**Families in a Global Context** Charles B. Hennon,Stephan M. Wilson.2011-02-14 Learn what trends and factors are influencing families globally How are families the same or different around the world? Families in a Global Context puts the similarities and differences into perspective, presenting an in-depth comparative analysis of family life in 17 countries around the world. Contributors discuss different countries' family life by using a standard framework to review major influences and patterns. The framework allows readers to do comparative reflection across several countries on a variety of daily living elements, including social and economic forces such as urbanization and modernization, changes in gender/courtship/spousal patterns, and war. This book provides an informative illustration of current as well as future trends of family life worldwide. Each chapter in Families in a Global Context describes customary types of family patterns within each country's social organization and culture. Important social, economic, political, and other trends are explored in detail, and major ethnic, religious, or other subcultures are noted emphasizing marriage and family patterns that differ from the more typical ones. The book is extensively referenced and includes tables to clearly present data. Countries explored in Families in a Global Context include: European countries of Wales, Sweden, Germany, Romania, and Italy African countries of Sierra Leone, South Africa, and Kenya Middle Eastern countries of Turkey and Iran Asian and Oceanian countries of India, China, the Philippines, and Australia Latin American countries of Brazil, Mexico, and Cuba Topics discussed for each country in Families in a Global Context include: demographics mate selection patterns with an emphasis on the dynamics of couple formation marital roles the place and role of children and parenting in families socialization for gender roles differences in education, employment, and other opportunities major stressors affecting families, coping, and adaptation aging and life expectancy issues and much more! Families in a Global Context is an insightful resource for researchers, educators, and advanced undergraduate and graduate students investigating comparative family topics of family life around the world and in cultural context.

**Consanguinity in Context** Alan H. Bittles.2012-05-24 An essential guide to this major contemporary issue, Consanguinity in Context is a uniquely comprehensive account of intra-familial marriage. Detailed information on past and present religious, social and legal practices and prohibitions is presented as a backdrop to the preferences and beliefs of the 1100+ million people in consanguineous unions. Chapters on population genetics, and the role of consanguinity in reproductive behaviour and genetic variation, set the scene for critical analyses of the influence of consanguinity on health in the early years of life. The discussion on consanguinity and disorders of adulthood is the first review of its kind and is particularly relevant given the ageing of the global population. Incest is treated as a separate issue, with historical and present-day examples examined. The final three chapters deal in detail with practical issues, including genetic testing, education and counselling, national and international legislation and imperatives, and the future of consanguineous marriage worldwide.

**Islam, Gender, & Social Change** Yvonne Yazbeck Haddad,John L. Esposito.1998 The essays collected in this book place this issue in its historical context and offer case studies of Muslim societies from North Africa to Southeast Asia. These fascinating studies shed light on the impact of the Islamic resurgence on gender issues in Iran, Egypt, Jordan, Pakistan, Oman, Bahrain, the Philippines, and Kuwait. Taken together, the essays reveal the wide variety that exists among Muslim societies and believers, and the complexity of the issues under consideration.

**Islamic Family Law in a Changing World** 'Abd Allah Ahmad Na'im, 'Abd Allāh Aḥmad Na'im,Abdullahi An-Na'im, 'Abdallāh Aḥmad an-Na'im.2002-08 In Islamic Family Law in a Changing World, Abdullahi A. An-Na'im explores the practice of the Shari'a, commonly known as Islamic Family Law. An-Na'im shows that the practical application of Shari'a principles is often modified by theological differences of interpretation, a country's particular customary practices, and state policy and law.

**Children of Global Migration** Rhacel Parreñas.2005-03-25 In the Philippines, a dramatic increase in labor migration has created a large population of transnational migrant families. Thousands of children now grow up apart from one or both parents, as the parents are forced to work outside the country in order to send their children to school, give them access to quality health care, or, in some cases, just provide them with enough food. While the issue of transnational families has already generated much interest, this book is the first to offer a close look at the lives of the children in these families. Drawing on in-depth interviews with the family members left behind, the author examines two dimensions of the transnational family. First, she looks at the impact of distance on the intergenerational relationships, specifically from the children's perspective. She then analyzes gender norms in these families, both their reifications and transgressions in transnational households. Acknowledging that geographical separation unavoidably strains family intimacy, Parreñas argues that the maintenance of traditional gender ideologies exacerbates and sometimes even creates the tensions that plague many Filipino migrant families.

**Cultural Sociology of Divorce** Robert E. Emery.2013-01-24 While the formal definition of divorce may be concise and straightforward (legal termination of a marital union, dissolving bonds of matrimony between parties), the effects are anything but, particularly when children are involved. The Americans for Divorce Reform estimates that 40 or possibly even 50 percent of marriages will end in divorce if current trends continue. Outside the U.S., divorce rates have markedly increased across developed countries. Divorce and its effects are a significant social factor in our culture and others. It might be said that a whole divorce industry has been constructed, with divorce lawyers and mediators, family counselors, support groups, etc. As King Henry VIII's divorces showed, divorce has not always been easy or accepted. In some countries, divorce is not permitted and even in Europe, countries such as Spain, Italy, Portugal, and the Republic of Ireland legalized divorce only in the latter quarter of the 20th century. This multi-disciplinary encyclopedia covers curricular subjects related to divorce as examined by disciplines ranging from marriage and the family to anthropology, social and legal history, developmental and clinical psychology, and religion, all through a lens of cultural sociology. Features: 550

signed entries, A-to-Z, fill 3 volumes (1,500 pages) in print and electronic formats, offering the most detailed reference work available on issues related to divorce, both in the U.S. and globally. Cross-References and Further Readings guide readers to additional resources. A Chronology provides students with context via a historical perspective of divorce. In the electronic version, the comprehensive Index combines with Cross-References and thematic Reader's Guide themes to provide convenient search-and-browse capabilities. For state and nation entries, uniform entry structure combined with an abundance of statistics facilitates comparison between and across states and nations. Appendices provide further annotated sources of data and statistics.

**Women and Asian Religions** Zayn R. Kassam.2017-06-22 Covering eclectic topics ranging from South Asian religion to motherhood to world dance to ethnomusicology, this book focuses on contemporary selected experiences of women and how their lives interface with religion. Religion has often been perceived as the source of constriction for women's roles in society. This volume explores how modern women across Asia are mobilizing their faith traditions to address existential issues encountered in both the public and private realms, relating to economics, public participation, politics, and culture. As such, it is revealed that religion can be a powerful force for social change and ameliorating women's lives, despite use of religious doctrine in the past to limit women. Editor Zayn R. Kassam, PhD, and the contributors cover not only the commonly considered Asian traditions of Hinduism, Islam, and Buddhism but also Christianity, Judaism, Bahai, and indigenous traditions. The book reveals that the challenges and opportunities Asian women face arise both from within and outside, whether in terms of developments within their countries or in relation to international political and economic regimes. The chapters explore how the issues Asian women face have as much to do with cultural and religious codes as they do with politics, economics, education, and the law; consider the varying ways in which family and motherhood are affected by the state's construction of the gendered citizen, by social constructs of motherhood, and by policies regarding women and children's access to health care; and identify the roles played by religion and spirituality in these circumstances.

**Family Business Law Declassified** Jim Lopez.2016-10-19 This book, authored by three-time National Book Award winner Jim V. Lopez, helps unveil the answers to the nagging conundrum: Why do most family businesses experience a meltdown once they reach the third generation? *Family Business Law Declassified: How to Beat the Third-Generation Curse* reveals numerous traps that cause family businesses to falter and eventually sink into the cesspool of irrelevance and insolvency. It also offers best practices and countervailing measures to cushion the impact of the "Buddenbrooks Phenomenon," thus helping family businesses transcend the obstacles associated with the third generation.
