Lifelong Education Policies in Europe and Latin America Xavier Rambla, Marcella Milana.2024-02-22

This book examines lifelong learning through the lens of policy studies. It scrutinises the implications of lifelong learning policies in a variety of states and localities to explore the interplay between commonalities and differences within and across Europe and Latin America. The chapters explore adult education and learning, vocational education and training, higher education and employment policies in Europe and Latin America with a focus on how decision-makers have designed and implemented them. These contributions analyse to what extent diverse providers offer opportunities to learners with a variable range of ages. Their main research questions focus on the interactions between providers, educational authorities and employers of graduates at local, regional and national geographical scales. This book invites the readers to broaden up the concept of lifelong learning beyond the scope of compensatory, upskilling measures. The chapters spell out subtle but powerful connections between lifelong learning, digitalisation, employability, social inclusion, strategic policy-making and local development. This volume will be a key resource for practitioners, scholars and researchers of lifelong and adult education, educational policy, education studies, sociology, political science and psychology. It was originally published as a special issue of *International Journal of Lifelong Education*.

OECD Economic Surveys: Tunisia 2018 Economic Assessment OECD.2018-03-29 Tunisia has

experienced strong economic and social progress in recent decades and, more recently, a successful democratic transition. The convergence process has slowed down, however, due to the low level of investment since the early 2000s, while regional and labour market inequalities have ...

The Right Price Peter J. Neumann, Joshua T. Cohen, Daniel A. Ollendorf. 2021 The prescription drug market -- Proposed solutions for rising drug prices -- Measuring the value of prescription drugs -- Measuring drug value : whose job is it anyway? -- Institute for Clinical and Economic Review (ICER) - - Other US value assessment frameworks -- Do drugs for special populations warrant higher prices? - - Improving value measurement -- Aligning prices with value -- The path forward.

Global Meaning Making Lori Czop Assaf, Patience Sowa, Katina Zammit. 2022-08-23 Global Meaning Making disrupts and interrogates the contradictions and tensions in language and literacy global scholarship, reimagining global approaches that respect the histories, ways of knowing, needs, hopes and values of voices beyond the western, including those from the Global South.

Educational Inequality and School Finance Bruce D. Baker. 2021-02-09 In Educational Inequality and School Finance, Bruce D. Baker offers a comprehensive examination of how US public schools receive and spend money. Drawing on extensive longitudinal data and numerous studies of states and districts, he provides a vivid and dismaying portrait of the stagnation of state investment in public education and the continuing challenges of achieving equity and adequacy in school funding. Baker explores school finance, the school and classroom resources derived from school funding, and how and why those resources matter. He provides a critical examination of popular assumptions that undergird the policy discourse around school funding—notably, that money doesn't matter and that

we are spending more and getting less—and shows how these misunderstandings contribute to our reluctance to increase investment in education at a time when the demands on our educational system are rising. Through an introduction to the concepts of adequacy, equity, productivity, and efficiency, Baker shows how these can be used to evaluate policy reforms. He argues that we know a great deal about the role and importance of money in schools, the mechanisms through which money matters for student outcomes, and the trade-offs involved, and he presents a framework for designing and financing an equitable and adequate public education system, with balanced and stable sources of revenue. *Educational Inequality and School Finance* takes an issue all too often relegated to technical experts and makes it accessible for broader public empowerment and engagement.

Rethinking the SAT Rebecca Zwick.2013-04-15 Rethinking the SAT is a unique presentation of the latest thoughts and research findings of key individuals in the world of college admissions, including the president of the largest public university system in the U.S., as well as the presidents of the two companies that sponsor college admissions tests in the U.S. The contributors address not only the pros and cons of the SAT itself, but the broader question of who should go to college in the twenty-first century.

Biobanks as Essential Tools for Translational Research: The Belgian Landscape Sofie J. S. Bekaert,Annelies Debucquoy,Veronique T'Joen,Laurent Georges Dollé,Loes Linsen.2020-09-17 This eBook is a collection of articles from a Frontiers Research Topic. Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series: they are collections of at least ten articles, all

centered on a particular subject. With their unique mix of varied contributions from Original Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area! Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office: frontiersin.org/about/contact.

Strategic Human Capital Development in Asia Richard R. Smith.2022-06-23 Asia continues to ascend as an economic powerhouse and a strategic priority for business leaders around the world, yet there is often limited understanding of the human capital systems that fuel the economic engines of the region. This book brings together the perspectives from economics, sociology, and management to highlight the business implications of human capital development in Asia. This book provides new insights on human capital systems in Asia by considering the country context through a 'Human Capital Ecosystem' framework. Applying this framework, constituent outline, and comparable points across each of the countries in Asia, Smith translates national policies into insights on the drivers, challenges, and opportunities in individual countries. Each chapter also draws out clear business and HR implications based on the above framework and analysis. While Asia continues to be a critical priority for businesses, there is limited understanding on how to manage and navigate the human capital systems in each of the region's diverse countries. This book will serve as a helpful reference for managers or supplemental study guide for graduate students working to understand how to execute business strategy in major economies of Asia.

The Report: Mongolia 2014 Oxford Business Group.2014-05-23 Since the country's transition from communism two decades ago, the Mongolian economy has experienced rapid liberalisation. Sectors including ICT and insurance are expanding quickly and, while the mining sector has been

responsible for making Mongolia a rising star in the global economy, there is great potential for further growth in all economic sectors. Politically stable and rich with natural resources, Mongolia has emerged as a bellwether for investor confidence in recent years. The 2013 commercialisation of the Oyu Tolgoi gold and copper mine is helping to diversify Mongolia's mineral exports away from coal, while the government is working to improve the investment environment by adopting the new Investment Law, among other measures. Challenges do exist, however, from the long harsh winters that slow construction to the difficulty of connecting the sparsely populated nation through ICT and transport systems. In response, the government has partnered with the private sector on a number of fronts in order to promote economic diversification and competitiveness.

Economic and Management Sciences, Grade 8 Marietjie Barnard, Angela Voges, Christine de Nobrega. 2013-07-11 Study & master economic and management sciences grade 8 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in economic and management sciences.

Self-Directed Learning for the 21st Century: Implications for Higher Education Elsa Mentz, Josef de Beer, Roxanne Bailey, Per B. Bergamin, Chantelle Bosch, Adri du Toit, Roelien Goede, Aubrey Golightly, David W. Johnson, Roger T. Johnson, Corné Kruger, Dorothy Laubscher, Anita Lubbe, Jako Olivier, Christo van der Westhuizen, Sukie van Zyl. 2019-12-12 This book is devoted to

scholarship in the field of self-directed learning in the 21st century, with specific reference to higher education. The target audience of the book includes scholars in the field of self-directed learning and higher education. The book contributes to the discourse on the quality of education in the 21st century and adds to the body of scholarship in terms of self-directed learning, and specifically its role in higher education. Although all the chapters in the book directly address self-directed learning, the different foci and viewpoints raised make the book a rich knowledge bank of work on self-directed learning.

A Guide to Asian High Yield Bonds Florian H. A. Schmidt. 2014-01-28 An up-to-date, comprehensive analysis of the high-yield bond market in Asia Beginning with a general definition of high-yield bond products and where they reside within the corporate capital structure, this newly updated guide looks at the development of high-yield bonds in the United States and Europe before analysing this sector in Asia. It covers issuer countries and industries, ratings, and size distributions, and also covers the diversification of the high-yield issuer universe. It includes a thorough technical analysis of high-yield bond structures commonly employed in Asian transactions, including discussion of the respective covenants and security packages that vary widely across the region. Chapters and sections new to this edition cover such subjects as high-yield bond restructuring, the new high-yield Dim Sum market, and the high-yield placement market shutdown of 2008 - 2009. Finally, the book looks at the new characteristics of Asian economies for indicators on how the high-yield market will develop there are the near future. Offers an extremely detailed analysis of Asia's high-yield bond market Features new and updated material, including new coverage of the key differences between Asian structures and United States structures Ideal for CFOs of companies contemplating high-yield issuance, as well as investment bankers, bank credit analysts, portfolio managers, and institutional

investors

FCC Record United States. Federal Communications Commission.2014-11

The Financial History of the Bank for International Settlements Kazuhiko Yago.2013-01-03 The Bank for International Settlements (BIS), founded in 1930, works as the Bank for Central Banks. The BIS is an international forum where central bankers and officials gather to cope with international financial issues, and a bank which invests the funds of the member countries. This book is a historical study on the BIS, from its foundation to the 1970s. Using archival sources of the Bank and financial institutions of the member countries, this book aims to clarify how the BIS faced the challenges of contemporary international financial system. The book deals with following subjects: Why and how the BIS has been founded? How did the BIS cope with the Great Depression in the 1930s? Was the BIS responsible for the looted gold incident during WWII? After the dissolution sentence at the Bretton Woods Conference in 1944, how did the BIS survive? How did the BIS act during the dollar crisis in the 1960s and the 1970s? A thorough analysis of the balance sheets supports the archival investigation on the above issues. The BIS has been, and is still an institution which proposes an alternative views: crisis manager under the Great Depression of the 1930s, peace feeler during the WWII, market friendly bank in the golden age of the Keynesian interventionism, and crisis fighter during the recent world financial turmoil. Harmonizing the methodology of economic history, international finances and history of economic thoughts, the book traces the past events to the current world economy under financial crisis.

Good Economics for Hard Times Abhijit V. Banerjee, Esther Duflo.2019-11-12 The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is

perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

Chemical Engineering Design Gavin Towler, Ray Sinnott. 2012-01-25 *Chemical Engineering Design*, Second Edition, deals with the application of chemical engineering principles to the design of chemical processes and equipment. Revised throughout, this edition has been specifically developed for the U.S. market. It provides the latest US codes and standards, including API, ASME and ISA design codes and ANSI standards. It contains new discussions of conceptual plant design, flowsheet development, and revamp design; extended coverage of capital cost estimation, process costing, and economics; and new chapters on equipment selection, reactor design, and solids handling processes. A rigorous pedagogy assists learning, with detailed worked examples, end of chapter exercises, plus supporting data, and Excel spreadsheet calculations, plus over 150 Patent References for

downloading from the companion website. Extensive instructor resources, including 1170 lecture slides and a fully worked solutions manual are available to adopting instructors. This text is designed for chemical and biochemical engineering students (senior undergraduate year, plus appropriate for capstone design courses where taken, plus graduates) and lecturers/tutors, and professionals in industry (chemical process, biochemical, pharmaceutical, petrochemical sectors). New to this edition: Revised organization into Part I: Process Design, and Part II: Plant Design. The broad themes of Part I are flowsheet development, economic analysis, safety and environmental impact and optimization. Part II contains chapters on equipment design and selection that can be used as supplements to a lecture course or as essential references for students or practicing engineers working on design projects. New discussion of conceptual plant design, flowsheet development and revamp design Significantly increased coverage of capital cost estimation, process costing and economics New chapters on equipment selection, reactor design and solids handling processes New sections on fermentation, adsorption, membrane separations, ion exchange and chromatography Increased coverage of batch processing, food, pharmaceutical and biological processes All equipment chapters in Part II revised and updated with current information Updated throughout for latest US codes and standards, including API, ASME and ISA design codes and ANSI standards Additional worked examples and homework problems The most complete and up to date coverage of equipment selection 108 realistic commercial design projects from diverse industries A rigorous pedagogy assists learning, with detailed worked examples, end of chapter exercises, plus supporting data and Excel spreadsheet calculations plus over 150 Patent References, for downloading from the companion website Extensive instructor resources: 1170 lecture slides plus fully worked solutions manual available to adopting instructors

The Waste of the World Nicky Gregson.2023-04 Despite frequent claims that waste is being reduced, consumer-reliant economies, everyday consumption and the waste industry continue to produce and demand more waste. Combining a lucid style with robust empirical and theoretical research, this book examines the root causes of the global waste problem, rather than simply the symptoms. It challenges existing waste policies, highlighting what needs to change if we are to get serious in tackling this global problem. It concludes with policy implications for shifting waste from an 'end-of-pipe' concern to being at the heart of the debate over decarbonization.

The Coding Manual for Qualitative Researchers Johnny Saldaña.2012-10-04 The Second Edition of Johnny Saldaña's international bestseller provides an in-depth guide to the multiple approaches available for coding qualitative data. Fully up to date, it includes new chapters, more coding techniques and an additional glossary. Clear, practical and authoritative, the book: -describes how coding initiates qualitative data analysis -demonstrates the writing of analytic memos -discusses available analytic software -suggests how best to use The Coding Manual for Qualitative Researchers for particular studies. In total, 32 coding methods are profiled that can be applied to a range of research genres from grounded theory to phenomenology to narrative inquiry. For each approach, Saldaña discusses the method's origins, a description of the method, practical applications, and a clearly illustrated example with analytic follow-up. A unique and invaluable reference for students, teachers, and practitioners of qualitative inquiry, this book is essential reading across the social sciences.

The Federal Reserve System Purposes and Functions Board of Governors of the Federal Reserve System.2002 Provides an in-depth overview of the Federal Reserve System, including information about monetary policy and the economy, the Federal Reserve in the international

sphere, supervision and regulation, consumer and community affairs and services offered by Reserve Banks. Contains several appendixes, including a brief explanation of Federal Reserve regulations, a glossary of terms, and a list of additional publications.

Model Rules of Professional Conduct American Bar Association. House of Delegates, Center for Professional Responsibility (American Bar Association). 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

International Convergence of Capital Measurement and Capital Standards .2004
China's Domestic Transformation in a Global Context Ligang Song, Ross Garnaut, Cai Fang, Lauren Johnston. 2015-07-08 The phrase 'New Normal' captures the ongoing shift in the pattern and drivers of China's economic growth. China's new growth rate is both slower and imposing difficult structural change. These new economic conditions are challenging yet offer opportunities for China and its economic partners. Reforms must be deepened but also make growth more inclusive and environmentally sustainable, over this decade and beyond. This year's Update offers both global context and domestic insight into this challenging new phase of China's domestic economic transformation. How are policymakers elevating migrant workers concurrent with

increasing consumption? Is China's government spending enough on education and R&D to ensure it can achieve its aspirations to ascend the global manufacturing value chain and avoid the middle-income trap? Are energy market reforms reducing or increasing the price of gas and electricity in China? What are the consequences of China's financial reforms and expanding Renminbi trading for foreign banks? What does China's new growth model mean for the international resources economy and for Africa? Do SOEs face market conditions and are they dominating China's fast-rising outbound investment? What is China's strategy for navigating fragmented international trade policy negotiations?

The Idea of Development in Africa Corrie Decker, Elisabeth McMahon. 2020-10-29 The Idea of Development in Africa challenges prevailing international development discourses about the continent, by tracing the history of ideas, practices, and 'problems' of development used in Africa. In doing so, it offers an innovative approach to examining the history and culture of development through the lens of the development episteme, which has been foundational to the 'idea of Africa' in western discourses since the early 1800s. The study weaves together an historical narrative of how the idea of development emerged with an account of the policies and practices of development in colonial and postcolonial Africa. The book highlights four enduring themes in African development, including their present-day ramifications: domesticity, education, health, and industrialization. Offering a balance between historical overview and analysis of past and present case studies, Elisabeth McMahon and Corrie Decker demonstrate that Africans have always co-opted, challenged, and reformed the idea of development, even as the western-centric development episteme presumes a one-way flow of ideas and funding from the West to Africa.

The Greek Crisis and European Modernity Anna Triandafyllidou,Hara Kouki.2013-08-30 This collection explores the current economic and political crisis in Greece and more widely in Europe. Greece is used to illustrate and exemplify the contradictions of the dominant paradigm of European modernity, the ruptures that are inherent to it, and the alternative modernity discourses that develop within Europe.

Minerals Yearbook .2006

Future of Coal in India Rahul Tongia, Anurag Sehgal, Puneet Kamboj.2020-09-15 Mark Twain observed, "I'm in favour of progress; it's change I don't like." Coal dominates Indian energy because it's available domestically and cheap (especially without a carbon tax). If the global focus is on the energy transition, how does India ensure a just transition? Managing winners and losers will be the single largest challenge for India's energy policy. Coal is entrenched in a complex ecosystem. In some states, it's amongst the largest contributors to state budgets. The Indian Railways, India's largest civilian employer, is afloat because it overcharges coal to offset under-recovery from passengers. Coal India Limited, the public sector miner that produces 85% of domestic coal, is the world's largest coal miner. But despite enormous reserves, India imports about a quarter of consumption. On the flip side, coal faces inevitable pressure from renewable energy, which is the cheapest option for new builds. However, there is significant coal-based power capacity already in place, some of which is underutilized, or even stranded. Low per-capita energy consumption means India must still grow its energy supply. Before India can phase out coal, it must first achieve a plateau of coal. How this happens cost-effectively and with least resistance isn't just a technical or economic question, it depends on the political economy of coal and its alternatives. Some

stakeholders want to kill coal. A wiser option may be to first clean it up, instead of wishing it away. Across 18 chapters, drawing from leading experts in the field, we examine all aspects of coal's future in India. We find no easy answers, but attempt to combine the big picture with details, bringing them together to offer a range of policy options.

The Economics of Welfare Arthur Cecil Pigou.2000

Business Cycles and Forecasting Lloyd M. Valentine,Dennis F. Ellis.1991

The Great Transformation Karl Polanyi.2024-06-20 Tracing the history of capitalism in England and beyond, Karl Polanyi's landmark 1944 classic brilliantly exposed the myth of laissez-faire economics. From the great transformation that occurred during the industrial revolution onwards, he showed, there has been nothing 'natural' about the market state. Instead, the economy must always be embedded in society, and human needs and relations. Witnessing the 'avalanche of social dislocation' of his time - from the Great Depression, to the rise of fascism and communism and the First and Second World Wars - Polanyi ends with a rallying cry for freedom, and a passionate vision to protect our common humanity.

Study and Master Economic and Business Management Grade 7 for CAPS Learner's Book

Marietjie Barnard,Angela Voges,Christine de Nobrega.2013-07-11

Maritime Economics Alan Branch,Martin Stopford.2013-04-15 Now in its second edition Maritime Economics provides a valuable introduction to the organisation and workings of the global shipping industry. The author outlines the economic theory as well as many of the operational practicalities involved. Extensively revised for the new edition, the book has many clear illustrations and tables. Topics covered include: * an overview of international trade * Maritime Law * economic organisation and principles * financing ships and shipping companies * market research and forecasting.

OECD Development Pathways Multi-dimensional Review of the Dominican Republic

Towards Greater Well-being for All OECD.2022-12-13 The Dominican Republic has made strides on many socioeconomic fronts over the years. The country has been one of the leading economies in Latin America and the Caribbean in terms of GDP growth, reaching upper middle-income status in 2011.

Verbatim Record of the Proceedings United States. Temporary National Economic Committee.1940

World Economic Outlook, October 2013 International Monetary Fund. Research Dept..2013-10-08 Global growth is in low gear, and the drivers of activity are changing. These dynamics raise new policy challenges. Advanced economies are growing again but must continue financial sector repair, pursue fiscal consolidation, and spur job growth. Emerging market economies face the dual challenges of slowing growth and tighter global financial conditions. This issue of the World Economic Outlook examines the potential spillovers from these transitions and the appropriate policy responses. Chapter 3 explores how output comovements are influenced by policy and financial shocks, growth surprises, and other linkages. Chapter 4 assesses why certain emerging market economies were able to avoid the classical boom-and-bust cycle in the face of volatile capital flows during the global financial crisis.

Comprehensive Costs of Highway-Rail Grade Crossing Crashes Daniel Brod.2013 TRB's National Cooperative Highway Research Program (NCHRP) Report 755: Comprehensive Costs of Highway-Rail Grade Crossing Crashes describes a process for estimating the costs of highway-rail grade crossing crashes. A spreadsheet-based tool to facilitate use of the cost estimation process is available online. --Publisher description.
