Youth Violence Prevention Resources .2000

The Youth Relationships Manual David A. Wolfe.1996-04 Help teens who are at risk of experiencing or perpetuating abuse with The Youth Relationships Manual. Designed to build strengths, resilience, and coping, this manual, field-tested with the Youth Relationships Project, presents proactive, competency-building approaches to promoting nonviolent relationships and preventing cycles of violence. Based on the premise that the best window of opportunity for developing healthy relationships is in adolescence, the model guides teens to positive roles in dating, peer interactions, and interpersonal style. David A. Wolfe and his associates detail a carefully developed and tested curriculum for an 18-session group training program that includes three principal sections: informational, skills building, and social action learning opportunities. As a part of the program, teens learn new communication and conflict resolution skills and practice those skills by going out into the community to solve a hypothetical problem situation. Innovative and easy to follow, The Youth Relationships Manual provides mental health professionals, school counselors and administrators, community agency workers and administrators, and students in the helping professions with a vital tool for helping teens at risk develop healthy relationships.

Teens Who Hurt Kenneth V. Hardy, Tracey A.

Laszloffy. 2006-10-23 Offering a fresh perspective on treatment, this book presents an overarching framework and numerous specific strategies for working with violent youth and their families. The authors draw on extensive experience to identify four critical factors that push some adolescents to commit harmful, even deadly acts: devaluation, erosion of community, dehumanized loss, and rage. Effective ways to address each of these factors in clinical and school settings are discussed and illustrated with evocative case material. The book also provides essential guidance on connecting with aggressive teens--many whom have endured traumas of their own--managing difficult situations that are likely to arise in therapy.

Adolescent Dating Violence David Wolfe, Jeff R.

Temple.2018-06-25 Adolescent Dating Violence: Theory, Research, and Prevention summarizes the course, risk/protective factors, consequences and treatment/prevention of adolescent dating violence. Dating violence is defined as physical, sexual, psychological, and cyber behavior meant to cause emotional, physical, or social harm to a current or former intimate partner. The book discusses research design and measurement in the field, focuses on the recent influx of longitudinal studies, and examines prevention and intervention initiatives. Divided into five sections, the book begins by reviewing theory on and consequences of dating violence. Section II discusses risk factors and protective factors such as peer influences, substance use, and past exposure to violence in the family of origin. Section III discusses how social and cultural factors can influence teen dating violence, addressing the prevalence of dating violence among different ethnicities and among LGBTQ teens, and the influence of social media. Section IV discusses recent research priorities including gender inequality, measurement, psychological abuse, and the dual nature of dating violence during adolescence. Section V reviews evidence-based practice for treatment and prevention across various age groups and settings. Encompasses physical, sexual, psychological and cyber violence Introduces theory on dating violence Emphasizes results from longitudinal studies and intervention initiatives Highlights the influence of social media and technology on dating violence Discusses ethnic, gender and other social and cultural differences in prevalence Examines evidence-based practice in treatment and prevention

Dating Violence Laura La Bella.2015-07-15 Women between the ages of sixteen and twenty-four experience the highest rate of dating violence—almost triple the national average. Youth Violence United States. Public Health Service. Office of the Surgeon General.2000 This report from the United States Surgeon General is the result of a review of the scientific literature and analyses of new data relating to youth violence. It identifies and quantifies factors, in particular settings of combinations, that increase the probability that violence will occur. It also presents an array of interventions of well-documented effectiveness in helping young people whose lives are already marked by a propensity for violence as well as in preventing others from viewing violence as a solution to needs, wants, or problems. This report is divided into six chapters. The first serves as an introduction and offers chapter conclusions for chapters two through five. Those chapters discuss the magnitude of youth violence; the developmental dynamics of youth violence; risk factors for youth violence; and prevention and intervention. The final chapter examines a vision for the future. Each chapter includes a list of references. The executive summary of this report is included in a separate booklet. (Contains an index.) (MKA)

When Dating Becomes Dangerous Barrie Levy,Patricia Occhiuzzo Giggans.2013-11-05 Send your teenager out into the dating world equipped with the knowledge, strength, and communication skills to walk away from abusive relationships--and to develop healthy ones. Send your teenager out into the dating world equipped with the knowledge, strength, and communication skills to walk away from relationships that are abusive--and to develop healthy ones.As our kids grow older and they start asserting their independence, we worry about their safety and well being. And when it comes to dating and intimacy, it is hard to know how to protect them when a would-be gentle relationship turns violent, be it verbally or physically. The fact is that as many as one in four high school and college-aged youth are affected by an abusive relationship. So, how do we as parents protect our kids from becoming another statistic? And how do we give them the self-assurance to leave a dangerous situation?In this informative guide for parents, Barry Levy and Patricia Occhiuzzo Giggans, both experts in relationship violence, draw on their professional experience to provide guidance for getting through the relationship challenges kids, both gay and straight,

face today. Here you'll discover: How to give your teen the skills to encourage healthy relationships Why many teenagers hide their abusive relationship How to recognize the warning signs of dating violence, including cyber abuse What to do if your child is the abuser, and when girls are the perpetrator of abuse

Promoting Teen Health Alan Henderson, Sally Champlin, William Evashwick. 1998-05-13 Promoting Teen Health offers an overview of some of the most serious problems confronting today's young people and ways to address them through health promotion and education. The first part of the volume covers a broad range of teen health problems, including tobacco, alcohol, and other substance abuse; pregnancy and sexually transmitted diseases; mental health problems; and youth violence. Each chapter addresses a specific problem, presenting recent demographic information concerning the problems discussed and strategies that have been shown to work. Resources are included for many of the problems addressed. Following a transition chapter that discusses factors associated with success in health education programs, the second section of the book describes several actual teen health promotion programs, along with the way they were funded, an evaluation of why they were successful, and a brief perspective from one of the participants. Promoting Teen Health is intended for healthcare and social science professionals engaged in helping young people cope and succeed. It is a must as a general update or practical shelf reference.

Adolescent Risk Behaviors David A. Wolfe, Peter G. Jaffe, Claire V. Crooks. 2008-10-01 This book focuses on the crucial role that relationships play in the lives of teenagers. The authors particularly examine the ways that healthy relationships can help teens avoid such common risk behaviors as substance abuse, dating violence, sexual assault, and unsafe sexual practices. Addressing the current lack of effective prevention programs for teens, they present new strategies for encouraging healthy choices. The book first traces differences between the "rules of

relating” for boys and girls and discusses typical and atypical patterns of experimentation in teens. The authors identify the common link among risk behaviors: the relationship connection. In the second part of the book, they examine the principles of successful programs used by schools and communities to cultivate healthy adolescent development. An illuminating conclusion describes the key ingredients for engaging adolescents, their parents, teachers, and communities in the effort to promote healthy, nonviolent relationships among teens.

Abuse prevention programs that provide education, respite and crisis care, and support groups for children, teens, adults, and communities are presented. A section on strategies for positive parenting discusses child discipline, anger management, leaving children home alone, and helping children who have been sexually abused. A glossary of related terms and directories of additional resources are also included

Helping Your Children Navigate Their Teenage Years White House Counsel on Youth Violence (U.S.).2000

Teen Violence Workbook Ester A. Leutenberg,John J. Liptak.2013 Teen violence can break out anywhere and at any time. Violent behavior in teens can include a wide range of behaviors including: explosive temper tantrums, date rape, physical aggression, school shootings, suicide, bullying, fighting, threats or attempts to hurt others (including homicidal thoughts),

use of weapons, cruelty toward animals, fire setting, and intentional destruction of property. What are the risk factors? Violent behavior is experienced on an individual basis, so it is difficult to pinpoint specific risk factors. Signs that suggest violent behavior is imminent include antisocial beliefs and behaviors, use of drugs and alcohol, gang involvement, lack of commitment to school, victim of teasing or bullying, poor anger management and conflict resolution skills, and interpersonal problems. The question of why teens become violent has been thoroughly researched and studied. Unfortunately, pinpointing the exact causes of teen violence is complex. Some of the potential causes include: Teens tend to model behavior - When teens see violence from family members at home, from actors and actresses in the movies, in video games they play, in the form of gangs in their community, from bullies at school, and on the Internet, they are often inclined to replicate such behaviors. This theory, Social Learning Theory, suggests that most behaviors are learned through observation and modeling. Teens often have difficulty appropriately channeling their frustrations and lash out in anger. These frustrations can include such factors as being bullied in school, having a learning disability and not being able to do well in school, feeling pressured by peers to do things they don't want to do, experiencing pressure from parents to succeed. Teens often become enraged and seek revenge on those who bully or hurt them. Some teens, tired of being bullied or abused, simply lash out in revenge. Over the last century many different workbooks, workshops, and self-help systems have been designed to help people explore ways of safely dealing with teen violence. In the past twenty years, many research studies have focused on the value of self-reflection and journaling as a way of exploring personal characteristics, identifying ineffective behaviors, and examining thoughts and feelings that lead to these ineffective behaviors. This book is unique in that it combines two powerful psychological tools designed to enhance domestic violence coping

skills: self-assessment and journaling. The Teen Violence Workbook, contains five separate sections that will help participants learn more about themselves as well as the impact of dating relationships and violence in their lives. Participants will develop an awareness of the violence that they are exposed to daily. They will complete assessments and activities to help them explore the violence in their lives and develop strategies for coping with violence. The sections in the book are: Types of Violence Scale helps individuals explore the types of abuse they are experiencing in their relationships. These teen violence types include sexual abuse, physical abuse, verbal/emotional abuse and financial abuse. Self-Empowerment Signs Scale helps individuals explore whether they are empowered to avoid or reject violent acts. Dating Violence Scale helps individuals identify if they or their relationship partners possess harmful beliefs about dating relationships. Personal Safety Scale helps individuals examine how cautious they are being to remain safe in a violent society. Symptoms of Dating Violence Scale helps individuals explore the signs related to violence, and determine if they are experiencing violence in their life. This book has been designed as a practical tool for helping professionals, such as therapists, school counselors, psychologists, guidance counselors, teachers and group leaders. Depending on the role of the professional using the Teen Violence Workbook and the specific group's needs, these sections can be used individually.

Adolescent Violence in the Home Gregory Routt,Lily Anderson.2014-08-07 Adolescent Violence in the Home examines a form of violence that has a profound impact on families but is often overlooked and frequently misunderstood: teen aggression and violence toward members of their family—especially parents. Violence in adolescents is often seen as the result of a mental-health diagnosis, delinquency, or as a response to dysfunctional parenting, and though understanding a youth’s mental-health status or a parenting style can be helpful, complete focus on either is misplaced. Adolescent Violence in the Home uses a restorative framework, developed by the authors and in use in court systems and organizations around the world, to situate violent behaviors in the context of power and the intergenerational cycle of violence. Readers will come away from this book with a profound understanding of the social and individual factors that lead youth to use violence and how adolescent violence affects parents, and they’ll also learn about a variety of interventions that specifically address teen violence against parents.

Stalking Laura La Bella.2015-07-15 Stalking is a serious crime that affects millions of people, most of them women.
