Rethinking Social Studies Teacher Education in the Twenty-First Century Alicia R. Crowe,Alexander Cuenca.2015-11-26 In this volume teacher educators explicitly and implicitly share their visions for the purposes, experiences, and commitments necessary for social studies teacher preparation in the twenty-first century. It is divided into six sections where authors reconsider: 1) purposes, 2) course curricula, 3) collaboration with on-campus partners, 4) field experiences, 5) community connections, and 6) research and the political nature of social studies teacher education. The chapters within each section provide critical insights for social studies researchers, teacher educators, and teacher education programs. Whether readers begin to question what are we teaching social studies teachers for, who should we collaborate with to advance teacher learning, or how should we engage in the politics of teacher education, this volume leads us to consider what ideas, structures, and connections are most worthwhile for social studies teacher education in the twenty-first century to pursue.

Principals, what They Do and who They are Gilbert R. Weldy.1979

Popular Culture as Pedagogy Kaela Jubas,Nancy Taber,Tony Brown.2015-10-30 Grounded in the field of adult education, this international compilation offers a range of critical perspectives on popular culture as a form of pedagogy. Its fundamental premise is that adults learn in multiple ways, including through their consumption of fiction. As scholars have asserted for decades, people are not passive consumers of media; rather, we (re)make our own meanings as we accept, resist, and challenge cultural representations. At a time when attention often turns to new media, the contributors to this collection continue to find “old” forms of popular culture important and worthy of study. Television and movies – the emphases in this book – reflect aspects of consumers’ lives, and can be powerful vehicles for helping adults see, experience, and inhabit the world in new and different ways. This volume moves beyond conceptually oriented scholarship, taking a decidedly research-oriented focus. It offers examples of textual and discursive analyses of television shows and films that portray varied contexts of adult learning, and suggests how participants can be brought into adult education research in this area. In so doing, it provides compelling evidence about the complexity, politics, and multidimensionality of adult teaching and learning. Using a range of television shows and movies as exemplars, chapters relate popular culture to globalization, identity, health and health care, and education. The book will be of great use to instructors, students, and researchers located in adult education, cultural studies, women’s and gender studies, cultural sociology, and other fields who are looking for innovative ways to explore social life as experienced and imagined.

School Mental Health Stan Kutcher,Yifeng Wei,Mark D. Weist.2015-05-05 This book related to fundamental recognitions that 1) children, adolescents, and families usually make no or very poor connections to

specialty mental health (see Atkins et al. 1998; Catron, Harris, & Weiss, 1999), 2) schools are where children and youth are, and 3) many advantages accrue when education, mental health, and other youth-serving systems join together to better meet the mental health needs of students, in ways that reflect reducing and removing barriers to learning (Andis et al., 2002; Weist, 1997). National and global networks are increasingly recognizing the centrality of the SMH agenda as reflected in increasing funding, growing training opportunities, key policy initiatives, and an advancing research base that involves localities, states, regions and countries pursuing common themes--

An Unfinished Journey: Education & the American Dream Jeanne Allen.2020-01-23 Inspired by love of country, her Italian heritage, and this nation's ongoing quest to raise its children to aspire and achieve their greatest dreams, Jeanne Allen wrote *An Unfinished Journey*, which uniquely challenges us to think big about the education of our youth. The author—a well-known pioneer and veteran of education policy, politics, and culture—provides a compendium of powerful yet brief essays that will have parents, policy makers, and the general public both laughing and crying at the way the nation's education institutions have developed or mishandled all that it takes to help children achieve their greatest potential. From musings on Columbus Day to how kids behave in school and from the role of parents to politicians, this book is a uniquely informative and instructive firsthand account of the people, policies, and players that have shaped American education and why it matters. Combining a fascinating personal story with political acumen from more than thirty years in the arena, Allen paves the road to finishing the journey to the American dream.

Pupil, Teacher and Family Voice in Educational Institutions Janice Wearmouth,Andrew Goodwyn.2019-03-14 Taking a novel approach to the concept of 'voice' within education systems, this insightful text considers the extent to which the values, opinions, beliefs and perspectives of pupils, families, teachers, and members of senior management are heard in educational settings, and explores what can be learned from integrating their views and opinions in decision-making processes. *Pupil, Teacher and Family Voice in Educational Institutions* traces the historical and legal developments which have heralded an increased appreciation of individuals' perspectives in key decision-making processes. Chapters consider how various parties can be encouraged to voice their opinions and beliefs, and address the issues and challenges which may face institutions as they seek to create an atmosphere of open and active consultation and engagement. Drawing on evidence-based research, case studies and personal accounts, chapters reflect upon the concept of 'voice' in diverse settings and acknowledge the sometimes significant divergence between the intended and actual extent to which such opinions, beliefs and perspectives are reflected in day-to-day practice. Offering in-depth exploration of the concept of 'voice' and the benefits, implications, challenges and practicalities associated with it, this text will be of interest to future and in-service teachers, educational researchers and policy makers.

Education and the Commercial Mindset Samuel E. Abrams.2016-05-02 America's commitment to public schooling once seemed unshakable. But today the movement to privatize K-12 education is stronger than ever. A veteran teacher and administrator, Samuel E. Abrams examines the rise of market forces in public education and reveals how a commercial mindset has taken over. For decades, Milton Friedman and his disciples contended that private markets could deliver better schooling than governments. In the 1990s, this belief was put to the test by Edison Schools and other for-profit educational management organizations (EMOs). Edison grew rapidly, running schools in Baltimore, Philadelphia, and many other cities across the country. Yet disappointing academic and financial outcomes soon pushed the company and its competitors to the margins. The focus of EMOs on efficiency and results nevertheless found expression in federal policy with No Child Left Behind in 2002 and Race to the Top in 2009. The new ethos also defined nonprofit charter management organizations (CMOs) like KIPP that surfaced in the wake of EMOs and flourished. But the dependence of CMOs on philanthropists, tireless teachers, and students capable of abiding by rigid expectations limits their reach. Abrams argues that while the commercial mindset sidesteps fundamental challenges, public schools should adopt lessons from the business world. Citing foreign practices, he recommends raising teacher salaries to attract and retain talent, conferring more autonomy on educators to build ownership, and employing sampling techniques rather than universal assessments to gauge student progress.

Meet the Principal Jane Blomstrand.2019-07-24 Most of us have experience with school, either as a student, a parent or maybe as a teacher. But few people have experienced walking in the shoes of a school principal. *Meet the Principal* is a collection of stories from one principal's experiences. These stories show the many intriguing challenges a school leader faces each day. Most principals have stories just like these. Some are funny, some are sad, some may surprise you, and some may touch your heart. When you put them all together as a book, they portray a realistic view of the complex and delicate relationships all principals juggle while on their journey into the very heart of education. There is a lot more to being a principal than most folks would believe. It should be required reading for new principals. D. Mercer, President of the YMCA of the USA (retired) This is an eye opening read for anyone wanting a better understanding of the events at school that challenge the principals and teachers. The only criticism I have is that I wanted it to go on for longer. L. Craig, Grandparent This UPDATED and retitled edition (Originally *Beyond the ABCs: What Does a Principal Do All Day?* Dec 2018) includes new chapters and updated details.

Rurality, Diversity and Schooling Neroli Colvin.2024-02-22 Migration and refugee settlement policies have brought significant demographic changes to some regional centres over the past two decades and this book focuses on one such centre, a mid-size town in New South Wales. Historically, social relations in rural settlements have been enacted primarily within a white/black (Anglo/Indigenous) binary but in recent years this town has become home to several hundred refugees from Africa, South-East Asia and the Middle East. Using interview, observational and documentary data, the book examines how multiculturalism is understood, valued and lived in the town's two public high schools. Schools are key sites for everyday interactions between people from diverse ethnic, cultural, language and religious backgrounds. Drawing on critical theories of discourse, space and race, the book examines a host of anxieties in the town and its schools about recent demographic changes revealing how notions of rurality, steeped in colonial narratives about European settlement, productivity and racial superiority, continue to shape how "difference" is perceived and experienced in regional communities.

From the Principal's X-files Deana Hollaway, Werner M. Hollaway.2009 From the Principal's X-Files examines day-to-day, real-world situations and events that are often humorous and, at times, poignant as a point of reference for implementing best practices to create and maintain effective and nurturing school cultures. The ultimate goal of this guide for practical principals is to help all stakeholders productively and cooperatively interact and achieve the mission and vision of their schools. Hollaway and Hollaway strive to assist novice and seasoned administrators in creating and maintaining high performing school communities in which every stakeholder--from students, to parents, to staff members, to school leaders, and to community members--feels invested in his school. Throughout the book, the quality of the relationships between stakeholders is reiterated as the greatest predictor of school success. School administrators must enhance those vital relationships within their schools to establish a single-minded and effective school culture that values inclusion and connectedness among all actors in the pursuit of a common goal.

Transforming Teacher Education for Social Justice Patricia Clark, Eva Zygmunt, Jon Clausen, Wilfridah Mucherah, Susan Tancock.2016 Transforming Teacher Education for Social Justice offers teacher educators a new way to think about the development of culturally responsive educators. The authors identify the core components needed to restructure and reorient programs of teacher education to adequately prepare new teachers for the racially, culturally, and linguistically diverse communities they will serve upon graduation. They propose a new model of teacher preparation that capitalizes on the strengths of programs evidencing important outcomes. Chapters address the notion of situated learning embedded in communities, the need for extensive clinical experience in authentic teaching situations, strategies for interweaving theory, content, pedagogy, and classroom practice, the importance of student engagement and motivation, and the implementation of critical service learning. Key policy implications of this model are also discussed within the current landscape of teacher education reform. The book features: a specific approach for realizing the promise of culturally responsive teaching; a flexible model for a community-engaged leader preparation that is accessible for a variety of university and community settings; compelling data on student learning outcomes based on university/school/community collaboration as evidence of eliminating the achievement gap.
