**Religious Imaginations** James Walters.2018-12-15 Market globalization, technology, climate change, and postcolonial political forces are together forging a new, more modern world. However, caught up in the mix are some powerful religious narratives that are galvanizing peoples and reimagining – and sometimes stifling – the political and social order. Some are repressive, fundamentalist imaginations, such as the so-called Islamic Caliphate. Others could be described as post-religious, such as the evolution of universal human rights out of the European Christian tradition. But the question of the compatibility of these religious worldviews, particularly those that have emerged out of the Abrahamic faith traditions, is perhaps the most pressing issue in global stability today. What scope for dialogue is there between the Jewish, Muslim, and Christian ways of imagining the future? How can we engage with these multiple imaginations to create a shared and peaceful global society? *Religious Imaginations* is an interdisciplinary volume of both new and well-known scholars exploring how religious narratives interact with the contemporary geopolitical climate.

**Diffused Religion** Roberto Cipriani.2017-10-26 This book explores the concept of diffused religion as it is found in contemporary society, resulting from a vast process of religious socialisation that continues to pervade our cultural reality. It provides a critical engagement with a framework of non-institutional religion that is based on values largely shared in society by being diffused through primary and secondary socialisation. Cipriani also contends that these very values which give form to diffused religion can also be seen in themselves as their own kind of religion. As a result, they go beyond secularisation and favour the religious continuum extending around the world of diffused religions. This work will be of great interest to scholars in the Sociology of Religion and to anyone wanting to learn more about the social aspects of religion.

**Church and State** John R. Stumme,Robert W. Tuttle. In an age marked by controversy over public support of religious schools, federal encouragement of religious providers of social services, and sexuality education, the whole arena of church-state relations appears in flux. In this volume, seven experts probe the meaning of religion in public life for Christians when the Protestant establishment has given way to pervasive religious pluralism and a growing secularism. Working specifically out of Lutheran traditions, the authors probe the deeper legal, moral, and religious questions at issue in the current debate. They not only rethink classical sources about law and gospel and two-kingdoms theory but also resurrect neglected resources for Christian civil resistance. They then look to contemporary developments and show how functional interaction of church and state is compatible with their strong institutional separation. Finally, three chapters probe the most hotly contested First Amendment questions: religious liberty, education, and land use.

**Fifty Shades of Earl Grey** Fanny Merkin.2012-07-10 DIV Inspired by the overnight million-copy bestseller *Fifty Shades of Grey* comes Fanny Merkin's shrewd, laugh-out-loud funny and romantic parody. When naive college student Anna interviews the young handsome tycoon Earl Grey for *Boardroom Hotties* magazine, she finds herself drawn into his twisted world of, well, mostly naughty dialogue and light spanking. Anna is enthralled – after all, he's rich and buys every company she's ever worked for in an attempt to get close to her. Including Walmart. Though, on the flipside, he's a moody bastard whose 50 shames constantly threaten to overwhelm her. Can Earl Grey and Anna ever have a normal life together? Or will his dark desires and constant smirking drive her over the edge? From sparkling vampires to feminist concerns and BDSM, in *Fifty Shades of Earl Grey* Ms. Merkin passionately undresses popular culture, exposes the humour in our favourite contemporary fiction and plunges the depths of the desire to find our inner – erotic – goddess. /div

**The Multifaith Movement: Global Risks and Cosmopolitan Solutions** Anna Halafoff.2012-10-29 This book documents the ultramodern rise of the multifaith movement, as multifaith initiatives have been increasingly deployed as cosmopolitan solutions to counter global risks such as terrorism and climate change at the turn of the 21st century. These projects aim to enhance common security, particularly in Western societies following the events of September 11, 2001 and the July 2005 London bombings, where multifaith engagement has been promoted as a strategy to counter violent extremism. The author draws on interviews with 56 leading figures in the field of multifaith relations, including Paul Knitter, Eboo Patel, Marcus Braybrooke, Katherine Marshall, John Voll and Krista Tippett. Identifying the principle aims of the multifaith movement, the analysis explores the benefits—and challenges—of multifaith engagement, as well as the effectiveness of multifaith initiatives in countering the process of radicalization. Building on notions of cosmopolitanism, the work proposes a new theoretical framework termed 'Netpeace', which recognizes the interconnectedness of global problems and their solutions. In doing so, it acknowledges the capacity of multi-actor peacebuilding networks, including religious and state actors, to address the pressing dilemmas of our times. The primary intention of the book is to assist in the formation of new models of activism and governance, founded on a 'politics of understanding' modeled by the multifaith movement.

**Urban Religious Events** Paul Bramadat,Mar Griera,Marian Burchardt,Julia Martinez-Ariño.2021-04-08 How might we best understand the relationship between the vibrant religious landscapes we see in many cities and contemporary urban social processes? Through case studies drawn from around the world, contributors explore the ways in which these processes interact in cities. This book argues that religious events – including rituals, processions, and festivals – are not only choreographies of sacred traditions, but they are also creative disruptions that reveal how urban cultural hierarchies are experienced and contested. Exposing the power dynamics behind these events, this book shows how performative uses of urban space serve to destabilize dominant genealogies and lineages around urban identities just as they lay claims to cultural supremacy or heritage. Through exploring the affective disruptions and political controversies caused by religious events, the contributors engage theoretical discussions in urban studies, the sociology of religion and the ethnography of ritual. This book is a significant contribution to understanding emerging patterns in contemporary religion and also for theories related to heritagization, eventization, and urbanization.

**Louis 18** Philip Mansel.1981 Louis XVIII had the most extraordinary career of all the kings of France, mirroring in many ways that of Charles II in England. Born in 1755, the younger brother of Louis XVI, he escaped from Paris in the middle of the revolution disguised as an Englishman. During his ten year reign from 1814 to 1824, France experienced parliamentary government, freedom of speech and religious tolerance. He was successful by the standards of his time, for while Napoleon was ultimately vanquished, Louis XVIII died on his throne.

**The Challenges of Religious Literacy** Tuula Sakaranaho,Timo Aarrevaara,Johanna Konttori.2020-07-24 This open access book presents religious literacy as the main explanatory factor when dealing with certain ethnic groups that attract stereotypes which gloss over other personal factors such as age, class, gender and cultural differences. It discusses freedom of religion, and the Christian revival movement. It examines religious literacy and religious diversity in multi-faith schools. It looks into the role of Mosques and Islamic divorce. Finally, it discusses the prevention of violent radicalization and extremism in Finland. Using recent data on Finnish secular society, the book promotes a new understanding which is needed with respect to popular and media portrayal of religion, or with respect to public discussion about religion. It addresses actors in civic society, public servants and higher education.

**Religion and Politics in Contemporary Russia** Tobias Köllner.2020-12-14 Based on extensive original research at the local level, this book explores the relationship between Russian Orthodoxy and politics in contemporary Russia. It reveals close personal links between politicians at the local, regional and national levels and their counterparts at the equivalent level in the Russian Orthodox Church – priests and monks, bishops and archbishops – who are extensively consulted about political decisions. It outlines a convergence of conservative ideology between politicians and clerics and also

highlights that, despite working closely together, there are nevertheless many tensions. The book examines in detail particular areas of cooperation and tension: reform to religious education and a growing emphasis on traditional moral values, the restitution of former church property and the introduction of new festive days. Overall, the book concludes that there is much uncertainty, ambiguity and great local variation.

*Religion, Modernity, Globalisation* François Gauthier.2019-09-30 This book argues that the last four decades have seen profound and important changes in the nature and social location of religion, and that those changes are best understood when cast against the associated rise of consumerism and neoliberalism. These transformations are often misunderstood and underestimated, namely because the study of religion remains dependent on the secularisation paradigm which can no longer provide a sufficiently fruitful framework for analysis. The book challenges diagnoses of transience and fragmentation by proposing an alternative narrative and set of concepts for understanding the global religious landscape. The present situation is framed as the result of a shift from a National-Statist to a Global-Market regime of religion. Adopting a holistic perspective that breaks with the current specialisation tendencies, it charts the emergence of the State and the Market as institutions and ideas related to social order, as well as their changing rapports from classical modernity to today. Breaking with a tradition of Western-centeredness, the book offers probing enquiries into Indonesia and a synthesis of global and Western trends. This long-awaited book offers a bold new vision for the social scientific study of religion and will be of great interest to all scholars of the Sociology and Anthropology of religion, as well as Religious Studies in general.

**The Deconstructed Church** Gerardo Marti, Gladys Ganiel.2014-04-22 Winner of the Distinguished Book Award from the Society for the Scientific Study of Religion The Emerging Church Movement (ECM) is a creative, entrepreneurial religious movement that strives to achieve social legitimacy and spiritual vitality by actively disassociating from its roots in conservative, evangelical Christianity and deconstructing contemporary expressions of Christianity. Emerging Christians see themselves as overturning outdated interpretations of the Bible, transforming hierarchical religious institutions, and re-orienting Christianity to step outside the walls of church buildings toward working among and serving others in the real world. Drawing on ethnographic observation of emerging congregations, pub churches, neo-monastic communities, conferences, online networks, in-depth interviews, and congregational surveys in the US, UK, and Ireland, Gerardo Marti and Gladys Ganiel provide a comprehensive social-scientific analysis of the development and significance of the ECM. Emerging Christians, they find, are shaping a distinct religious orientation that encourages individualism, deep relationships with others, new ideas about the nature of truth, doubt, and God, and innovations in preaching, worship, Eucharist, and leadership.

**The Eucharist** Church of England. House of Bishops.2001 The Eucharist: Sacrament of Unity sets out the teaching of the Church of England, within the Anglican Communion, on the Eucharist. It discusses why it is so important, how Christ is present, whether the Eucharist a sacrifice in any sense, and why Anglicans offer eucharistic hospitality to members of other churches.

Regulating Difference Marian Burchardt.2020-04-17 2021 ISSR Best Book Award (International Society for the Sociology of Religion) Transnational migration has contributed to the rise of religious diversity and has led to profound changes in the religious make-up of society across the Western world. As a result, societies and nation-states have faced the challenge of crafting ways to bring new religious communities into existing institutions and the legal frameworks. *Regulating Difference* explores how the state regulates religious diversity and examines the processes whereby religious diversity and expression becomes part of administrative landscapes of nation-states and people's everyday lives. Arguing that concepts of nationhood are key to understanding the governance of religious diversity, *Regulating Difference* employs a transatlantic comparison of the Spanish region of Catalonia and the Canadian province of Quebec to show how processes of nation-building, religious heritage-making and the mobilization of divergent interpretations of secularism are co-implicated in shaping religious diversity. It argues that religious diversity has become central for governing national and urban spaces.

*Becoming Jewish, Believing in Jesus* Manoela Carpenedo.2020-10-19 An unexpected fusion of two major western religious traditions, Judaism and Christianity, has been developing in many parts of the world. Contemporary Christian movements are not only adopting Jewish symbols and aesthetics but also promoting Jewish practices, rituals, and lifestyles. *Becoming Jewish, Believing in Jesus* is the first in-depth ethnography to investigate this growing worldwide religious tendency in the global South. Focusing on an austere Judaizing Evangelical variant in Brazil, Carpenedo explores the surprising identification with Jews and Judaism by people with exclusively Charismatic Evangelical backgrounds. Drawing upon extensive fieldwork and socio-cultural analysis, the book analyses the historical, religious, and subjective reasons behind this growing trend in Charismatic Evangelicalism. The emergence of groups that simultaneously embrace Orthodox Jewish rituals and lifestyles and preserve Charismatic Evangelical religious symbols and practices raises serious questions about what it means to be Jewish or Christian in today's religious landscape. This case study reveals how religious, ethnic, and cultural markers are being mobilized in unpredictable ways within the Charismatic Evangelical movement in much of the global South. The book also considers broader questions regarding contemporary women's attraction to gender-traditional religions. This comprehensive account of how former Charismatic Evangelicals in Brazil are gradually becoming austere observant Jews, while continuing to believe in the divinity of Jesus, represents a significant contribution to the study of religious conversion, cultural change, and debates about religious hybridization processes.

**The Sociology of Shari'a: Case Studies from around the World** Adam Possamai, James T Richardson, Bryan S. Turner.2014-12-04 This edited volume offers a collection of papers that present a comparative analysis of the development of Shari'a in countries with Muslim minorities, such as America, Australia, Germany, and Italy, as well as countries with Muslim majorities, such as Malaysia, Bangladesh, Turkey, and Tunisia. The Sociology of Shari'a provides a global analysis of these important legal transformations and analyzes the topic from a sociological perspective. It explores examples of non-Western countries that have a Muslim minority in their populations, including South Africa, China, Singapore, and the Philippines. In addition, the third part of the book includes case studies that explore some ground-breaking theories on the sociology of Shari'a, such as the application of Black, Chambliss, and Eisenstein's sociological perspectives.
