Robert Persons S.J., The Christian Directory (1582): The First Booke of the Christian Exercise, Appertayning to Resolution Robert Persons S.J..2021-11-22 This volume presents a critical edition of the immensely influential and popular first version of The Christian Directory, by the notorious Elizabethan Jesuit leader, Robert Persons. It was written during and immediately after the English Mission of 1580-1, which ended with the martyrdom of his companion Edmund Campion. Persons's work, originally entitled The First Booke of the Christian Exercise, appertayning to Resolution, attempts to persuade the reader to be resolved in the service of God. It deals with the motives and obstacles to such resolution. This edition includes a full apparatus of the alterations made to Persons's work by the Edmund Bunny, whose Protestant edition became an Elizabethan bestseller. It will be particularly useful to historians of the Catholic reformation and students of early modern English prose.

Fishing in Many Waters James Hornell.2015-02-12 Originally published in 1950, this book presents a comprehensive anthropological discussion of fishing written by the renowned British ethnographer and zoologist James Hornell (1865-1949). The text begins with an account of methods and tools used in fishing, before moving on to the processes of fishing in different parts of the world, including, but not limited to, India, Sri Lanka, the Far East and Polynesia. Numerous illustrative figures and a bibliography are also incorporated. This book will be of value to anyone with an interest in anthropology, ethnography and the history of fishing.

The Century Atlas of the World (Classic Reprint) Benjamin E. Smith.2017-10-29 Excerpt from The Century Atlas of the World All the maps have been made especially for this Atlas, and have been based upon the latest and best official information, with a comparison of the results of recent explorations. Those of the United States are founded upon maps issued by the United States government, and also upon many others published by State and local authorities; those of England, on the map of the Ordnance Survey; and those of all other countries upon similar authoritative materials. The railroads, which are printed in red to increase the legibility and attractiveness of the maps, are shown in accordance with the most recent official information; the figures for depth of water in seas, bays, and harbors have been taken from the British Admiralty charts and those of the United States Hydrographic Office; the heights of mountains and the elevations of lakes are those given by the latest surveys; and the various political divisions are exhibited in accordance with the most recent adjustments. In portraying the mountain systems of the United States a feature has been introduced which is a novelty in general atlases, namely, lines of equal elevation above the sea (contour-lines), which have been printed in olive or brown. These have been taken from the published results of the Government Surveys, and are given for elevations of 100, 500, feet, etc. This method has been extended to the maps of Mexico also, by means of determinations furnished by Mr. H. M. Wilson of the Geological Survey. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
