Breaking Down the Wall Margarita Espino Calderon, Maria G. Dove, Diane Staehr Fenner, Margo Gottlieb, Andrea Honigsfeld, Tonya Ward Singer, Shawn Slakk, Ivannia Soto, Debbie Zacarian. 2019-09-11 It was a dark and stormy night in Santa Barbara. January 19, 2017. The next day's inauguration drumroll played on the evening news. Huddled around a table were nine Corwin authors and their publisher, who together have devoted their careers to equity in education. They couldn't change the weather, they couldn't heal a fractured country, but they did have the power to put their collective wisdom about EL education upon the page to ensure our multilingual learners reach their highest potential. Proudly, we introduce you now to the fruit of that effort: *Breaking Down the Wall: Essential Shifts for English Learners' Success*. In this first-of-a-kind collaboration, teachers and leaders, whether in small towns or large urban centers, finally have both the research and the practical strategies to take those first steps toward excellence in educating our culturally and linguistically diverse children. It's a book to be celebrated because it means we can throw away

the dark glasses of deficit-based approaches and see children who come to school speaking a different home language for what they really are: learners with tremendous assets. The authors' contributions are arranged in nine chapters that become nine tenets for teachers and administrators to use as calls to actions in their own efforts to realize our English learners' potential: 1. From Deficit-Based to Asset-Based 2. From Compliance to Excellence 3. From Watering Down to Challenging 4. From Isolation to Collaboration 5. From Silence to Conversation 6. From Language to Language, Literacy, and Content 7. From Assessment of Learning to Assessment for and as Learning 8. From Monolingualism to Multilingualism 9. From Nobody Cares to Everyone/Every Community Cares Read this book; the chapters speak to one another, a melodic echo of expertise, classroom vignettes, and steps to take. To shift the status quo is neither fast nor easy, but there is a clear process, and it's laid out here in *Breaking Down the Wall*. To distill it into a single line would go something like this: if we can assume mutual ownership, if we can connect instruction to all children's personal, social, cultural, and linguistic identities, then all students will achieve.

comprehension, such as thinking aloud, using question-answer relationships, and teaching with word walls. The routines are: Selected to ensure that all students engage in reading, writing, speaking, listening, and viewing as part of the literacy process. British Humour and the Second World War Juliette Pattinson, Linsey Robb. 2023-06-01 This book

skilfully combines cutting-edge historical research by leading and emerging researchers in the field to investigate the utilization of British humour during the Second World War as well as its legacy in British popular culture. Juliette Pattinson and Linsey Robb bring together case studies that address a variety of situations in which humour was generated, including wartime jokes, films, radio, cartoons and private drawings, as well as post-war recollections, museum exhibitions and television comedy. By adopting an original interpretative framework of various wartime and post-war sites, this books opens up the possibility for a more variegated, richer analysis of Britain's wartime experience and its place thereafter in the cultural imagination. Through the lens of humour, this book promises to add critical nuance to our understanding of the functioning of British wartime society. Covering sources such as The British Cartoon Archive, BBC World War II People's War Archive and The Ministry of Information, and including analysis of the lasting role of comedy in Britain's memories and depictions of the war, the result is a rich addition to existing literature of use to students and scholars studying the cultural history of war.

Talk to the Elephant Julie Dirksen.2023-08-18 What do you do when your learners know what to do but still aren't doing it? Training is created with the goal of changing learners' behaviors, but anyone who has created learning experiences knows that there's a big gap between knowing and doing. You can create an engaging learning experience that informs and helps people remember, but often those people go back to their regular world and continue to do things the same way they always have. In the last few decades, the fields of psychology, behavioral economics, and other behavioral sciences have brought an enormous amount of scientific research into helping people with behavior change. Only a fraction of that research has made its way back into learning design. Talk to the Elephant: Design Learning for Behavior Change shows you how to add critical tools to your learning

design toolbox to affect behavior change. You'll find out how to use frameworks and strategies from behavioral science to help you research and analyze challenges, feel more confident that you're solving the right problem, and design and test solutions that can help people with difficult behavior changes. By the end of this book, you'll be able to Map the change journey of your learners and identify their path Assess and clearly communicate the value of the change Use motivation models to better understand what learners really care about Utilize evidence-based models like the COM-B Model to analyze behavior-change challenges Use a diagnostic checklist to determine whether you actually have a training problem Identify behavior-change techniques to address your specific challenges

Each of these waves is accompanied with a discussion of the aspirational reader that sets the stage for contemplating these shifts and their significance. The discussions trace the research and theoretical developments in a fashion that exemplifies the origins of the shifts and their influences--

Conversation and Gender Susan A. Speer, Elizabeth Stokoe. 2011-01-06 Conversation analysts have

begun to challenge long-cherished assumptions about the relationship between gender and language, asking new questions about the interactional study of gender and providing fresh insights into the ways it may be studied empirically. Drawing on a lively set of audio- and video-recorded materials of real-life interactions, including domestic telephone calls, children's play, mediation sessions, police-suspect interviews, psychiatric assessments and calls to telephone helplines, this volume is the first to showcase the latest thinking and cutting-edge research of an international group of scholars working on topics at the intersection of gender and conversation analysis. Theoretically, it pushes forward the boundaries of our understanding of the relationship between conversation and gender, charting new and exciting territory. Methodologically, it offers readers a clear, practical understanding of how to analyse gender using conversation analysis, by presenting detailed demonstrations of this method in use.

Teaching Literacy in First Grade Diane Lapp.2005-05-05 First grade is a year of important new experiences for students and teachers alike. Some students will arrive knowing how to read, others will know a few letters of the alphabet, and most will be somewhere in between. Including dozens of reproducibles, this book guides first-grade teachers in the many decisions they face about how to orchestrate effective, appropriate, and engaging instruction. A special strength of the book is the authors' deep understanding of the oral language base of literacy learning - both reading and writing - and their expertise in differentiating instruction for English language learners.
