Perishable Material Culture in Prehistory Linda M. Hurcombe.2014-04-24 Perishable Material Culture in Prehistory provides new approaches and integrates a broad range of data to address a neglected topic, organic material in the prehistoric record. Providing news ideas and connections and suggesting revisionist ways of thinking about broad themes in the past, this book demonstrates the efficacy of an holistic approach by using examples and cases studies. No other book covers such a broad range of organic materials from a social and object biography perspective, or concentrates so fully on approaches to the missing components of prehistoric material culture. This book will be an essential addition for those people wishing to understand better the nature and importance of organic materials as the 'missing majority' of prehistoric material culture.

Mistress to an Age J. Christopher Herold.2002 J. Christopher Herold vigorously tells the story of the fierce Madame de Stael, revealing her courageous opposition to Napoleon, her whirlwind affairs with the great intellectuals of her day, and her idealistic rebellion against all that was cynical, tyrannical, and passionless. Germaine de Stael's father was Jacques Necker, the finance minister to Louis XVI, and her mother ran an influential literary-political salon in Paris. Always precocious, at nineteen Germaine married the Swedish ambassador to France, Eric Magnus Baron de Stael-Holstein, and in 1785 took over her mother's salon with great success. Germaine and de Stael lived most of their married life apart. She had many brilliant lovers. Talleyrand was the first, Narbonne, the minister of war, another; Benjamin Constant was her most significant and long-lasting one. She published several political and literary essays, including *A Treatise on the Influence of the Passions upon the Happiness of Individuals and of Nations*, which became one of the most important documents of European Romanticism. Her bold philosophical ideas, particularly those in *On Literature*, caused feverish commotion in France and were quickly noticed by Napoleon, who saw her salon as a rallying point for the opposition. He eventually exiled her from France. This winner of the 1959 National Book Award is excellent ... detailed, full of color, movement, great names, and lively incident -- *The New York Times* Mr. Herold's full-bodied biography is clear-eyed, intelligent, and written with abundant wit and zest. -- *The Atlantic Monthly*

Renaissance Futurities Charlene Villaseñor Black,Mari-Tere Álvarez.2019-11-05 At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. *Renaissance Futurities* considers the intersections between artistic rebirth, the new science, and European imperialism in the global early modern world. Charlene Villaseñor Black and Mari-Tere Álvarez take as inspiration the work of Renaissance genius Leonardo da Vinci (1452-1519), prolific artist and inventor, and other polymaths such as philosopher Giulio "Delminio" Camillo (1480-1544), physician and naturalist Francisco Hernández de Toledo (1514-1587), and writer Miguel de Cervantes

(1547-1616). This concern with futurity is inspired by the Renaissance itself, a period defined by visions of the future, as well as by recent theorizing of temporality in Renaissance and Queer Studies. This transdisciplinary volume is at the cutting edge of the humanities, medical humanities, scientific discovery, and avant-garde artistic expression.

A Theory of Local Entrepreneurship in the Knowledge Economy Pierre-André Julien. 2008-01-01 The principal audience for this book seems to be deliberately and most certainly an academic one; that said, those practitioners from a business management or central/local government support-agency background might also find the text a useful resource. Intrinsically, those employed teaching and researching within the fields of entrepreneurship or regional economic development will find this publication an invaluable and indispensable reference tool. . . After an excellent, cohesive and informative introductory chapter, which places the book firmly in the field of regional entrepreneurship theory development, the reader is effortlessly prepared for the intellectually challenging read ahead. . . this book is well laid out and it is easy for the reader to pick up the thread of the argument, even after a lay-off. The endnotes after each chapter are useful and comprehensive, adding richness to the text through the additional information. The bibliography is as comprehensive as it is exhaustive. . . Professor Julien has given us a book that presents both an interesting and alternative perspective to the field of entrepreneurial cross-disciplinary research. Paul J. Ferri, *International Journal of Entrepreneurial Behaviour and Research* . . . it is my view that this book gives a very important contribution for the understanding of development of local entrepreneurship, through its cross-disciplinary approach. I see the book is especially interesting from an entrepreneurship and a regional development perspective. . . this book should inspire research that takes a more holistic approach using different levels of analysis and applies it to economic development at a local/territorial level, when studying entrepreneurship. Einar Lier Madsen, *International Small Business Journal* The reader who is interested in entrepreneurship and/or regional development will find this book a welcome contribution to the field. Rainer Harms, *Entrepreneurship and Innovation* For too long, researchers have regarded local dynamism as the result of the actions of certain entrepreneurs. If this were the case, how could we explain the simultaneous presence of winning , stagnating or declining areas with very similar socioeconomic profiles within the same region? Departing from this restrictive and somewhat inadequate approach, Pierre-André Julien considers entrepreneurship as a collective behaviour specifically related to the dynamism of the milieu in which it develops. The author introduces a complex, innovative theory of local entrepreneurship, demonstrating that the emergence of new ventures and the development of existing enterprises cannot be understood without taking into account certain factors: locale, social capital, networking and entrepreneurial culture within a given area are all crucial to entrepreneurial growth. Expanding upon this theory, the book demonstrates how entrepreneurship can be fostered in order to support collective development. Various forms of partnership among socioeconomic actors are then analysed to highlight the social conventions and entrepreneurial culture that connect and intensify the energies at the root of local dynamism. This highly original book represents a departure from entrepreneurship literature that is largely limited to the study of entrepreneurs behaviour. Its dynamic presentation of holistic theory will prove an extremely absorbing read for those with an academic or professional interest in business and management, entrepreneurship and regional development.

Detecting and Explaining Technological Innovation in Prehistory Michela Spataro, Martin Furholt. 2019-12-19 Technology refers to any set of standardised procedures for transforming raw materials into finished products. Innovation consists of any change in technology which has tangible and lasting effect on human practices, whether or not it provides utilitarian advantages. Prehistoric societies were never static, but the tempo of innovation occasionally increased to the point that we can refer to transformation taking place. Prehistorians must therefore identify factors promoting or hindering innovation. This volume stems from an international workshop, organised by the Collaborative Research Centre 1266 'Scales of Transformation' at Kiel University in November 2017. The meeting challenged its participants to detect and explain technological change in the past and its role in transformation processes, using archaeological and ethnographic case studies. The papers draw mainly on examples from prehistoric Europe, but case-studies from Iran, the Indus Valley, and contemporary central America are also included. The authors adopt several perspectives, including cultural-historical, economic, environmental, demographic, functional, and agent-based approaches. These case studies often rely on interdisciplinary research, whereby field archaeology, archaeometric analysis, experimental archaeology and ethnographic research are used together to observe and explain innovations and changes in the artisan's repertoire. The results demonstrate that interdisciplinary research is becoming essential to understanding transformation phenomena in prehistoric archaeology, superseding typo-chronological description and comparison. This book is a scholarly publication aimed at academic researchers, particularly archaeologists and archaeological scientists working on ceramics, osseous and metal artifacts.

Relict Species Jan Christian Habel,Thorsten Assmann.2009-12-03 Mankind has evolved both genetically and culturally to become a most successful and dominant species. But we are now so numerous and our technology is so powerful that we are having major effects on the planet, its environment, and the biosphere. For some years prophets have warned of the possible detrimental consequences of our activities, such as pollution, deforestation, and overfishing, and recently it has become clear that we are even changing the atmosphere (e. g. ozone, carbon dioxide). This is worrying since the planet's life systems are involved and dependent on its functioning. Current climate change - global warming - is one recognised consequence of this larger problem. To face this major challenge, we will need the research and advice of many disciplines - Physics, Chemistry, Earth Sciences, Biology, and Sociology - and particularly the commitment of wise politicians such as US Senator Al Gore. An important aspect of this global problem that has been researched for several decades is the loss of species and the impoverishment of our ecosystems, and hence their ability to sustain themselves, and more particularly us! Through evolutionary time new species have been generated and some have gone extinct. Such extinction and regeneration are moulded by changes in the earth's crust, atmosphere, and resultant climate. Some extinctions have been massive, particularly those associated with catastrophic meteoric impacts like the end of the Cretaceous Period 65Mya.

Contention and Democracy in Europe, 1650-2000 Charles Tilly.2004 Contention and Democracy in Europe, 1650-2000 is an analysis of the relationship between democratization and contentious politics that builds upon the model set forth in the pathbreaking book, Dynamics of Contention. Using a sustained comparison of French and British histories since 1650 or so as a springboard for more general comparison within Europe Contention and Democracy goes on to demonstrate that democratization occurred as result of struggles during which (as in 19th century Britain and France) few, if any, of the participants were self-consciously trying to create democratic institutions. Consequently, circumstances for democratization vary from era to era, region to region as functions of previous history, international environments, available models of political organization, and predominant patterns of social relations.

The Promise Silvina Ocampo.2019-10-22 Kirkus Reviews calls *The Promise* one of the Best Books of Fiction, and of Literature in Translation, of the year! * Voted one of the Big Fall Books from Indies by Publishers Weekly & LitHub's Most Anticipated Books of 2019 The world is ready for her blend of insane Angela Carter with the originality of Clarice Lispector.—Mariana Enriquez, LitHub Both her debut story collection, *Forgotten Journey*, and her only novel, *The Promise*, are strikingly 20th-century texts, written in a high-modernist mode rarely found in contemporary fiction.—Lily Meyer, NPR A dying woman's attempt to recount the story of her life reveals the fragility of memory and the illusion of identity. Of all the words that could define her, the most accurate is, I think, ingenious.—Jorge Luis Borges I don't know of another writer who better captures the magic inside everyday rituals, the forbidden or hidden face that our mirrors don't show us.—Italo Calvino Few

writers have an eye for the small horrors of everyday life; fewer still see the everyday marvelous. Other than Silvina Ocampo, I cannot think of a single writer who, at any time in any language, has chronicled both with such wise and elegant humor.—Alberto Manguel Art is the cure for death. A seminal work by an underread master. Required for all students of the human condition.—Starred Review, Kirkus Reviews This haunting and vital final work from Ocampo, her only novel, is about a woman's life flashing before her eyes when she's stranded in the ocean. . . . the book's true power is its depiction of the strength of the mind and the necessity of storytelling, which for the narrator is literally staving off death. Ocampo's portrait of one woman's interior life is forceful and full of hope.—Gabe Habash, Starred Review, Publishers Weekly Ocampo is beyond great—she is necessary.—Hernan Diaz, author of *In the Distance* I don't know of another writer who better captures the magic inside everyday rituals, the forbidden or hidden face that our mirrors don't show us.—Italo Calvino These two newly translated books could make her a rediscovery on par with Clarice Lispector. . . . there has never been another voice like hers.—John Freeman, Executive Editor, LitHub Like William Blake, Ocampo's first voice was that of a visual artist; in her writing she retains the will to unveil immaterial so that we might at least look at it if not touch it.—Helen Oyeyemi, author of *Gingerbread* A woman traveling on a transatlantic ship has fallen overboard. Adrift at sea, she makes a promise to Saint Rita, arbiter of the impossible, that if she survives, she will write her life story. As she drifts, she wonders what she might include in the story of her life—a repertoire of miracles, threats, and people parade tumultuously through her mind. Little by little, her imagination begins to commandeer her memories, escaping the strictures of realism. Translated into English for the very first time, *The Promise* showcases Silvina Ocampo at her most feminist, idiosyncratic and subversive. Ocampo worked quietly to perfect this novella over the course of twenty-five years, nearly up until the time of her death in 1993.

Coronations János M. Bak.2022-04-29 Fascination with royal pomp and circumstance is as old as kingship itself. The authors of *Coronations* examine royal ceremonies from the ninth to the sixteenth century, and find the very essence of the monarchical state in its public presentation of itself. This book is an enlightened response to the revived interest in political history, written from a perspective that cultural historians will also enjoy. The symbolic and ritual acts that served to represent and legitimate monarchical power in medieval and early modern Europe include not only

royal and papal coronations but also festive entries, inaugural feasts, and rulers' funerals. Fifteen leading scholars from North America, Britain, France, Germany, Poland, and Denmark explore the forms and the underlying meanings of such events, as well as problems of relevant scholarship on these subjects. All the contributions demonstrate the importance of in-depth study of rulership for the understanding of premodern power structures. Emphasis is placed on interdisciplinary approaches, drawing on the findings of ethnography and anthropology, combined with rigorous critical evaluation of the written and iconic evidence. The editor's historiographical introduction surveys the past and present of this field of study and proposes some new lines of inquiry. For 'reality' is not a one-dimensional matter: even if we can establish what actually transpired, we still need to ask how it was perceived by those present. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Monarchy Transformed Robert von Friedeburg,John Morrill.2017-08-17 Until the 1960s, it was widely assumed that in Western Europe the 'New Monarchy' propelled kingdoms and principalities onto a modern nation-state trajectory. John I of Portugal (1358-1433), Charles VII (1403-1461) and Louis XI (1423-1483) of France, Henry VII and Henry VIII of England (1457-1509, 1509-1553), Isabella of Castile (1474-1504) and Ferdinand of Aragon (1479-1516) were, by improving royal administration, by bringing more continuity to communication with their estates and by introducing more regular taxation, all seen to have served that goal. In this view, princes were assigned to the role of developing and implementing the sinews of state as a sovereign entity characterized by the coherence of its territorial borders and its central administration and government. They shed medieval traditions of counsel and instead enforced relations of obedience toward the emerging 'state'.--Provided by publisher.

Germaine de Staël Biancamaria Fontana.2016-05-17 The first in-depth look at Staël's political life and writings Germaine de Staël (1766-1817) is perhaps best known today as a novelist, literary critic, and outspoken and independent thinker. Yet she was also a prominent figure in politics during the French Revolution. Biancamaria Fontana sheds new light on this often overlooked aspect of Staël's life and work, bringing vividly to life her unique experience as a political actor in a world where women had no place. The banker's daughter who became one of Europe's best-connected intellectuals, Staël was an exceptionally talented woman who achieved a degree of public influence to which not even her wealth and privilege would normally have entitled her. During the Revolution, when the lives of so many around her were destroyed, she succeeded in carving out a unique path for herself and making her views heard, first by the powerful men around her, later by the European public at large. Fontana provides the first in-depth look at her substantial output of writings on the theory and practice of the exercise of power, setting in sharp relief the dimension of Staël's life that she cared most about—politics. She was fascinated by the nature of public opinion, and believed that viable political regimes were founded on public trust and popular consensus. Fontana shows how Staël's ideas were shaped by the remarkable times in which she lived, and argues that it is only through a consideration of her political insights that we can fully understand Staël's legacy and its enduring relevance for us today.

Transkulturalität nationaler Räume in Europa (18. bis 19. Jahrhundert). Übersetzungen, Kulturtransfer und Vermittlungsinstanzen Christophe Charle,Hans-Jürgen Lüsebrink,York-Gothart Mix.2017-09-11 Der Band bietet eine systematische Analyse des Kulturaustauschs und der Übersetzungsprozesse im europäischen Raum von der Mitte des 18. bis Anfang des 20.

Jahrhunderts. Die Untersuchung der Zirkulation ausländischer Texte aus den Bereichen Belletristik, Literaturkritik und Theater dokumentiert das Ausmaß des Interesses und die Rezeptionsbereitschaft für ausländische Werke. In Fallstudien wird die Rolle der Akteure des Kulturtransfers herausgestellt – darunter Übersetzer und Kritiker sowie Institutionen der Vermittlung. Die Erforschung der Austauschbeziehungen hinterfragt die Formen, die Intensität und die Auswirkungen der kulturellen Internationalisierung in einer Periode zunehmender Nationalisierung und legt somit den Grundstein für eine europäische, transkulturelle Kulturgeschichte. This volume provides a systematic analysis of the cultural exchange and translation processes within the European area from the middle of the 18th through to the beginning of the 20th Century. The study of the circulation of foreign texts from the fields of fiction, literary criticism and theatre documents both the extent of people's interest in and receptiveness to foreign works. Case studies highlight the role of those who contributed to cultural transfer, including translators, critics and mediation institutions. The exploration of these exchange relationships questions the forms, the intensity and the effects of cultural internationalisation during a period of increasing nationalisation and thus lays the foundations for European transcultural cultural history.

Slave Portraiture in the Atlantic World Agnes Lugo-Ortiz, Angela Rosenthal. 2013-09-30 Slave Portraiture in the Atlantic World is the first book to focus on the individualized portrayal of enslaved people from the time of Europe's full engagement with plantation slavery in the late sixteenth century to its final official abolition in Brazil in 1888. While this period saw the emergence of portraiture as a major field of representation in Western art, 'slave' and 'portraiture' as categories appear to be mutually exclusive. On the one hand, the logic of chattel slavery sought to render the slave's body as an instrument for production, as the site of a non-subject. Portraiture, on the contrary, privileged the face as the primary visual matrix for the representation of a distinct individuality. Essays address this apparent paradox of 'slave portraits' from a variety of interdisciplinary perspectives, probing the historical conditions that made the creation of such rare and enigmatic objects possible and exploring their implications for a more complex understanding of power relations under slavery.

Advances in Experimental Surgery Huifang Chen, Paulo N. Martins. 2017-11 Experimental surgery is an important link for the development in clinical surgery, research and teaching. Experimental surgery was part of the most important surgical discoveries in the past century. Since 1901 nine Nobel Prizes have been awarded to the pioneers had remarkable achievements in the basic or practical surgery. In recent 20 years, experimental surgery has achieved new advances, like laparoscopic and robotic surgery, tissue engineering, and gene therapy which are widely applied in clinic surgery. The present book covers wide experimental surgery in preclinical research models subdivided in two volumes. Volume I introduces surgical basic notions, techniques, and different surgical models involved in basic experimental surgery and review the biomechanical models, ischemia/reperfusion injury models, repair and regeneration models, and organ and tissue transplantation models, respectively. Volume II introduces several specific experimental models such as laparoscopic and bariatric experimental surgical models. The second volume also introduces graft-versus-host disease, and other experimental models. Review the advances and development of recent techniques such as tissue engineering, organ preservation, wound healing and scarring, gene therapy and robotic surgery. The book documents the enormous volume of knowledge we have acquired in the field of experimental surgery. In this book, we have invited experts from the United States, Canada, France, Germany, China, Japan, Korea, UK, Sweden, Netherland, Hungary and Turkey to contribute 36 chapters in the fields of their expertise. These two volumes are the compilation of basic experimental surgery and updated advances of new development in this field that will be invaluable to surgeons, residents, graduate students, surgical researchers, physicians, immunologists, veterinarians and nurses in surgery.

Culture and Imperialism Edward W. Said. 2012-10-24 A landmark work from the author of Orientalism that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries,

as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida*. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.

Patriotic Pacifism Sandi E. Cooper. 1991-12-19 Despite the liberalized reconfiguration of civil society and political practice in nineteenth-century Europe, the right to make foreign policy, devise alliances, wage war and negotiate peace remained essentially an executive prerogative. Citizen challenges to the exercise of this power grew slowly. Drawn from the educated middle classes, peace activists maintained that Europe was a single culture despite national animosities; that Europe needed rational inter-state relationships to avoid catastrophe; and that internationalism was the logical outgrowth of the nation-state, not its subversion. In this book, Cooper explores the arguments of these patriotic pacifists with emphasis on the remarkable international peace movement that grew between 1889 and 1914. While the first World War revealed the limitations and dilemmas of patriotic pacifism, the shape, if not substance, of many twentieth-century international institutions was prefigured in nineteenth-century continental pacifism.

The Cambridge History of Medieval Monasticism in the Latin West Alison I. Beach, Isabelle Cochelin. 2020-01-09 Monasticism, in all of its variations, was a feature of almost every landscape in the medieval West. So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds. While there is enormous interest in medieval monasticism among Anglophone scholars, language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe. The Cambridge History of Medieval Monasticism in the Latin West offers a comprehensive treatment of medieval monasticism, from Late Antiquity to the end of the Middle Ages. The essays, specially commissioned for this volume and written by an international team of scholars, with contributors from Australia, Belgium, Canada, England, France, Germany, Italy, the Netherlands, Spain, Switzerland, and the United States, cover a range of topics and themes and represent the most up-to-date discoveries on this topic.
