Boy in a White Room Karl Olsberg.2023-02-07 A gripping YA sci-fi thriller by German and Spiegel bestselling author, Karl Olsberg. The Boy in a White Room was nominated for Deutscher Jugendliteraturpreis 2018, Germany's most prestigious youth fiction award. A fifteen-year-old boy wakes to find himself locked in a white, cube-shaped room. No windows. No doors. Total silence. He has no memories. No clue how he got there. No idea who he is. A computer-generated voice named Alice responds to his questions. Through her, he is able to access the internet. As the boy uncovers snippets of his story -- an attempted abduction, a critical injury, a murder -- it becomes clearer. But when some of the pieces don't fit, how can he tell what's real and what's not? Who can he trust? And who is he really?

Pitch it! Sibylle Kurz.2015-03-11 'Pitching' ist das Verkaufen einer Projektidee oder einer Story in mündlicher Präsentation. Eine Aufgabe, an der auch brillante Autoren, Filmemacher und Produzenten häufig scheitern. Ein gelungener Pitch eines Filmprojekts kann nicht hoch genug eingeschätzt werden, er entscheidet in der Regel über die Chancen auf eine Realisierung. In ihrem Standardwerk liefert Sibylle Kurz Techniken und praktische Tipps, sich und die eigenen Filmprojekte prägnant und mitreißend zu präsentieren. Sie zeigt, welche Zielsetzungen man mit dem eigenen Pitch verbindet, wie man kommuniziert und mit seinen Gesprächspartnern - mit Produzenten, Redakteuren, Filmförderern oder Verleihern - ein Verhältnis aus Kreativität, Professionalität und Vertrauen herstellt. Mit der Neuauflage geht Sibylle Kurz auf die sich verändernden Marktbedingungen ein: Heute pitcht man nicht mehr nur B2B, sondern auch B2C und D2F (Direct-to-Fan). Außerdem fordert die aktive Teilnahme der Konsumenten im Netz eine noch ausführlichere Auseinandersetzung mit der Erarbeitung und Formulierung des Themas als Schnittstelle für mehrere mediale Ebenen, sowie eine bessere Kenntnis der zu erreichenden Zielgruppen. Desweiteren wird in der Neuauflage das Schreiben von Synopsen vertieft. Übungen zur Selbstwahrnehmung des Präsentierenden sowie Körperübungen runden den Band ab.

Animation Under the Swastika Rolf Giesen,J.P. Storm.2012-08-02 Among their many idiosyncrasies, Adolf Hitler and Joseph Goebbels, the Nazi minister of propaganda, remained serious cartoon aficionados throughout their lives. They adored animation and their influence on German animation

after World War II continues to this day. This study explores Hitler and Goebbels' efforts to establish a German cartoon industry to rival Walt Disney's and their love-hate relationship with American producers, whose films they studied behind locked doors. Despite their ambitious dream, all that remains of their efforts are a few cartoon shorts—advertising and puppet films starring dogs, cats, birds, hedgehogs, insects, Teutonic dwarves, and other fairy-tale ensemble. While these pieces do not hold much propaganda value, they perfectly illustrate Hannah Arendt's controversial description of those who perpetrated the Holocaust: the banality of evil.

Introduction to Media Production Gorham Kindem, Robert B. Musburger, PhD. 2012-08-21
Introduction to Media Production began years ago as an alternative text that would cover ALL aspects of media production, not just film or just tv or just radio. Kindem and Musburger needed a book that would show students how every form of media intersects with one another, and about how one needs to know the background history of how film affects video, and how video affects working in a studio, and ultimately, how one needs to know how to put it all together. Introduction to Media Production is the book that shows this intersection among the many forms of media, and how students can use this intersection to begin to develop their own high quality work. Introduction to Media Production is a primary source for students of media. Its readers learn about various forms of media, how to make the best use of them, why one would choose one form of media over another, and finally, about all of the techniques used to create a media project. The digital revolution has exploded all the former techniques used in digital media production, and this book covers the now restructured and formalized digital workflows that make all production processes by necessity, digital. This text will concentrate on offering students and newcomers to the field the means to become aware of the critical importance of understanding the end destination of their production as a part of pre-production, not the last portion of post production. Covering film, tv, video, audio, and graphics, the fourth edition of Introduction to Digital Media promises to be yet another comprehensive guide for both students of media and newcomers to the media industry.

The Classical Hollywood Cinema David Bordwell, Janet Staiger, Kristin Thompson. 2003-09-02 'A dense, challenging and important book.' Philip French Observer 'At the very least, this blockbuster is probably the best single volume history of Hollywood we're likely to get for a very long time.' Paul Kerr City Limits 'Persuasively argued, the book is also packed with facts, figures and photographs.' Nigel Andrews Financial Times Acclaimed for their breakthrough approach, Bordwell, Staiger and Thompson analyze the basic conditions of American film-making as a historical institution and consider to what extent Hollywood film production constitutes a systematic enterprise, in both its style and its business operations. Despite differences of director, genre or studio, most Hollywood films operate within a set of shared assumptions about how a film should look and sound. Such assumptions are neither natural nor inevitable; but because classical-style films have been the type most widely seen, they have come to be accepted as the 'norm' of film-making and viewing. The authors show how these classical conventions were formulated and standardized, and how they responded to the arrival of sound, colour, widescreen ratios and stereophonic sound. They argue that each new technological development has served a function within an existing narrational system. The authors also examine how the Hollywood cinema standardized the film-making process itself. They describe how, over the course of its history, Hollywood developed distinct modes of production in a constant search for maximum efficiency, predictability and novelty. Set apart by its combination of theoretical analysis and empirical evidence, this book is the standard work on the classical Hollywood cinema style of film-making from the silent era to the 1960s. Now available in paperback, it is a 'must' for film students, lecturers and all those seriously interested in the development of the film industry.

Production Studies Vicki Mayer, Miranda J. Banks, John T Caldwell.2009-09-10 Behind-the-scenes stories of ranting directors, stingy producers, temperamental actors, and the like have fascinated us since the beginnings of film and television. Today, magazines, websites, television programs, and DVDs are devoted to telling tales of trade lore—from on-set antics to labor disputes. The production of media has become as storied and mythologized as the content of the films and TV shows themselves. *Production Studies* is the first volume to bring together a star-studded cast of interdisciplinary media scholars to examine the unique cultural practices of media production. The all-new essays collected here combine ethnographic, sociological, critical, material, and political-economic methods to explore a wide range of topics, from contemporary industrial trends such as new media and niche markets to gender and workplace hierarchies. Together, the contributors seek to understand how the entire span of media producers—ranging from high-profile producers and directors to anonymous stagehands and costume designers—work through professional organizations and informal networks to form communities of shared practices, languages, and cultural understandings of the world. This landmark collection connects the cultural activities of media producers to our broader understanding of media practices and texts, establishing an innovative and agenda-setting approach to media industry scholarship for the twenty-first century. Multimodalität der Kooperation im Lehr-Lern-Diskurs Daniela Heidtmann.2009-03-18 Die Untersuchung präsentiert die multimodale Struktur und Komplexität eines besonderen Kooperationstyps, dem Pitching. Das Pitching ist eine Mischform aus Arbeits- und Lehr-Lern-Diskurs, bei der vier Studierende gemeinsam mit zwei Dozenten Filmideen entwickeln. Als empirische Grundlage dient ein Datenkorpus von 72 Stunden Videoaufnahmen, das methodisch mit einer Kombination aus ethnographischer Gesprächsanalyse, ethnomethodologischer Konversationsanalyse und deren Erweiterung um eine multimodale Analyseperspektive untersucht wird. Dabei wird detailliert der komplexe Gesamtzusammenhang von Verbalität, Mimik, Gestik, Körperpositur und anderen körperlichen Ausdruckformen in seiner Bedeutung für die gemeinsame Arbeit ersichtlich. Basierend auf den beiden zentralen Konzepten Kooperation und Handlungsschema werden die spezifischen Situationsmerkmale des Pitchings und die typischen Aufgaben und Probleme rekonstruiert, die von den Interaktionsbeteiligten durch unterschiedliche Verfahren bearbeitet werden. Aufgrund einer longitudinalen Perspektive gibt die Untersuchung zudem Einblicke in die Professionalisierung der Studierenden im Studienverlauf.

In welcher Beziehung stehen sie zu Prozessen der Prekarisierung, in welchem Verhältnis zur Nicht-Arbeit? Wie artikulieren sie sich in Narrativen und Bildern? Wie materialisieren sich Prozesse der Ästhetisierung von Arbeit in verkörperten Performanzen, Arbeitsmitteln oder auch räumlichen Architekturen? Was passiert mit historischen und gegenwärtigen Formen der Arbeit, wenn sie im Museum ausgestellt werden? Wie artikuliert und formiert sich die Kritik der Ästhetisierung?

Business Innovation and Disruption in the Music Industry Patrik Wikström, Robert DeFillippi. 2016-01-29 Patrik Wikström and Robert DeFillippi bring together innovative, multidisciplinary perspectives on business innovation and disruption in the music industry. Authors from fields such as cultural studies, economics, management, media studies, musicology and human geography in North America, Europe and Asia focus on the "second wave" of digital disruption and the transformation of the music industry. The chapters are structured into three parts: the first part contextualizes changes in the music industry that have been driven by digital technologies since the end of the 1990s. The second part unpacks the impact of these disruptive technologies on business models in specific industry sectors and geographies, and the third and final part examines questions related to the emergence of subscription music services. Concluding chapters link back to the role of hackers as a subversive and innovative force in the music economy and examine how hacker creativity can be facilitated and encouraged to generate the next big music industry innovation. This multifaceted look at the music business will serve as a resource for both undergraduate and graduate students, as well as established scholars and industry professionals.

Physician-Assisted Suicide and Euthanasia Sheldon Rubenfeld, Daniel P. Sulmasy. 2020-11-03 Unlike Nazi medical experiments, euthanasia during the Third Reich is barely studied or taught. Often, even asking whether euthanasia during the Third Reich is relevant to contemporary debates about physician-assisted suicide (PAS) and euthanasia is dismissed as inflammatory. Physician-Assisted Suicide and Euthanasia: Before, During, and After the Holocaust explores the history of euthanasia before and during the Third Reich in depth and demonstrate how Nazi physicians incorporated mainstream Western philosophy, eugenics, population medicine, prevention, and other

medical ideas into their ideology. This book reveals that euthanasia was neither forced upon physicians nor wantonly practiced by a few fanatics, but widely embraced by Western medicine before being sanctioned by the Nazis. Contributors then reflect on the significance of this history for contemporary debates about PAS and euthanasia. While they take different views regarding these practices, almost all agree that there are continuities between the beliefs that the Nazis used to justify euthanasia and the ideology that undergirds present-day PAS and euthanasia. This conclusion leads our scholars to argue that the history of Nazi medicine should make society wary about legalizing PAS or euthanasia and urge caution where it has been legalized.

Story-Based Inquiry: A Manual for Investigative Journalists Mark Lee Hunter, gratuit, Unesco. 2011 Investigative Journalism means the unveiling of matters that are concealed either deliberately by someone in a position of power, or accidentally, behind a chaotic mass of facts and circumstances - and the analysis and exposure of all relevant facts to the public. In this way investigative journalism crucially contributes to freedom of expression and freedom of information, which are at the heart of UNESCO's mandate. The role media can play as a watchdog is indispensable for democracy and it is for this reason that UNESCO fully supports initiatives to strengthen investigative journalism throughout the world. I believe this publication makes a significant contribution to promoting investigative journalism and I hope it will be a valuable resource for journalists and media professionals, as well as for journalism trainers and educators. -- Jānis Kārklīnš, Assistant Director-General for Communication and Information, UNESCO, Preface, page 1.

Script-Tool Jens Becker.2014-02-16 The SCRIPT-TOOL ENNEAGRAM 2.0 rediscovers an old typology theory as a working tool for story tellers - the Enneagram. If you intend to develop characters and want to learn more about their attributes, or you design plot structures and are searching for a convincing model, the SCRIPT-TOOL ENNEAGRAM 2.0 is a new and helpful tool for this. It is not only applicable for screenplays but for other literary forms such as novels, short stories and theatre plays. The Enneagram is an age-old insight and self-recognition model that systematically explores nine different character profiles. Furthermore, it allows for and describes the inner dynamics of personality change, in countless varieties. Only in the last few decades has it been brought to world-wide attention. In the meantime, a few non-fiction books about the subject, which analyse literature and film with the help of the Enneagram scheme, have appeared. This Script-tool takes on a totally new approach by optimizing the Enneagram system directly for screen play development. It is a most efficient tool for the creation of credible characters or structuring a plot.

The Jungle Book of Leadership Ruth Seliger.2014-12-01 This book describes a new model of leadership - the Leadership-Map -, that helps executive managers to navigate the intricacies and complexity of their executive functions. From her 20 years of experience Ruth Seliger has learned that leadership is more a question of organization than personality, which is why established ideas of

what to do or not to do as an executive are short-sighted and often misleading. The introductory part of the book outlines the specific dilemmas and challenges of leadership and establishes a basis in systems theory. This is followed by a presentation of the main dimensions of leadership according to the Leadership-Map: practice, profession and process of leadership. Finally, the author points out the latest developments in Positive Leadership. Like a good map, the book is very practice and reader-oriented: numerous case examples, many charts, exercises and tests present a vivid image of the complex material.
