**What the Koran Really Says** Ibn Warraq.2010-10-29 This excellent collection of critical commentaries on the Koran brings together outstanding articles by noted scholars from the beginning of the 20th century to recent times. These important studies, as well as the editor's own lengthy introduction, show that little about the text of the Koran can be taken at face value. Among the fascinating topics discussed is evidence that early Muslims did not understand Muhammad's original revelation, that the ninth-century explosion of literary activity was designed to organize and make sense of an often incoherent text, and that much of the traditions surrounding Muhammad's life were fabricated long after his death in an attempt to give meaning to the Koran. Also of interest are suggestions that Coptic and other Christian sources heavily influenced much of the text and that some passages reflect an essential background reaching back to the community of the Dead Sea Scrolls. This valuable compilation will be a welcome resource to interested lay readers and scholars alike.

*Music and the Language of Love* Catherine Gordon-Seifert.2011-04-07 Simple songs or airs, in which a male poetic voice either seduces or excoriates a female object, were an influential vocal genre of the French Baroque era. In this comprehensive and interdisciplinary study, Catherine Gordon-Seifert analyzes the style of airs, which was based on rhetorical devices of lyric poetry, and explores the function and meaning of airs in French society, particularly the salons. She shows how airs deployed in both text and music an encoded language that was in sensuous contrast to polite society's cultivation of chaste love, strict gender roles, and restrained discourse.

*Mighty Stories, Dangerous Rituals* Herbert Anderson,Edward Foley.2019-02-01 Shaping our journey into the Divine This moving and enlightening book presents us with a compelling vision of what can happen when we take the opportunity to connect stories and rituals--a vision of individuals and communities transformed through a deeper sense of connection to our loved ones, our communities, and God. Herbert Anderson and Edward Foley reveal how when stories and rituals work together, they have the potential to be both mighty and dangerous--mighty in their ability to lift us up and help us make these connections beyond ourselves and dangerous in challenging us to learn to live with complexity and contradiction. They show how much more meaningful a baptism, wedding, or funeral can be when liturgy is made to include and recognize the personal stories of those involved. Suddenly, these familiar life-cycle rituals are infused with new life as participants become connected in a narrative web linking past and present, human and divine. Newly created rituals can also help us connect our stories to the divine story, giving meaning to what we experience and bringing us closer to God. Ministers, worship leaders, and pastoral caregivers can use this approach to storytelling and ritual to find ways to bring together worship and pastoral care.

**Reading the French Enlightenment** Julie Candler Hayes.1999-07-15 In this 1999 book, Julie Candler Hayes offers an ambitious reinterpretation of a crucial aspect of Enlightenment thought, the rationalizing and classifying impulse. Taking issue both with traditional liberal and contemporary critical accounts of the Enlightenment, she analyses the writings of Denis Diderot, Emilie Du Châtelet, the Abbé de Condillac, Buffon, d'Alembert and numerous others, to argue for a new understanding of 'systematic reason' as complex, paradoxical and ultimately liberating. Hayes examines the tensions between freedom and constraint, abstraction and materialism, linear and synoptic order, that pervade not only philosophic and scientific discourse, but also epistolary writing, fiction and criticism. Drawing on the insights of a wide range of theorists from Adorno, Habermas and Foucault to Deleuze and Derrida, she offers a dialogue between the eighteenth century and our own, an ongoing exploration of the question, 'what is Enlightenment?'

**Philosophie de L'action** Guttorm Fløistad.1986 This publication is a continuation of two earlier series of chronicles, Philosophy in the Mid-Century (Firenze 1958/59) and Contemporary Philosophy (Firenze 1968), edited by Raymond Klibansky. Like the other series, these chronicles provide a survey of important trends in contemporary philosophical discussion from 1966 to 1978. The need for such surveys has, I believe, increased rather than decreased over the last years. The philosophical scene appears, for various reasons, more complex than ever before. The continuing process of specialization in most branches, the emergence of new schools of thought, particularly in philosophical logic and the philosophy of language, the convergence of interest (though not necessarily of opinion) of different traditions upon certain problems, and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributory factors. Surveys of the present kind are a valuable source of knowledge of this complexity and may as such be an assistance in renewing the understanding of one's own philosophical problems. The surveys, it is to be hoped, may also help to strengthen the Socratic element of modern philosophy, the dialogue or Kommunikationsgemeinschaft. So far, four volumes have been prepared for the new series. The present chronicles in Philosophy of Action (Vol. 3) follow upon chronicles in the Philosophy of Language and Philosophical Logic (Vol. 1) and chronicles in the Philosophy of Science (Vol.

But this is Kenya and times are against them. In the forests, the Mau Mau are waging war against the white government, and two brothers, Njoroge and Kamau, and the rest of their family, need to decide where their loyalties lie. For the practical man, the choice is simple, but for Njoroge, the scholar, the dream of progress through learning is a hard one to give up--P. [4] of cover.

**Montesquieu's Idea of Justice** Sheila Mary Mason.2012-12-06 Part One of Montesquieu's Idea of Justice comprises a survey of the currency in philosophical, ethical and aesthetic debate during the second half of the 17th century of the terms rapport and convenance, which are central to the enigmatic definition given to justice by Montesquieu in Lettres Persanes LXXXIII. In this survey, attention is concentrated on the way in which the connotations of these terms fluctuate with the divergent development of the methodological and speculative outgrowths of Cartesianism into two

schools of thought, materialist and idealist, often widely at variance in their views of the nature and organization of the universe. In Part Two, Montesquieu's definition of justice is set against this background, whose doctrinal conflicts, because of the characteristic associations of its key terms, it may be taken to reflect, just as it may be held to epitomize, by virtue of its elaboration in the opening chapter of *De l' Esprit des Lois* and its close terminological affinities with the definition of law there given, an undoubtedly related conflict between the implications of causal determinism and the aspirations of idealist metaphysics surviving at the heart of Montesquieu's outlook, and, remaining unresolved, often said to impair the coherence if not the validity of his theory of society.

**Existential Monday** Benjamin Fondane.2016-05-17 Benjamin Fondane—who was born and educated in Romania, moved as an adult to Paris, lived for a time in Buenos Aires, where he was close to Victoria Ocampo, Jorge Luis Borges's friend and publisher, and died in Auschwitz—was an artist and thinker who found in every limit, in every border, “a torture and a spur.” Poet, critic, man of the theater, movie director, Fondane was the most daring of the existentialists, a metaphysical anarchist, affirming individual against those great abstractions that limit human freedom—the State, History, the Law, the Idea. *Existential Monday*, the first selection of his philosophical work to appear in English, includes four of Fondane's most thought-provoking and important texts, *Existential Monday* and *the Sunday of History*, *Preface for the Present Moment*, *Man Before History* (co-translated by Andrew Rubens), and *Boredom*. Here Fondane, until now little-known except to specialists, emerges as one of the enduring French philosophers of the twentieth century.

**Historia** Gianna Pomata,Nancy G. Siraisi.2005 Essays examine how the genre of historia reflects connections between the study of nature and the study of culture in early modern scholarly pursuits. The early modern genre of historia connected the study of nature and the study of culture from the early Renaissance to the eighteenth century. The ubiquity of historia as a descriptive method across a variety of disciplines—including natural history, medicine, antiquarianism, and philology—indicates how closely intertwined these scholarly pursuits were in the early modern period. The essays collected in this volume demonstrate that historia can be considered a key epistemic tool of early modern intellectual practices. Focusing on the actual use of historia across disciplines, the essays highlight a distinctive feature of early modern descriptive sciences: the coupling of

observational skills with philological learning, empiricism with erudition. Thus the essays bring to light previously unexamined links between the culture of humanism and the scientific revolution. The contributors, from a range of disciplines that echoes the broad scope of early modern historia, examine such topics as the development of a new interest in historical method from the Renaissance *artes historicae* to the eighteenth-century tension between history and system; shifts in Aristotelian thought paving the way for reevaluation of historia as descriptive knowledge; the rise of the new discipline of natural history; the uses of historia in anatomical and medical investigation and the writing of history by physicians; parallels between the practices of collecting and presenting information in both natural history and antiquarianism; and significant examples of the ease with which early seventeenth-century antiquarian scholars moved from studies of nature to studies of culture.

Add to the mix a cute swim star named Liam, and Ciel's life is becoming more complicated by the minute!

*Cinepoems and Others* Benjamin Fondane.2016-05-17 Benjamin Fondane was that rarest of poets: an experimental formalist with a powerful lyric poetic voice; a renegade surrealist who was also a highly original existential philosopher; a self-consciously Jewish poet of diaspora and loss, whose last manuscripts made it out of Drancy in 1944 just before his deportation to Auschwitz-Birkenau, where he was murdered, yet whose poetry speaks of an overflowing plenitude. This bilingual selection is the first volume of Fondane's poetry to appear in English, and it includes a broad sample of his work, from the coruscating and comic cinepoems of his surrealist years, to philosophical meditations, to poems that in their secular and mystical Judaism confront the historical calamity—and imaginative triumph—of European Jewry.

**The Man Who Laughs** Victor Hugo.2022-01-11 *The Man Who Laughs* (1869) is a novel by Victor Hugo. Written while Hugo was living in exile on the island of Guernsey, *The Man Who Laughs* is set between the 17th and 18th centuries in England, a time of political unrest and class conflict in which he identified parallels to France of the 19th century. Although the novel was largely panned at the time, it has since been recognized as one of Hugo's greatest works. *The Man Who Laughs* has inspired over a dozen adaptations in film, theater, and comics, including a 1928 American silent film that served as source material for the Joker in the original 1940 issue of *Batman*. "Again the child set himself to sweep away the snow. The neck of the dead woman appeared; then her shoulders, clothed in rags. Suddenly he felt something move feebly under his touch. It was something small that was buried, and which stirred. The child swiftly cleared away the snow, discovering a wretched little body—thin, wan with cold, still alive, lying naked on the dead woman's naked breast." Abandoned by a group of Comprachicos, criminals who buy and capture children for the purpose of mutilating them and forcing them to work as beggars or performers, the young Gwynplaine wanders the English coast alone. During a storm, he discovers an infant girl and her dead mother lying in the snow, and endeavors to save the child. Left with no choice but to rely on strangers, Gwynplaine joins a carnival run by the merciful Ursus, a man with a pet wolf. Horrified at first by the boy's disfigurement, which has left a perpetual smile on his face, Ursus agrees to care for the children and soon finds that Gwynplaine is a versatile and lucrative attraction at his shows. When the Duchess Josiana attends the carnival to see Gwynplaine, now a young man, she finds herself strangely attracted to him. With a beautifully designed cover and professionally typeset manuscript, this edition of Victor Hugo's *The Man Who Laughs* is a classic work of French literature reimagined for modern readers.

*Judaeo-Christian Intellectual Culture in the Seventeenth Century* A.P. Coudert, S. Hutton, R.H. Popkin, G.M. Weiner. 1999-06-30 MURIEL MCCARTHY  
This volume originated from a seminar organised by Richard H. Popkin in Marsh's Library on July 7-8, 1994. It was one of the most stimulating events held in the Library in recent years. Although we have hosted many special seminars on such subjects as rare books, the Huguenots, and Irish church history, this was the first time that a seminar was held which was specifically related to the books in our own collection. It seems surprising that this type of seminar has never been held before although the reason is obvious. Since there is no printed catalogue of the Library scholars are not aware of its contents. In fact the collection of books by late seventeenth and early eighteenth century European authors on, for example, such subjects as biblical criticism, political and religious controversy, is one of the richest parts of the Library's collections. Some years ago we were informed that of the 25,000 books in Marsh's at least 5,000 English books or books printed in England were printed between 1640 and 1700.

**The Enlightenment in Practice** Jeremy L. Caradonna. 2012-03-15 Public academic prize contests—the concours académique—played a significant role in the intellectual life of Enlightenment France, with aspirants formulating positions on such matters as slavery, poverty, the education of women, tax reform, and urban renewal and submitting the resulting essays for scrutiny by panels of judges. In *The Enlightenment in Practice*, Jeremy L. Caradonna draws on archives both in Paris and the provinces to show that thousands of individuals—ranging from elite men and women of letters artisans, and peasants—participated in these intellectual competitions, a far broader range of people than has been previously assumed. Caradonna contends that the Enlightenment in France can no longer be seen as a cultural movement restricted to a small coterie of philosophers or a limited number of printed texts. Moreover, Caradonna demonstrates that the French monarchy took academic competitions quite seriously, sponsoring numerous contests on such practical matters as deforestation, the quality of drinking water, and the nighttime illumination of cities. In some cases, the contests served as an early mechanism for technology transfer: the state used submissions to identify technical experts to whom it could turn for advice. Finally, the author shows how this unique intellectual exercise declined during the upheavals of the French Revolution, when voicing moderate public criticism became a rather dangerous act.

**The Newton Wars and the Beginning of the French Enlightenment** J.B. Shank.2008-09-15 Nothing is considered more natural than the connection between Isaac Newton's science and the modernity that came into being during the eighteenth-century Enlightenment. Terms like "Newtonianism" are routinely taken as synonyms for "Enlightenment" and "modern" thought, yet the particular conjunction of these terms has a history full of accidents and contingencies. Modern physics, for example, was not the determined result of the rational unfolding of Newton's scientific work in the eighteenth century, nor was the Enlightenment the natural and inevitable consequence of Newton's eighteenth-century reception. Each of these outcomes, in fact, was a contingent event produced by the particular historical developments of the early eighteenth century. A comprehensive study of public culture, *The Newton Wars and the Beginning of the French Enlightenment* digs below the surface of the commonplace narratives that link Newton with Enlightenment thought to examine the actual historical changes that brought them together in eighteenth-century time and space. Drawing on the full range of early modern scientific sources, from studied scientific treatises and academic papers to book reviews, commentaries, and private correspondence, J. B. Shank challenges the widely accepted claim that Isaac Newton's solitary genius is the reason for his iconic status as the father of modern physics and the philosophemovement.

Things take a turn, however, when the troop gets mixed up in the terrifying events of the FLQ crisis. *Paul Joins the Scouts* is a coming of age story which takes an historical approach to both the Baden Powell scouting movement and the October Crisis, but humanizes these incidents for both a YA and adult audience. It is original, sincere, captivating, and a little bit retro.
