**The Terministic Screen** David Blakesley.2007-09-28 The Terministic Screen: Rhetorical Perspectives on Film examines the importance of rhetoric in the study of film and film theory. Rhetorical approaches to film studies have been widely practiced, but rarely discussed until now. Taking on such issues as Hollywood blacklisting, fascistic aesthetics, and postmodern dialogics, editor David Blakesley presents fifteen critical essays that examine rhetoric's role in such popular films as The Fifth Element, The Last Temptation of Christ, The Usual Suspects, Deliverance, The English Patient, Pulp Fiction, The Music Man, Copycat, Hoop Dreams, and A Time to Kill. Aided by sixteen illustrations, these insightful essays consider films rhetorically, as ways of seeing and not seeing, as acts that dramatize how people use language and images to tell stories and foster identification. Contributors include David Blakesley, Alan Nadel, Ann Chisholm, Martin J. Medhurst, Byron Hawk, Ekaterina V. Haskins, James Roberts, Thomas W. Benson, Philip L. Simpson, Davis W. Houck, Caroline J.S. Picart, Friedemann Weidauer, Bruce Krajewski, Harriet Malinowitz, Granetta L. Richardson, and Kelly Ritter.

**Making Space for Indigenous Feminism** Joyce Green.2017-10 The 2007 first edition of this book proposed that Indigenous feminism was a valid and indeed essential theoretical and activist position, and introduced a roster of important Indigenous feminist contributors. The book has been well received nationally and internationally. It has been deployed in Indigenous Studies, Law, Political Science, and Women and Gender Studies in universities and appears on a number of doctoral comprehensive exam reading lists. The second edition, Making More Space, builds on the success of its predecessor, but is not merely a reiteration of it. Some chapters from the first edition are largely revised. A majority of the chapters are new, written for the second edition by important new scholars and activists. The second edition is more confident and less diffident about making the case for Indigenous feminism and in deploying a feminist analysis. The chapters cover issues that are relevant to some of the most important issues facing Indigenous people--violence against women, recovery of Indigenous self-determination, racism, misogyny, and decolonisation. Specifically, new chapters deal with Indigenous resurgence, feminism amongst the Sami and in Aboriginal Australia, neoliberal restructuring in Oaxaca, Canada's settler racism and sexism, and missing and murdered Indigenous women in Canada.--.

**The Emperor Has No Clothes** Tema Okun.2010-10-01 The Emperor Has No Clothes: Teaching About Race and Racism to People Who Don't Want to Know offers theoretical grounding and practical approaches for leaders and teachers interested in effectively addressing racism and other oppressive constructs. The book draws both on the author's extensive experience teaching about race and racism in classroom and community settings and from the theory and practice of a wide range of educators, activists, and researchers committed to social justice. The first chapter looks at the toxic consequences of our western cultural insistence on profit, binary thinking, and individualism to establish the theoretical framework for teaching about race and racism. Chapter two investigates privileged resistance, offering a psycho/social history of denial, particularly as a product of racist culture. Chapter three reviews the research on the construction and reconstruction of dominant culture both historically and now in order to establish sound strategic approaches that educators, teachers, facilitators, and activists can take as we work together to move from a culture of profit and fear to one of shared hope and love. Chapter four lays out the stages of a process that supports teaching about racist, white supremacy culture, explaining how students can be taken through an iterative process of relationshipbuilding, analysis, planning, action, and reflection. The final chapter borrows from the brilliant, brave, and incisive writer Dorothy Allison to discuss the things the author knows for sure about how to teach people to see that which we have been conditioned to fear knowing. The chapter concludes with how to encourage and support collective and collaborative action as a critical goal of the process.

**Scanderbeide** Margherita Sarrocchi.2007-11-01 The first historical heroic epic authored by a woman, Scanderbeide recounts the exploits of fifteenth-century Albanian warrior-prince George Scanderbeg and his war of resistance against the Ottoman sultanate. Filled with scenes of intense and suspenseful battles contrasted with romantic episodes, Scanderbeide combines the action and fantasy characteristic of the genre with analysis of its characters' motivations. In selecting a military campaign as her material and epic poetry as her medium, Margherita Sarrocchi (1560?-1617) not only engages in the masculine subjects of political conflict and warfare but also tackles a genre that was, until that point, the sole purview of men. First published posthumously in 1623, Scanderbeide reemerges here in an adroit English prose translation that maintains the suspense of the original text and gives ample context to its rich cultural implications.

*The Black Terrorist* Tierno Monémbo.2017-08-12 The Black Terrorist is a fictional account built around the true, extraordinary, but little-known story of Addi Bâ. Addi Bâ was born in Guinea about 1916, brought to France in the late 1930s, and became a rifleman in the Twelfth Regiment de Tirailleurs Sénégalais (African soldiers from French colonies) fighting for France during World War II. Captured after the Battle of the Meuse, Addi escapes from German forces, wanders in the forests, before finding refuge in a village in the Vosges, where he encounters the French Resistance and becomes a leader of a Resistance network. However, Addi is captured, tortured, and executed in December 1943. His military exploits against the Germans earned him the name "the black terrorist." The story of Addi Bâ is told sixty years later from a number of perspectives, though largely from Germaine Tergoesse, who was a young girl during the war, now eighty years old relating her memories to Bâ's nephew. But who betrayed Addi Bâ? One of its many lovers? A professional collaborator? Or just the rivalry between the Tergoesses and the Rapennes, two families who have been feuding since the First World War? This African and Muslim fighter of Free France was awarded the Medal of the Resistance in 2003, sixty years after his execution. The Black Terrorist (Le terroriste noir) was awarded the Erckmann-Chatrian Prize in 2012, and both the Palatine Grand Prize and the Ahmadou-Kourouma Prize in 2013.

**The Two Faces of Graeco-Roman Egypt** Verhoogt,Vleeming.2020-04-28 On May 1st, 1998 Professor P.W.Pestman retired from academic teaching. His contributions to the field of papyrology are well known: he has continually stressed the importance of Egyptian sources for the study of Greek and Roman Egypt, and the importance of studying the Greek and Egyptian documentation together, in context. Indeed, he has been among the first to link the formerly separate Greek and Egyptian documentation, establishing modern papyrological practice. He has thus given an Egyptian face to Graeco-Roman society, to complement the Greek face that had previously dominated papyrology. The present volume contains twelve contributions by members and alumni of the Papyrologisch Instituut that illustrate the two faces of Graeco-Roman Egypt and show how they may be tied together.

La vraie religion chrétienne Emanuel Swedenborg.1852

From Dust to Ashes P. Jupp.2005-12-15 Seventy per cent of British families now choose cremation for their funerals, a rapid change in traditional death customs. This is the first book to investigate why cremation replaced burial. It examines the political, religious, economic and social reasons behind personal choice and sets them in a European context. This study is doubly timely with the expanding scholarly interest in death studies, and the new media interest in the British way of death.

**The Curse of Ham** David M. Goldenberg.2009-04-11 How old is prejudice against black people? Were the racist attitudes that fueled the Atlantic slave trade firmly in place 700 years before the European discovery of sub-Saharan Africa? In this groundbreaking book, David Goldenberg seeks to discover how dark-skinned peoples, especially black Africans, were portrayed in the Bible and by those who interpreted the Bible--Jews, Christians, and Muslims. Unprecedented in rigor and breadth, his investigation covers a 1,500-year period, from ancient Israel (around 800 B.C.E.) to the eighth century C.E., after the birth of Islam. By tracing the development of anti-Black sentiment during this time, Goldenberg uncovers views about race, color, and slavery that took shape over the centuries--most centrally, the belief that the biblical Ham and his descendants, the black Africans, had been cursed by God with eternal slavery. Goldenberg begins by examining a host of references to black Africans in biblical and postbiblical Jewish literature. From there he moves the inquiry from Black as an ethnic group to black as color, and early Jewish attitudes toward dark skin color. He goes on to ask when the black African first became identified as slave in the Near East, and, in a powerful culmination, discusses the resounding influence of this identification on Jewish, Christian, and Islamic thinking, noting each tradition's exegetical treatment of pertinent biblical passages. Authoritative, fluidly written, and situated at a richly illuminating nexus of images, attitudes, and history, The Curse of Ham is sure to have a profound and lasting impact on the perennial debate over the roots of racism and slavery, and on the study of early Judaism, Christianity, and Islam.

*Lectures on Welsh Philology* Sir John Rhys.1877

**Ancient History and the Antiquarian** Michael Hewson Crawford,C. R. Ligota.1995 Arnaldo Momigliano was convinced that all disciplines need to be aware of their own history. His famous lecture Ancient History and the Antiquarian, delivered in 1949 at the Warburg Institute, and published in 1950 in the Journal of the Warburg and Courtauld Institutes, has become a landmark. In it he showed how historiography had been changed by the recognition that what historians had left out of the record could be put back by the antiquarians. He argued that a comprehensive interest in the vestiges of ancient civilization, beginning in the Renaissance and refined and enlarged during the 17th, 18th and 19th centuries, made a rigid distinction between historical and antiquarian studies unjustifiable; furthermore, the standards set by the antiquarians in the understanding and interpretation of the past still have relevance.

**The Divans of the Six Ancient Arabic Poets** W. Ahlwardt.2019-01-02 This collection of the Divans of Ennabiga, Antara, Tharafa, Zuhair, Alqama, and Imruulqais is a rare find. Among the earliest known writers of Arabic poetry, these authors are essential components of Arabic history and literature. This study, long out of print, is the acknowledged starting point for the study of these poets. Their Divans are presented in Arabic, along with a substantial introduction by Ahlwardt, a list of variant readings and corrections, considerations of discrepancies in the manuscripts, and appendices of the fragments.

**Memoir of a Race Traitor** Mab Segrest.2019-09-24 Back in print after more than a decade, the singular chronicle of life at the forefront of antiracist activism, with a new introduction and afterword by the author Mab Segrest's book is extraordinary. It is a 'political memoir' but its language is poetic and its tone passionate. I started it with caution and finished it with awe and pleasure. —Howard Zinn In 1994, Mab Segrest first explained how she had become a woman haunted by the dead. Against a backdrop of nine generations of her family's history, Segrest explored her experiences in the 1980s as a white lesbian organizing against a virulent far-right movement in North Carolina. Memoir of a Race Traitor became a classic text of white antiracist practice. bell hooks called it a courageous and daring [example of] the reality that political solidarity, forged in struggle, can exist across differences. Adrienne Rich wrote that it was a unique document and thoroughly fascinating. Juxtaposing childhood memories with contemporary events, Segrest described her journey into the heart of her culture, finally veering from its trajectory of violence toward hope and renewal. Now, amid our current national crisis driven by an increasingly apocalyptic white supremacist movement, Segrest returns with an updated edition of her classic book. With a new introduction and afterword that explore what has transpired with the far right since its publication, the book brings us into the age of Trump—and to what can and must be done. Called a true delight and a must-read (Minnesota Review), Memoir of a Race Traitor is an inspiring and politically potent book. With brand-new power and relevance in 2019, this is a book that far transcends its genre.

*Death, Modernity, and the Body* Eva Åhrén.2009 A provocative study that explores medical, social, cultural, and aesthetic customs and practices of treating the dead body in Sweden in an era of modernization.

Kundalini Lilian Silburn.1988-10-18 Kundalini's power lies dormant in humans until it is awakened. The awakened Kundalini expresses the primal divine impulse and ultimately joins the individual with the divine. The

development of the book parallels the development of the Kundalini within. Part One exposes the awakening and unfolding of the Kundalini; Part Two describes the piercing of the energy centers and the stages of ascent through the body; and Part Three examines Kundalini's relation to sexual expression. The book provides a deep understanding of Tantra and of the underlying purpose of Tantracism. The author carefully considers the Caryakrama practices of sexual expression as a means of awakening and controlling Kundalini. Silburn draws together passages from the Trika, Krama, and Kaula systems ranging through Abhinavagupta and Lalla and provides both translation and commentary for them. Chapters on the Chakras, the Nadis, and on mantras further elucidate the topic and lead to a forceful conclusion: Kundalini is the source of ultimate human knowledge and power.

Tracing ancient and classical cremation sites, historical and contemporary cremation processes and procedures of both scientific and legal kind, the encyclopedia also includes sections on specific cremation rituals, architecture, art and text. Features in the volume include: a general introduction and editorial introductions to sub-sections by Douglas Davies, an international specialist in death studies; appendices of world cremation statistics and a chronology of cremation; cross-referencing pathways through the entries via the index; individual entry bibliographies; and illustrations. This major international reference work is also an essential source book for students on the growing number of death-studies courses and wider studies in religion, anthropology or sociology.

**The American School 1642 - 2004** Joel Spring.2004-05-21 This current, comprehensive history of American education is designed to stimulate critical analysis and critical thinking by offering alternative interpretations of each historical period. The point of view taken by this text emphasizes 1) the role of multiculturalism and cultural domination in shaping U.S. schools, 2) the position of the school as one of many institutions that manage the distribution of ideas in society, 3) racism as a central issue in U.S. history and U.S. educational history, and 4) economic issues as an important factor in understanding the evolution of U.S. schools.

**Postcolonial African Cinema** Kenneth W. Harrow.2007 Kenneth W. Harrow offers a new critical approach to African cinema--one that requires that we revisit the beginnings of African filmmaking and the critical responses to which they gave rise, and that we ask what limitations they might have contained, what price was paid for the approaches then taken, and whether we are still caught in those limitations today. Using Zizek, Badiou, and a range of Lacanian and postmodern-based approaches, Harrow attempts to redefine the possibilities of an African cinematic practice--one in which fantasy and desire are placed within a more expansive reading of the political and the ideological. The major works of Sembène Ousmane, Djibril Diop Mambéty, Souleymane Cisse, Jean-Pierre Bekolo, Jean-Marie Teno, Bassak ba Kohbio, and Fanta Nacro are explored, while at the same time the project of current postmodern theory, especially that of Jameson, is called into question in order that an African postmodernist cultural enterprise might be envisioned.

**Uprooting Racism** Paul Kivel.2011-09-27 In 2008 the United States elected its first black president, and recent polls show that only twenty-two percent of white people in the United States believe that racism is a major societal problem. On the surface, it may seem to be in decline. However, the evidence of discrimination persists throughout our society. Segregation and inequalities in education, housing, health care, and the job market continue to be the norm. Post 9/11, increased insecurity and fear have led to an epidemic of the scapegoating and harassment of people of color. Uprooting Racism offers a framework for understanding institutional racism. It provides practical suggestions, tools, examples, and advice on how white people can intervene in interpersonal and organizational situations to work as allies for racial justice. Completely revised and updated, this expanded third edition directly engages the reader through questions, exercises, and suggestions for action, and takes a detailed look at current issues such as affirmative action, immigration, and health care. It also includes a wealth of information about specific cultural groups such as Muslims, people with mixed-heritage, Native Americans, Jews, recent immigrants, Asian Americans, and Latinos. Previous editions of Uprooting Racism have sold more than fifty thousand copies. Accessible, personal, supportive, and practical, this book is ideal for students, community activists, teachers, youth workers, and anyone interested in issues of diversity, multiculturalism, and social justice. Paul Kivel is an award-winning author and an accomplished trainer and speaker. He has been a social justice activist, a nationally and internationally recognized anti-racism educator, and an innovative leader in violence prevention for over forty years.

**Forgiveness** Vladimir Jankélévitch.2005-04 Philosopher Vladimir Jankélévitch has only recently begun to receive his due from the English-speaking world, thanks in part to discussions of his thought by Jacques Derrida, Emmanuel Lévinas, and Paul Ricoeur. His international readers have long valued his unique, interdisciplinary approach to philosophy's greatest questions and his highly readable writing style. Originally published in 1967, *Le Pardon*, or *Forgiveness*, is one of Jankélévitch's most influential works. In it, he characterizes the ultimate ethical act of forgiving as behaving toward the perpetrator as if he or she had never committed the action, rather than merely forgetting or rationalizing it—a controversial notion when considering events as heinous as the Holocaust. Like so many of Jankélévitch's works, *Forgiveness* transcends standard treatments of moral problems, not simply generating a treatise on one subject but incorporating discussions of topics such as free will, giving, creativity, and temporality. Translator Andrew Kelley masterfully captures Jankélévitch's melodic prose and, in a substantive introduction, reviews his life and intellectual contributions. *Forgiveness* is an essential part of that legacy, and this indispensable English translation provides key tools for understanding one of the great Western philosophers of the twentieth century.

**Anthropology and Public Health** Robert A. Hahn, Marcia C. Inhorn.2008-10-17 Many serious public health problems confront the world in the new millennium. *Anthropology and Public Health* examines the critical role of anthropology in four crucial public health domains: (1) anthropological understandings of public health problems such as malaria, HIV/AIDS, and diabetes; (2) anthropological design of public health interventions in areas such as tobacco control and elder care; (3) anthropological evaluations of public health initiatives such as Safe Motherhood and polio eradication; and (4) anthropological critiques of public health policies, including neoliberal health care reforms. As the volume demonstrates, anthropologists provide crucial understandings of public health problems from the perspectives of the populations in which the problems occur. On the basis of such understandings, anthropologists may develop and implement interventions to address particular public health problems, often working in collaboration with local participants. Anthropologists also work as evaluators, examining the activities of public health institutions and the successes and failures of public health programs. Anthropological critiques may focus on major international public health agencies and their workings, as well as public health responses to the threats of infectious disease and other disasters. Through twenty-four compelling case studies from around the world, the volume provides a powerful argument for the imperative of anthropological perspectives, methods, information, and collaboration in the understanding and practice of public health. Written in plain English, with significant attention to anthropological methodology, the book should be required reading for public health practitioners, medical anthropologists, and health policy makers. It should also be of interest to those in the behavioral and allied health sciences, as well as programs of public health administration, planning, and management. As the single most comprehensive and up-to-date analysis of anthropology's role in public health, this volume will inform debates about how to solve

the world's most pressing public health problems at a critical moment in human history.

LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains. It may seem overwhelming when you think about how to find and download free ebooks, but it's actually very simple. With the steps below, you'll be just minutes away from getting your first free ebook. Between the three major ebook formats—EPUB, MOBI, and PDF—what if you prefer to read in the latter format? While EPUBs and MOBIs have basically taken over, reading PDF ebooks hasn't quite gone out of style yet, and for good reason: universal support across platforms and devices. You can search and download free books in categories like scientific, engineering, programming, fiction and many other books. No registration is required to download free e-books. While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers. You can search for free Kindle books at Free-eBooks.net by browsing through fiction and non-fiction categories or by viewing a list of the best books they offer. You'll need to be a member of Free-eBooks.net to download the books, but membership is free. "Buy" them like any other Google Book, except that you are buying them for no money. Note: Amazon often has the same promotions running for free eBooks, so if you prefer Kindle, search Amazon and check. If they're on sale in both the Amazon and Google Play bookstores, you could also download them both. If your books aren't from those sources, you can still copy them to your Kindle. To move the ebooks onto your e-reader, connect it to your computer and copy the files over. In most cases, once your computer identifies the device, it will appear as another storage drive. If the ebook is in the PDF format and you want to read it on your computer, you'll need to have a free PDF reader installed on your computer before you can open and read the book. It would be nice if we're able to download free e-book and take it with us. That's why we've again crawled deep into the Internet to compile this list of 20 places to download free e-books for your use.
