*Images of the Body in India* Axel Michaels,Christoph Wulf.2012-03-12 This intriguing book engages with the concept of the body in its cultural context by acknowledging and demonstrating that the human body is understood differently in Western and Indian cultures. The contributors go on to show that any attempt to put forward a single concept of the body within Indian culture would be misleading. Divided into three parts, the book examines the considerable and often conflicting variations in body images and body concepts. In Part One the contributors focus on the representation of the body in religious and philosophical texts; representations that emerged from reading, translating and interpreting classical writings from diverse historical and anthropological approaches. Through predominantly ethnographic studies, Part Two explores the role of the body in narratives and ritual performance, from dance to ritualistic ceremonies. Visualisation processes of the body are examined in Part Three, focusing on developments in modern and contemporary periods: from visual practices at the Mughal court, to the multiple bodies of the bride, and the influence of new media. This volume is a fascinating collection of articles for those in the fields of sociology and anthropology, history, religion, cultural studies and South Asian studies.

*Becoming Judy Chicago* Gail Levin.2018-10-16 Born to Jewish radical parents in Chicago in 1939, Judy Cohen grew up to be Judy Chicago—one of the most daring and controversial artists of her generation. Her works, once disparaged and misunderstood by the critics, have become icons of the feminist movement, earning her a place among the most influential artists of her time. In *Becoming Judy Chicago*, Gail Levin gives us a biography of uncommon intimacy and depth, revealing the artist as a person and a woman of extraordinary energy and purpose. Drawing upon Chicago's personal letters and diaries, her published and unpublished writings, and more than 250 interviews with her friends, family, admirers, and critics, Levin presents a richly detailed and moving chronicle of the artist's unique journey from obscurity to fame, including the story of how she found her audience outside of the art establishment. Chicago revolutionized the way we view art made by and for women and fundamentally changed our understanding of women's contributions to art and to society. Influential and bold, *The Dinner Party* has become a cultural monument. *Becoming Judy Chicago* tells the story of a great artist, a leader of the women's movement, a tireless crusader for equal rights, and a complicated, vital woman who dared to express her own sexuality in her art and demand recognition from a male-dominated culture.

**A Dream in the World** Robin van Löben Sels.2004-03 How can science and religion co-exist in the modern discipline of psychotherapy? *A Dream in the World* explores the interfaces between religious experience and dream analysis. At the heart of this book is a selection of dreams presented by the author's patient during analysis, which are compared with the dreams of Hadewijch, a thirteenth century woman mystic. The patient's dreams led the modern woman to an unanticipated breakthrough encounter with the divine, her experience of soul. The experience reoriented and energized her life, and became her dream-in-the-world. Following Jung's idea that the psyche has a religious instinct, Robin van Loben Sels demonstrates that the healing process possible through psychotherapy can come from beyond the psyche and can not be explained by our usual theories of scientific psychology. Written in flowing, easily-read language *A Dream in the World* details a classical Jungian analysis of a woman's dreams, and searches the relationship between religious encounter, psyche and soul.

**Renowned Goddess of Desire** Loriliai Biernacki.2007-10-11 Tantra is a family of rituals modeled on those of the Vedas and their attendant texts and lineages. These rituals typically involve the visualization of a deity,

offerings, and the chanting of his or her mantra. Common variations include visualizing the deity in the act of sexual union with a consort, visualizing oneself as the deity, and transgressive acts such as token consumption of meat or alcohol. Most notoriously, non-standard or ritualized sex is sometimes practiced. This accounts for Tantra's negative reputation in some quarters and its reception in the West primarily as a collection of sexual practices. Although some today extol Tantra's liberating qualities, the role of women remains controversial. Traditionally there are two views of women and Tantra. Either the feminine is a metaphor and actual women are altogether absent, or Tantra involves the transgressive use of women's bodies to serve male interests. Loriliai Biernacki presents an alternative view, in which women are revered, worshipped, and considered worthy of spiritual attainment. Her primary sources are a collection of eight relatively modern Tantric texts written in Sanskrit from the 15th through the 18th century. Her analysis of these texts reveals a view of women that is generally positive and empowering. She focuses on four topics: 1) the Kali Practice, in which women appear not only as objects of reverence but as practitioners and gurus; 2) the Tantric sex rite, especially in the case that, contrary to other Tantric texts, the preference is for wives as ritual consorts; 3) feminine language and the gendered implications of mantra; and 4) images of male violence towards women in tantric myths. Biernacki, by choosing to analyse eight particular Sanskrit texts, argues that within the tradition of Tantra there exists a representation of women in which the female is an authoritative, powerful, equal participant in the Tantric ritual practice.

**Sacred Practices for Conscious Living** Nancy J. Napier.2016-06 Now, nearly two decades later, Napier is ready to share more of her own life story while returning to the subject she was first introduced to by her grandmother. As she comes again to the topic that pervades her life story, she focuses on several themes, including: - the importance of experiencing a sense of meaning in life; - the sacred nature of all beings and life itself; - the belief that everything is an essential part of the full expression of one life, both individually and collectively, and that we inherently draw from an underlying wholeness; - the power of what it means to be aware in the present moment; and, - the fact that suffering is part of everyday life, and we can learn to move through it. Napier explains that once we recognize our place within collective consciousness-- and focus on compassion and mindfulness--we can begin to experience more directly the interdependence and interconnection underlying our place in the universe.

*The Snake and the Rope* Elder.2012-04 While there are many psychological monographs on Hinduism, no work has surveyed the history of that tradition in a sustained way. Thus, *The Snake and the Rope: A Jungian View of Hinduism* breaks new ground both for religious studies and for psychology. Trained on both sides of the argument, the author of this work is uniquely qualified to elucidate what, for example, the Vedic hymns meant to the people who composed them and what they might mean for us today. He shows us what karma means for Hindus and what Jung says it can mean for us. We learn how Jungians use the term Self that Jung borrowed from the Upanishads and how it is the same and different in its new, modern context. The reader will witness a red thread of goddess worship from earliest India to Classical Hinduism. Jung says the modern equivalent is devotion to the collective unconscious deep within ourselves. Having served as a Peace Corps Volunteer in a Thai village in the late 1960's, George R. Elder returned to the States to earn a Ph. D. in Buddhist Studies from Columbia University. He subsequently taught Comparative Religions at Hunter College (City University of New York) and would co-chair the Religion Program for several years. In 1989, Dr. Elder and his family relocated to Florida. He trained to become a Jungian analyst and maintains a professional relationship with the C.G. Jung Study Center of Southern California. His works include *The Body: An Encyclopedia of Archetypal Symbolism* in collaboration with ARAS (Shambhala, 1996). He recently co-edited *An American Jungian: In Honor of Edward F. Edinger*(Inner City, 2009).

In this volume, *Water and Women in Past, Present and Future*, scholars analyze the gendered political economy of water resource allocations and importantly, offer recommendations for viable, women-friendly solutions to address scarcity and distribution, among other issues. Contributors also explore feminist analyses of the aesthetic dimension of water and the feminine, since water is often associated with women, shown in cross-cultural examples of mythology, symbols and legends. Intersecting the fields of hydro-politics and aesthetics, this book should be of interest to policy analysts, activists, and academics.

Women Filmmakers of the African & Asian Diaspora Gwendolyn Audrey Foster.1997-05-01 Black women filmmakers not only deserve an audience, Gwendolyn Audrey Foster asserts, but it is also imperative that their voices be heard as they struggle against Hollywood's constructions of spectatorship, ownership, and the creative and distribution aspects of filmmaking. Foster provides a voice for Black and Asian women in the first detailed examination of the works of six contemporary Black and Asian women filmmakers. She also includes a detailed introduction and a chapter entitled Other Voices, documenting the work of other Black and Asian filmmakers. Foster analyzes the key films of Zeinabu irene Davis, one of a growing number of independent Black women filmmakers who are actively constructing [in the words of bell hooks] 'an oppositional gaze'; British filmmaker Ngozi Onwurah and Julie Dash, two filmmakers working with time and space; Pratibha Parmar, a Kenyan/Indian-born British Black filmmaker concerned with issues of representation, identity; cultural displacement, lesbianism, and racial identity; Trinh T. Minh-ha, a Vietnamese-born artist who revolutionized documentary filmmaking by displacing the voyeuristic gaze of the ethnographic documentary filmmaker; and Mira Nair, a Black Indian woman who concentrates on interracial identity.

**Ambiguous Images** Kelley Hays-Gilpin.2004 What does rock art say about gender and how can our understanding of gender shape the way that we view rock art? A significant contribution to the relatively unexplored field of gender in rock art, this volume contains a wealth of information for archaeologists, anthropologists, and art historians interested in past gender systems. Hays-Gilpin argues that art is at once a product of its physical and social environment and at the same time a tool of influence in shaping behavior and ideas within a society. Taking this stance, rock art is shown to be very often one of the strongest lines of evidence available to scholars in understanding ritual practices, gender roles, and ideological constructs of prehistoric peoples. Subsequently issues of representation and the people who made these forms of art are also discussed.

**Kiss of the Yogini** David Gordon White.2006-07-07 For those who wonder what relation actual Tantric practices bear to the Tantric sex currently being marketed so successfully in the West, David Gordon White has a simple answer: there is none. Sweeping away centuries of misunderstandings and misrepresentations, White returns to original texts, images, and ritual practices to reconstruct the history of South Asian Tantra from the medieval period to the present day. *Kiss of the Yogini* focuses on what White identifies as the sole truly distinctive feature of South Asian Tantra: sexualized ritual practices, especially as expressed in the medieval Kaula rites. Such practices centered on the exchange of powerful, transformative sexual fluids between male practitioners and wild female bird and animal spirits known as Yoginis. It was only by drinking the sexual fluids of the Yoginis that men could enter the family of the supreme godhead and thereby obtain supernatural powers and transform themselves into gods. By focusing on sexual rituals, White resituates South Asian Tantra, in its precolonial form, at the center of religious, social, and political life, arguing that Tantra was the mainstream, and that in many ways it continues to influence contemporary Hinduism, even if reformist misunderstandings relegate it to a marginal position. *Kiss of the Yogini* contains White's own translations from over a dozen Tantras that have never before been translated into any European language. It will prove to be the definitive work for persons seeking to understand Tantra and the crucial role it has played in South Asian history, society, culture, and religion.

**The Old Woman's Daughter** Claire Douglas.2006 Also available in an open-access, full-text edition at <http://oaktrust.library.tamu.edu/handle/1969.1/86078> The Old Woman's Daughter offers men and women alike a way to make sense of their lives and find more healing alternatives than offered by our present culture. In gentle, evocative imagery, Jungian analyst Claire Douglas invites readers to reconnect with the ancient tradition of the feminine, the Old Woman, symbolized by her own Celtic grandmother. After considering the dangers to individuals and the society of the masculine-focused dualities of our own culture, Douglas describes an alternative that incorporates the feminine self within each of us, man or woman. Douglas draws on myth and story, her own experiences, poetry, the dreams of some of her patients, and images available from Tibetan Buddhism to find archetypes that help us recognize our inheritance from the Old Woman. She describes a form of therapy that emphasizes cherishment or bonding for the purpose of recovering our ties to the ancient feminine, and she deftly incorporates her search for her own voice in shaping the book into an organic whole. Rising from Douglas's lifelong interest in the psychology of the feminine, this book shows how healing is related naturally to a Motherline of attunement, connection, and cherishment.

*The Domain of Constant Excess* Rohan Bastin.2002-12-01 The Sri Lankan ethnic conflict that has occurred largely between Sinhala Buddhists and Tamil Hindus is marked by a degree of religious tolerance that sees

both communities worshipping together. This study describes one important site of such worship, the ancient Hindu temple complex of Munnesvaram. Standing adjacent to one of Sri Lanka's historical western ports, the fortunes of the Munnesvaram temples have waxed and waned through the years of turbulence, violence and social change that have been the country's lot since the advent of European colonialism in the Indian Ocean. Bastin recounts the story of these temples and analyses how the Hindu temple is reproduced as a center of worship amidst conflict and competition.
