Catalogue Bernard Quaritch.2017-09-06 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

TESOL and Sustainability Jason Goulah,John Katunich.2020-05-14 In the burgeoning field of ecolinguistics, little attention has been given to the ways in which English language teaching is and has become implicated in

global ecological crises. This book begins a dialogue about the opportunities and responsibilities presented to the TESOL field to re-orient professional practice in ways that drive cultural change and engender alternate language practices and metaphors. Covering a diverse range of topics, including anthropogenic climate change, habitat loss, food insecurity and mass migration, chapters argue that such crises require not only technological innovation, but also cultural changes in how human beings relate to each other and their environment. Arguing that it is incumbent upon the field of English language teaching to reckon with such cultural changes in how and what we teach, TESOL and Sustainability addresses the ways in which discourses such as eco-pedagogy, the critique of neo-liberalism, non-Western philosophy and post-humanist thought can and must inform how and what is taught in ESL and EFL classrooms.

De arte poetica Horace.1989-12-07 This volume fulfills the need for a student edition of Horace's literary epistles, which have recently been the subject of renewed scholarly interest. Professor Rudd provides a clear introduction to each of the three poems: the Epistles to Augustus, to Florus, and to the Pisones (the so-called Ars Poetica). He sketches the historical context in which the poems were written and comments on their structure and purpose. He also discusses their literary preoccupations: the relations of poet and patron and the role of poetry in the state (Augustus), the problems of a professedly tiring poet (Florus), and the presentation of classical poetic theory (Ars Poetica). He notes Horace's influence on later criticism, drawing attention in one section to one of Alexander Pope's Imitations. He also addresses problems of grammar and style, focusing on linguistic difficulties and the subtle movement of the poet's thought.
