Globalization and Emerging Trends in African States' Foreign Policy-Making Process Rok Ajulu.2018-02-05 This title was first published in 2002: The resurgence of the democratization movement in Africa in the post-Cold War era is gradually replacing authoritarianism with forms of democratic systems. These changes have put into question the traditional big man image of African states' foreign policy and foreign policy-making. The first book of its kind to focus on the foreign policy-making process of Southern African countries in the era of globalization, these instructive and rewarding case studies contextualize the increasing involvement of other internal actors in African states foreign policy-making process. Foreign policy actors such as the Presidency, Ministries of Defence, Foreign Affairs, Trade, Finance and the Intelligence Community, among others, are examined in a comparative perspective.

African Foreign Policies Gilbert M. Khadiagala, Terrence Lyons.2001 This treatment of the relationship between domestic and international politics analyzes efforts by African states to manage their external relations amid shifts in the internal, regional, and global environments. The study traverses the continent, identifying patterns of change, examining constraints, and giving attention to the processes that influence policy outcomes. Contributors include scholars of political science, international relations, African studies, and conflict analysis. c. Book News Inc.

Aid to Africa Gordon Cumming.2017-07-05 The end of the Cold War forced Western donors to rethink their aid relations with Africa. This book looks at two of these donors, France and Britain, and asks whether the development programmes of these former colonial powers have undergone radical changes since the end of the Old World Order. It focuses on the introduction of a controversial new 'regime' trend - political conditionality - and uses policy models to illustrate the driving forces behind this new development strategy and explain substantial differences in France and Britain's practice of political conditionality in Togo and Kenya. Overall, this volume - the first comparative study of French and British aid in the post-Cold War period - offers fresh insights into the evolution of the political assistance agenda and into deeper forces at work within the French and UK policy processes.

Black Africa 1945-1980 D K Fieldhouse.2012-08-21 In what ways did economic considerations affect the decision by Britain and France to make their Black African colonies independent? Why were early expectations that independence would lead to rapid and sustained economic development in Africa for the most part disappointed? This title, originally published in 1986, seeks to tackle these two important and strongly debated issues. The main aim and value of the book is to take a broad view of this huge subject, pulling together material on most parts of Black Africa south of the Sahara and north of the Limpopo so that the problem can be seen as a whole. It takes account of a wide range of possible and actual factors which have influenced African economic development, weaving them into a single analysis, including the colonial inheritance, the impact of the fluctuating international economy, policies adopted by African governments and indigenous factors such as climate, drought and human resources. The book is written to be understood without difficulty by non-specialists and is intended to act as an introduction to its subject for university students.

L'Afrique sans la France Jean-Paul Ngoupandé.2017-04-01 Le célèbre discours de François Mitterrand à la Baule, en juin 1990, imposant aux régimes africains le respect de normes démocratiques, a fortement contribué à l'ébranlement du système qui s'était mis en place lors de l'accession des anciennes colonies françaises à l'indépendance. A ce message idéologique se sont ajoutées les recettes économiques imposées par le FMI et la Banque mondiale ainsi que la dévaluation du franc CFA. Depuis, on assiste à l'éclatement, souvent sur des bases ethniques, des pôles de stabilité que constituèrent longtemps le Côte d'Ivoire et le Zaïre. Les ingérences étrangères n'ont fait qu'ajouter à la confusion. Fondée sur une profonde connaissance de la réalité africaine, ce constat désabusé et sans concession de l'Etat présent du continent n'empêche pas l'auteur de proposer des pistes pour sortir de l'impasse. L'avenir de nos pays, écrit-il toutefois, est une affaire trop sérieuse pour être laissé entre les mains des seuls politiciens, la dernière décennie ayant confirmé qu'ils étaient dans leur majorité plus mus par la soif du pouvoir que par les intérêts fondamentaux des peuples. Une remise en perspective de l'évolution de l'Afrique noire, essentiellement francophone, sur les 40 dernières années.

UNE AFRIQUE SANS OBJETS Roland Louvel.1999-09-01 Plus l'Afrique nous déroute et plus nous ressentons le besoin de tenir en main des objets qui soient authentiquement africains. Mais l'objet africain se dérobe à plaisir et n'existe à vrai dire que dans nos imaginaires saturés de stéréotypes réfractaires au changement. En lieu et place de cet objet, s'ouvre en Afrique un vide béant que structurent les rythmes qui traversent toute la culture africaine, reflet fidèle de l'éclatement d'une société marquée par la dispersion de tous ses repères.

African Economies and the Politics of Permanent Crisis, 1979-1999 Nicolas Van de Walle.2001-09-24 This Book explains why African countries have remained mired in a disastrous economic crisis since the late 1970s. It shows that dynamics internal to African state structures largely explain this failure to overcome economic difficulties rather than external pressures on these same structures as is often argued. Far from being prevented from undertaking reforms by societal interest and pressure groups, clientelism within the state elite, ideological factors and low state capacity have resulted in some limited reform, but much prevarication and manipulation of the reform process, by governments which do not really believe that reform will be effective.

Africa in World Politics Guy Martin.2002 This book examines the key aspects of Africa's external relations and reviews the various political, security and economic strategies through which independent African states have tried to enhance their power and status in the world. The author analyses the ideology of Eurafrika, as well as Europe's evolving relationship with Africa, while also assessing the prospects for African regional integration in the context of Pan-Africanism.

Africa from the Sixteenth to the Eighteenth Century Unesco. International Scientific Committee for the Drafting of a General History of Africa.1999 A history of Africa from the 16th to the 18th centuries, this study concentrates on the continuing evolution of African states and cultures, the increase in external trade, and the consequences of the slave trade. The series is co-published in Africa with seven publishers, in the United States and Canada by the University of California Press, and in association with the UNESCO Press.

The Rise of Africa's Middle Class Henning Melber.2016-12-15 Across Africa, a burgeoning middle class has become the poster child for the 'Africa

rising' narrative. Ambitious, aspirational and increasingly affluent, this group is said to embody the values and hopes of the new Africa, with international bodies ranging from the United Nations Development Programme to the World Bank regarding them as important agents of both economic development and democratic change. This narrative, however, obscures the complex and often ambiguous role that this group actually plays in African societies. Bringing together economists, political scientists, anthropologists and development experts, and spanning a variety of case studies from across the continent, this collection provides a much-needed corrective to the received wisdom within development circles, and provides a fresh perspective on social transformations in contemporary Africa.

China Safari Serge Michel, Michel Beuret. 2010-08-24 Describes the growing economic relationship between China and developing African nations, claiming that the nation's lack of colonial past and political preconditions provides China a unique opportunity to help Africa direct its own fate.

UNESCO General History of Africa, Vol. I, Abridged Edition Jacqueline Ki-Zerbo, Unesco. International Scientific Committee for the Drafting of a General History of Africa. 1990 This volume covers the period from the end of the Neolithic era to the beginning of the seventh century of our era. This lengthy period includes the civilization of Ancient Egypt, the history of Nubia, Ethiopia, North Africa and the Sahara, as well as of the other regions of the continent and its islands.--Publisher's description

Corruption, Good Governance, and the African State Ganahl, Joseph Patrick. 2014-02-18 African states are often called corrupt, indicating that the political system in Africa differs from the one prevalent in economically advanced democracies. This, however, does not give us any insight into what makes corruption the dominant norm of African statehood. Thus we must turn to the overly neglected theoretical work on the political economy of Africa in order to determine how the poverty of governance in Africa is firmly anchored both in Africa's domestic socioeconomic reality, as well as in the region's role in the international economic order. Instead of focusing on increased monitoring, enforcement and formal democratic procedures, this book combines economic analysis with political theory in order to arrive at a better understanding of the political-economic roots of corruption in Sub-Saharan Africa.

L'Afrique sans Africains Antoine Glaser, Stephen Smith. 1993-12-31T23:00:00+01:00 J'aime l'Afrique... Pendant plusieurs générations, en France, ce fut un credo banal : on aimait ce continent attachant, certes sauvage, mais peuplé de gens aimables. C'en est fini de ces ritournelles. Une époque est révolue. Désormais, l'Afrique est présentée comme un continent en perdition, naufragé et inquiétant, rimant avec danger, chaos, famine, massacres et sida. L'Afrique serait une autre planète, un endroit où il ne faudrait plus se rendre, à moins d'être un humanitaire, avatar post-moderne du clerc, ou un militaire, ordonnateur de la nouvelle pacification. L'Afrique, ça se soigne, ça se sécurise. Ça ne se vit plus. Mais, entre l'amour d'hier et le désamour d'aujourd'hui, la contradiction n'est qu'apparente. Le continent noir reste investi par le rêve blanc : la projection narcissique d'un ego supérieur et le déni de la réalité, non parce qu'elle serait impénétrable ou incompréhensible, mais parce qu'elle est africaine et, en tant que telle, irrecevable. Cette Afrique abandonnée, ce continent délaissé, parti à la dérive, est en fait l'Afrique des Africains. Dieu n'est plus blanc. C'est tout. Enfin. On aura compris qu'à l'inverse, cet essai, riche d'exemples concrets, d'informations inédites et d'expériences vécues, cherche délibérément les contours de l'Afrique des Africains, ce continent noir qu'il nous reste à explorer.

Comment la France a perdu l'Afrique Antoine Glaser, Stephen Smith. 2006 La crise en Côte d'Ivoire est le symbole de la fin de la présence française en Afrique. La France a rapatrié ses ressortissants sous les huées, sinon sous les balles. Ailleurs, elle est déjà partie en catimini, à la fin de la guerre froide, quand l'Afrique a été abandonnée à son sort: effondrement de l'Etat, guerres, sida... L'aide a été amputée; les coopérants ont été retirés. Seule l'armée française est restée enfermée dans ses bases, garde prétorienne de régimes indéfendables. Après avoir été pendant plus de quarante ans le gendarme de l'Afrique, la France s'est recyclée en gardien de la paix. De plus en plus souvent, les Etats-Unis et la Chine dament le pion à une vieille

France gênée aux entournures par le génocide au Rwanda, le scandale Elf, les turpitudes de la Françafrique ... Insensiblement d'abord, puis à un rythme qui est allé s'accéléralant, la France a perdu son Afrique, celle où, de Dakar à Libreville en passant par Djibouti, N'Djamena, Brazzaville et Antananarivo, elle se plaisait à penser qu'elle était aimée. Dans ce livre sans concessions, Stephen Smith et Antoine Glaser pointent les erreurs, les lâchetés et les ambiguïtés qui ont émaillé la politique africaine de la France, et lui ont fait perdre ce pré carré quelle rêvait de façonner à son image. The Trouble with Africa Robert Calderisi.2014-12-23 After years of frustration at the stifling atmosphere of political correctness surrounding discussions of Africa, long time World Bank official Robert Calderisi speaks out. He boldly reveals how most of Africa's misfortunes are self-imposed, and why the world must now deal differently with the continent. Here we learn that Africa has steadily lost markets by its own mismanagement, that even capitalist countries are anti-business, that African family values and fatalism are more destructive than tribalism, and that African leaders prey intentionally on Western guilt. Calderisi exposes the shortcomings of foreign aid and debt relief, and proposes his own radical solutions. Drawing on thirty years of first hand experience, *The Trouble with Africa* highlights issues which have been ignored by Africa's leaders but have worried ordinary Africans, diplomats, academics, business leaders, aid workers, volunteers, and missionaries for a long time. It ripples with stories which only someone who has talked directly to African farmers--and heads of state--could recount. Calderisi's aim is to move beyond the hand-wringing and finger-pointing which dominates most discussions of Africa. Instead, he suggests concrete steps which Africans and the world can take to liberate talent and enterprise on the continent.

Africa in the World Frederick Cooper.2014-03-24 Of the many pathways out of empire, why did African leaders follow the one that led to the nation-state, whose dangers were recognized by Africans in the 1940s and 50s? Frederick Cooper revisits a long history in which Africans were empire-builders, the objects of colonization, and participants in events that gave rise to global capitalism.

Dossiers Noirs de la politique africaine de la France .1996-01-01

The State in Africa Jean-François Bayart.1993 Examines the role and structure of the state in Africa. Amongst the areas considered are: the genesis of the state; the decision to pursue conservative modernization or social revolution; the formation of an historic postcolonial bloc; and entrepreneurs, factions and political networks.

Thomas Sankara Ernest Harsch.2014-11-01 Thomas Sankara, often called the African Che Guevara, was president of Burkina Faso, one of the poorest countries in Africa, until his assassination during the military coup that brought down his government. Although his tenure in office was relatively short, Sankara left an indelible mark on his country's history and development. An avowed Marxist, he outspokenly asserted his country's independence from France and other Western powers while at the same time seeking to build a genuine pan-African unity. Ernest Harsch traces Sankara's life from his student days to his recruitment into the military, early political awakening, and increasing dismay with his country's extreme poverty and political corruption. As he rose to higher leadership positions, he used those offices to mobilize people for change and to counter the influence of the old, corrupt elites. Sankara and his colleagues initiated economic and social policies that shifted away from dependence on foreign

aid and toward a greater use of the country's own resources to build schools, health clinics, and public works. Although Sankara's sweeping vision and practical reforms won him admirers both in Burkina Faso and across Africa, a combination of domestic opposition groups and factions within his own government and the army finally led to his assassination in 1987. This is the first English-language book to tell the story of Sankara's life and struggles, drawing on the author's extensive firsthand research and reporting on Burkina Faso, including interviews with the late leader. Decades after his death, Sankara remains an inspiration to young people throughout Africa for his integrity, idealism, and dedication to independence and self-determination.

Africa Richard Dowden.2008-12-16 After a lifetime's close observation of the continent, one of the world's finest Africa correspondents has penned a landmark book on life and death in modern Africa. It takes a guide as observant, experienced, and patient as Richard Dowden to reveal its truths. Dowden combines a novelist's gift for atmosphere with the scholar's grasp of historical change as he spins tales of cults and commerce in Senegal and traditional spirituality in Sierra Leone; analyzes the impact of oil and the internet on Nigeria and aid on Sudan; and examines what has gone so badly wrong in Zimbabwe, Rwanda, Burundi, and the Congo. Dowden's master work is an attempt to explain why Africa is the way it is, and enables its readers to see and understand this miraculous continent as a place of inspiration and tremendous humanity.

Under the Counter and Over the Border Mark Phythian.2013-03-09 Although the illicit arms trade has evolved over recent years, despite the end of the Cold War it appears to be as vibrant as ever. From Bosnia and Kosovo to Angola and Sierra Leone, illicit arms flows have played a key role in areas of contemporary instability and violence. Against this background, this volume brings together studies of several key issues relating to this trade: the changing nature of the illicit arms trade; the origins of the Iran-Contra affair; the flow of illicit arms from post-communist Russia; the role of France in arming the genocide in Rwanda; the question of the role of private security companies in areas of instability; and the prospects of controlling the illicit trade in small arms. This timely volume will be essential reading for courses in Criminology, War and Peace Studies, International Politics, and African and other Area Studies which deal with arms trafficking and conflict issues.

La pauvreté dans une Afrique en essor Kathleen Beegle,Luc Christiaensen,Andrew Dabalen,Isis Gaddis.2017-01-31 L'idée que l'on se fait de l'Afrique a radicalement changé. Encore considéré comme le continent des guerres, des famines et de la pauvreté chronique à la fin des années 90, le continent africain est maintenant évoqué sous l'angle de « l'Afrique qui monte » et du « XXI^e siècle africain ». Deux décennies de croissance économique sans précédent devaient en principe améliorer sensiblement le bien-être des populations africaines. Il est toutefois difficile de dire si c'est effectivement le cas en raison de la médiocre qualité des données, de la nature du processus de croissance (s'agissant notamment du rôle des ressources naturelles), des conflits qui sévissent dans une partie la région et de la forte expansion démographique. Poverty in a Rising Africa décrit les problèmes de données et analyse systématiquement les informations disponibles sur la pauvreté et les inégalités dans une perspective tant monétaire que non monétaire. Le premier chapitre évalue la disponibilité et la qualité des données nécessaires pour cerner la pauvreté monétaire, examine les mécanismes de gouvernance et les processus politiques qui sous-tendent la production statistique et propose quelques méthodes pour combler le déficit de données. Le chapitre 2 évalue la robustesse des estimations sur la pauvreté en Afrique et brosse à grands traits le profil de ce fléau. Selon les auteurs, la réduction de la pauvreté en Afrique est peut-être légèrement supérieure à ce que les estimations traditionnelles portent à croire. Pour autant, même les estimations les plus optimistes indiquent que davantage de personnes vivaient dans la pauvreté en 2012 qu'en 1990. Le troisième chapitre considère la pauvreté dans une perspective élargie en prenant en compte les dimensions non monétaires du bien-être, telles que l'éducation, la santé et la liberté, en utilisant la méthode d'Amartya Sen (1985) axée sur les notions de capacités et de fonctionings. Des progrès ont certes été accomplis dans plusieurs de ces domaines, mais les niveaux de résultats restent obstinément bas. Enfin, le chapitre 4 examine

les données relatives aux inégalités en Afrique en analysant non seulement les types d'inégalités monétaires, mais aussi d'autres aspects tels que l'inégalité des chances, la mobilité intergénérationnelle dans le travail et l'éducation et l'extrême richesse.

L'Afrique sans le capitalisme Aminata Barry.1996

Our Continent, Our Future P. Thandika Mkandawire, Charles Chukwuma Soludo.2014-05-14 Our Continent, Our Future presents the emerging African perspective on this complex issue. The authors use as background their own extensive experience and a collection of 30 individual studies, 25 of which were from African economists, to summarize this African perspective and articulate a path for the future. They underscore the need to be sensitive to each country's unique history and current condition. They argue for a broader policy agenda and for a much more active role for the state within what is largely a market economy. Finally, they stress that Africa must, and can, compete in an increasingly globalized world and, perhaps most importantly, that Africans must assume the leading role in defining the continent's development agenda.

Africa and the International System Christopher S. Clapham.2002 Paying for the state.

France and the New Imperialism Bruno Charbonneau.2016-04-15 The role of French security policy and cooperation in Africa has long been recognized as a critically important factor in African politics and international relations. The newest form of security cooperation, a trend which merges security and development and which is actively promoted by other major Western powers, adds to our understanding of this broader trend in African relations with the industrialized North. This book investigates whether French involvement in Africa is really in the interest of Africans, or whether French intervention continues to deny African political freedom and to sustain their current social, economic and political conditions. It illustrates how policies portrayed as promoting stability and development can in fact be factors of instability and reproductive mechanisms of systems of dependency, domination and subordination. Providing complex ideas in a clear and pointed manner, *France and the New Imperialism* is a sophisticated understanding of critical security studies.

Africans John Iliffe.2017-07-13 An updated and comprehensive single-volume history covering all periods from human origins to contemporary African situations.
