This chance meeting is just the start of what will become the greatest adventure of his life. The next day, Ishmael joins the crew of a ship known as the Pequod. He is approached by a man dressed in rags who warns him that, if he sails under the command of Captain Ahab, he may never come back. Undaunted, Ishmael returns early the next morning and leaves for the high seas. For the crew of the Pequod, their voyage is one of monetary gain. **The Upper Half of the Motorcycle** Bernt Spiegel.2019-08-13  
Bernt Spiegel's *The Upper Half of the Motorcycle* was a best-selling motorcycling book in its original German with multiple editions and printings to its credit. Now translated into English, its provocative message is available to a wider audience. Spiegel's metaphor considers the rider and the motorcycle as a single unit, the rider being the upper half. Taking a multidisciplinary approach, the author draws on anthropology, psychology, biology, physics, and other disciplines to analyze the theory and function of the man-machine unit. Motorcycle riding is seen as a junction where people have created machines for personal transport and then become so adept at using them that the machine becomes like an extension of the rider themselves. The ultimate goal for

riders is the integration of the man-machine interface and subsequent skill development to the point of virtuosity. Spiegel considers the various aspects of motorcycle riding that must be understood, practiced, and mastered before virtuosity can be attained. Many anecdotes, supplementary material, and in-depth treatment of specialized topics is contained in sidebars and footnotes. Numerous diagrams and photographs illustrate the book's principles allowing the reader to consider and develop their riding skill set.

*Tarzan Economics* Will Page.2023-01-05 A stunning new insight into how the most crucial lesson you can learn in today's challenging business environment is how to change the fundamentals of what you do, rather than carry on fighting a battle that is already lost. The near destruction of the music industry at the hands of online piracy and its subsequent recovery on the backs of digital streaming platforms is more than just the biggest story of disruption and reinvention of the digital age. It is also a trove of insights on how to confront the metamorphosis we

are all facing in dealing with the Covid-19 era, as accelerating tech and economic changes reshape our work, our play and our very minds. Will Page, Spotify's first chief economist, extrapolates music's journey into eight guiding principles for pivoting through the ubiquitous disruption in nearly all industries. Expect the unexpected with transferable lessons coming from Starbucks, Tupperware and even Groucho Marx. The notion of 'Tarzan Economics' ties these principles together: a framework for recognising and acting on disruption, by letting go of the old vine and grabbing onto the new. Page joyfully brings these insights to life and provides a guide for knowing not just how to grab the new vine, but when. He assesses the new dynamics of the 'long tail', identifies friends and foes in the battle for scarce attention and provides a practical tool for discovering the right role for each of us to succeed in this new modern world. As we emerge from the unprecedented disruption of a global pandemic, Pivot shows all of us - individuals, organisations and institutions - that if the vine we are holding onto is withering, we can have confidence to reach out for a new one in 2023 and beyond.

**The Real Deal** Joe McNally.2021-10-19

**Photographer and best-selling author Joe McNally shares stories and lessons from a life in photography.**

When Joe McNally moved to New York City in 1976, his first job was at the *Daily News* as a copyboy, "the wretched dog of the newsroom." He was earning the lowest pay grade possible and living in a cheap hotel in Manhattan. Life was not glamorous. But with a fierce drive, an eye for a picture, and a willingness to take (almost) any assignment that came his way, Joe stepped out onto the always precarious tightrope of the freelance photographer—and never looked back. Fast forward 40 years, and

his work has included assignments and stories for *National Geographic*, *Time*, *LIFE*, *Sports Illustrated*, and more. He has traveled for assignments to nearly 70 countries and received dozens of awards for his photography.

In *The Real Deal*, Joe tells us how it all started, and candidly shares stories, lessons, and insights he has collected along the way. This is not a dedicated how-to book about “where to put the light,” though there is certainly instructional information to be gleaned here. This is also not a navel-gazing look back at “the good old days,” because those never really existed anyway. Instead, *The Real Deal* is simply a collection of candid “field notes”—some short, some quite long—gathered over time that, together, become an intimate look behind the scenes at a photographer who has pretty much seen and done it all.

Though the photography industry bears little resemblance to the industry just 10 years ago (much less 40 years ago), what it really takes to become a successful photographer—the character traits, the fundamental lessons, the ability to adapt, and then adapt again—remains the same. Joe writes about everything from the crucial ability to know how to use (and make!) window light to the importance of creating long-term relationships built on trust; from lessons learned after a day in the field to the need to follow your imagination wherever it takes you; from the “random” and “lucky” moments that propel one’s career to the wonders and pitfalls of today’s camera technology. For every mention of f-stops and shutter speeds, there is equal discussion about the importance of access, the occasional moment of hubris, and the idea of becoming iconic.

Before Joe was a celebrated and award-winning photographer, before he was a well-respected educator and author of multiple bestselling books, he was just...Joe, hustling every day, from one assignment to the next, piecing together a portfolio, a skill set, a

### **The Man Who Made Things Out of Trees** Robert

Penn.2016-07-25 The story of how one man cut down a single tree to see how many things could be made from it. Out of all the trees in the world, the ash is most closely bound up with who we are: the tree we have made the greatest and most varied use of over

the course of human history. One frigid winter morning, Robert Penn lovingly selected an ash tree and cut it down. He wanted to see how many beautiful, handmade objects could be made from it. Thus begins an adventure of craftsmanship and discovery. Penn visits the shops of modern-day woodworkers—whose expertise has been handed down through generations—and finds that ancient woodworking techniques are far from dead. He introduces artisans who create a flawless axe handle, a rugged and true wagon wheel, a deadly bow and arrow, an Olympic-grade toboggan, and many other handmade objects using their knowledge of ash's unique properties. Penn connects our daily lives back to the natural woodlands that once dominated our landscapes. Throughout his travels—from his home in Wales, across Europe, and America—Penn makes a case for the continued and better use of the ash tree as a sustainable resource and reveals some of the dire threats to our ash trees. The emerald ash borer, a voracious and destructive beetle, has killed tens of millions of ash trees across North America since 2002. Unless we are prepared to act now and better value our trees, Penn argues, the ash tree and its many magnificent contributions to mankind will become a thing of the past. This exuberant tale of nature, human ingenuity, and the pleasure of making things by hand chronicles how the urge to understand and appreciate trees still runs through us all like grain through wood.

What constitutes dog training and what is it good for? And how can you and your French Bulldog profit from it without having any experience? The most important thing is to understand how a dog sees his world, what is normal for him and how you can use

this to your advantage. In addition, the characteristics of each breed are significant when you get beyond the basic training phase. Your French Bulldog will show characteristics which are different to those of a Husky, for example, and this is predominantly what you need to consider during training. This book is vol. 1 of the French Bulldog training books. Vol. 2 for your grown up French Bulldog is also available with the title French Bulldog Training Vol. 2: Dog Training for your grown-up French Bulldog Author Claudia Kaiser says about her book: It was my desire to let other dog owners profit from the knowledge I have gained over many years, and after making many mistakes. Quench your curiosity to know about background information, read reports on other experiences and obtain step-by-step instructions and secret tips which are tailor-made for your French Bulldog. **Wayward** Chris Burkard.2022-02-01 Breathtaking photographs and deeply personal stories from a leading surfing and nature photographer, conservation advocate, and social media force Wayward is a collection of striking photographs and the revealing personal stories behind them by one of the leading surf, nature, and adventure photographers of our time. At remote beaches and

locales in places like Russia, Norway, Iceland, and the Aleutian Islands, Chris Burkard suffered from hypothermia, destroyed thousands of dollars' worth of camera gear, and spent a few nights in jail. But in the process, he captured amazing and iconic images that have defined his life's work. And while millions have seen his photographs in magazines, marketing campaigns for Patagonia, Sony, and others, and via his social media, Burkard has never given a full account of these journeys--until now. With never-before-seen images and the stories behind them, Burkard crafts an original narrative that combines the page-turning drama of a great explorer's adventure story and the immediacy and power of unforgettable photographs. Chronicling both the failures and the successes he has experienced in building a career, Burkard shares an infectious passion for photography, surfing, and chasing dreams in some of the world's most awe-inspiring places.

Digital Business Leadership Ralf T. Kreutzer, Tim

Neugebauer, Annette Pattloch. 2018-04-27 This book provides specialists and executives with a clear, yet practical set of recommendations to meet the challenges of digital transformation and ensure long-term success as a leader in a primarily digital business world. The authors describe the fundamental principles of digitization and its economic opportunities and risks, integrating them into a framework of classic and new management methods. The book also explores how increasing digitization - not only of communication, but of complete value chains - has led to a need to establish a digital business leadership. Digitization is changing people and markets: it causes the upheaval of entire industries, creates new digital-centric companies, and forces established companies to cope with the transformation activities associated with these digitization processes. New approaches and methods have to be learned, tried and tested patterns of thinking have to be explored, and last but not least, innovation activities have to be understood as

continuous necessities. At the same time, digital business offers considerable opportunities for renewing competitive advantages, improving existing process structures and realigning products, services and business models.

**Mother, Brother, Lover** Jarvis Cocker.2011-10-20 Jarvis Cocker is widely regarded as one of the most original and memorable lyricists and performers of the last three decades. Here, for the first time, is a selection of sixty-six lyrics, presented with commentary and an introduction by the man himself. In this volume, readers (and Pulp fans) will find such classic Jarvis lyrics as 'Common People', 'Disco 2000', 'Babies', 'This is Hardcore' and 'Do You Remember the First Time?' The selection, assembled by the author, reveals a sensibility that is unmistakably Jarvis: a sometimes visceral, sometimes everyday take on love, relationships and the things we do to each other when the lights get low. *Mother, Brother, Lover* takes the reader on a thirty-year tour into the life, art and preoccupations of one of the great British artists of the late twentieth century. Shocking, sharp, clever and funny, it is a beautiful collection of lyrics and commentary.
