Court Uncourt | STA Law Firm STA Law Firm. 2018-03-10 We live in a time ravaged by the use of the Internet. Pluck a man out from a past century and drop him onto our planet, it would not be long before he would be amazed, or horrified, by thing we call the internet and what it has enabled us to do. The trade of goods was traditionally done by a hand-to-hand exchange, in which case, if any problem were to arise on the quality of the good or the amount paid, one could instantly manage it with the other party, face-to-face. The problem we face today is that in light of the online purchases we undertake, disputes over the state of the goods received entail complications in ascertaining who is to be held liable. In the United Kingdom, legislation has been introduced to regulate these modern-day scenarios. Sales of goods are covered by the Sale of Goods Act 1979. The Act will only apply when the buyer has not seen the products that have been purchased, and have proceeded with the sale based on the reasonable contemplation of the parties about how the item was portrayed to look. In this issue of Court Uncourt, our lawyers in Dubai will explain a broad range of legal matters

ranging from the bankruptcy code in the United Arab Emirates to the distinction between tax avoidance and tax evasion. Through this information outlet, we intend to keep our readers updated on the latest legal developments around the world. Essentials of Law and Ethics for Pharmacy Technicians Kenneth M. Strandberg.2002-08-28 As a pharmacy technician you are expected to have a broad knowledge of pharmacy practice and be skilled in the techniques required to order, stock, package, and dispense medications.
