The Crossroads of Justice Esther Cohen.1992-10-01 The book is an analysis of the cultural and social functions of law, legal processes and legal rituals in late medieval Northern France. It is centered around a time and a place in which European law underwent some major transformations, from a plethora of local oral customs to a fairly coherent system of national, written customary law. In this process, law and legal procedures came to reflect a great variety of cultural traditions, ranging from popular perceptions of animals and the human body to learned ideas of Roman jurisprudence. Drawing upon wide-ranging sources: judicial, legal, literary and historical, Cohen analyzes the various influences upon the shaping of law as a cultural manifestation and its application as an actual system of justice.

Second Language Learning Data Analysis Susan Gass. 2013-05-13 The purpose of this workbook is to provide students with practice in analyzing second language data. For the student of second language learning, hands-on experience with actual data is essential in understanding the processes involved in learning a second language. Working through exemplars of the kinds of interlanguages that learners do and do not create brings about a clearer understanding of the principles underlying these interlanguages, as well as the universal principles of language learning (those that are independent of particular languages and interlanguages). The goal in this workbook is to present data organized in such a way that by working through pedagogically presented data-sets, students are led to a discovery and understanding of theoretical and/or methodological issues. In addition, they acquire the ability to interpret data and to begin to draw conclusions from them. The authors intend that students should go from the data to a conclusion that includes a 3-part statement: *what else you should want to know about these data; *why this, specifically, and not something else; and *how one can empirically research what you want to find out. This sequence of questions forces students to constantly keep in mind the important question of falsification: What kind of data would it take to falsify the particular conclusions the students come to? As with the earlier edition of this workbook (Sorace, Gass, & Selinker), two audiocassettes provide language samples for use in the exercises. These cassettes and the teacher's manual are offered free of charge on adoption of the workbook for classroom use; a three-part set (workbook/manual/tapes) is also available.

Archives and Human Rights Jens Boel,Perrine Canavaggio,Antonio González Quintana.2021-02-09

Why and how can records serve as evidence of human rights violations, in particular crimes against humanity, and help the fight against impunity? Archives and Human Rights shows the close relationship between archives and human rights and discusses the emergence, at the international level, of the principles of the right to truth, justice and reparation. Through a historical overview and topical case studies from different regions of the world the book discusses how records can concretely support these principles. The current examples also demonstrate how the perception of the role of the archivist has undergone a metamorphosis in recent decades, towards the idea that archivists can and must play an active role in defending basic human rights, first and foremost by enabling access to documentation on human rights violations. Confronting painful memories of the past is a way to make the ghosts disappear and begin building a brighter, more serene future. The establishment of international justice mechanisms and the creation of truth commissions are important elements of this process. The healing begins with the acknowledgment that painful chapters are essential parts of history; archives then play a crucial role by providing evidence. This book is both a tool and an inspiration to use archives in defence of human rights. Nobility Lost Christian Ayne Crouch.2014-03-04 Nobility Lost is a cultural history of the Seven Years' War in French-claimed North America, focused on the meanings of wartime violence and the profound impact of the encounter between Canadian, Indian, and French cultures of war and

diplomacy. This narrative highlights the relationship between events in France and events in America and frames them dialogically, as the actors themselves experienced them at the time. Christian Ayne Crouch examines how codes of martial valor were enacted and challenged by metropolitan and colonial leaders to consider how those acts affected French-Indian relations, the culture of French military elites, ideas of male valor, and the trajectory of French colonial enterprises afterwards, in the second half of the eighteenth century. At Versailles, the conflict pertaining to the means used to prosecute war in New France would result in political and cultural crises over what constituted legitimate violence in defense of the empire. These arguments helped frame the basis for the formal French cession of its North American claims to the British in the Treaty of Paris of 1763. While the French regular army, the troupes de terre (a late-arriving contingent to the conflict), framed warfare within highly ritualized contexts and performances of royal and personal honor that had evolved in Europe, the troupes de la marine (colonial forces with economic stakes in New France) fought to maintain colonial land and trade. A demographic disadvantage forced marines and Canadian colonial officials to accommodate Indian practices of gift giving and feasting in preparation for battle, adopt irregular methods of violence, and often work in cooperation with allied indigenous peoples, such as Abenakis, Hurons, and Nipissings. Drawing on Native and European perspectives, Crouch shows the period of the Seven Years' War to be one of decisive transformation for all American communities. Ultimately the augmented strife between metropolitan and colonial elites over the aims and means of warfare, Crouch argues, raised questions about the meaning and cost of empire not just in North America but in the French Atlantic and, later, resonated in France's approach to empire-building around the globe. The French government examined the cause of the colonial debacle in New France at a corruption trial in Paris

(known as l'affaire du Canada), and assigned blame. Only colonial officers were tried, and even those who were acquitted found themselves shut out of participation in new imperial projects in the Caribbean and in the Pacific. By tracing the subsequent global circumnavigation of Louis Antoine de Bougainville, a decorated veteran of the French regulars, 1766-1769, Crouch shows how the lessons of New France were assimilated and new colonial enterprises were constructed based on a heightened jealousy of French honor and a corresponding fear of its loss in engagement with Native enemies and allies.

Beyond Memory Sarah Gensburger, Sandrine Lefranc. 2020-02-20 This book provides a fresh perspective on the familiar belief that memory policies are successful in building peaceful societies. Whether in a stable democracy or in the wake of a violent political conflict, this book argues that memory policies are unhelpful in preventing hate, genocide, and mass crimes. Since the 1990s, transmitting the memory of violent pasts has been utilised in attempts to foster tolerance and fight racism, hate and antisemitism. However, countries that invested in memory policies have overseen the rise of hate crimes and populisms instead of growing social cohesion. Breaking with the usual moralistic position, this book takes stock of this situation. Where do these memory policies come from? Whom do they serve? Can we make them more effective? In other words, can we really learn from the past? At a time when memory studies is blooming, this book questions the normative belief in the effects of memory.

The Politics of International Law Martti Koskenniemi.2011-06-10 Today international law is everywhere. Wars are fought and opposed in its name. It is invoked to claim rights and to challenge them, to indict or support political leaders, to distribute resources and to expand or limit the powers of domestic and international institutions. International law is part of the way political (and economic) power is used, critiqued, and sometimes limited. Despite its claim for neutrality and impartiality, it is implicit in what is just, as well as what is unjust in the world. To understand its operation requires shedding its ideological spell and examining it with a cold eye. Who are its winners, and who are its losers? How - if at all - can it be used to make a better or a less unjust world? In this collection of essays Professor Martti Koskenniemi, a well-known practitioner and a leading theorist and historian of international law, examines the recent debates on humanitarian

intervention, collective security, protection of human rights and the 'fight against impunity' and reflects on the use of the professional techniques of international law to intervene politically. The essays both illustrate and expand his influential theory of the role of international law in international politics. The book is prefaced with an introduction by Professor Emmanuelle Jouannet (Sorbonne Law School), which locates the texts in the overall thought and work of Martti Koskenniemi.

Holinshed's Nation Igor Djordjevic. 2016-04-29 Raphael Holinshed's account of English history from 1377-1485 in the Chronicles of England, Scotland, and Ireland is most well-known as the source of Shakespeare's English history plays. Although the Chronicles are widely read and studied, published scholarly opinion, with a few exceptions, has been limited to the discipline of history. This book explores the historiographic materials of the Chronicles through a literary lens, focusing on how Renaissance men and women read historical texts, framed by these questions: How did Holinshed understand and view history? What were his motives in composing the Chronicles? What did sixteenth- and seventeenth-century English readers learn from the work? Igor Djordjevic explores both the lexical and semantic dimensions as well as lessons in both foreign and domestic policy in the 1577 and 1587 texts and in writers who used or appropriated the Chronicles, including Shakespeare, Daniel, Heywood, and Milton. This study reevaluates our understanding of Renaissance chronicle history and the impact of Holinshed on Tudor, Jacobean, and Caroline political discourse; the Chronicles emerge not as a series of rambling, digressive episodes characteristic to a dying medieval genre, but as the preserver of national memory, the teacher of prudent policy, and a builder of the commonwealth ideal.

Mais il lui faudra continuer à prouver sa valeur pour que sa parenté ne cause pas sa chute. Plusieurs mois se sont écoulés depuis que Maël a été affecté au poste de lieutenant du NYPD. Des mois durant lesquels les enquêtes se sont enchaînées sans qu'aucune d'entre elles atteigne le niveau de complexité de l'affaire Lawson. Mais tout est sur le point de changer lorsque la réplique exacte d'une ancienne affaire de Soledad, sa partenaire, est découverte. Une affaire trop particulière pour être l'œuvre d'un imitateur. Les doutes commencent à se faire sentir pour Dwayne, Alecia et Leda, anciens légistes et l'enquêtrice du premier cas. Se pourrait-il qu'une parfaite innocente ait été envoyée derrière les barreaux, et que le scénario menace de se répéter ? Se pourrait-il qu'un autre individu soit derrière tout cela, contrôlant ces personnes comme des armes ? The Palgrave Handbook of State-Sponsored History After 1945 Berber Bevernage, Nico Wouters.2018-02-03 This handbook provides the first systematic integrated analysis of the role that states or state actors play in the construction of history and public memory after 1945. The book focuses on many different forms of state-sponsored history, including memory laws, monuments and memorials, state-archives, science policies, history in schools, truth commissions, historical expert commissions, the use of history in courts and tribunals etc. The handbook contributes to the study of history and public memory by combining elements of state-focused research in separate fields of study. By looking at the state's memorialising capacities the book introduces an analytical perspective that is not often found in classical studies of the state. The handbook has a broad geographical focus and analyses cases from different regions around the world. The volume mainly tackles democratic contexts, although dictatorial regimes are not excluded.

Algeria Revisited Rabah Aissaoui, Claire Eldridge.2017-03-09 On 5 July 1962, Algeria became an independent nation, bringing to an end 132 years of French colonial rule. *Algeria Revisited* provides an opportunity to critically re-examine the colonial period, the iconic war of decolonisation that brought it to an end and the enduring legacies of these years. Given the apparent centrality of violence in this history, this volume asks how we might re-imagine conflict so as to better understand its forms and functions in both the colonial and postcolonial eras. It considers the constantly shifting balance of power between different groups in Algeria and how these have been used to re-fashion colonial relationships. Turning to the postcolonial period, the book explores the

challenges Algerians have faced as they have sought to forge an identity as an independent postcolonial nation and how has this process been represented. The roles played by memory and forgetting are highlighted as part of the ongoing efforts by both Algeria and France to grapple with the complex legacies of their prolonged and tumultuous relationship. This interdisciplinary volume sheds light on these and other issues, offering new insights into the history, politics, society and culture of modern Algeria and its historical relationship with France.

Travel Writing and Cultural Memory / Écriture du voyage et mémoire culturelle .2021-11-08

The present volume looks at the relation between travel writing and cultural memory from a variety of perspectives, ranging from theoretical concerns with genres and conventions to detailed analyses of single texts. As befits the topic, the contributions roam far and wide, both geographically and historically. Some detail early Portuguese voyages of discovery, particularly to the East. Others depict encounters between Early, and not so early, Modern Western travelers and their Other interlocutors. Still others focus on travel writings as literature. Voyages and voyaging in literature form the subject of the last category of essays gathered here. Amongst the authors discussed are Fernão Mendes Pinto, Jean de Sponde, Furtado de Mendonça, Sor Juana Inéz de la Cruz, Elsa Morante, Ingeborg Bachmann, Sophia Andresen, Paul Claudel, Graham Greene, Valéry Larbaud, David Mourão-Ferreira, J.M.G. le Clézio, José Saramago, Michel Leiris, and Claude Lévi-Strauss. The volume concludes with an essay by the French-Lebanese author Salah Stétié.

Memory Fragmentation from Below and Beyond the State Anne Bazin,Emmanuelle Hébert,Valérie Rosoux,Eric Sangar.2023-05-22 This volume suggests a model of collective memory that distinguishes between two conceptual logics of memory fragmentation: vertical fragmentation and horizontal fragmentation. It offers a series of case studies of conflict and post-conflict collective memory, shedding light on the ways various actors participate in the production, dissemination, and contestation of memory discourses. With attention to the characteristics of both vertical and horizontal memory fragmentation, the book addresses the plurality of diverging, and often conflicting, memory discourses that are produced within the public sphere of a given community. It analyzes the juxtaposition, tensions, and interactions between narratives produced beyond or below the central state, often transcending national boundaries. The book is structured according to the type of actors involved in a memory fragmentation process. It explores how states have been trying to produce and impose memory discourses on civil societies, sometimes even against the experiences of their own citizens, and how such efforts as well as backlash from actors below and beyond the state have led to horizontal and vertical memory fragmentation. Furthermore, it considers the attempts by states' representatives to reassert control of national memory discourses and the subsequent resistances they face. As such, this volume will appeal to sociology and political science scholars interested in memory studies in post-conflict societies.

Beyond Genocide: Transitional Justice and Gacaca Courts in Rwanda Pietro Sullo.2018-09-19 Combining both legal and empirical research, this book explores the statutory aspects and practice of Gacaca Courts (inkiko gacaca), the centrepiece of Rwanda's post-genocide transitional justice system, assessing their contribution to truth, justice and reconciliation. The volume expands the

knowledge regarding these courts, assessing not only their performance in terms of formal justice and compliance with human rights standards but also their actual *modus operandi*. Scholars and practitioners have progressively challenged the idea that genocide should be addressed exclusively through 'westernised' criminal law, arguing that the uniqueness of each genocidal setting requires specific context-sensitive solutions. Rwanda's experience with Gacaca Courts has emerged as a valuable opportunity for testing this approach, offering never previously tried homegrown solutions to the violence experienced in 1994 and beyond. Due to the unprecedented number of individuals brought to trial, the absence of lawyers, the participative nature, and the presence of lay judges directly elected by the Rwandan population, Gacaca Courts have attracted the attention of researchers from different disciplines and triggered dichotomous reactions and appraisals. The tensions existing within the literature are addressed, anchoring the assessment of Gacaca in a comprehensive legal analysis in conjunction with field research. Through the direct observation of Gacaca trials, and by holding interviews and informal talks with survivors, perpetrators, ordinary Rwandans, academics and the staff of NGOs, a purely legalistic perspective is overcome, offering instead an innovative bottom-up approach to meta-legal concepts such as justice, fairness, truth and reconciliation. Outlining their strengths and shortcomings, this book highlights what aspects of Gacaca Courts can be useful in other post-genocide contexts and provides crucial lessons learnt in the realm of transitional justice. The primary audience this book is aimed at consists of researchers working in the areas of international criminal law, transitional justice, genocide, restorative justice, African studies, human rights and criminology, while practitioners, students and others with a professional interest in the topical matters that are addressed may also find the issues raised relevant to their practice or field of study. Pietro Sullo teaches public international law and

international diplomatic law at the Brussels School of International Studies of the University of Kent in Brussels. He is particularly interested in international human rights law, transitional justice, international criminal law, constitutional transitions and refugee law. After earning his Ph.D. at the Sant'Anna School of Advanced Studies in Pisa, Dr. Sullo worked at the Max-Planck-Institute for Comparative Public Law and International Law in Heidelberg as a senior researcher and as a coordinator of the International Doctoral Research School on Retaliation, Mediation and Punishment. He was also Director of the European Master's Programme in Human Rights and Democratization (E.MA) in Venice from 2013 to 2015 and lastly he has worked for international NGOs and as a legal consultant for the Libya Constitution Drafting Assembly on human rights and transitional justice.

Historical Justice in International Perspective Manfred Berg, Bernd Schaefer, Bernd Schäfer. 2009 This book makes a valuable contribution to debates on redress for historical injustices by offering case studies from nine countries on five continents. The contributors examine the problems of material restitution, criminal justice, apologies, recognition, memory and reconciliation in national contexts as well as from a comparative perspective. Among the topics discussed are the claims for reparations for slavery in the United States, West German restitution for the Holocaust, the South African Truth and Reconciliation Commission, the efforts to prosecute the perpetrators of the Khmer Rouge's mass murders in Cambodia and the struggles of the indigenous people of Australia and New Zealand. The book highlights the diversity of the ways societies have tried to right past wrongs as the demand for historical justice has become universal.
