What Objects Mean Arthur Asa Berger. 2016-06-16 Arthur Asa Berger, author of an array of texts in communication, popular culture, and social theory, is back with the second edition of his popular, user-friendly guide for students who want to understand the social meanings of objects. In this broadly interdisciplinary text, Berger takes the reader through half a dozen theoretical models that

are commonly used to analyze objects. He then describes and analyzes eleven objects, many of them new to this edition—including smartphones, Facebook, hair dye, and the American flag—showing how they demonstrate concepts like globalization, identity, and nationalism. The book includes a series of exercises that allow students to analyse objects in their own environment. Brief and inexpensive, this introductory guide will be used in courses ranging from anthropology to art history, pop culture to psychology.

Gendered Memories International Comparative Literature Association. Congress.2000 How does gender shape memory? What role does literature play in cultural remembering? These are two of the questions to which the present volume is addressed. Even if we agree that remembering is not biologically determined, we can assume that memory is influenced by the particular social, cultural and historical conditions in which individuals find themselves. And since men and women generally assume different social and cultural roles, their way of remembering should also differ. So, do women and men remember different events, narrate different stories, and narrate or read them in different ways? *Gendered Memories*, then, not only looks at memory gendered by literature, but also wants to know how gender shapes the memory of literature.

EBOOK: Materiality and Society Tim Dant.2004-12-16 This book examines the relationships between society and material culture: the interaction between people and things. Tim Dant argues that the traditional approach to material culture has focused on the symbolic meanings of objects, largely overlooking the material impact that objects have on everyday life in late modernity. Dant resists the now well-established model of consumption as the principal relationship with 'things' in our lives. Using the motor car as a recurring theme, he shows how we confront our society through material interaction with the objects that surround us. *Materiality and Society* draws on

debates with historical, philosophical and theoretical discourses that address materiality, from Braudel and Merleau-Ponty to Heidegger and Latour. The book opens up new lines of enquiry and makes a convincing case for the closer study of the interaction between people and things. This book is key reading for students and researchers in a variety of disciplines concerned with social relationships with things - including sociology, anthropology, cultural studies, and technology studies. *The Ship* Cesare Pavese, Hans Henny Jahn. 1970 Clelia, a successful couturier, arrives in Turin after the end of the Second World War to supervise the opening of a salon in the city where she spent her youth in poverty. Drawn into a circle of young people who try to escape the futility and boredom of their lives in a mindless search for pleasure, she encounters Rosetta, whose suicide tragically foreshadows that of the author just a few months after completing this highly acclaimed contemporary classic.

Mediale Dialogkompetenz Birgit Knatz, Stefan Schumacher. 2019-06-22 In vielen Berufsfeldern findet zwischenmenschlicher Dialog nicht mehr „face-to-face“ statt, sondern durch Schreiben und Lesen oder Sprechen und Hören - im Chat, am Telefon, in Messengerdiensten oder über Voicemails. Doch diese Möglichkeiten der zwischenmenschlichen Kommunikation sind auch eine Herausforderung - herausfordernd überhaupt in Kontakt zu kommen, Missverständnisse zu vermeiden, Grenzen zu setzen oder Emotionen zu balancieren. In diesem Fachbuch beschreiben die Autoren anhand zahlreicher Fallbeispiele herausfordernde und schwierige Gesprächssituationen im Chat oder am Telefon. Sie geben praktische Tipps und vermitteln Handlungsstrategien für den Umgang mit Menschen in Krisensituationen oder mit schwierigen Persönlichkeiten sowie zur Verringerung mentaler und emotionaler Belastungen, die durch die Kommunikation mit diesen Menschen

entstehen.

Gender and Religious Leadership Hartmut Bomhoff, Denise L. Eger, Kathy Ehrensperger, Walter Homolka. 2019-10-31 This volume analyzes historical and recent developments in female religious leadership and the larger issues shaping the scholarly debate at the intersection of gender and religious studies. Jewish activism and scholarship have been crucial in linking theology and gender issues since the early twentieth century. Academic and vocational leadership and training have had significant, concrete impact on religious communal practices and formation across the US and Europe. At the same time, these models provide important avenues of constructive dialogue and comparative ecumenical and interfaith enterprises. This volume investigates those possibilities towards constructive, activist, holistic female ministerial leadership for religious faith communities.

Social Cohesion in the Western World Georgi Dragolov, Zsófia S. Ignácz, Jan Lorenz, Jan Delhey, Klaus Boehnke, Kai Unzicker. 2016-05-25 Many people in the Western world are concerned that the social fabric of societies is fraying. This book constitutes the first-of-its-kind systematic account of social cohesion, from theory through methodology to empirical evidence. Readers are introduced to the academically developed Social Cohesion Radar of Bertelsmann Stiftung, a globally active non-governmental organization. The Social Cohesion Radar defines and measures cohesion as characterized by three core aspects: resilient social relations, positive emotional connectedness between people and the community, and a pronounced focus on the common good. Using high-quality academic and institutional data sources, the Social Cohesion Radar provides insights into the level and development of social cohesion over a period of almost 25 years internationally, among 34 European Union and OECD members, and regionally, among the 16 federal states of Germany. It further provides insights into what influences cohesion, and what cohesion is good for. One of the

key findings is that social cohesion promotes a happier life for everyone.

The Art of Freedom Juliane Rebentisch.2018-03-15 The concept of democratic freedom refers to

more than the kind of freedom embodied by political institutions and procedures. Democratic freedom can only be properly understood if it is grasped as the expression of a culture of freedom that encompasses an entire form of life. Juliane Rebentisch's systematic and historical approach demonstrates that we can learn a great deal about the democratic culture of freedom from its philosophical critics. From Plato to Carl Schmitt, the critique of democratic culture has always been articulated as a critique of its "aestheticization". Rebentisch defends various phenomena of aestheticization from the irony typical of democratic citizens to the theatricality of the political as constitutive elements of democratic culture and the notion of freedom at the heart of its ethical and political self-conception. This work will be of particular interest to students of Political Theory, Philosophy and Aesthetics.

Getting Teacher Evaluation Right Linda Darling-Hammond. 2015-04-28 Teacher evaluation systems are being overhauled by states and districts across the United States. And, while intentions are admirable, the result for many new systems is that good often excellent teachers are lost in the process. In the end, students are the losers. In her new book, Linda Darling-Hammond makes a compelling case for a research-based approach to teacher evaluation that supports collaborative models of teacher planning and learning. She outlines the most current research informing evaluation of teaching practice that incorporates evidence of what teachers do and what their students learn. In addition, she examines the harmful consequences of using any single student test as a basis for evaluating individual teachers. Finally, Darling-Hammond offers a vision of teacher evaluation as part of a teaching and learning system that supports continuous improvement, both for individual teachers and for the profession as a whole.

He is the Sun, She is the Moon Heide Wunder. 1998 Renowned German social historian Heide

Wunder refers to the cosmic image contained in the 1578 Book of Marital Discipline that characterizes the relationship between husband and wife. Today, He is the sun, she is the moon might be interpreted as a hierarchy of dominance and subordination. At the time it was used, however, sun and moon reflected the different but equal status of husband and wife. Wunder shows how the history of women and the history of gender relations can provide crucial insights into how societies organize themselves and provide resources for political action. She observes actual circumstances as well as the normative rules that were supposed to guide women's lives. We learn what skills were necessary to take charge of households, what people ate, how they furnished their homes, what birth control measures were available, what role women played in peasant protest. Wunder finds that, in addition to the history of losses and setbacks for women observed by so many current interpreters, there is a history of gains as well. The regency of noble women was normal, as was the shared responsibility of wife and husband in a peasant household, an artisan's workshop, or a merchant's business. Using sources as diverse as memoirs, wedding and funeral sermons, novels, and chronicles, and including a wealth of demographic information, Wunder reveals a surprising new image of early modern women and provides a richer interpretation of early modern Europe.

The Meaning of Things Mihaly Csikszentmihalyi, Eugene Rochberg-Halton, Eugene Halton. 1981-10-30 The meaning of things is a study of the significance of material possessions in contemporary urban life, and of the ways people carve meaning out of their domestic environment. Drawing on a survey of eighty families in Chicago who were interviewed on the subject of their feelings about common household objects, Mihaly Csikszentmihalyi and Eugene Rochberg-Halton provide a unique perspective on materialism, American culture, and the self. They begin by reviewing what social scientists and philosophers have said about the transactions between people

and things. In the model of 'personhood' that the authors develop, goal-directed action and the cultivation of meaning through signs assume central importance. They then relate theoretical issues to the results of their survey. An important finding is the distinction between objects valued for action and those valued for contemplation. The authors compare families who have warm emotional attachments to their homes with those in which a common set of positive meanings is lacking, and interpret the different patterns of involvement. They then trace the cultivation of meaning in case studies of four families. Finally, the authors address what they describe as the current crisis of environmental and material exploitation, and suggest that human capacities for the creation and redirection of meaning offer the only hope for survival. A wide range of scholars - urban and family sociologists, clinical, developmental and environmental psychologists, cultural anthropologists and philosophers, and many general readers - will find this book stimulating and compelling.

Democracy as Problem Solving Xavier De Souza Briggs. 2008-07-18 Case studies from around the world and theoretical discussion show how the capacity to act collectively on local problems can be developed, strengthening democracy while changing social and economic outcomes. Complexity, division, mistrust, and "process paralysis" can thwart leaders and others when they tackle local challenges. In *Democracy as Problem Solving*, Xavier de Souza Briggs shows how civic capacity—the capacity to create and sustain smart collective action—can be developed and used. In an era of sharp debate over the conditions under which democracy can develop while broadening participation and building community, Briggs argues that understanding and building civic capacity is crucial for strengthening governance and changing the state of the world in the process. More than managing a contest among interest groups or spurring deliberation to reframe issues, democracy can be what the public most desires: a recipe for significant progress on important problems. Briggs examines

efforts in six cities, in the United States, Brazil, India, and South Africa, that face the millennial challenges of rapid urban growth, economic restructuring, and investing in the next generation. These challenges demand the engagement of government, business, and nongovernmental sectors. And the keys to progress include the ability to combine learning and bargaining continuously, forge multiple forms of accountability, and find ways to leverage the capacity of the grassroots and what Briggs terms the “grasstops,” regardless of who initiates change or who participates over time. Civic capacity, Briggs shows, can—and must—be developed even in places that lack traditions of cooperative civic action.

Diaspora, Identity and Religion Carolin Alfonso, Waltraud Kokot, Khachig Tölölyan. 2004-07-31 Over the last decade, concepts of diaspora and locality have gained complex new meanings in political discourse as well as in social and cultural studies. Diaspora, in particular, has acquired new meanings related to notions such as global deterritorialization, transnational migration and cultural hybridity. The authors discuss the key concepts and theory, focus on the meaning of religion both as a factor in forming diasporic social organisations, as well as shaping and maintaining diasporic identities, and the appropriation of space and place in history. It includes up to date research of the Caribbean, Irish, Armenian, African and Greek diasporas.

Climate Justice Mary Robinson.2018-09-04 The antidote for your climate change paralysis. —Sierra Magazine An urgent call to arms by one of the most important voices in the international fight against climate change, sharing inspiring stories and offering vital lessons for the path forward. Holding her first grandchild in her arms in 2003, Mary Robinson was struck by the uncertainty of the world he had been born into. Before his fiftieth birthday, he would share the planet with more than nine billion people--people battling for food, water, and shelter in an increasingly volatile climate. The faceless, shadowy menace of climate change had become, in an instant, deeply personal. Mary Robinson's mission would lead her all over the world, from Malawi to Mongolia, and to a heartening revelation: that an irrepressible driving force in the battle for climate justice could be found at the grassroots level, mainly among women, many of them mothers and grandmothers like herself. From Sharon Hanshaw, the Mississippi matriarch whose campaign began in her East Biloxi hair salon and culminated in her speaking at the United Nations, to Constance Okollet, a small farmer who transformed the fortunes of her ailing community in rural Uganda, Robinson met with ordinary people whose resilience and ingenuity had already unlocked extraordinary change. Powerful and deeply humane, *Climate Justice* is a stirring manifesto on one of the most pressing humanitarian issues of our time, and a lucid, affirmative, and well-argued case for hope. "As advocate for the forgotten and the ignored, Mary Robinson has not only shone a light on human suffering, but illuminated a better future for our world." -Barack Obama

BASKISCHE SPRACH- UND MUSIKAUFNAMEN RUDOLF TREBITSCH.1914

The Shiites Heinz Halm.2007 The author highlights the three main aspects of Shi'a Islam: its historical development, especially the history of the Imams; the rituals, including flagellation and passion plays; and the rule of the mullahs, known as the government of experts. Shi'ism is as old as

Islam. It began as an exclusively Arab political issue of succession to Muhammad, and was later embraced by the Iranians. At the core of Shi'i religious practice are rituals of mourning and atonement.--Publisher description.

Green Social Work Lena Dominelli.2013-10-29 Social work is the profession that claims to intervene to enhance people's well-being. However, social workers have played a low-key role in environmental issues that increasingly impact on people's well-being, both locally and globally. This compelling new contribution confronts this topic head-on, examining environmental issues from a social work perspective. Lena Dominelli draws attention to the important voice of practitioners working on the ground in the aftermath of environmental disasters, whether these are caused by climate change, industrial accidents or human conflict. The author explores the concept of 'green social work' and its role in using environmental crises to address poverty and other forms of structural inequalities, to obtain more equitable allocations of limited natural resources and to tackle global socio-political forces that have a damaging impact upon the quality of life of poor and marginalized populations at local levels. The resolution of these matters is linked to community initiatives that social workers can engage in to ensure that the quality of life of poor people can be enhanced without costing the Earth. This important book will appeal to those in the fields of social work, social policy, sociology and human geography. It powerfully reveals how environmental issues are an integral part of social work's remit if it is to retain its currency in the modern world and emphasize its relevance to the social issues that societies have to resolve in the twenty-first century.

The Strategy of Politics Thomas Fischer (M.A.), Gregor Peter Schmitz, Michael Seberich. 2007
Politicians often talk about strategy. What do they mean by this term? Where does the development of political strategies take place? Who is involved in strategic processes? Which methods are used? The attempt to answer these questions, leads to an interesting look behind the scenes of the political arena. At the basis of this exploration are interviews with ministers, members of strategy units, party politicians, academics and journalists from Denmark, Germany, Great Britain and the United States, that have been conducted by four research teams. Their analyses document a common understanding of strategy in the political realm of the four countries. They also show how the meaning of strategy is shaped by the political system and the political culture of a country.

Governance for Sustainable Development Jens Newig, Jan-Peter Voß, Jochen Monstadt. 2013-09-13
Sustainable development stirs up debate about the capacities of political steering and governance. The complexity of the task expounds limits of steering in three dimensions: goals, knowledge, and power: Sustainability goals are subject to changing and controversial risk perceptions, values and interests. Moreover, knowledge of the coupled dynamics of society, technology and nature is limited. Finally, the power to shape structural change in society and technology is distributed across a

multitude of actors and societal subsystems. Steering attempts therefore have to cope with conflict and ambivalence, with uncertainty, and with a lack of central control; and they have to face the necessity of coordinating different actor groups and social networks. This volume explores steering strategies and governance arrangements for sustainable development with a view to these problem dimensions. The contributions by authors from various disciplines approach these challenges from different conceptual angles, ranging from positivist, managerial up to post-modern, constructivist perspectives. By combining theoretical reflections with insights from empirical research in European and American contexts, the volume maps out conditions and identifies approaches which both reflect the limits of steering and reveal options for constructively taking up the task of sustainable development in science and practice.

Sit Down and Shut Up Brad Warner. 2010-10-05 In 2003, Brad Warner blew the top off the Buddhist book world with his irreverent autobiography/manifesto, *Hardcore Zen: Punk Rock, Monster Movies, and the Truth about Reality*. Now in his second book, *Sit Down and Shut Up*, Brad tackles one of the great works of Zen literature, the *Shobogenzo*, by thirteenth-century Zen master Dogen. Illuminating Dogen's enigmatic teachings in plain language, Brad intertwines musings on sex, meditation, death, God, sin, and happiness with an exploration of the punk rock ethos. In chapters such as "Evil Is Stupid," "Kill Your Anger," and "Enlightenment Is for Sissies," Brad melds the antiauthoritarianism of punk with that of Zen, mixing in a travelogue of his triumphant return to Ohio to play in a reunion concert of Akron punk bands. For those drawn to Buddhist teachings but scared off by their stiff austerity, Brad writes with a sharp smack of truth, in teachings and stories that cut to the heart of reality.

Lin Goodwin, Karen Hammerness, Ee-Ling Low, Ann McIntyre, Mistilina Sato, Ken Zeichner.2017-03-02 Discover how high-performing systems shape teaching quality around the world Producing highly skilled and committed teachers is not the work of a single innovative school or the aggregation of heroic individuals who succeed against the odds. Studies of Excellence in Teacher Education Linda Darling-Hammond.2000 This book presents case studies of three highly successful teacher education programs. It is part of a three-volume series that includes seven case studies. It documents the goals, strategies, content, and processes of teacher education programs that are exemplars for preparing prospective teachers to engage in skillful, learner-centered practice. Using observations, interviews, and surveys, researchers examined all aspects of each program. The book documents the capabilities of prospective teachers, focusing on the teachers' own work during teacher education and in the field, interviews with faculty and administrators in the schools where graduates teach, and surveys of principals. It also examines what policies, organizational features, resources, and relationships have enabled these programs to succeed. Some of the programs' common features include a clear, shared vision of good teaching; well-defined standards of practice and performance; and extended clinical experiences. The three case studies are: Where There is Learning There is Hope: The Preparation of Teachers at the Bank Street College of Education (Linda Darling-Hammond and Maritza Macdonald); Knowing Children--

Understanding Teaching: The Developmental Teacher Education Program at the University of California, Berkeley (Jon Synder); and Knitting It All Together: Collaborative Teacher Education in Southern Maine (Betty Lou Whitford, Gordon Ruscoe, and Letitia Fickel). (Papers contain references.) (SM).
