Society of Singularities Andreas Reckwitz.2020-04-21 Our contemporary societies place more and more emphasis on the singular and the unique. The industrial societies of the early 20th century produced standardized products, cities, subjects and organizations which tended to look the same, but in our late-modern societies, we value the exceptional - unique objects, experiences, places, individuals, events and communities which are beyond the ordinary and which claim a certain authenticity. Industrial society's logic of the general has been replaced by late modernity's logic of the particular. In this major new book, Andreas Reckwitz examines the causes, structures and consequences of the society of singularities in which we now live. The transformation from industrial to cultural capitalism, the rise of digital technologies and their 'culture machine' and the emergence of an educated, urban new middle class form a powerful engine for the singularization of the social. In late modernity, what is singular is valorized and stirs the emotions, while what is general has to remain in the background, and this has profound social consequences. The society of singularities systematically produces devaluation and inequality: winner-takes-all markets, job polarization, the neglect of rural regions and the alienation of the traditional middle class. The emergence of populism and the rise of aggressive forms of nationalism which emphasize the cultural authenticity of one's own people thus turn out to be the other side of singularization. This prize-winning book offers a new perspective on how modern societies have changed in recent decades and it will be of great value to anyone interested in the forces that are shaping our world today.

Language, Power and Ideology Ruth Wodak.1989-01-01 The topic of Language and Ideology has increasingly gained importance in the linguistic sciences. The general aim of critical linguistics is the exploration of the mechanisms of power which establish inequality, through the systematic analysis of political discourse (written or oral). This reader contains papers on a variety of topics, all related to each other through explicit discussions on the notion of ideology from an interdisciplinary approach with illustrative analyses of texts from the media, newspapers, schoolbooks, pamphlets, talkshows, speeches concerning language policy in Nazi-Germany, in Italofascism, and also policies prevalent nowadays. Among the interesting subjects studied are the jargon of the student movement of 1968, speeches of politicians, racist and sexist discourse, and the language of the green movement. Because of the enormous influence of the media nowadays, the explicit analysis of the mechanisms of manipulation, suggestion, and persuasion inherent in language or about language behaviour and strategies of discourse are of social relevance and of interest to all scholars of social sciences, to readers in all educational institutions, to analysts of political discourse, and to critical readers at large.

Radical Change in Everyday Life Thomas Druyen.2019-03-28 This volume deals with a key concept concerning the future: change. It is omnipresent and yet is often only perceived in retrospect. The book's editor and founder of Psychological Future Management argues that we are currently experiencing the beginning of the most radical and profound change in human history. This is the right moment to analyze people's ability to change more precisely. In this first, representative study, Germany was chosen as an example. The results serve as a basis for further psychological, sociological and prospective considerations. The Germans obviously have great resilience and problem-solving competence. At the same time, however, they are one-sidedly fixated on maintaining the economic status quo and fear negative changes in the future. Their social milieus are permeated by contradictions. The wealthy, in particular, are tied to security concerns and are therefore unwilling to experiment and take risks, two qualities without which a future in times of exponential change can hardly be managed. What could other countries and societies learn from these descriptions of the current state of one of the world's leading countries? The entire subject revolves around this question. The psychological effects of digitization and artificial intelligence also play a role, as they put our neuronal and emotional habits under enormous pressure. How can we improve our future competence and learn to adapt new knowledge more quickly and continuously? Against this background, the phenomenon of change will be examined and discussed from various national and international perspectives.

An Emotional State Anna M Parkinson.2015-08-28 This literary-historical study seeks to dismantle the prevailing notion that Germany, in the period following the Second World War, exhibited an “inability to mourn,” arguing that in fact this period experienced a surge of affect. Anna Parkinson examines the emotions explicitly manifested or addressed in a variety of German cultural artifacts, while also identifying previously unacknowledged (and undertheorized) affective structures implicitly at work during the country’s national crisis. Much of the scholarship in the expanding field of affect theory distrusts Freudian psychoanalysis, which does not differentiate between emotion and affect. One of the book’s major contributions is that it offers an analytical distinction between emotion and affect, finding a compelling way to talk about affect and emotion that is informed by affect theory but that integrates psychoanalysis. The study draws on the psychoanalytic writings of Freud, Margarete and Alexander Mitscherlich, and André Green, while engaging with interdisciplinary theorists of affect including Barbara Rosenwein, Lauren Berlant, Ann Cvetkovich, and Eve Kosofsky Sedgwick among many others.

Public Mobility Oliver Schwedes.2023-03-10 This is to summarise current new developments in public transport and, with the concept of public mobility, to outline the concrete idea of a sustainable public transport system. In addition to the new mobility services and the political and legal framework conditions, new instruments are presented with which public mobility can be actively shaped in the future. The concept of public mobility ties in with the claim of public transport and shows how mobility can be offered to all citizens in an economically efficient, ecologically compatible and socially just manner under the changed social framework conditions.

Der tiefe Riss Susanne Garsoffky,Britta Sembach.2017-09-04 Eines der letzten gesellschaftlichen Tabus Unser Sozialsystem benachteiligt Eltern, weil wir zwar Kinder brauchen, um es zu finanzieren, Kinder groß zu ziehen aber kaum honoriert wird. Arbeitgeber bevorzugen Kinderlose, dadurch ist Kinderlosigkeit gerade für gut ausgebildete Männer und Frauen ein attraktives Lebensmodell geworden. Kinderlose wiederum zahlen in den meisten Unternehmen mit Überstunden für die fehlgeschlagene Vereinbarkeitspolitik der vergangenen Jahre. So entsteht ein tiefer gesellschaftlicher Riss. Um ihn zu überbrücken, brauchen wir ein gerechtes, völlig umgestaltetes Sozialsystem – weg vom Generationenvertrag – und ein Umdenken in den Unternehmen.

Justice over the Course of Life Björn Schmitz-Luhn, Christiane Woopen.2022-02-01 In this interdisciplinary book, experts from philosophy, medicine, law, psychology, economics, and social sciences address questions and develop solutions for a well-designed society of long life. Young as well as old people have to actively shape more and more of their life span. At the same time, aging becomes more multifaceted: the individual view on one’s own life course is changing, and the needs and demands for a fulfilled life are diversifying. The implications affect all spheres of life – from education and workplace to health care and the culture of interaction. They require content-related and structural adjustments for a diverse society of longevity in which multiple generations live alongside each other. But how can change be managed responsibly, how can individual and collective responsibility be distributed appropriately, and how can a sustainable and fair social future be ensured?

Cultural Dynamics in a Globalized World Melani Budianta, Manneke Budiman, Abidin Kusno, Mikihiro Moriyama.2017-12-14 The book contains essays on current issues in arts and humanities in which peoples and cultures compete as well as collaborate in globalizing the world while maintaining their uniqueness as viewed from cross- and interdisciplinary perspectives. The book covers areas such as literature, cultural studies, archaeology, philosophy, history, language studies, information and literacy studies, and area studies. Asia and the Pacific are the particular regions that the conference focuses on as they have become new centers of knowledge production in arts and humanities and, in the future, seem to be able to grow significantly as a major contributor of culture, science and arts to the globalized world. The book will help shed light on what arts and humanities scholars in Asia and the Pacific have done in terms of research and knowledge development, as well as the new frontiers of research that have been explored and opening up, which can connect the two regions with the rest of the globe.

Das Land, in dem wir leben wollen Jutta Allmendinger.2017-06-19 Einmalige Einblicke in die deutsche Seele: Wie wollen wir leben? In ihrem Buch untersucht Allmendinger, wo unser Land heute steht und was wir für die nächsten Generationen bewahren wollen. Aus den überraschenden Erkenntnissen leitet sich eine Agenda ab, wie wir angesichts der großen Herausforderungen, die auf uns zukommen, gemeinsam eine lebenswerte Zukunft nach unseren Vorstellungen gestalten können. Wie wollen Menschen in Deutschland leben? Was wünschen sie sich für die Zukunft, für das Leben ihrer Kinder? Wo suchen sie Veränderung, wo halten sie an Traditionen fest, wo gibt es gesellschaftliche Blockaden? In ihrer einmaligen, groß angelegten »Vermächtnisstudie« schaut die Soziologin Jutta Allmendinger den Deutschen in die Seele und fragt nach ihren Werten und Wünschen, Hoffnungen und Sorgen im Hier und Jetzt und für die Zukunft. Das Land, in dem wir leben wollen zeigt, dass wir in Fragen von Familie, Karriere, Gesundheit und Technik oft anders denken, wünschen und fühlen, als wir annehmen. Die ultimative Herausforderung - über die Veränderungsfähigkeit der Deutschen Thomas Druyen.2018-01-28 Der vorliegende Band beschäftigt sich mit einem Schlüsselbegriff der Zukunftspsychologie: Veränderung. Sie ist allgegenwärtig - und wird doch oft erst im Rückblick wahrgenommen. Zentrale Motivationsfaktoren wie persönliche und berufliche Weiterentwicklung verweisen auf die konstruktive Seite von Veränderungsprozessen, die Freiheit und Einflussnahme ermöglichen. Ein gesellschaftliches Klima zunehmender Unübersichtlichkeit und beschleunigten Wandels erzeugt dagegen vor allem Zukunftsangst und Veränderungsmüdigkeit. In einer Pilotstudie mit dreißig qualitativen Einzelinterviews und einer anschließenden stärker quantitativ ausgerichteten Querschnittstudie mit 1950 Befragten erkundet die Veränderungsstudie die Fragen: Wie haben die Teilnehmenden zentrale Veränderungen in ihrem Leben erlebt und bewältigt? Welche Kompetenzen haben sie dafür benötigt und eingesetzt? Wie kann Veränderung erfolgreich gelebt und umgesetzt werden? Furcht und Ratlosigkeit angesichts der unbekannteren Zukunft sind in einer Zeit der wahrscheinlich markantesten Veränderungen in der Weltgeschichte existenzgefährdend. Daher ist es unabdingbar, sich mit dem Ablauf von Veränderungsprozessen zu beschäftigen, um aus erprobten Strategien und Mustern zu lernen. Dem Verständnis der dafür nötigen Veränderungskompetenz widmen sich diese Studie und dieses Buch.
