Soviet Naval Forces And Nuclear Warfare James J Tritten.2019-06-26 Based on formal content analysis of the writings of Admiral Sergei G. Gorshkov and past Soviet ministers of defense and heads of the Politburo, James J. Tritten interprets what the Soviets say they will do in the event of nuclear war. He then constructs a hardware and exercise analysis of the strategic employment of the Soviet Navy in a nuclear war, offering three possible cases—the a bolt from the blue, with existing forces on patrol; full mobilization; and a plausible case of partial mobilization. In addition, Dr. Tritten examines, from a Soviet perspective, concepts of deterrence, the strategic goals and missions of the fleet, nuclear targeting policy, the Sea Lines of Communication (SLOC) disruption mission, and the potential for tactical nuclear warfare limited to the sea. The author concludes by assessing the implications of Soviet politico-military planning for Western defense strategy and arms control.

**Anti-Christian Violence in India** Chad M. Bauman.2020-09-15 Does religion cause violent conflict, asks Chad M. Bauman, and if so, does it cause conflict more than other social identities? Through an extended history of Christian-Hindu relations, with particular attention to the 2007–2008 riots in Kandhamal, Odisha, *Anti-Christian Violence in India* examines religious violence and how it pertains to broader aspects of humanity. Is religious conflict sui generis, or is it merely one species of intergroup conflict? Why and how might violence become an attractive option for religious actors? What explains the increase in religious violence over the last twenty to thirty years? Integrating theories of anti-Christian violence focused on politics, economics, and proselytization, *Anti-Christian Violence in India* additionally weaves in recent theory about globalization and, in particular, the forms of resistance against Western secular modernity that globalization periodically helps to provoke. With such theories in mind, Bauman explores the nature of anti-Christian violence in India, contending that resistance to secular modernities is, in fact, an important but often overlooked reason behind Hindu attacks on Christians. Intensifying the widespread Hindu tendency to think of religion in ethnic rather than universal terms, the ideology of Hindutva, or Hinduness, explicitly rejects both the secular privatization of religion and the separability of religions from the communities that incubate them. And so, with provocative and original analysis, Bauman questions whether anti-Christian violence in contemporary India is really about religion, in the narrowest sense, or rather a manifestation of broader concerns among some Hindus about the Western sociopolitical order with which they associate global Christianity.

Law's Documents Katherine Biber,Trish Luker,Priya Devii Vaughan.2021-12-29 Illuminating their breadth and diversity, this book presents a comprehensive and multidisciplinary view of legal documents and their manifold forms, uses, materialities and meanings. In 1951, Suzanne Briet, a librarian at the Bibliotheque Nationale in Paris, famously said that an antelope in a zoo could be a document, thereby radically changing the way documents were analysed and understood. In the fifty years since this pronouncement, the digital age has introduced a potentially limitless range of digital and technological forms for the capture and storage of information. In their multiplicity and their ubiquity, documents pervade our everyday life. However, the material, intellectual, aesthetic and political dimensions and effects of documents remain difficult to pin down. Taking a multidisciplinary and international approach, this collection tackles the question, what is a legal document?, in order to explore the material, aesthetic and intellectual attributes of legal documentation; the political and colonial orders reflected and embedded in documents; and the legal, archival and social systems which order and utilise information. As well as scholars in law, documentary theory, history, Indigenous studies, art history and design theory and practice, this book will also appeal to those working in libraries, archives, galleries and museums, for whom the ongoing challenges of documentation in the digital age are urgent and timely questions.

The Pastor in a Changing Society Zawadi Job Kinyamagoha.2014-10-07 This book examines how social change affects the role of the pastor in an African context. Through field study in African churches, author Zawadi Job Kinyamagoha explores how pastors work amid the tensions of rapid social change and suggests how pastors can constructively respond to social change by using it as an opportunity in their pastoral ministry. Contemporary society is characterized by three cultural spheres: the economic sphere, the public sphere, and the democratic or self-governance rule, the realities of which many pastors seem to overlook. Church authorities seem to adhere rigidly to strict principles and rules without accommodating the realities of society. Conversely, a changing society demands that pastors work with the reality at hand, leaving pastors caught between two conflicting tensions: the pressure from church authorities and from a changing social reality. The Pastor in a Changing Society seeks to help Tanzanian and African pastors rethink existing doctrines and practices in order to better respond to the reality of a changing society.
