Then she has an idea! Mistletoe knits from morning to night--when she's reading, when she's baking, and even in the bath (which isn't easy). By the time Christmas morning arrives, she puts down her knitting needles. Her gift for Norwell is ready--and it is perfect. Full of holiday cheer and filled with the true meaning of Christmas, here is a new story from master picture book creator Tad Hills that introduces two warm and funny characters to love.

Show Way Jacqueline Woodson.2005-09-08 Winner of a Newbery Honor! Soonie's great-grandma was just seven years old when she was sold to a big plantation without her ma and pa, and with only some fabric and needles to call her own. She pieced together bright patches with names like North Star and Crossroads, patches with secret meanings made into quilts called Show Ways -- maps for slaves to follow to freedom. When she grew up and had a little girl, she passed on this knowledge. And generations later, Soonie -- who was born free -- taught her own daughter how to sew beautiful quilts to be sold at market and how to read. From slavery to freedom, through segregation, freedom marches and the fight for literacy, the tradition they called Show Way has been passed down by the women in Jacqueline Woodson's family as a way to remember the past and celebrate the possibilities of the future. Beautifully rendered in Hudson Talbott's luminous art, this moving, lyrical account pays tribute to women whose strength and knowledge illuminate their daughters' lives.

Start with Why Simon Sinek.2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same

way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

The Noisy Paint Box: The Colors and Sounds of Kandinsky's Abstract Art Barb Rosenstock.2014-02-11 A Caldecott Honor Book Vasya Kandinsky was a proper little boy: he studied math and history, he practiced the piano, he sat up straight and was perfectly polite. And when his family sent him to art classes, they expected him to paint pretty houses and flowers—like a proper artist. But as Vasya opened his paint box and began mixing the reds, the yellows, the blues, he heard a strange sound—the swirling colors trilled like an orchestra tuning up for a symphony! And as he grew older, he continued to hear brilliant colors singing and see vibrant sounds dancing. But was Vasya brave enough to put aside his proper still lifes and portraits and paint . . . music? In this exuberant celebration of creativity, Barb Rosenstock and Mary GrandPré tell the fascinating story of Vasily Kandinsky, one of the very first painters of abstract art. Throughout his life, Kandinsky experienced colors as sounds, and sounds as colors—and bold, groundbreaking works burst forth from his noisy paint box. Backmatter includes four paintings by Kandinsky, an author's note, sources, links to websites on synesthesia and abstract art.

What Painting Is James Elkins.2004-11-23 Unlike many books on painting that usually talk about art or painters, James Elkins' compelling and original work focuses on alchemy, for like the alchemist, the painter seeks to transform and be transformed by the medium. In *What Painting Is*, James Elkins communicates the experience of painting beyond the traditional vocabulary of art history. Alchemy provides a magical language to explore what it is a painter really does in her or his studio - the smells, the mess, the struggle to control the uncontrollable, the special knowledge only painters hold of how colours will mix, and how they will look.

Written from the perspective of a painter-turned-art historian, *What Painting Is* is like nothing you have ever read about art.

The Origin of Consciousness in the Breakdown of the Bicameral Mind Julian Jaynes.2000-08-15 National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, The New Yorker "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—American Journal of Psychiatry
