Good Practice In Science Teaching: What Research Has To Say Osborne, Jonathan,Dillon, Justin.2010-05-01 This volume provides a summary of the findings that educational research has to offer on good practice in school science teaching. It offers an overview of scholarship and research in the field, and introduces the ideas and evidence that guide it.

Second Language Learning and Language Teaching Vivian Cook.2016-05-05 Second Language Learning and Language Teaching provides an introduction to the application of second language acquisition research to language teaching. Assuming no previous background in second language acquisition or language teaching methods, this text starts by introducing readers to the basic issues of second language acquisition research. It then examines how people learn particular aspects of the second language, such as grammar, vocabulary, pronunciation and the writing system, and at the strategies they adopt in their learning and the differences between individuals. Final chapters look at second language learning in a broader context - the goals of language teaching and how teaching methods relate to SLA research. This newly updated fifth edition builds on the comprehensive scope of earlier editions while also addressing more recent developments in the field, particularly multilingual approaches to language teaching.

A Concise Course in Advanced Level Statistics Janet Crawshaw,Joan Chambers.2001 New in this edition is a 20 page section on the use of ICT resources in teaching and learning about statistics. The book also includes over 300 worked examples and advice on how to break down calculations into easy stages.

Preparing to Teach in Secondary Schools Val Brooks,Ian Abbott,Liz Bills.2007-12 Review of the first edition: An excellent introduction to all of the core professional issues that trainee teachers need to address during their training... a first port of call for all student teachers keen to understand the challenges involved in becoming a professional teacher in today's schools. Professor John Furlong, Director, Department of Educational Studies, Oxford University, UK. The new edition of this bestseller is the definitive guide for all trainee secondary school and newly qualified teachers. Using practical examples, it covers the range of core professional skills and concepts that all student teachers need to acquire, irrespective of their subject specialism or training route. Updated and revised throughout to take into account recent developments in teaching, the second edition covers topics such as Every Child Matters, Special Educational Needs, and ICT in the classroom, making it suitable for use by newly qualified teachers to support their early professional development. Informative, accessible and engaging, the book offers students: Use of examples and illustrations to make abstract or unfamiliar ideas concrete and meaningful An interactive approach whereby readers are invited to engage with the text and respond to it through a set of objectives, to be achieved by the end of the chapter Thought-provoking research to alert readers to fresh thinking and initiatives, which are at the cutting-edge of developments in the field Self-contained tasks to enable readers to complete them there and then

An Introduction to the Study of Education David Matheson. 2014-09-15 This fully updated, fourth edition of An Introduction to the Study of Education provides a comprehensive and reflective introduction to the study of education, inviting students to question what education is, who it is for and what purpose it serves. Taking the reader from the early years through to lifelong learning, it examines all forms of education and learning. This new edition includes ten completely new chapters and a step-by-step guide to essay writing. There is also a companion website to accompany the book, featuring additional chapters which can be visited at www.routledge.com/cw/matheson. This fully updated, fourth edition provides: a full exploration of the historical, sociological, philosophical and psychological roots of education; a clear focus on the individual levels of education - preschool, compulsory, post-compulsory and lifelong learning; the latest debates within special educational needs; an in-depth examination of learning styles; insights into the historical development of education and the role of, and background to, research in education; a focus on current educational practice and diversity across the United Kingdom and Ireland. Written in a clear and accessible style, this is the essential core text for all beginning students on undergraduate and postgraduate courses in Education Studies and all those interested in education today, where it came from and where it is going.
