The Atlas Blaeu-van Der Hem of the Austrian National Library Joan Blaeu, Österreichische Nationalbibliothek.2002 A complete descriptive and illustrated catalogue of one of the largest and finest atlases ever assembled. Now housed in the Österreichische Nationalbibliothek in Vienna, the 46-volume atlas is an expanded version of Joan Blaeu's Atlas Maior or 'Great Atlas', published in Amsterdam between 1660 and 1663. Though the core of the atlas consists of the several hundred maps issued by Blaeu, the original owner of the atlas, Laurens van der Hem (1621-1678), added other maps, views, and drawings of his own choice, including four volumes of manuscript maps of Africa and Asia made for the Dutch East India Company (VOC). The practice of augmenting atlases was common in the seventeenth century, but few of these personalized atlases have survived the centuries. The catalogue in 7 volumes (plus a volume about the making of the facsimile) will include all the sheets in the atlas reproduced in black-and-white, with cartographical historical and arthistorical descriptions by P. van der Krogt and E. de Groot. Each volume will contain approximately 16 full-colour illustrations. I. Spain, Portugal and France (vols. 1-8). 1996. With about 700 illustrations. 632 pp. ISBN 978 90 6194 278 8 II. Michel Tournier, Philosophy and Fiction Colin Davis.1988 This first full-length study of the popular French novelist shows that his fiction cannot be understood simply as a literary transposition of philosophical ideas, and that, despite his opposition to the New Novel, he shares its assumptions about the subversive role of literature. Davis combines analysis of the major novels with discussions of Tournier's theory of reading, his attitudes toward language, and his preoccupation with the reconciliation of opposites.

The Mirror of Ideas Michel Tournier.1998-01-01 Tournier treats pairs both lowly and exalted - moving from fork and spoon, horse and bull, cat and dog, to fear and anguish, poetry and prose, body and soul, being and nothingness. Hardly an exhaustive inventory of traditional pairs, his selection nonetheless opens the door to patterns deeply embedded in culture and civilization, speech and writing, memory and habit.

Amsterdam's Atlantic Michiel van Groesen.2017 In 1624 the Dutch West India Company established the colony of Brazil. Only thirty years later, the Dutch Republic handed over the colony to Portugal, never to return to the South Atlantic. Because Dutch Brazil was the first sustained Protestant colony in Iberian America, the events there became major news in early modern Europe and shaped a lively print culture. In *Amsterdam's Atlantic*, historian Michiel van Groesen shows how the rise and tumultuous fall of Dutch Brazil marked the emergence of a public Atlantic centered around Holland's capital city. Amsterdam served as Europe's main hub for news from the Atlantic world, and breaking reports out of Brazil generated great excitement in the city, which reverberated throughout the continent. Initially, the flow of information was successfully managed by the directors of the West India Company. However, when Portuguese sugar planters revolted against the Dutch regime, and tales of corruption among leading administrators in Brazil emerged, they lost their hold on the media landscape, and reports traveled more freely. Fueled by the powerful local print media, popular discussions about Brazil became so bitter that the Amsterdam authorities

ultimately withdrew their support for the colony. The self-inflicted demise of Dutch Brazil has been regarded as an anomaly during an otherwise remarkably liberal period in Dutch history, and consequently generations of historians have neglected its significance. Amsterdam's Atlantic puts Dutch Brazil back on the front pages and argues that the way the Amsterdam media constructed Atlantic events was a key element in the transformation of public opinion in Europe.

Black Michel Pastoureau.2023-06-13 The story of the color black in art, fashion, and culture—from the beginning of history to the twenty-first century Black—favorite color of priests and penitents, artists and ascetics, fashion designers and fascists—has always stood for powerfully opposed ideas: authority and humility, sin and holiness, rebellion and conformity, wealth and poverty, good and bad. In this beautiful and richly illustrated book, the acclaimed author of *Blue* now tells the fascinating social history of the color black in Europe. In the beginning was black, Michel Pastoureau tells us. The archetypal color of darkness and death, black was associated in the early Christian period with hell and the devil but also with monastic virtue. In the medieval era, black became the habit of courtiers and a hallmark of royal luxury. Black took on new meanings for early modern Europeans as they began to print words and images in black and white, and to absorb Isaac Newton's announcement that black was no color after all. During the romantic period, black was melancholy's friend, while in the twentieth century black (and white) came to dominate art, print, photography, and film, and was finally restored to the status of a true color. For Pastoureau, the history of any color must be a social history first because it is societies that give colors everything from their changing names to their changing meanings—and black is exemplary in this regard. In dyes, fabrics, and clothing, and in painting and other art works, black has always been a forceful—and ambivalent—shaper of social, symbolic, and ideological meaning in European societies. With its striking design and compelling text, *Black* will delight anyone who is interested in the history of fashion, art, media, or design.
