The Empress of Art Susan Jaques.2016-04-15 A German princess who married a decadent and lazy Russian prince, Catherine mobilized support amongst the Russian nobles, playing off of her husband's increasing corruption and abuse of power. She then staged a coup that ended with him being strangled with his own scarf in the halls of the palace, and herself crowned the Empress of Russia. Intelligent and determined, Catherine modeled herself off of her grandfather in-law, Peter the Great, and sought to further modernize and westernize Russia. She believed that the best way to do this was through a ravenous acquisition of art, which Catherine often used as a form of diplomacy with other powers throughout Europe. She was a self-proclaimed glutton for art and she would be responsible for the creation of the Hermitage, one of the largest museums in the

world, second only to the Louvre. Catherine also spearheaded the further expansion of St. Petersburg, and the magnificent architectural wonder the city became is largely her doing. There are few women in history more fascinating than Catherine the Great, and for the first time, Susan Jaques brings her to life through the prism of art.

Horace Walpole Robert Wyndham Ketton-Cremer.1966 Horatio Walpole, 4th Earl of Orford (24 September 1717? 2 March 1797) was an English art historian, man of letters, antiquarian and Whig politician. He is now largely remembered for Strawberry Hill, the home he built in Twickenham, south-west London where he revived the Gothic style some decades before his Victorian successors, and for his Gothic novel, *The Castle of Otranto*. Along with the book, his literary reputation rests on his Letters, which are of significant social and political interest. He was the son of Sir Robert Walpole, and cousin of Admiral Lord Nelson.-- Wikipedia.

The Palgrave Handbook of Gothic Origins Clive Bloom.2022-01-01 This handbook provides a comprehensive overview of research on the Gothic Revival. The Gothic Revival was based on emotion rather than reason and when Horace Walpole created Strawberry Hill House, a gleaming white castle on the banks of the Thames, he had to create new words to describe the experience of gothic lifestyle. Nevertheless, Walpole's house produced nightmares and his book *The Castle of Otranto* was the first truly gothic novel, with supernatural, sensational and Shakespearean elements challenging the emergent fiction of social relationships. The novel's themes of violence, tragedy, death, imprisonment, castle battlements, dungeons, fair maidens, secrets, ghosts and prophecies led to a new genre encompassing prose, theatre, poetry and painting, whilst opening up a whole world of imagination for entrepreneurial female writers such as Mary Shelley, Joanna Baillie and Ann Radcliffe, whose immensely popular books led to the intense inner landscapes of the Bronte

sisters. Matthew Lewis's *The Monk* created a new gothic: atheistic, decadent, perverse, necrophilic and hellish. The social upheaval of the French Revolution and the emergence of the Romantic movement with its more intense (and often) atheistic self-absorption led the gothic into darker corners of human experience with a greater emphasis on the inner life, hallucination, delusion, drug addiction, mental instability, perversion and death and the emerging science of psychology. The intensity of the German experience led to an emphasis on doubles and schizophrenic behaviour, ghosts, spirits, mesmerism, the occult and hell. This volume charts the origins of this major shift in social perceptions and completes a trilogy of Palgrave Handbooks on the Gothic—combined they provide an exhaustive survey of current research in Gothic studies, a go-to for students and researchers alike.

Managing Organisational Success in the Arts David

Stevenson.2018-10-10 The creative and cultural industries are a dynamic and rapidly expanding field of enterprise. Yet all too often the dominant narrative about arts organisations is one of crisis, collapse, and closure. This edited collection seeks to challenge that narrative through pursuing a focus on organisational success in the management of creative and cultural organisations. This book offers a robust and in-depth analysis of nine international case studies exploring how different

organisations have achieved their objectives through effectively managing their resources. Spanning a broad cross section of the cultural sector including Theatres; Multi-Arts Venues; Performing Arts Companies; Museums and Galleries; and Festivals and Events, these cases highlight the importance of examining an individual organisation's success in relation to its environmental context, revealing not only how arts organisations work in practice, but also providing inspiration and encouragement for those wishing to emulate such success. With an explicit focus on examining theory in practice, this unique collection will be of great interest to students, academics, and practitioners alike. While traditional approaches have often been overly theoretical, this pragmatic approach will help students to gain a richer understanding of how to manage cultural and creative organisations more effectively.

Ædes Walpoleanæ HORACE. WALPOLE. 2018-04-19 The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The eighteenth-century fascination with Greek and Roman antiquity followed the systematic excavation of the ruins at Pompeii and Herculaneum in southern Italy; and after 1750 a neoclassical style dominated all artistic fields. The titles here trace developments in mostly English-language works on painting,

sculpture, architecture, music, theater, and other disciplines. The Georgian London Town House Kate Retford, Susanna Avery-Quash. 2019-03-07 For every great country house of the Georgian period, there was usually also a town house. Chatsworth, for example, the home of the Devonshires, has officially been recognised as one of the country's favourite national treasures - but most of its visitors know little of Devonshire House, which the family once owned in the capital. In part, this is because town houses were often leased, rather than being passed down through generations as country estates were. But, most crucially, many London town houses, including Devonshire House, no longer exist, having been demolished in the early twentieth century. This book seeks to place centre-stage the hugely important yet hitherto overlooked town houses of the eighteenth and early nineteenth centuries, exploring the prime position they once occupied in the lives of families and the nation as a whole. It explores the owners, how they furnished and used these properties, and how their houses were judged by the various types of visitor who gained access.

Materiality and Architecture Sandra Karina

Loschke.2016-03-17 Once regarded a secondary consideration, in recent years, materiality has emerged as a powerful concept in architectural discourse and practice. Prompted in part by developments in digital fabrication and digital science, the impact of materiality on design and practice is being widely reassessed and reimagined. *Materiality and Architecture* extends architectural thinking beyond the confines of current design literatures to explore conceptions of materiality across the field of architecture. Fourteen international contributors use elucidate the problems and possibilities of materiality-based approaches in architecture from interdisciplinary perspectives. The book includes contributions from the professions of architecture, art, architectural history, theory and philosophy, including essays from Gernot Böhme, Jonathan Hill and Philip Ursprung. Important 'immaterial' aspects such as presentation, agency, ecology and concept are examined, deepening our understanding of materiality's role in architectural processes, the production of cultural identities, the pursuit of political agendas, and the staging of everyday environments and atmospheres. In-depth illustrated case studies examine works by Herzog & de Meuron, Zaha Hadid, and Lacaton & Vassal, interspersed with visual essays and interviews with architects such as MVRDV providing a direct connection to practice. *Materiality and Architecture* is an important read for researchers and students with an interest in architectural theory and related fields such as art, art history, or visual and cultural studies.

The Story of the Country House Clive Aslet.2021 The fascinating story of the evolution of the country house in Britain, from its Roman precursors to the present An eclectic scholarly account,

tracing the evolution of the country house from the hunting lodges of the Middle Ages to the modern villas of today. . . . Mr. Aslet is an elegant writer with a wry sense of humor.--Moira Hodgson, Wall Street Journal [Aslet] doesn't just tell us who built what, and for whom, and in what style, but about the prevailing economic circumstances and fashions of each period.--Simon Heffer, Daily Telegraph The Story of the Country House is an authoritative and vivid account of the British country house, exploring how they have evolved with the changing political and economic landscape. Clive Aslet reveals the captivating stories behind individual houses, their architects, and occupants, and paints a vivid picture of the wider context in which the country house in Britain flourished and subsequently fell into decline before enjoying a renaissance in the twenty-first century. The genesis, style, and purpose of architectural masterpieces such as Hardwick Hall, Hatfield House, and Chatsworth are explored, alongside the numerous country houses lost to war and economic decline. We also meet a cavalcade of characters, owners with all their dynastic obsessions and diverse sources of wealth, and architects such as Inigo Jones, Sir John Vanbrugh, Robert Adam, Sir John Soane and A.W.N. Pugin, who dazzled or in some cases outraged their contemporaries. The Story of the Country House takes a fresh look at this enduringly popular building type, exploring why it continues to hold such fascination for us today.

Houghton Revisited Larissa Dukelskaya.2013-09-03 This new book offers a portrait of a perfectly preserved English country house and the magnificent art collection of its former owner, Sir Robert Walpole (1676–1745), Britain’s first prime minister. Walpole amassed a dazzling array of Old Masters, including paintings by Van Dyck, Poussin, Rubens, and Rembrandt, and hired celebrated decorator William Kent to design the interiors of Houghton Hall specifically to showcase them. But when Walpole died, his family was shocked to find that he had amassed huge

debt, and were forced to sell the treasured collection—to Catherine the Great, Empress of Russia. Now, these masterpieces are returning to Houghton Hall. Essays uncover the wonders of Walpole's collection and trace its journey to the State Hermitage Museum in Saint Petersburg, to which most of the works now belong.

A Landscape of Architecture, History and Fiction Jonathan Hill.2015-12-22 Architecture can be analogous to a history, a fiction, and a landscape. We expect a history or a novel to be written in words, but they can also be cast in concrete or seeded in soil. The catalyst to this tradition was the simultaneous and interdependent emergence in the eighteenth century of new art forms: the picturesque landscape, the analytical history, and the English novel. Each of them instigated a creative and questioning response to empiricism's detailed investigation of subjective experience and the natural world, and together they stimulated a design practice and lyrical environmentalism that profoundly influenced subsequent centuries. Associating the changing natural world with journeys in self-understanding, and the design process with a visual and spatial autobiography, this book describes journeys between London and the North Sea in successive centuries, analysing an enduring and evolving tradition from the picturesque and romanticism to modernism. Creative architects have often looked to the past to understand the present and imagine the future. Twenty-first-century architects need to appreciate the shock of the old as well as the shock of the new.

British Models of Art Collecting and the American

Response Dr Inge Reist.2014-10-28 This collection of fourteen essays by distinguished art and cultural historians examine points of similarity and difference in British and American art collecting. Half the essays examine the trends that dominated the British art collecting scene of the nineteenth century. Others focus on American collectors, using biographical sketches and case studies to demonstrate how collectors in the United States embellished the British model to develop their own, often philanthropic approach to art collecting.

Greyhound Nation Edmund Russell.2018-01-11 Edmund Russell's much-anticipated new book examines interactions between greyhounds and their owners in England from 1200 to 1900 to make a compelling case that history is an evolutionary process. Challenging the popular notion that animal breeds remain uniform over time and space, Russell integrates history and biology to offer a fresh take on human-animal coevolution. Using greyhounds in England as a case study, Russell shows that greyhounds varied and changed just as much as their owners. Not only did they evolve in response to each other, but people and dogs both evolved in response to the forces of modernization, such as capitalism, democracy, and industry. History and evolution were not separate processes, each proceeding at its own rate according to its own rules, but instead were the same.

The Tsarina's Lost Treasure Mara Vorhees, Gerald

Easter.2020-09-01 A riveting history and maritime adventure about priceless masterpieces originally destined for Catherine the Great. On October 1771, a merchant ship out of Amsterdam, Vrouw Maria, crashed off the stormy Finnish coast, taking her historic cargo to the depths of the Baltic Sea. The vessel was delivering a dozen Dutch masterpiece paintings to Europe's most voracious collector: Catherine the Great, Empress of Russia. Among the lost treasures was *The Nursery*, an oak-paneled triptych by Leiden fine painter Gerrit Dou, Rembrandt's most brilliant student and Holland's first international superstar artist. Dou's triptych was long the most beloved and most coveted painting of the Dutch Golden Age, and its loss in the shipwreck was mourned throughout the art world. Vrouw Maria, meanwhile,

became a maritime legend, confounding would-be salvagers for more than two hundred years. In July 1999, a daring Finnish wreck hunter found Vrouw Maria, upright on the sea floor and perfectly preserved. The *Tsarina's Lost Treasure* masterfully recounts the fascinating tale of Vrouw Maria—her loss and discovery—weaving together the rise and fall of the artist whose priceless masterpiece was the jewel of the wreckage. Gerald Easter and Mara Vorhees bring to vivid life the personalities that drove (and are still driving) this compelling tale, evoking Robert Massie's depiction of Russian high politics and culture, Simon Schama's insights into Dutch Golden Age art and art history, Gary Kinder's spirit of, danger and adventure on the beguiling Archipelago Sea.
