - with a smile the two friends have determined to follow always, but capricious enough to jump in the Seine from spite - who steals their hearts most thoroughly. Henri-Pierre Roché was in his mid-seventies when he wrote this, his autobiographical debut novel. The inspiration for the legendary film, it captures perfectly with excitement and great humour the tenderness of three people in love with each other and with life. With an Afterword by François Truffaut With a new Introduction by Agnes Catherine Poirier 'A perfect hymn to love and perhaps to life.' François Truffaut

**The Hanged Man of Saint-Pholien** Georges Simenon.2014-01-02 The third book in the new Penguin Maigret series: Georges Simenon's haunting tale about the lengths to which people will go to escape from guilt, in a compelling new translation by Linda Coverdale. A first ink drawing showed a hanged man swinging from a gallows on which perched an enormous crow. And there were at least twenty other etchings and pen or pencil sketches that had the same leitmotif of hanging. On the edge of a forest: a man hanging from every branch. A church steeple: beneath the weathercock, a human body dangling from each arm of the cross. . . Below another sketch were written four lines from François Villon's Ballade of the Hanged Men. On a trip to Brussels, Maigret unwittingly causes a man's suicide, but his own remorse is overshadowed by the discovery of the sordid events that drove the desperate man to shoot himself. Penguin is publishing the entire series of Maigret novels in new translations. This novel has been published in previous translations as Maigret and the Hundred Gibbets and The Crime of Inspector Maigret. 'Compelling, remorseless, brilliant' John Gray 'One of the greatest writers of the twentieth century . . . Simenon was unequalled at making us look inside, though the ability was masked by his brilliance at absorbing us obsessively in his stories' Guardian 'A supreme writer . . . unforgettable vividness' Independent

**The Making of Czech Jewry** Hillel J. Kieval.1988 Analyzes national considerations which produced two cultural movements - the Czech-Jewish Movement which promoted assimilation, and Prague Zionism. Ch. 3 (pp. 64-92), Breakdown and Reconstruction: Antisemitism and the Reorientation of Czech Jewry [parts of which appeared in *Living with Antisemitism* (1987)], discusses the hostility towards Jewish participation in both the Czech and German national camps. The Czech-Jewish Movement, which had always aligned itself with the Young Czechs - the most liberal and nationalistic Czech party - faced a dilemma during the 1890s when the party made increasing use of antisemitism to voice Czech grievances against the government in Vienna. Many Czech liberals were ambivalent about antisemitism but found it to be a politically expedient tool. German groups were hostile and propagated racial antisemitism. Describes ritual murder accusations in the 1890s and the influence of Karl Lueger on Czech antisemitism. Contradictory demands of Czech and German nationalists helped produce Jewish nationalism. Also describes Jewish measures against antisemitism.
