HL 114, HC 749 - The Next National Security Strategy Stationery Office. 2015-03-03 The last five years have seen a range of international developments, ranging from the growth of radicalisation and fundamentalism, to growing concerns around our energy supply, and rising aggression from Russia. The NSS must be flexible enough to support contingency planning, and in this Report the Committee recommends that the Government produce a classified NSS or annex which can be used in Government departments to influence planning assumptions for a range of scenarios. In its report the Committee said that the next NSS should look hard at the UK's place within the international order, and what strategic thinking should underpin its actions over the next five years. It also needs to influence the Comprehensive Spending Review, to ensure that the Government can make fully-informed decisions on security-related spending. The next NSS should set clear objectives for the UK's future place in the world and geopolitical priorities, and inform the Strategic Defence and Security Review's assessment of the means required to achieve them.

The Oxford Handbook of Children and the Law . 2020-02-07 The Oxford Handbook of Children and the Law presents cutting-edge scholarship on a broad range of topics covering the life course of humans from before birth to adulthood, by leading scholars in law, medicine, social work, sociology, education, and philosophy, and by practitioners in law and medicine. An international collection of authors presents and analyzes the law and science pertaining to reproduction; prenatal life (including fetal exposure to toxic substances and abortion); parentage (including biology-based rights, background checks on birth parents, adoption, the status of gamete donors, and surrogacy); infant development and vulnerability; child maltreatment (including corporal punishment and religious defences to abuse and neglect); child protection policy and systems; foster care; child custody disputes between parents or between parents and other caregivers; schooling (including financing, resegregation, religious expression in public schools, at-risk students, special education, regulation of private schools, and homeschooling); delinquency; minimum-age laws; and child advocacy. Most chapters follow a format wherein they first describe the most debated or dynamic issues in each topical area, then explain in depth the law and/or science pertaining to the author's particular focus, and finally offer arguments and recommendations as to law and policy in that area. The normative component aims to advance discussions and debates in vital areas of contemporary child welfare law and policy. The Handbook is an essential resource for scholars and professionals interested in the intersection of children and the law.

Yearbook of the United Nations 2014 United Nations. 2019-10-28 With its comprehensive coverage of political and security matters, human rights issues, economic and social questions, legal issues, and administrative and budgetary matters, the Yearbook of the United Nations stands as the

authoritative reference work on the annual activities and concerns of the Organization. Fully indexed, the Yearbook includes all major General Assembly, Security Council and Economic and Social Council resolutions and decisions, uniquely placing them in a narrative context of United Nations consideration, deliberation and action. This sixty-eighth volume presents the work of the United Nations in dealing with recurring conflicts with severe humanitarian consequences including in the Syrian Arab Republic, where more than 12 million people were in need of basic food, clothing and shelter. The volume also highlights the Organization's rapid response to an escalatory global health emergency—the Ebola virus disease outbreak across West Africa. It documents the Organization's coordination of policy discussions to finalize a global sustainable development agenda, with the security of future generations as the core concern; and its efforts to rebuild societies emerging from conflict while keeping the fragile peace in other places. It further details the entry into force of the landmark Arms Trade Treaty, the missile downing of a passenger airliner in the midst of a geopolitical crisis in eastern Ukraine, and securing international human rights and humanitarian law and prosecuting abusers.

Long Walk to Nowhere Philip Frankel.2016-04-30 The end of apartheid has triggered massive illegal immigration into South Africa from all parts of Africa and beyond. Along with urbanization and internal migration, the end of apartheid has encouraged human smuggling and the trafficking of men, women, and children into the commercial sex market and various sectors of the economy from mining to agriculture and the service industries. Long Walk to Nowhere analyzes the impact of these developments on Nelson Mandela's vision for a democratic South Africa. Frankel explores human rights, the political culture, public health, the criminal justice system, and institutional development as South Africa moves into its third decade after "liberation." Using migration and human trafficking as barometers for democratic success, Frankel establishes that South Africa has become more unstable under two post-Mandela presidencies. The book covers the three major modes of human trafficking—commercial sex trafficking, child trafficking, and labor trafficking. It also looks at the dynamics of trafficking with a perpetrator-focus, the complex issues of dominance, and the policy responses in light of South Africa's first comprehensive counter-trafficking legislation designed for implementation in late 2015. Long Walk to Nowhere blends South African experiences with contemporary mass political movements which challenge human rights and good governance on a world-wide basis.

Family Law in Action Emilie Biland.2023-02-01 The right to divorce is a symbol of individual liberty and gender equality under the law, but in

practice it is anything but equitable. Family Law in Action reveals the persistent class and gender inequalities embedded in the process of separation and its aftermath in Quebec and France. Drawing on empirical research conducted on their respective court and welfare systems, Emilie Biland analyzes how men and women in both places encounter the law and its representatives in ways that affect their personal and professional lives. This rigorous but compassionate study encourages governments to make good on the emancipatory promise enshrined in divorce law.

Child Exploitation in the Global South Jérôme Ballet, Augendra Bhukuth. 2018-06-13 This edited volume examines child exploitation in the Global South. It introduces several case studies and interviews articulated around two features: exploitation within the family and exploitation in relation to social contexts. The research shows that both of the features are linked and, generally, they are not separate. It makes several important arguments which challenge the most common view on how children are perceived and exploited in Africa, Latin America, and the Middle East. Additionally, it explores the social representation of exploited children as well as their general well-being.

Parental Imprisonment and Children's Rights Fiona Donson, Aisling Parkes. 2021-03-30 This book brings together internationally renowned academics and professionals from a variety of disciplines who, in a variety of ways, seek to understand the legal, conceptual and practical consequences of parental imprisonment through a children's rights lens. Children whose parents have been incarcerated are often referred to as invisible victims of crime and the penal system. It is well accepted that the imprisonment of a parent, even for a short period of time, not only negatively affects the lives of children but it can also result in a gross violation of their fundamental human rights, such as the right of access to their parent and the right to have an input into decision-making processes affecting them, the outcomes of which will without doubt affect the life of the child concerned. This collection foregrounds the voice of these children as it explores transdisciplinary boundaries and examines the practice and development of the rights of both children and their families within the wider dynamic of criminal justice and penology practice. The text is divided into three parts which are dedicated to 1) hearing the voices of children with parents in prison, 2) understanding to what extent children's rights informs prison policy, and 3) demonstrating how law in the form of children's rights can help frame both court sentencing and prison practice in a way that minimises the harm that contact with the prison system can cause. The research drawn upon in this book has been conducted in a number of European countries and demonstrates both good and bad practice as far as the implementation of children's rights is concerned in the context of parental incarceration. An accessible and compelling read, this book will appeal to students and scholars of law, children's rights, criminology, sociology, social work, psychology, penology and all those interested in, and working towards, protecting the rights of children who have a parent in prison.

Children on the Move Charles Oberg.2020-03-13 This Special Issue of Children will focus on the migration arc of children from their country of origin through the experience in refugee camps and, finally, to their arrival in a new home. It will examine the impact experiencing migration as refugees, immigrants or those internally displaced due to war and conflict has on children's health. Explored topics include adverse health conditions, trauma and mental health, best practice and care coordination. It explores specific populations, such as children with disabilities, unaccompanied minors and child separation at international borders. This Special Issue also includes an examination of new clinical guidelines, the development of new care systems and advocacy for new policies. It also provides a summary of the UN Convention on the Rights of the Child's specific mandate to provide for the most vulnerable children in need.

Violence Against Children Gertrud Lenzer.2017-11-28 Violence Against Children adopts in its title the exhortation of Nobel Laureate Amartya Sen, Making Human Rights Real, which also represents the leitmotif of the book. It examines the prevalence of violence against children in Africa, the Asia Pacific Region, Europe, Latin America and the Caribbean, and in the United States, and explores major ways of its prevention. Making human rights real engenders the challenge of helping all children to be free from violence and to lead a life replete with genuine nurture and the elimination of all violence. Only in this manner will the goal of the United Nations 2030 Agenda for Sustainable Development —target 16.2—be achieved and the child as a rights-bearing individual realized in her/his fullness. The specially commissioned chapters that make up the volume have been written by

renowned scholars, researchers and advocates. They coalesce to provide an overview of the challenges facing children exposed to violence worldwide, and they advance discussions of the measures which are available and necessary for the prevention of violence against children. The book is intended for policy-makers, researchers and students of the social sciences and human rights who are interested in ending all the widespread maltreatment of children in our societies and our time.

Suffer the Little Children Anita Casavantes Bradford.2022-03-28 In this affecting and innovative global history—starting with the European children who fled the perils of World War II and ending with the Central American children who arrive every day at the U.S. southern border—Anita Casavantes Bradford traces the evolution of American policy toward unaccompanied children. At first a series of ad hoc Cold War-era initiatives, such policy grew into a more broadly conceived set of programs that claim universal humanitarian goals. But the cold reality is that decisions about which endangered minors are allowed entry to the United States have always been and continue to be driven primarily by a geopolitics of compassion that imagines these children essentially as tools of political statecraft. Even after the creation of the Unaccompanied Refugee Minors program in 1980, the federal government has failed to see migrant children as individual rights-bearing subjects. The claims of these children, especially those who are poor, nonwhite, and non-Christian, continue to be evaluated not in terms of their unique circumstances but rather in terms of broader implications for migratory flows from their homelands. This book urgently demonstrates that U.S. policy must evolve in order to ameliorate the desperate needs of unaccompanied children.

The UN Convention on the Rights of the Child John Tobin.2019-03-28 The United Nations Convention on the Rights of the Child is the most extensive and widely ratified international human rights treaty. This Commentary offers a comprehensive analysis of each of the substantive provisions in the Convention and its Optional Protocols on Children and Armed Conflict and the Sale of Children, Child Prostitution and Pornography. It offers a detailed insight into the drafting history of these instruments, the scope and nature of the rights accorded to children and the obligations imposed on states to secure the implementation of these rights. In doing so, it draws on the work of the Committee on the Rights of the Child, international, regional and domestic courts, academic and interdisciplinary scholarly analyses. It is of relevance to anyone working on matters affecting children including government officials, policy makers, judicial officers, lawyers, educators, social workers, health professionals, academics, aid and humanitarian workers, and members of civil society.

Local Peacebuilding and Legitimacy Landon E. Hancock,Christopher Mitchell.2018-02-15 This volume searches for pragmatic answers to the problems that continue to beset peacebuilding efforts at all levels of society, with a singular focus on the role of legitimacy. Many peacebuilding efforts are hampered by their inability to gain the support of those they are trying to help at the local level, or those at regional, national or international levels; whose support is necessary either for success at the local level or to translate local successes to wider arenas. There is no one agreed-upon reason for the difficulty in translating peacebuilding from one arena of action to another, but among those elements that have been

studied, one that appears understudied or assumed to be unimportant, is the role of legitimacy. Many questions can be asked about legitimacy as a concept, and this volume addresses these questions through multiple case studies which examine legitimacy at local, regional, national and international levels, as well as looking at how legitimacy at one level either translates or fails to translate at other levels, in order to correlate the level of legitimacy with the success or failure of peacebuilding projects and programs. The value of this work lies both in the breadth of the cases and the singular focus on the role of legitimacy in peacebuilding. By focusing on this concept this volume represents an attempt to build beyond the critical peacebuilding approach of deconstructing the liberal peacebuilding paradigm to a search for pragmatic answers to the problems that continue to plague peacebuilding efforts at all levels of society. This book will be of much interest to students of peacebuilding, conflict resolution, development studies, security studies and International Relations.

Suffer the Children Richard P. Hiskes. 2021-07-16 In 1973, Hillary Rodham Clinton famously stated that children's rights is a slogan in search of a definition, used to bolster various arguments for peace and for specific rights, but without any coherent conception of children as political beings. In 1989, the United Nations established the basis for this definition in the Convention on the Rights of the Child (CRC), a document every nation in the world, save the United States, has ratified. Still, human rights theorists, scholars, and jurists continue to disagree as to the theoretical justification for children's human rights. In *Suffer the Children*, Richard P. Hiskes establishes the first substantive theoretical foundation for the human rights of children. As Hiskes argues, recognizing the rights of children fundamentally alters the meaning and usefulness of human rights in a global context. Ironically, the case for children's rights, as Hiskes argues, should be seen as the evolution, distillation, or maturing of human rights in general. Children's human rights will end the debate about whether groups can have rights because, globally, many rights claims today are precisely group claims, including those from children. Moreover, Hiskes provides a new critical assessment of the United Nations CRC and explores child activism for human rights worldwide--in courts, on social networks, and in public demonstrations--to show how children are already claiming their rights in ways that will fundamentally change the meaning both of rights themselves and of democratic processes. Giving children rights in a way that avoids privileging any single cultural experience of children would make rights no longer a Western, individualistic idea, but a truly global one.

Home economics Sacha Hepburn. 2022-08-16 Domestic service has long been one of the largest forms of urban employment across southern Africa. *Home economics* provides the first comprehensive history of this essential sector in the decades following independence and the end of apartheid.

Focusing on Lusaka and drawing wider comparisons, the book traces how Black workers and employers adapted existing models of domestic service as part of broader responses to changing gendered employment patterns, economic decline, and endemic poverty. It reveals how kin-based domestic service gradually displaced wage labour and how women and girl workers came to dominate kin-based and waged domestic service, with profound consequences for labour regulation and worker organising. Theoretically innovative and empirically rich, the book provides essential insights into debates about gender, work, and urban economies that are critical to understanding southern Africa's post-colonial and post-apartheid history.

Advancing Equality Jody Heymann,Aleta Sprague,Amy Raub.2020-01-14 In a world where basic human rights are under attack and discrimination is widespread, Advancing Equality reminds us of the critical role of constitutions in creating and protecting equal rights. Combining a comparative analysis of equal rights in the constitutions of all 193 United Nations member countries with inspiring stories of activism and powerful court cases from around the globe, the book traces the trends in constitution drafting over the past half century and examines how stronger protections against discrimination have transformed lives. Looking at equal rights across gender, race and ethnicity, religion, sexual orientation and gender identity, disability, social class, and migration status, the authors uncover which groups are increasingly guaranteed equal rights in constitutions, whether or not these rights on paper have been translated into practice, and which nations lag behind. Serving as a comprehensive call to action for anyone who cares about their country's future, Advancing Equality challenges us to remember how far we all still must go for equal rights for all. Children's Rights Law in the Global Human Rights Landscape Eva Brems,Ellen Desmet,Wouter Vandenhoele.2017-04-21 Children's rights law is often studied and perceived in isolation from the broader field of human rights law. This volume explores the inter-relationship between children's rights law and more general human rights law in order to see whether elements from each could successfully inform the other. Children's rights law has a number of distinctive characteristics, such as the emphasis on the 'best interests of the child', the use of general principles, and the inclusion of 'third parties' (e.g. parents and other care-takers) in treaty provisions. The first part of this book questions whether these features could be a source of inspiration for general human rights law. In part two, the reverse question is asked: could children's rights law draw inspiration from developments in other branches of human rights law that focus on other specific categories of rights holders, such as women, persons with disabilities, indigenous peoples, or older persons? Finally, the interaction between children's rights law and human rights law - and the potential for their isolation, inspiration or integration - may be coloured or determined by the thematic issue under consideration. Therefore the third part of the

book studies the interplay between children's rights law and human rights law in the context of specific topics: intra-family relations, LGBTQI marginalization, migration, media, the environment and transnational human rights obligations.

Human Development Report 2015 United Nations Development Programme (UNDP).2016-01-22 This report takes a broad view of the link between work and human development. The report finds that work enhances human development when policies are taken to expand productive, remunerative and satisfying work opportunities. Workers' skills and potentials are enhanced, their well-being in terms of rights, safety and benefits are ensured with targeted interventions, and an agenda incorporating decent work, a new Social Contract and a Global Deal is pursued.

The SAGE Handbook of Early Childhood Policy Linda Miller,Claire Cameron,Carmen Dalli,Nancy Barbour.2017-07-30 Recent authoritative evidence suggests that an estimated 200 million children under five fail to achieve their developmental potential due to factors including poor health and nutrition and the lack of stable high quality care. A significant number of the world's children today lack the basic rights to health, development and protection. In light of such statistics, early childhood services for young children have expanded around the world. The SAGE Handbook of Early Childhood Policy draws critical attention to policy in Early Childhood Education and Care (ECEC) its relationship to service provision and its impact on the lives of children and families. Child Rights and Displacement in East Africa Cherie C. Enns, Willibard J. Kombe. 2022-09-01 Focusing on the intersection of spatial justice, child rights, and planning policy, this book investigates the challenges of resettlement in East Africa, where half of those displaced are children. The challenges created by displacement and resettlement are often considered from an adult-centric perspective by planners and humanitarian and development experts. The spatial injustice of displacement and resettlement, the agency of children, and the application of tools such as Child Participatory Vulnerability Index (CPVI) is siloed, commonly overlooked, or discounted. This book uses a CPVI and rights-based assessment of land-use policies, to investigate resettlement due to conflict and settlement in northern Uganda, floods due to climate change in Dar es Salaam, Tanzania, and urban to rural migration of children due to the AIDS pandemic in Western Kenya. Case studies from over a decade of field research are integrated with examples from applied planning projects and policy development in the East Africa region. This book uses spatial justice theory to show how child-friendly planning approaches can positively promote child rights in the context of resettlement. Providing important insights on how to enact child-friendly planning in informal settlements, refugee camps, and displacement camps, this book will be of interest to planning and development professionals, and researchers across the fields of children's rights, Development Studies, Planning, and African Studies.

Prisons, Punishment, and the Family Rachel Condry, Peter Scharff Smith. 2018 Every year millions of families are affected by the imprisonment of a family member. Children of imprisoned parents alone can be counted in millions in the USA and in Europe. It is a bewildering fact that while we have had prisons for centuries, and the deprivation of liberty has been a central pillar in the Western mode of punishment since the early nineteenth century, we have only relatively recently embarked upon a serious discussion of the severe effects of imprisonment for the families and relatives of offenders and the implications this has for society. This book draws together some of the excellent research that addresses the impact of criminal justice and incarceration in particular upon the families of offenders. It assembles examples of recent and ongoing studies from eight different countries in order to not only learn about the secondary effects and 'collateral consequences' of imprisonment but also to understand what the experiences and lived realities of prisoners' families means for the sociology of punishment and our broader understanding of criminal justice systems. While punishment and society scholarship has gained significant ground in recent years it has often remained silent on the ways in which the families of prisoners are affected by our practices of punishment. This book provides evidence of the importance of including families within this scholarship and explores themes of legitimacy, citizenship, human rights, marginalization, exclusion, and inequality.

This concise, accessible atlas is packed with exciting features, including: • short introductions to each topic • maps using the very latest data • infographics bringing this all to life • summaries of key information including league tables • core statistics on Europe Taken as a whole, the atlas shows how geographical and state boundaries only tell a partial story and that we still live in a far more cohesive Europe than we realise.

Citizenship, Law and Literature Caroline Koegler, Jesper Reddig, Klaus Stierstorfer. 2021-10-25 This edited volume is the first to focus on how

concepts of citizenship diversify and stimulate the long-standing field of law and literature, and vice versa. Building on existing research in law and literature as well as literature and citizenship studies, the collection approaches the triangular relationship between citizenship, law and literature from a variety of disciplinary, conceptual and political perspectives, with particular emphasis on the performative aspect inherent in any type of social expression and cultural artefact. The sixteen chapters in this volume present literature as carrying multifarious, at times opposing energies and impulses in relation to citizenship. These range from providing discursive arenas for consolidating, challenging and re-negotiating citizenship to directly interfering with or inspiring processes of law-making and governance. The volume opens up new possibilities for the scholarly understanding of citizenship along two axes: Citizenship-as-Literature: Enacting Citizenship and Citizenship-in-Literature: Conceptualising Citizenship.

The Oxford Handbook of Children's Rights Law Jonathan Todres, Shani M. King. 2020-02-19 Children's rights law is a relatively young but rapidly developing discipline. The U.N. Convention on the Rights of the Child, the field's core legal instrument, is the most widely ratified human rights treaty in history. Yet, like children themselves, children's rights are often relegated to the margins in mainstream legal, political, and other discourses, despite their application to approximately one-third of the world's population and every human being's first stages of life. Now thirty years old, the Convention on the Rights of the Child (CRC) signalled a definitive shift in the way that children are viewed and understood--from passive objects subsumed within the family to full human beings with a distinct set of rights. Although the CRC and other children's rights law have spurred positive changes in law, policies, and attitudes toward children in numerous countries, implementation remains a work in progress. We have reached a state in the evolution of children's rights in which we need more critical evaluation and assessment of the CRC and the large body of children's rights law and policy that this treaty has inspired. We have moved from conceptualizing and adopting legislation to focusing on implementation and making the content of children's rights meaningful in the lives of all children. This book provides a critical evaluation and assessment of children's rights law, including the CRC. With contributions from leading scholars and practitioners from around the world, it aims to elucidate the content of children's rights law, explore the complexities of implementation, and identify critical challenges and opportunities for children's rights law.
