Hendrik Petrus Berlage Hendrik Petrus Berlage.1996-01-01 Hendrik Petrus Berlage, the Dutch architect and architectural philosopher, created a series of buildings and a body of writings from 1886 to 1909 that were among the first efforts to probe the problems and possibilities of modernism. Although his Amsterdam Stock Exchange, with its rational mastery of materials and space, has long been celebrated for its seminal influence on the architecture of the 20th century, Berlage's writings are highlighted here. Bringing together Berlage's most important texts, among them *Thoughts on Style in Architecture*, *Architecture's Place in Modern Aesthetics*, and *Art and Society*, this volume presents a chapter in the history of European modernism. In his introduction, Iain Boyd Whyte demonstrates that the substantial contribution of Berlage's designs to modern architecture cannot be fully appreciated without an understanding of the aesthetic principles first laid out in his writings.

The Development Dictionary Wolfgang Sachs.1992 In this pioneering collection, some of the world's most eminent critics of development review the key concepts of the development discourse in the post-war era. Each essay examines one concept from a historical and anthropological point of view and highlights its particular bias. Exposing their historical obsolescence and intellectual sterility, the authors call for a bidding farewell to the whole Eurocentric development idea. This is urgently needed, they argue, in order to liberate people's minds - in both North and South - for bold responses to the environmental and ethical challenges now confronting humanity. These essays are an invitation to experts, grassroots movements and students of development to recognize the tainted glasses they put on whenever they participate in the development discourse.

Murder in the Métro Gayle K. Brunelle,Annette Finley-Croswhite.2010-05 On the evening of May 16, 1937, the train doors opened at the Porte Dorée station in the Paris Métro to reveal a dying woman slumped by a window, an eight-inch stiletto buried to its hilt in her neck. No one witnessed the crime, and the killer left behind little forensic evidence. This first-ever murder in the Paris Métro dominated the headlines for weeks during the summer of 1937, as journalists and the police slowly uncovered the shocking truth about the victim: a twenty-nine-year-old Italian immigrant, the beautiful and elusive Laetitia Toureaux. Toureaux toiled each day in a factory, but spent her nights working as a spy in the seamy Parisian underworld. Just as the dangerous spy Mata Hari fascinated Parisians of an earlier generation, the mystery of Toureaux's murder held the French public spellbound in pre-war Paris, as the police tried and failed to identify her assassin. In *Murder in the Métro*, Gayle K. Brunelle and Annette Finley-Croswhite unravel Toureaux's complicated and mysterious life, assessing her complex identity within the larger political context of the time. They follow the trail of Toureaux's murder investigation to the Comité Secret d'Action Révolutionnaire, a secret right-wing political organization popularly known as the Cagoule, or hooded ones. Obsessed with the Communist threat they perceived in the growing power of labor unions and the French left wing, the Cagoule's leaders aimed to overthrow France's Third Republic and install an authoritarian regime allied with Italy. With Mussolini as their ally and Italian fascism as their model, they did not shrink from committing violent crimes and fomenting terror to accomplish their goal. In 1936, Toureaux -- at the behest of the French police -- infiltrated this dangerous group of terrorists and seduced one of its leaders, Gabriel Jeantet, to gain more information. This operation, the authors show, eventually cost Toureaux her life. The tale of Laetitia Toureaux epitomizes the turbulence of 1930s France, as the country prepared for a war most people dreaded but assumed would come. This period, therefore, generated great anxiety but also offered new opportunities -- and risks -- to Toureaux as she embraced the identity of a modern woman. The authors unravel her murder as they detail her story and that of the Cagoule, within the popular culture and conflicted politics of 1930s France. By examining documents related to Toureaux's murder -- documents the French government has sealed from public view until 2038 -- Brunelle and Finley-Croswhite link Toureaux's death not only to the Cagoule but also to the Italian secret service, for whom she acted as an informant. Their research provides likely answers to the question of the identity of Toureaux's murderer and offers a fascinating look at the dark and dangerous streets of pre-World War II Paris.

The Landscape of Lexicography Alina Villalva,Geoffrey Williams.2019-08-01 This book consists of a series of papers that look at three different aspects of the landscape as seen in dictionaries from across Europe. Multilingual diachronic case studies into lexicographical descriptions of flora, landscape features and colours concentrate on three supposedly simple words: daisies (*Bellis perennis* L.), hills and the colour red. The work is part of the ongoing LandLex initiative, originally developed as part of the COST ENeL - European Network for e-Lexicography - action. The group brings together researchers in lexicography and lexicology from across Europe and is dedicated to studying multilingual and diachronic issues in language. It aims to valorise the wealth of European language diversity as found in dictionaries by developing and testing new digital annotation tools and a historical morphological dictionary prototype. The History of Terrorism Gérard Chaliand, Arnaud Blin. 2016-08-23 This authoritative work provides an essential perspective on terrorism by offering a rare opportunity for analysis and reflection at a time of ongoing violence, threats, and reprisals. Some of the best international specialists on the subject examine terrorism's complex history from antiquity to the present day and find that terror, long the weapon of the weak against the strong, is a tactic as old as warfare itself. Beginning with the Zealots of the first century CE, contributors go on to discuss the Assassins of the Middle Ages, the 1789 Terror movement in Europe, Bolshevik terrorism during the Russian Revolution, Stalinism, "resistance" terrorism during World War II, and Latin American revolutionary movements of the late 1960s. Finally, they consider the emergence of modern transnational terrorism, focusing on the roots of Islamic terrorism, al Qaeda, and the contemporary suicide martyr. Along the way, they provide a groundbreaking analysis of how terrorism has been perceived throughout history. What becomes powerfully clear is that only through deeper understanding can we fully grasp the present dangers of a phenomenon whose repercussions are far from over. This updated edition includes a new chapter analyzing the rise of ISIS and key events such as the 2015 Paris attacks.

Through the Language Glass Guy Deutscher. 2010-08-31 A masterpiece of linguistics scholarship, at once erudite and entertaining, confronts the thorny question of how—and whether—culture shapes language and language, culture. Linguistics has long shied away from claiming any link between a language and the culture of its speakers: too much simplistic (even bigoted) chatter about the romance of Italian and the goose-stepping orderliness of German has made serious thinkers wary of the entire subject. But now, acclaimed linguist Guy Deutscher has dared to reopen the issue. Can culture influence language—and vice versa? Can different languages lead their speakers to different thoughts? Could our experience of the world depend on whether our language has a word for blue? Challenging the consensus that the fundamentals of language are hard-wired in our genes and thus universal, Deutscher argues that the answer to all these questions is—yes. In thrilling fashion, he takes us from Homer to Darwin, from Yale to the Amazon, from how to name the rainbow to why Russian water—a she—becomes a he once you dip a tea bag into her, demonstrating that language does in fact reflect culture in ways that are anything but trivial. Audacious, delightful, and field-changing, *Through the Language Glass* is a classic of intellectual discovery.

A Dictionarie of the French and English Tongues Randle Cotgrave. 1611

Corpus Jean-Luc Nancy. 2009-08-25 How have we thought "the body"? How can we think it anew? The body of mortal creatures, the body politic, the body of letters and of laws, the "mystical body of Christ"—all these (and others) are incorporated in the word *Corpus*, the title and topic of Jean-Luc Nancy's masterwork. *Corpus* is a work of literary force at once phenomenological, sociological, theological, and philosophical in its multiple orientations and approaches. In thirty-six brief sections, Nancy offers us at once an encyclopedia and a polemical program—reviewing classical takes on the "corpus" from Plato, Aristotle, and Saint Paul to Descartes, Hegel, Husserl, and Freud, while demonstrating that the mutations (technological, biological, and political) of our own culture have given rise to the need for a new understanding of the body. He not only tells the story of this cultural change but also explores the promise and responsibilities that such a new understanding entails. The long-awaited English translation is a bold, bravura rendering. To the title essay are added five closely related recent pieces—including a commentary by Antonia Birnbaum—dedicated in large part to the legacy of the "mind-body problem" formulated by Descartes and the challenge it poses to rethinking the ancient problems of the corpus. The last and most poignant of these essays is "The Intruder," Nancy's philosophical meditation on his heart transplant. The book also serves as the opening move in Nancy's larger project called "The deconstruction of Christianity."

Organized by the REHSEIS group (Research on Epistemology and History of Exact Sciences and Scientific Institutions) of CNRS (National Center for Scientific Research), the colloquium was held from 3 to 6 April 1990 in the UNESCO building in Paris. This colloquium was an idea of Professor Roshdi Rashed who initiated this field of studies in France some years ago, and proposed Sciences and Empires as one of the main research programmes for the project to organize such a colloquium was a bit REHSEIS group. of a gamble. Its subject, reflected in the title Sciences and Empires, is not a currently-accepted sub-discipline of the history of science; rather, it refers to a set of questions which found autonomy only recently. Dictionary of Louisiana French Albert Valdman, Kevin James Rottet. 2010 The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .

Abnormal Michel Foucault. 2016-09-01 Three decades after his death, Michel Foucault remains one of the towering intellectual figures of the last half-century. His works on sexuality, madness, the prison, and medicine are enduring classics. From 1971 until his death in 1984, Foucault gave public lectures at the famous Collège de France. These seminal events, attended by thousands, created the benchmarks for contemporary social enquiry. The lectures comprising *Abnormal* begin by examining the role of psychiatry in modern criminal justice, and its method of categorising individuals who resemble their crime before they commit it. Building on the themes of societal self-defence developed in earlier works, Foucault shows how defining normality became a prerogative of power in the nineteenth century, shaping the institutions—from the prisons to the family-meant to deal with monstrosity, whether sexual, physical, or spiritual. The Collège de France lectures add immeasurably to our appreciation and understanding of Foucault's thought.

Minerva's Message Martin S. Staum. 1996-10-17 In theory the CMPS was set up to enshrine the human and social studies that were at the heart of Enlightenment culture. Staum illustrates, however, that the Institute helped transform key ideas of the Enlightenment in order to maintain civil rights while upholding social stability, and that the social and political assumptions on which it was based affected notions of social science. He traces the careers of individual members and the factions within the Institute, arguing that the discord within the CMPS reflects the unravelling of Enlightenment culture. *Minerva's Message* presents a valuable overview of the intellectual life of the period and brings together new evidence about the social sciences in their nascent period.
