Cruising for Trouble Mark Gaouette.2010-03-19 This book offers an alarming inside look at the security preparations of the cruise industry and the potential for cruise ships to be the target for pirates, terrorists, and criminal activity. *Cruising for Trouble* exposes the acute vulnerability of cruise ships to piracy, terrorism, and crime, both on the high seas and in domestic and foreign ports-of-call. While cruise ships have ramped up in size and passenger capacity to become floating skyscrapers housing as many as 7,000 passengers, and while piracy incidents have increased since 2008 as the world economy has deteriorated, there has been no corresponding increase or enhancement in onboard security personnel, external tactical units, preventive screening, or coordinated response planning to guard against the growing threat of acts of piracy and internal and external terrorist attacks. Commander Gaouette reveals to cruise passengers the very real security dangers they unwittingly face when they saunter up the gangway of a cruise ship for a carefree holiday. He sounds a clarion call to national and transnational security agencies, maritime regulators, legislators, and customers to compel the cruise industry to strengthen and reform its security programs before catastrophe strikes. The author, a longtime cruise industry insider who now serves as a top maritime security official in the Department of Homeland Security, details the many security defects and vulnerabilities of cruise ships, identifies the remedies, and makes the case for their urgent implementation. Extensively documented and illustrated, *Cruising for Trouble* is a vividly told cautionary for the ten million Americans who taken cruise-ship vacations each year and the millions more who would like to. As well as modeling the potential threats to cruise ships from pirates and maritime terrorists—who mimic each other's methods, overlap each other's territories, and might well find it mutually beneficial to combine their forces and resources—Commander

Gaoutte recounts many actual examples of cruise-ship insecurity that have been swept under the carpet or spun by the cruise industry: pirate attacks, fires, onboard crime, mass food poisonings and infections, and the mysterious disappearances of cruise-ship passengers.

Cruising in the Global Economy Christine B.N. Chin.2016-12-05 The business of cruise tourism in recent years has commanded news media attention especially on issues of environmental pollution, passenger safety and worker rights, yet consumer interest in cruise vacations has not been adversely affected by negative publicity and it continues to grow at an average of 8-9% per annum. This unique mode of business focusing on the production and consumption of pleasure at sea and on land offers us an unprecedented opportunity to analyze the manner in which ongoing economic restructuring processes to bring about free markets in goods, services and labour can and does involve both life on land and at sea. This interdisciplinary analysis elicits an examination of states' relationship to the maritime regulatory structure governing ship ownership, management and operations, cruise lines' business strategies, development of port communities to capture cruise-related revenue, changing leisure consumption patterns and meanings, and the employment of foreign migrant workers as seafarers.

Slow Boat from China Adrian Sparham.2006 Weaving history and contemporary issues with personal narratives, 'Slow Boat from China' is everything one could want out of a sailing narrative. South China Sea Jo Winter.2019-09-16 This first edition of South China Sea is the successor to Stephen Davies and Elaine Morgan's Cruising Guide to Southeast Asia, Volume I (Imray). Building on the earlier work, this new edition has been updated and expanded to include coverage of Cambodia and Taiwan. For the past 12 years, Jo Winter has been cruising these waters in her 45' Island Packet, Brother Wind, and she describes it as one of the most diverse, beautiful, unspoilt and undiscovered sailing areas in the world. The book covers thousands of miles of coastline, a multitude of islands and inland up many of the region's navigable rivers. Along with a comprehensive range of information to help with planning a cruise in this region, the introductory section details weather information, including coverage of typhoons, and also indicates piracy risk areas to be avoided. Sailing directions include small scale area plans to orientate the navigator and larger scale plans to show details of harbours and anchorages. Full colour throughout, the plans and numerous photographs illustrate key features and places. Whether transiting the region or planning a more extended cruise along any of the coastlines bordering the South China Sea, this guide is an essential companion.

Cruise Sector Growth Alexis Papathanassis.2009-10-21 Despite representing a fairly small fraction of global tourism activity, the cruise sector has been experiencing a steady growth rate over the last years. The 1st International Cruise Conference (ICC) and its proceedings documented here face the changes which accompany this process of growth. The corresponding refereed papers are organized under the following themes: New trends and innovations, human resource management, information technology and standardization. The underlying motivation behind this collection of works is to bridge the gap between cruise theory and practice, by providing a 'living research agenda' aligned with the cruise sector's realities and needs.

Living the Dream Vern and Connie Madison.2005-08-10 About our Book Living the Dream is the true-life adventure story of our seven-year cruise from Newport, Oregon, to Phuket, Thailand in the 35-foot steel-hulled sailboat, Tainui. This book gives a true picture of what it's really like for a retired couple to live their dream of full time cruising to far away places: the highs of beautiful

sailing days, snorkeling off pristine coral, anchoring in tropical lagoons, exotic cultural experiences, and the fellowship of the cruising community--but also fear in storms, the exhaustion of sleepless night watches, discouragement of endless boat maintenance, and a rusting through of Tainui's hull. Although we wrote *Living the Dream* for a general audience, serious sailors will find a wealth of helpful cruising information and steel boat owners will profit from our significant learning experiences in our maintenance of Tainui's steel hull. About us We began our lives far apart--Connie in parts of Californis that were far from the sea and with no aspirations to cross oceans and Vern in the busy seaport city of Seattle dreaming of sailing away some day. We eventually met at the University of Washington, married, started or family and careers--Vern as a social worker and Connie as a teacher. It was our four years of living with our family in Malaysia while Vern was on the staff of the Peace Corps there that sparked our desire to one day be full time world travelers.
