The Architecture of the French Enlightenment Allan Braham. 1989-01-01 Allan Braham's comprehensive treatment of this brilliant and complex period introduces the reader to the major buildings, architects, and architectural patrons of the day. At the same time, it explores the broader determinants of architectural production: the rapid economic expansion of Paris and the main provincial centers and the increasing demand for improved public amenities--theaters, schools, markets, and hospitals. This generously illustrated book provides a vivid commentary on society and manners in pre-Revolutionary France.

Crescendo of the Virtuoso Paul Metzner. 2018-09-25 During the Age of Revolution, Paris came alive with wildly popular virtuoso performances. Whether the performers were musicians or chefs,

chess players or detectives, these virtuosos transformed their technical skills into dramatic spectacles, presenting the marvelous and the outré for spellbound audiences. Who these characters were, how they attained their fame, and why Paris became the focal point of their activities is the subject of Paul Metzner's absorbing study. Covering the years 1775 to 1850, Metzner describes the careers of a handful of virtuosos: chess masters who played several games at once; a chef who sculpted hundreds of four-foot-tall architectural fantasies in sugar; the first police detective, whose memoirs inspired the invention of the detective story; a violinist who played whole pieces on a single string. He examines these virtuosos as a group in the context of the society that was then the capital of Western civilization. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1999.

The Futurist Moment Marjorie Perloff. 2003-12-03 This volume examines the flourishing of Futurist aesthetics in the European art and literature of the early twentieth century. Futurism was an artistic and social movement that was largely an Italian phenomenon, though there were parallel movements in Russia, England and elsewhere. The Futurists admired speed, technology, youth and violence, the car, the airplane and the industrial city, all that represented the technological triumph of humanity over nature. This work looks at the prose, visual art, poetry, and the manifestos of Futurists from Russia to Italy. The author reveals the Moment's impulses and operations, tracing its echoes through the years to the work of postmodern figures like Roland Barthes. This updated edition reexamines the Futurist Moment in the light of a new century, in which Futurist aesthetics

seem to have steadily more to say to the present

Edward Hopper .1995

The Chinese Written Character as a Medium for Poetry Ernest Fenollosa,Ezra Pound,Jonathan Stalling,Lucas Klein.2009-08-25 First published in 1919 by Ezra Pound, Ernest Fenollosa's essay on the Chinese written language has become one of the most often quoted statements in the history of American poetics. As edited by Pound, it presents a powerful conception of language that continues to shape our poetic and stylistic preferences: the idea that poems consist primarily of images; the idea that the sentence form with active verb mirrors relations of natural force. But previous editions of the essay represent Pound's understanding—it is fair to say, his appropriation—of the text. Fenollosa's manuscripts, in the Beinecke Library of Yale University, allow us to see this essay in a

different light, as a document of early, sustained cultural interchange between North America and East Asia. Pound's editing of the essay obscured two important features, here restored to view: Fenollosa's encounter with Tendai Buddhism and Buddhist ontology, and his concern with the dimension of sound in Chinese poetry. This book is the definitive critical edition of Fenollosa's important work. After a substantial Introduction, the text as edited by Pound is presented, together with his notes and plates. At the heart of the edition is the first full publication of the essay as Fenollosa wrote it, accompanied by the many diagrams, characters, and notes Fenollosa (and Pound) scrawled on the verso pages. Pound's deletions, insertions, and alterations to Fenollosa's sometimes ornate prose are meticulously captured, enabling readers to follow the quasi-dialogue between Fenollosa and his posthumous editor. Earlier drafts and related talks reveal the development of Fenollosa's ideas about culture, poetry, and translation. Copious multilingual annotation is an important feature of the edition. This masterfully edited book will be an essential resource for scholars and poets and a starting point for a renewed discussion of the multiple sources of American modernist poetry.

Dictionary of Louisiana French Albert Valdman, Kevin James Rottet. 2010 The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie.

Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .

Instigations Ezra Pound, Ernest Fenollosa. 2014-12-04 Ezra Pound (1885 - 1972) was an American poet and harsh critic following World War I. Pound was also a key contributor to the Modernist movement. One of Pound's most famous works is *Instigations* which is a series of essays critiquing a variety of writers and books.

Symbolism, Its Origins and Its Consequences Rosina Neginsky. 2010-08-11 The notion of the symbol is at the root of the Symbolist movement, but this symbol is different from the way it was used and understood in the Middle Ages and Renaissance. In the Symbolist movement, a symbol is not an allegory. The Belgian writer Maurice Maeterlinck defined its essence in an article that appeared on April 24, 1887, in *L'Art moderne*. He wrote that the notion of a symbol in the Symbolist movement is the opposite of the notion of the symbol in classical usage: instead of going from the abstract to the concrete (Venus, incarnated in the statue, represents love), it goes from the concrete to the abstract,

from “what is seen, heard, felt, tasted, and sensed to the evocation of the idea.” This volume attempts to give a glimpse into the power of the Symbolist movement and the nature of its fundamental and interdisciplinary role in the evolution of art and literature of the twentieth century. It records the studies of a group of scholars, who met and discussed these topics together for the first time in 2009. While illuminating the specificity of Symbolism in art, architecture and literature in different European countries, these articles also demonstrate the crucial role of French Symbolism in the development of the international Symbolist movement. The authors hope that an expanding group, a society of Art, Literature and Music in Symbolism and Decadence (ALMSD), born out of the first meeting, will continue to further this discussion at future conferences and in the printed conference proceedings.

Architecture and Modern Literature David Anton Spurr.2017-05-09 Architecture and Modern Literature explores the representation and interpretation of architectural space in modern literature

from the early nineteenth century to the present, with the aim of showing how literary production and architectural construction are related as cultural forms in the historical context of modernity. In addressing this subject, it also examines the larger questions of the relation between literature and architecture and the extent to which these two arts define one another in the social and philosophical contexts of modernity. *Architecture and Modern Literature* will serve as a foundational introduction to the emerging interdisciplinary study of architecture and literature. David Spurr addresses a broad range of material, including literary, critical, and philosophical works in English, French, and German, and proposes a new historical and theoretical overview of this area, in which modern forms of meaning in architecture and literature are related to the discourses of being, dwelling, and homelessness.

Paris Peasant Aragon. 1994 *Paris Peasant* (1926) is one of the central works of Surrealism. Unconventional in form and fiercely modern, Aragon uses the city of Paris as a framework interlacing text with the city's ephemera: cafe menus, maps, monument inscriptions, newspaper cuttings and the lives of its citizens. No one could have been a more astute detector of the unwanted in all its forms; no one else could have been carried away by such intoxicating reveries about a sort of secret life of the city...' Feminizing the Fetish Emily Apter.2018-03-15 Shoes, gloves, umbrellas, cigars that are not just objects—the topic of fetishism seems both bizarre and inevitable. In this venturesome and provocative book, Emily Apter offers a fresh account of the complex relationship between representation and sexual obsession in turn-of-the-century French culture. Analyzing works by authors in the naturalist and realist traditions as well as making use of documents from a contemporary medical archive, she considers fetishism as a cultural artifact and as a subgenre of realist fiction. Apter traces the web of connections among fin-de-siècle representations of perversion, the fiction of pathology, and the literary case history. She explores in particular the theme of female fetishism in the context of the feminine culture of mourning, collecting, and dressing.

The Enemy at the Gate Andrew Wheatcroft.2009-11-10 In 1683, two empires - the Ottoman, based in Constantinople, and the Habsburg dynasty in Vienna - came face to face in the culmination of a 250-year power struggle: the Great Siege of Vienna. Within the city walls the choice of resistance over surrender to the largest army ever assembled by the Turks created an all-or-nothing scenario: every last survivor would be enslaved or ruthlessly slaughtered. The Turks had set their sights on taking Vienna, the city they had long called 'The Golden Apple' since their first siege of the city in 1529. Both sides remained resolute, sustained by hatred of their age-old enemy, certain that their victory would be won by the grace of God. Eastern invaders had always threatened the West: Huns, Mongols, Goths, Visigoths, Vandals and many others. The Western fears of the East were vivid and powerful and, in their new eyes, the Turks always appeared the sole aggressors. Andrew Wheatcroft's extraordinary book shows that this belief is a grievous oversimplification: during the 400 year struggle for domination, the West took the offensive just as often as the East. As modern Turkey seeks to re-orient its relationship with Europe, a new generation of politicians is exploiting the residual fears and tensions between East and West to hamper this change. *The Enemy at the Gate* provides a timely and masterful account of this most complex and epic of conflicts.
