Effective Chemistry Communication in Informal Environments National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Science Education, Division on Earth and Life Studies, Board on Chemical Sciences and Technology, Committee on Communicating Chemistry in Informal Settings. 2016-09-19 Chemistry plays a critical role in daily life, impacting areas such as medicine and health, consumer products, energy production, the ecosystem, and many other areas. Communicating about chemistry in informal environments has the potential to raise public interest and understanding of chemistry around the world. However, the chemistry community lacks a cohesive, evidence-based guide for designing effective communication activities. This report is organized into two sections. Part A: The Evidence Base for Enhanced Communication summarizes evidence from communications, informal learning, and chemistry education on effective practices to communicate with and engage publics outside of the classroom; presents a framework for the design of chemistry communication activities; and identifies key areas for future research. Part B: Communicating Chemistry: A Framework for Sharing Science is a practical guide intended for any chemists to use in the design, implementation, and evaluation of their public communication efforts.

Moral Economies Ute Frevert. 2019. Is there a moral economy of capitalism? The term moral economy was coined in pre-capitalist times and does not refer to economy as we know it today. It was only in the nineteenth century that economy came to mean the production and circulation of goods and services. At the same time, the term started to be used in an explicitly critical tone: references to moral economy were normally critical of modern forms of economy, which were purportedly lacking in morals. In our times, too, the morality of capitalism is often the topic of debate and controversy. *Moral Economies* engages in these debates. Using historical case studies from the eighteenth, nineteenth, and twentieth centuries the book discusses the degree to which economic actions and decisions were permeated with moral, good-vs-bad classifications. Moreover it shows how strongly antiquity's concept of embedded economy is still powerful in modernity. The model for this was often the private household, in which moral, social, and economic behavior patterns were intertwined. The do-it-yourself movement of the late twentieth and early twenty-first centuries was still oriented towards this model, thereby criticizing capitalism on moral grounds.

The American Workplace Casey Ichniowski. 2000-04-24 Many managers are frustrated by a bewildering array of advice about what works in the workplace. This volume contributes to a growing consensus about effective workplace practices. The collection combines detailed studies of single industries (automobile assembly, apparel, and machine tools) with cross-industry studies of financial performance. The contributors find that systems of innovative human resource management practices can have large effects on business performance. Success does not come from any single innovation, but from a coherent system encompassing pay, training, and employee involvement. Although a majority of contemporary US businesses now have adopted some innovative work practices, only a small percentage of businesses have adopted a coherent new system. A

concluding chapter outlines barriers to diffusion and discusses public policies to remove barriers and enhance dissemination of effective management.

Educational Upward Mobility Antonia Kupfer.2015-04-15 What enables the few working-class people who enter higher education to achieve against the odds? This book offers answers by comparing social contexts, educational institutions and policies in Austria and England to demonstrate a surprising number of similarities behind those who succeed using Bourdieu's concept of habitus.

The Forest in Medieval German Literature Albrecht Classen.2019-04-12 This analysis of the topic 'forest' in medieval German literature combines modern ecocritical issues with premodern perspectives and allows us to understand how much medieval concepts of the forest as an existential place can contribute to an epistemological analysis of universal issues even in present times. To be in the forest simply means much both for us today and for the medieval literary characters.

Theme-Centered Interaction (TCI) in Higher Education Sylke Meyerhuber,Helmut Reiser,Matthias Scharer.2019-04-26 This book presents thoughts on and experiences with the introduction of Theme-centered Interaction (TCI) into academia. TCI is a systematic didactic, 'living learning' approach originally developed by social psychologist and pedagogue Ruth C. Cohn. The book explains and introduces the method, attitude and theory of TCI to a broader, higher education audience and relates it to such questions as: How does a teacher in academia achieve a lively and engaging atmosphere in their seminars? How do young academics as leaders-to-be learn how to act socially sustainably in groups? Using practical examples, the book shows how TCI can work in higher education to achieve participation and integration, reflectivity and humane connectedness of academic teachers and students, and professional development of senior and junior academics.

Rosie and the Nightmares Philip Waechter.2005-11-10 Rosie is haunted by monster nightmares. Waking up in a pool of sweat, she is bound and determined to confront her fears. Her solution is so deft and clever, mixing a deep knowledge of childhood, exuberant energy, and... a kiss, that it will leave young readers cheering and, more important, armed with some of the tools to tackle their own night monsters. Philip Waechter, the creator of the wonderfully all-too-human hero bear in Me!, now shows an equally keen and sensitive appreciation of the dilemmas of childhood. In Rosie he has created a feisty and courageous little heroine, who can stand proudly next to William Steig's Brave Irene and Kevin Henke's Lily.

Gemstone of Paradise G. Trends in Stochastic Analysis Jochen Blath, Peter Mörters, Michael Scheutzow, Heinrich Von Weizsäcker.2009-04-09 Presenting important trends in the field of stochastic analysis, this collection of thirteen articles provides an overview of recent developments and new results. Written by leading experts in the field, the articles cover a wide range of topics, ranging from an alternative set-up of rigorous probability to the sampling of conditioned diffusions. Applications in physics and biology are treated, with discussion of Feynman formulas, intermittency of Anderson models and genetic inference. A large number of the articles are topical surveys of probabilistic tools such as chaining techniques, and of research fields within stochastic analysis, including stochastic dynamics and

multifractal analysis. Showcasing the diversity of research activities in the field, this book is essential reading for any student or researcher looking for a guide to modern trends in stochastic analysis and neighbouring fields.

The Medieval Chastity Belt A. Classen.2007-03-19 The chastity belt is one of those objects people have commonly identified with the 'dark' Middle Ages. This book analyzes the origin of this myth and demonstrates how a convenient misconception, or contorted imagination, of an allegedly historical practice has led to profoundly flawed interpretations of control mechanisms used by jealous husbands.

The Making of Stanley Kubrick's '2001: a Space Odyssey' Piers Bizony.2020 2001: A Space Odyssey combines meticulous science, limitless imagination, and pure visual majesty. This compendium, previously available as a Collector's Edition, contains photographs, pre-production paintings, and conceptual designs that explore the genius behind the sci-fi classic that remains the benchmark for all cinema space epics.

Animal Narratology Joela Jacobs.2020-12-15 Animal Narratology interrogates what it means to narrate, to speak—speak for, on behalf of—and to voice, or represent life beyond the human, which is in itself as different as insects, bears, and dogs are from each other, and yet more, as individual as a single mouse, horse, or puma. The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of, attitude toward, and responsibility for the animals that are read and written about, thus demonstrating that just as “the animal” does not exist, neither does “the human”. In their zoopoetic focus, the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and

terminology, yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non-human in the first place. Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another's perspective to the degree that such an endeavor is possible. Ultimately, the contributions call for a recognition of the many spaces, moments, and modes in which human lives are entangled with those of animals—one of which is located within the creative bounds of storytelling.

Only Apples Brigham Baker.2019 The observation of nature shapes the artistic practice of Brigham Baker (*1989). He is fascinated by its diversity, the countless microsystems and their ability to constantly change and adapt. On the other hand, there are functional and logical-mathematical systems that profoundly change society. Baker's works of art connects nature and culture, which we are inclined to perceive as contrary or at least dual. His activities as a beekeeper and urban gardener form the basis for the precise observation of animals and plants and their self-organization as well as their cultivation.00Exhibition: 11th Manor Kunstpreis Zürich, Kunst Museum Winterthur, Switzerland (26.10.2019 - 05.01.2020).

Night Animals Brecht Evens.2011

After the Wall Jana Hensel.2008-03-04 Jana Hensel was thirteen on November 9, 1989, the night the Berlin Wall fell. In all the euphoria over German reunification, no one stopped to think what it would mean for Jana and her generation of East Germans. These were the kids of the seventies, who had grown up in the shadow of Communism with all its hokey comforts: the Young Pioneer youth groups, the cheerful Communist propaganda, and the comforting knowledge that they lived in a Germany unblemished by an ugly Nazi past and a callous capitalist future. Suddenly everything was gone.

East Germany disappeared, swallowed up by the West, and in its place was everything Jana and her friends had coveted for so long: designer clothes, pop CDs, Hollywood movies, supermarkets, magazines. They snapped up every possible Western product and mannerism. They changed the way they talked, the way they walked, what they read, where they went. They cut off from their parents. They took English lessons, and opened bank accounts. Fifteen years later, they all have the right haircuts and drive the right cars, but who are they? Where are they going? In *After the Wall*, Jana Hensel tells the story of her confused generation of East Germans, who were forced to abandon their past and feel their way through a foreign landscape to an uncertain future. Now as they look back, they wonder whether the oppressive, yet comforting life of their childhood wasn't so bad after all. *Thomas Hirschhorn* Thomas Hirschhorn.2015 Published in commemoration of Gramsci Monument, a work in public space by Thomas Hirschhorn, produced by Dia Art Foundation. Tree of Salvation G. Ronald Murphy.2013-11 G. Ronald Murphy offers an insightful examination of the lasting significance of Yggdrasil in northern Europe, showing that the tree's image persisted not simply through its absorption into descriptions of Christ's crucifix, but through recognition by the newly converted Christians of the truth of their new religion in the images of their older faith.

Old Age in the Middle Ages and the Renaissance Albrecht Classen.2012-02-14 After an extensive introduction that takes stock of the relevant research literature on Old Age in the Middle Ages and the early modern age, the contributors discuss the phenomenon of old age in many

different fields of late antique, medieval, and early modern literature, history, and art history. Both Beowulf and the Hildebrandslied, both Wolfram von Eschenbach's Parzival and Titurel, both the figure of Merlin and the trans-European tradition of Perceval/Peredur/Parzival, then the figure of the vetula in a variety of medieval French, English, and Spanish texts, and of the Old Man in The Stricker's Daniel, both the treatment of old age in Langland's Piers the Plowman and in Jean Gerson's sermons are dealt with. Other aspects involve late-antique epistolary literature, early modern French farce in light of Disability Studies, the social role of old, impotent men in sixteenth- and seventeenth-century Netherlandish paintings, and the scientific discourse of old age and health since the 1500s. The discourse of Old Age proves to have been of central importance throughout the ages, so the critical examination of the issues involved sheds intriguing light on the cultural history from late antiquity to the seventeenth century.

Handbook of Medieval Studies Albrecht Classen.2011-01-01 This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last decades. The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves about the current status of research in the field. The handbook consists of four parts. The first, large section offers articles on all of the main disciplines and discussions of the field. The second section presents articles on the key concepts of modern medieval studies and the debates therein. The third section is a lexicon of the most important text genres of the Middle Ages. The fourth section provides an international bio-bibliographical lexicon of the most prominent medievalists in all disciplines. A comprehensive bibliography rounds off the compendium. The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines

and experts of the field together.

The Politics of Inclusion and Empowerment J. Andersen, B. Siim.2004-04-20 Globalization poses new challenges for the modern welfare state and democracies. One controversial issue is how struggles for economic equality are linked with struggles for recognition of difference according to gender, ethnicity and sexuality. *The Politics of Inclusion and Empowerment* examines the political and academic debates about the inclusion or exclusion of women and marginalized social groups from different policy contexts. The focus is on the different class and gender regimes influencing the interplay of political, civil and social citizenship at different levels of politics.

[Andreas Capellanus on Love?](#) K. Andersen-Wyman.2007-06-25 Andersen-Wyman's book undoes most

scholarly uses and understandings of *De amore* by Andreas Capellanus. By offering a reading promoted by the text itself, Andersen-Wyman shows how Andreas undermines the narrative foundations of sacred and secular institutions and renders their power absurd.

Dante's Comedy and the Ethics of Invective in Medieval Italy Nicolino Applauso. 2019-11-18 *Humor and Evil* proposes a new approach to invective and comic poetry in Italy during the thirteenth and fourteenth centuries and opens the way for an innovative understanding of Dante's masterpiece. The Middle Ages in Italy offer a wealth of vernacular poetic invectives—polemical verses aimed at blaming specific wrongdoings of an individual, group, city or institution— that are both understudied and rarely juxtaposed. Modern criticism has generally viewed these poems as disengaged from concrete issues, and as a marginal form of recreation with little ethical value. Also, no study has yet provided a scholarly examination of the connection between this medieval invective tradition, and its elements of humor, derision, and reprehension in Dante's *Comedy*. This book argues that these comic texts are rooted in and actively engaged with the social, political, and religious conflicts of their time. Political invective has a dynamic ethical orientation that is mediated by a humor that disarms excessive hostility against its individual targets, providing an opening for dialogue. While exploring medieval comic poems by Rustico Filippi (from Florence), Cecco Angiolieri (from Siena), and Folgore da San Gimignano, this study unveils new biographical data about these poets retrieved from Italian state archives (most of these data are published here in English for the very first time), and ultimately shows what the medieval invective tradition can add to our understanding of Dante's *Comedy*.
