*A Companion to the Archaeology of Early Greece and the Mediterranean, 2 Volume Set* Irene S. Lemos,Antonis Kotsonas.2020-01-09 A Companion that examines together two pivotal periods of Greek archaeology and offers a rich analysis of early Greek culture A Companion to the Archaeology of Early Greece and the Mediterranean offers an original and inclusive review of two key periods of Greek archaeology, which are typically treated separately—the Late Bronze Age and the Early Iron Age. It presents an in-depth exploration of the society and material culture of Greece and the Mediterranean, from the 14th to the early 7th centuries BC. The two-volume companion sets Aegean developments within their broader geographic and cultural context, and presents the wide-ranging interactions with the Mediterranean. The companion bridges the gap that typically exists between Prehistoric and Classical Archaeology and examines material culture and social practice across Greece and the Mediterranean. A number of specialists examine the environment and demography, and analyze a range of textual and archaeological evidence to shed light on socio-political and cultural developments. The companion also emphasizes regionalism in the archaeology of early Greece and examines the responses of different regions to major phenomena such as state formation, literacy, migration and colonization. Comprehensive in scope, this important companion: Outlines major developments in the two key phases of early Greece, the Late Bronze Age and the Early Iron Age Includes studies of the geography, chronology and demography of early Greece Explores the development of early Greek state and society and examines economy, religion, art and material culture Sets Aegean developments within their Mediterranean context Written for students, and scholars interested in the material culture of the era, A Companion to the Archaeology of Early Greece and the Mediterranean offers a comprehensive and authoritative guide that bridges the gap between the Late Bronze Age and the Early Iron Age. 2020 CHOICE Outstanding Academic Title Winner!

**The Insula of the Menander at Pompeii** Penelope M. Allison.2007-01-04 This book contains catalogues, analyses, photographs and drawings of some 2,000 archaeological artefacts excavated from the Insula of the Menander in Pompeii. The catalogues, and analyses are organized by provenance - buildings, rooms, and location within rooms - so that the reader can understand the artefacts as household assemblages. The functions of artefacts and groups of artefacts are discussed, as are the Latin names which are often given to these artefacts, and the relationships of these assemblages to the state of occupancy of the buildings in the Insula during the last years of Pompeii. This study, therefore, provides a wealth of information, not only on the range and use of artefacts in Pompeian houses but also on Roman artefacts, and Roman society, more generally.

**Luxus** Kenneth Lapatin.2015-07-01 In contrast to other histories of ancient art that typically privilege well-preserved works of ceramics or stone, Luxus offers an integrated contextual analysis of artifacts fashioned from a wide variety of luxury materials, which survive in far greater number than is typically supposed. These include gold and silver, semiprecious hard stones, and organic materials, such as ivory, fine woods, amber, pearl, coral, and textiles. Examining some of the finest surviving examples of ancient craftsmanship, renowned expert Kenneth Lapatin approaches objects in these diverse media from a variety of viewpoints, providing a valuable model for a more pluralistic approach to visual culture with the greater goal of reinvigorating the study of ancient art and society. As its title implies, Luxus is richly illustrated, containing over 200 images of superb works located in collections throughout the world. Each plate is accompanied by extensive documentation and discursive commentary. An introductory chapter explores the ideologies and uses of the luxury arts in ancient Greece and Rome, considers ancient debates about their value, and traces their decline in modern historiography. The book then goes on to address a broad range of luxury goods, such as intaglios, cameos, vessels, and statuettes, providing a full and multifaceted account of luxury in the ancient world.

Wooden Furniture in Herculaneum Stephan T.A.M. Mols.2020-03-02 This study presents an overview of the wooden furniture that has come to light since the rediscovery of Herculaneum in the 18th century, with an emphasis on the form, function and the techniques employed. The combination of comments in the excavation reports with the information derived from the surviving pieces of furniture and fittings made of other materials as well as indications for the presence of furniture in the architecture and decoration of the houses, offers a representative idea of the role of wooden furniture in the interior arrangements of the houses at Herculaneum.

**Purpureae Vestes I. Textiles y tintes del Mediterráneo en época romana** Carmen Alfaro Giner.2011-11-28 *Purpureae vestes* estudia un element fonamental en la vida de qualsevol societat antiga com és el vestit i els colors utilitzats per a la seua ornamentació, especialment la púrpura. El luxe en el vestir implicava l'ús de materials com l'or per a la confecció de certs complements. Amb uns antecedents clarament orientals de recerca de la magnificència externa de reis i d'altres dignataris, el simbolisme del color en l'ornamentació personal va constituir, a les ciutats riberenques de la Mediterrània, un factor important de distinció social. Bé fossen de procedència vegetal, mineral o animal, els tints van donar sempre l'«ànima» als tèxtils. Per això, el poder imperial romà, en alguns períodes de la seua història, va controlar amb normes legals de major o menor duresa l'ús de determinats colors obtinguts a partir de gasteròpodes marins. L'obra tracta extensament els aspectes econòmics i tècnics relacionats amb l'elaboració i comercialització de vestits i teles per a altres usos (veles, adorns de la llar, etc.). A partir de diversos punts de vista, entre els que s'inclouen les dades arqueològiques o les referències etnograficocomparatives, s'hi incideix en les etapes de preparació de les fibres tèxtils, en les formes d'elaboració dels teixits més complexos a través de la reconstrucció experimental, en el treball dels pescadors i manufacturadors que elaboraven en tallers costaners el tint més valorat, la púrpura, o en els qui treballaven en els tallers de la ciutat, així com en l'anàlisi i descripció detallada dels resultats extrets de les restes tèxtils aparegudes en jaciments, de l'Egipte romà sobretot, que ens mostren encara avui la riquesa i vigor dels seus colors.
