Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). Because it's a charity, Gutenberg subsists on donations. If you appreciate what they're doing, please consider making a tax-deductible donation by PayPal, Flattr, check, or money order. Note that some of the "free" ebooks listed on Centsless Books are only free if you're part of Kindle Unlimited, which may not be worth the money. Similar to PDF Books World, Feedbooks allows those that sign up for an account to download a multitude of free e-books that have become accessible via public domain, and therefore cost you nothing to access. Just make sure that when you're on Feedbooks' site you head to the "Public Domain" tab to avoid its collection of "premium" books only available for purchase. Read Your Google Ebook. You can also keep shopping for more books, free or otherwise. You can get back to this and any other book at any time by clicking on the My Google eBooks link.
