Prosthetic Memory Alison Landsberg.2004 Prosthetic Memory argues that mass cultural forms such as cinema and television in fact contain the still-unrealized potential for a progressive politics based on empathy for the historical experiences of others. The technologies of mass culture make it possible for anyone, regardless of race, ethnicity, or gender, to share collective memories--to assimilate as deeply felt personal experiences historical events through which they themselves did not live.

Virus Mania Torsten Engelbrecht,Claus Köhnlein,Samantha Bailey,Stefano Scoglio.2021-04-22 The book 'Virus Mania' has been written with the care of a master-craftsman, courageously evaluating the medical establishment, the corporate elites and the powerful government funding institutions. Wolfgang Weuffen, MD, Professor of Microbiology and Infectious Epidemiology The book 'Virus-Wahn' can be called the first work in which the errors, frauds and general misinformations being spread by official bodies about doubtful or non-virus infections are completely exposed. Gordon T. Stewart, MD, professor of public health and former WHO advisor - - - The population is terrified by reports of so-called COVID-19, measles, swine flu, SARS, BSE, AIDS or polio. However, the authors of Virus Mania, investigative journalist Torsten Engelbrecht, Dr. Claus Köhnlein, MD, Dr. Samantha Bailey, MD, and Dr. Stefano Scoglio, BSc PhD, show that this fearmongering is unfounded and that virus mayhem ignores basic scientific facts: The existence, the pathogenicity and the deadly effects of these agents have never been proven. The book Virus Mania will also outline how modern

medicine uses dubious indirect lab tools claiming to prove the existence of viruses such as antibody tests and the polymerase chain reaction (PCR). The alleged viruses may be, in fact, also be seen as particles produced by the cells themselves as a consequence of certain stress factors such as drugs. These particles are then picked up by antibody and PCR tests and mistakenly interpreted as epidemic-causing viruses. The authors analyze all real causes of the illnesses named COVID-19, avian flu, AIDS or Spanish flu, among them pharmaceuticals, lifestyle drugs, pesticides, heavy metals, pollution, malnutrition and stress. To substantiate it, the authors cite dozens of highly renowned scientists, among them the Nobel laureates Kary Mullis, Barbara McClintock, Walter Gilbert and Sir Frank Macfarlane Burnet as well as microbiologist and Pulitzer Prize winner René Dubos, and it presents more than 1,400 solid scientific references. The topic of Virus Mania is of pivotal significance. Drug makers and top scientists rake in enormous sums of money and the media boosts its audience ratings and circulations with sensationalized reporting (the coverage of the New York Times and Der Spiegel are specifically analyzed). The enlightenment about the real causes and true necessities for prevention and cure of illnesses is falling by the wayside. For more reviews, see the older edition of Virus Mania

Cosmopolitanisms and the Jews Cathy Gelbin, Sander Gilman. 2019-01-25 *Cosmopolitanisms and the Jews* adds significantly to contemporary scholarship on cosmopolitanism by making the experience of Jews central to the discussion, as it traces the evolution of Jewish cosmopolitanism over the last two centuries. The book sets out from an exploration of the nature and cultural-political implications of the shifting perceptions of Jewish mobility and fluidity around 1800, when modern cosmopolitanist discourse arose. Through a series of case studies, the authors analyze the historical and discursive junctures that mark the central paradigm shifts in the Jewish self-image, from the

Wandering Jew to the rootless parasite, the cosmopolitan, and the socialist internationalist. Chapters analyze the tensions and dualisms in the constructed relationship between cosmopolitanism and the Jews at particular historical junctures between 1800 and the present, and probe into the relationship between earlier anti-Semitic discourses on Jewish cosmopolitanism and Stalinist rhetoric.

German and United States Colonialism in a Connected World Janne Lahti.2021-01-28 This book contributes to global history by examining the connected histories of German and United States colonial empires from the early nineteenth century to the Nazi era. It looks at multiple and multidirectional flows, transfers, and circulations of ideas, people, and practices as Germany and the US were embedded in, and created by, an interconnected world of empires. This relationship was not exceptional, but emblematic of the diverse entanglements that created colonial globality.

Colonial entanglements between Germany and the United States took on many forms, but these shared and intersecting histories have been underanalyzed. Traditionally, Germany and the United States have been understood to have taken, respectively, an authoritarian and liberal path into modernity. But there is no neat dichotomy, as the contributors to this book illustrate. There are many more similarities than have previously been appreciated - and they are the result of multilayered entanglements made visible via conquest, settler societies, racialization, and rule of difference. Building on present historiographies of empires, colonialism, and globalization, this book introduces new analytical possibilities for examining these two relatively understudied empires alongside each other, as well as at their intersections. One Thousand Years of Manga Brigitte Koyama-Richard.2022-07-12 This definitive illustrated history of manga is an unparalleled account of the development of a form which is an integral part of Japanese art and culture and now hugely popular throughout the world. As contemporary as this graphic art form may appear to readers outside of Japan, manga has deep roots in Japanese culture, drawing on centuries- old artistic traditions. Traces can be found in seventh-century temple paintings, folding screens decorated with comic characters, and painted medieval emakimono scrolls. The more familiar manga comics of today echo similar themes, both light-hearted and serious, and draw on narrative forms present in both sagas and skits from Japan's rich cultural heritage. This volume spans the history of manga in all its splendor and diversity. Among the many highlights included are Hokusai's seminal Hokusai Manga of 1814, the advent of the gekiga style in the 1950s, the landmark Astro Boy by Tezuka Osamu, Lady Oscar, Riyoko Ikeda's shojo manga aimed at young girls, samurai sagas, alternative productions by the review Garo, the demons that populate the works of Mizuki Shigeru, and the latest creations from Jiro Taniguchi. Each period is covered in detail by author Brigitte Koyama-Richard and illustrated with drawings and prints. One Thousand Years of Manga is both an informative account of the genesis of the form and a visual delight. Featuring more than four hundred illustrations and captivating texts, the book situates manga in its proper context, appreciating it for what it truly is: an integral part of Japanese art and culture that is as rich and revealing as it is popular.

Identity and Image Jutta Vinzent.2006 This book explores the image and identity of émigré painters,

sculptors and graphic artists from Nazi Germany in Britain between 1933 and 1945. It focuses on a neglected field of Exile Studies, that of exiled artists in Britain. Methodologies used in this study have been developed by Exile Studies and History of Art, but also by Postcolonialism, scholars of which usually apply their ideas to the Afro-Asian emigration of the second part of the twentieth century. Thus this study represents methodologically a new way of looking at the emigration from Nazi Germany. Identity and Image is divided into five chapters: After an introductory Chapter One (historiography of the topic, methodology of the study, structure of the book), Chapter Two establishes socio-political patterns of emigration and provides an historical framework for Chapters Three and Four, which concentrate on the image and identity of the refugee artist, the former based on written sources and the latter on visual material. In detail, Chapter Three analyses the British image of the refugee artists and their works on the one hand and the émigrés' self-representations on the other, the latter exemplified by refugee organisations (the Free German League of Culture/Freier Deutscher Kulturbund, the Austrian Centre, the Anglo-Sudeten Club and the Czech Institute) and institutions founded by émigré artists (Jack Bilbo's Modern Art Gallery and Arthur Segal's Painting School). Chapter Four examines the works produced in internment and those exhibited and produced for the refugee organisations discussed in Chapter Three. Chapter Five discusses the results of this study in the light of three postcolonial concepts: diaspora communities, the notion of home and the gendered identity of the refugee. The appendix lists all painters, sculptors and graphic artists from Nazi Germany in Britain with biographical details. Apart from visual and written sources discussed for the first time, there are two major results of the study: First, although the artists were united as refugees, this unity did not lead to a unity in art - refugee art is a construction put forward by the British press and the refugee organisations, particularly the

Free German League of Culture. Second, contrary to claims that modern art was international and formed a universal unity that transgressed nationality, neither the West/Europe nor modernism form unities; instead, in the 1930s and 1940s, cultures in Europe constructed conceptions of other European cultures on the basis of nation-state identities.

Soundings 12 COCKBURN,HUNTER.2000-09 The special theme of this issue of Soundings is traversal politics - a term which attempts to conceptualize a democratic practice of talking across difference. The idea is to find ways of doing things which involve neither the imposition of a single universe which refuses to recognize that there really are differences, nor the retreat into those differences as tightly-bound, exclusivist and essentialist - to find a creative ways of crossing (and possibly redrawing) the borders that mark significant politicized differences; and to find forms of empathy not based on sameness, ways of shifting which don't involve tearing up your roots.

The Zionist Masquerade J. Renton.2007-10-17 This book offers a new interpretation of a critical chapter in the history of the Zionist-Palestine conflict and the British Empire in the Middle East. It contends that the Balfour Declaration was one of many British propaganda policies during the World War I that were underpinned by misconceived notions of ethnicity, ethnic power and nationalism.

Der Prophet der Deutschen Norbert Mecklenburg.2016-08-09 Das Buch bietet eine kritische Literaturgeschichte der Lutherbilder von der Reformationszeit bis zur Gegenwart. Fünf Jahrhunderte lang haben sich viele Autoren über das welthistorische Individuum Martin Luther geäußert und es literarisch darzustellen versucht, von Hans Sachs über Herder, Goethe und Kleist bis hin zu Thomas Mann, Dieter Forte und Rolf Hochhuth. Luther wurde mit den verschiedensten literarischen Mitteln und Effekten inszeniert, etwa als die wittenbergische Nachtigall , der eislebische christliche Ritter , die mächtige Eiche deutschen Stammes , der stiernackige Gottesbarbar . Die Literatur hat sich an der Fabrikation eines Luther-Mythos beteiligt, der den Reformator zu einem Propheten der Deutschen erhob, und ebenso an der Destruktion dieses Mythos.

Images of the Other in Ethnic Caricatures of Central and Eastern Europe Dagnosław Demski.2010 The book Images of the Other in Ethnic Caricatures of Central and Eastern Europe contains 16 articles and over 100 graphics namely ethnic caricatures. It presents work of scientists from Central and Eastern Europe focusing in their texts on data also from that region. Contributors of the volume represent various scientific disciplines and thus various approaches. In the book one can find

theoretical articles as well as particular interpretations of visual data. Images of the Other in Ethnic Caricatures is the first such detailed study on nineteenth- and early twentieth- century ethnic caricatures from Central and Eastern Europe. However the aim of editors of the volume was not to introduce to the readers all-encompassing analysis of those pictures, but rather to make an attempt of deconstructing stereotypes existing behind pictures and depicted in those graphics. The general aim of the volume is to start a discussion on ethnic caricatures, their perceiving and their function and not to give final solutions for studying it

Die heutige Bedeutung oraler Traditionen / The Present-Day Importance of Oral Traditions

Walther Heissig, Rüdiger Schott. 1998 Besondere Aufmerksamkeit verdient das Problem der Archivierung von Tonbandaufnahmen. Sie stellen oft die einzigen Dokumente dahinschwinden der mündlichen Überlieferungen dar; um ihre Erhaltung sollte man daher sehr besorgt sein, zumal Tonbandaufnahmen durch zahlreiche Einflüsse, nicht zuletzt durch die kosmische Strahlung, permanent gefährdet sind. Auf der Arbeitstagung fand unter den Teilnehmern ein Erfahrungsaustausch über die derzeit und in naher Zukunft am besten geeigneten Tonträger zur Archivierung von Tonbandaufnahmen statt. Die Probleme der Archivierung von mündlichen Überlieferungen gehen jedoch weit über die der Archivierung von Tonbandaufnahmen hinaus. Vor allem in Osteuropa gibt es außerordentlich umfangreiche Archive schriftlich aufgezeichneter mündlicher Traditionen. So begann beispielsweise die Sammelstätigkeit der Esten auf diesem Gebiet bereits im 17. Jahrhundert. Das Archiv der Estnischen Folklore umfaßte 1981 nicht weniger als 1.134.020 Seiten und 33.995 Stücke in einer Phonotheke. Das Material aus diesen Archivalsammlungen wurde bislang nur zu einem Bruchteil veröffentlicht und wissenschaftlich

bearbeitet. Das Problem der Bewältigung solcher Stoffmassen, auch mit modernen Methoden der Daten- und Textverarbeitung, beschäftigt zahlreiche Wissenschaftler. 3. Zum Problem der Publikation von mündlichen Überlieferungen wurde die Frage erörtert, welche Auswahl aus dem in der Regel sehr umfangreichen Material nach welchen Kriterien getroffen werden sollte. Mit dem Normaleu ser taucht die Frage nach populären bzw. wissenschaftlichen Editionen auf.

Europe and the Black Sea Region Dominik Gutmeyr. 2019-05 When the scientific study of the Black Sea Region began in the late 18th and early 19th centuries, initially commissioned by adjacent powers such as the Habsburg and the Russian empires, this terra incognita was not yet considered part of Europe. The eighteen chapters of this volume show a broad range of thematic foci and theoretical approaches - the result of the enormous richness of the European macrocosm and the BSR. The microcosms of the many different case studies under scrutiny, however, demonstrate the historical dimension of exchange between the allegedly opposite poles of 'East' and 'West' and underscore the importance of mutual influences in the development of Europe and the BSR.

Earth Pressure Achim Hettler, Karl-Eugen Kurrer. 2020-01-13 The subject of earth pressure is one of the oldest and most extensive chapters in soil mechanics and foundation engineering and is one of the pillars of structural engineering. First the development of earth pressure theory is comprehensively described. The descriptions range from the first approaches to the determination of earth pressure through continuum mechanical earth pressure models to the integration of earth pressure research into the disciplinary structure of geotechnics. The main part of the book comprises a selection of current calculation basics. The aim is to provide a collection of working instructions for foundation and structural engineers in construction companies, consultants and in building supervision as well as students. In order to further theoretical understanding, the essential

basics of the determination of earth pressure are first presented. Then the most important processes for active and passive earth pressure and at-rest earth pressure for practical application are dealt with, with spatial effects also being taken into account. The book sets out to provide brief information about rarely encountered questions with references to further literature. In recent years, the dependency of earth pressure on displacement has been paid ever more attention. This applies not just to the passive but also to the active case. Questions are repeatedly passed to the DIN committee calculation processes. A selection of these is dealt with in the commentary to DIN 4085, which came out in September 2018. The history of earth pressure theory is supplemented by 40 selected short biographies of scientists and practical engineers, who have taken up the subject and further developed it over the years. The book also has two appendices with terms, formula symbols and indices as well as earth pressure tables.

From Revolt to Riches Theo Hermans, Reinier Salverda, Ulrich Tiedau. 2017-03-28 This collection investigates the culture and history of the Low Countries in the sixteenth and seventeenth centuries from both international and interdisciplinary perspectives. The period was one of extraordinary upheaval and change, as the combined impact of Renaissance, Reformation and Revolt resulted in the radically new conditions - political, economic and intellectual - of the Dutch Republic in its Golden Age. While many aspects of this rich and nuanced era have been studied before, the emphasis of this volume is on a series of interactions and interrelations: between communities and their varying but often cognate languages; between different but overlapping spheres of human activity; between culture and history. The chapters are written by historians, linguists, bibliographers, art historians and literary scholars based in the Netherlands, Belgium, Great Britain and the United States. In continually crossing disciplinary, linguistic and national boundaries, while

keeping the culture and history of the Low Countries in the Renaissance and Golden Age in focus, this book opens up new and often surprising perspectives on a region all the more intriguing for the very complexity of its entanglements.

Madrid on the move Vanesa Rodríguez-Galindo.2021-02-02 Madrid on the move illustrates print culture and the urban experience in nineteenth-century Spain. It provides a fresh account of modernity by looking beyond its canonical texts, artworks, and locations and explores what being modern meant to people in their daily lives. Rather than shifting the loci of modernity from Paris or London to Madrid, this book decentres the concept and explains the modern experience as part of a more fluid, global phenomenon. Meanings of the modern were not only dictated by linguistic authorities and urban technocrats; they were discussed, lived, and constructed on a daily basis. Cultural actors and audiences displayed an acute awareness of what being modern entailed and explored the links between the local and the global, two concepts and contexts that were being conceived and perceived as inseparable.

Aesthetics Today Stefan Majetschak, Anja Weiberg. 2017-06-26 Aesthetics is no longer merely the philosophy of perception and the arts. Nelson Goodman, Arthur Danto and others have contributed to develop aesthetics from a field at the margins of philosophy to one permeating substantial areas of theoretical and practical philosophy. New approaches like environmental and ecological aesthetics widened the understanding of the aesthetics of nature. The contributions in this volume address the most important issues in contemporary aesthetics, many of them from a Wittgensteinian perspective. The 39th International Ludwig Wittgenstein Symposium, organized by the Austrian Ludwig Wittgenstein Society, was held at Kirchberg am Wechsel, Lower Austria, from August 7th to 13th 2016 and aimed at taking an inventory of important tendencies and positions in contemporary aesthetics. The volume includes a selection of the invited papers.

WHITE MAN'S BURDEN Rudyard Kipling. 2020-11-05 This book re-presents the poetry of Rudyard Kipling in the form of bold slogans, the better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

Karikaturen über Bosnien-Herzegowina in deutschen und österreichischen satirischen Blättern

Amira Zmiric. 2022-01-07 Die wissenschaftliche Analyse von Karikaturen über Bosnien-Herzegowina zwischen 1878 und 1908 steht im Zentrum der beiden Bände. In den Satireblättern lassen sich Stereotype, Vorurteile und das Verhältnis zwischen Deutschland, Österreich-Ungarn und Bosnien-Herzegowina ablesen. Die Autorin verbindet dies auch mit der historisch-politischen Situation auf dem Balkan. Nach einer grundlegenden Einführung in das Thema Karikaturen und einer Vorstellung der untersuchten Satirezeitschriften werden (zeit-)typische Motive, Symbole und Denkschemata herausgearbeitet, wobei der hypertextuelle Charakter der Karikaturen hervorgehoben wird. Zusätzlich liefert die Autorin eine Klassifikation und Systematisierung der Karikaturen.

Borderlands Orientalism or How the Savage Lost his Nobility Dominik Gutmeyr. 2017 In

Russia's cultural memory, the Caucasus is a potent point of reference, to which many emotions, images, and stereotypes are attached. The book gives a new reading of the development of Russia's perception of its borderlands and presents a complex picture of the encounter between the Russians and the indigenous population of the Caucasus. The study outlines the history of a region standing in between Russian reveries and Russian imperialism.
