First Communion Mary Loyola, Mother, Brother

Hermenegild.2013-02-23 THIS book of Preparation for First Communion, which it is my privilege to introduce to the reader, was originally undertaken at the suggestion of the late Father John Morris, S.J., who as long as he lived took the warmest interest in its progress. Unhappily only a few chapters had been completed at the time of his lamented death, and in the sense of that great loss the work for a while was laid aside. It would have been a matter for much regret if the author had made this decision a final one. The book now completed has suffered, we cannot doubt, from the lack of Father Morris's always helpful criticisms, but the originality of its conception and the knowledge of child nature displayed in it can hardly fail to justify its publication. In the address To the Children which will be found further on, it is stated that the book is intended to aid the little ones to prepare themselves for First Communion. Perhaps it may be well to add a word of explanation here to anticipate possible misconceptions. It is not in any way the idea of the author that a child should be presented with a copy of this work and then cut adrift without further help, in the expectation that when the proper time comes the needful process of preparation will have worked itself out automatically. None the less, it is believed that many children are quite capable, under the supervision of parents or teachers, of reading for themselves instructions couched in simple child's language such as this book offers them, and furthermore the author has assumed that it may be helpful to some who have to prepare others for First Communion, and who, while conscious of the importance, are not a little embarrassed by the difficulty of their task. To cram children's minds with certain facts of dogmatic knowledge about the Blessed Eucharist is comparatively easy, to prepare their hearts so that they may approach this Divine Mystery full not only of faith, but of love, this is a duty sometimes relegated by teachers to a secondary

place simply from a sense of helplessness and ignorance of how to set about it. While the method developed in this volume does not pretend to be better than many others which might be devised, it will be found, I believe, to possess many advantages of its own. And here I cannot do better than quote a few sentences from a Prospectus previously issued, in which the idea of the book is described in the author's own words: To make the Life of our Blessed Saviour enter largely into preparation for First Communion seems the most natural way of drawing the hearts of the young to Him. It would be sad to think of children coming to the altar-rails knowing little or nothing of His Life beyond such facts as the doctrine of the Holy Eucharist supposes. Yet there is danger of this. There is so much to be done in the simple teaching of the Christian doctrine during a child's school life, that the time devoted to it barely suffices. But in the preparation for First Communion time might surely be found, and ought to be found. Their hearts are fresh and tender, and full of an eager longing, that will never again in their lives be quite the same. If we could tell them a little more about Him then, His character, His ways of dealing with us, and so bring them to the altar able to say, in their own fashion and degree: 'I know Whom I have believed, ' would there not be solid work for the future done in their souls? Knowing Him better, they would come to love Him more. Faith, Hope, and Charity would have a firmer foundation; they would make the acts more easily and more fervently, for there would be a living picture of Him in their hearts.

First Holy Communion Mark Allen.2010-07-15 Mark Allen found

no suitable published book to prepare his son for First Holy Communion. First Holy Communion in the Roman Catholic Church is something of the greatest significance equivalent to confirmation in the Church of England or Bar Mitzvah for Jewish children. A lot of the material published is trite and worst of all tends to patronise the children for whom it is intended. To help parents and teachers answer questions about the ceremony Mark Allen offers readings and background from scripture and catechism. Children can be hard-headed tend to like stories and facts. The narrative of the Bible provides facts, events which happened, and along with them the objective truths of revelation. The Mass is our sacramental encounter with the person of Jesus. Preparation therefore should be based on him and on the Gospel story of His life. The preparation should reflect the unity of the mass, its liturgy of the Word and the Eucharistic Rite, the mystery of Christ in our community as Church. Routine is the key aid to progress. The course provided in this book is based on a series of half hour sessions for parent and teacher with the child. It is thus both practical and down to earth.

First Communion Peter McGrail.2016-04-15 One of the most carefully prepared liturgies of any Roman Catholic parish's year is the celebration of 'First Communion'. This is the ritual by which seven- or eight -year-old children are admitted to the Eucharist for the first time. It attracts the largest congregations of any parish liturgy, and yet is frequently marked by tension and dissent within the parish community. The same ritual holds very different meanings for the various parties involved - clergy, parish schools, regularly communicating parishioners, and the first communicants and their families. The tensions arise from dissonance between the parties on such key issues as expected patterns of Church attendance, Catholic identity, dress and expenditure, and family formation. The relationships and discontinuities between popular and 'official' religion is at the

heart of these tensions. They touch upon deep-seated anxieties concerning the future viability of the very structures and patterns of parish life during the current period of falling Church attendance and parish closures. For those within the Church who are concerned to understand and address the issues in its structural decline, this book will make sometimes uncomfortable but always stimulating reading. Peter McGrail examines the relationship between Church structures and popular religious identity, viewed through the lens of the first communion event. Drawing out hitherto unrecognised connections and significances for the future of the Catholic Church at local level, the insights into the decline of the parish as an institution present challenges to all with an interest in and concern for the future of the Church in the English-speaking world. Bringing to the fore the relationship and tensions between liturgy and Church structures, both historically and at the present time, this book offers academics and students alike extensive material for reflection and future development..
