The Strange Last Voyage of Donald Crowhurst Nicholas Tomalin,Ron Hall.2017-10-03 In early 1968, desperate entrepreneur Donald Crowhurst was trying to sell a nautical navigation device he had developed when he saw that the Sunday Times would be sponsoring the Golden Globe Race, the first ever solo, round-the-world sailing competition. An avid amateur sailor, Crowhurst sensed a marketing opportunity and shocked the world by entering the competition using an untested trimaran of his own design. Shock soon turned to amazement when he quickly took the lead, checking in by radio message from locations far ahead of his seasoned competitors. But on July 10, 1969, roughly eight months after he had sailed from England--and less than two weeks from his expected triumphant return--his wife was informed that his boat, the Teignmouth Electron, had been discovered drifting quietly, abandoned in the middle of the Atlantic Ocean. Crowhurst was missing, assumed drowned. How did he come to such an end when his race had begun with such incredible promise? In this masterpiece of investigative journalism, Nicholas Tomalin and Ron Hall reconstruct one of the greatest modern stories of one man's descent into self-delusion, public deception, and madness. Based on in-depth interviews with Crowhurst's family and friends, combined with gripping excerpts from his logbooks that revealed (among other things) he had been falsifying his locations all along, Tomalin and Hall paint an unforgettable, haunting portrait of a complex, deeply troubled man and his final fateful journey.

Formation au parapente. Catherine Schmider.1998 S'initier au parapente, c'est découvrir une activité magique mais aussi complexe. Piloter la voile et faire corps avec elle, apprivoiser l'air et apprendre à lire l'invisible, aller à la rencontre de soi même, se découvrir, s'accepter et se dépasser, autant de facettes qui font du vol en parapente une activité passionnante et exigeante, nécessitant une formation réfléchie. Destiné aux enseignants en place, aux moniteurs en formation, aux conseillers de stage et aux formateurs, ainsi qu'à toute personne désirant approfondir sa connaissance de l'activité, ce manuel offre à la fois une réflexion de fond sur l'activité parapente et les compétences nécessaires au pilote, et des outils très concrets directement utilisables sur le terrain. Après une analyse de l'activité parapente et quelques éléments fondamentaux de pédagogie expliqués en termes simples, il reprend les trois premiers niveaux du Passeport de Vol Libre de la FFVL (blanc, jaune, orange) et propose, pour chacune des compétences à développer, les rappels techniques, la progression et les outils pédagogiques nécessaires. Il met l'accent sur une formation à la sensation, avec en particulier un chapitre consacré au pilotage en statique. A travers la progression individualisée en biplace, il propose une alternative intéressante pour la formation initiale des pilotes. Premier ouvrage de pédagogie en parapente, il sensibilise les enseignants à la nécessité, dès l'initiation, d'une formation du pilote dans les quatre domaines de l'analyse, de la technique, du mental, et du cadre de pratique. Catherine Schmider, professeur EPS, monitrice de parapente et formatrice de moniteurs, nous livre le fruit de son expérience en matière de formation des pilotes de parapente. Passionnée de relations humaines, elle intègre la prise en compte de la personne comme élément fondamental dans l'acte d'enseignement et ouvre le moniteur à sa dimension d'éducateur. Formation au parapente : fondamentaux et pédagogie de l'initiation est édité par la Fédération Française de Vol Libre.

Wonderful Feels Like This Sara Lövestam. 2017-04-06 A feel-good story of an unconventional friendship between an old retired jazz musician and a young girl who is trying to find her place in the world. What can a bullied teenager learn from an old man spending his days in a retirement home? For a start, she'll learn that it ain't got a thing, if it ain't got that swing... Passing by a retirement home on her way from yet another awful day at school, she hears a familiar song playing through an open window. An old man is playing her musical idol Povel Ramel - a quirky jazz musician from the 1940s - and it sparks a new stage of her life. The man's name is Alvar and just like Steffi, he has a huge interest in music. Before long he starts telling her his story. In his youth, as the Second World War tore across Europe, he travelled to Stockholm. Young, innocent and quite naive, Alvar began his life in the big city, struggling to become a famous jazz musician. Or at least someone who was in a band. Or at the very least someone who could dance the jitterbug and talk to girls. Intrigued and inspired by Alvar's story, Steffi spends more and more time at the retirement home, learning about jazz and forgetting about school. She begins to realize that she doesn't have to be the Steffi other people know; instead, as Alvar did, she can recreate herself through music.

Social Responsibilities of the Businessman Howard R. Bowen. 2013-12-01 Corporate social responsibility (CSR) expresses a fundamental morality in the way a company behaves toward society. It follows ethical behavior toward stakeholders and recognizes the spirit of the legal and regulatory environment. The idea of CSR gained momentum in the late 1950s and 1960s with the expansion of large conglomerate corporations and became a popular subject in the 1980s with R. Edward Freeman's *Strategic Management: A Stakeholder Approach* and the many key works of Archie B. Carroll, Peter F. Drucker, and others. In the wake of the financial crisis of 2008-2010, CSR has again become a focus for evaluating corporate behavior. First published in 1953, Howard R. Bowen's *Social Responsibilities of the Businessman* was the first comprehensive discussion of business ethics and social responsibility. It created a foundation by which business executives and academics could consider the subjects as part of strategic planning and managerial decision-making. Though written in another era, it is regularly and increasingly cited because of its relevance to the current ethical issues of business operations in the United States. Many experts believe it to be the seminal book on corporate social responsibility. This new edition of the book includes an introduction by Jean-Pascal Gond, Professor of Corporate Social Responsibility at Cass Business School, City University of London, and a foreword by Peter Geoffrey Bowen, Daniels College of Business, University of Denver, who is Howard R. Bowen's eldest son.

Claiming Disability Simi Linton. 1998-01-01 From public transportation and education to adequate access to buildings, the social impact of disability has been felt everywhere since the passage of the Americans with Disabilities Act in 1990. And a remarkable groundswell of activism and critical literature has followed in this wake. *Claiming Disability* is the first comprehensive examination of Disability Studies as a field of inquiry. Disability Studies is not simply about the variations that exist in human behavior, appearance, functioning, sensory acuity, and cognitive processing but the meaning we make of those variations. With vivid imagery and numerous examples, Simi Linton explores the divisions society creates—the normal versus the pathological, the competent citizen versus the ward of the state. Map and manifesto, *Claiming Disability* overturns medicalized versions of disability and establishes disabled people and their allies as the rightful claimants to this territory.

The Rejection of Consequentialism Samuel Scheffler. 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.
