The Arab of the Future 4 Riad Sattouf. 2019-11-05 The penultimate installment in the bestselling French graphic memoir series—hailed as "exquisitely illustrated" and "irresistible"—covering the years of Riad Sattouf's adolescence, from 1987-1992. In the fourth volume of *The Arab of the Future*, little Riad has grown into a teenager. In the previous books, his childhood was complicated by the pull of his two cultures—French and Syrian—and his parents' deteriorating relationship. Now his father, Adbel-Razak, has left to take a job in Saudi Arabia, and after making a pilgrimage to Mecca, turns increasingly towards religion. But after following him from place to place and living for years under the harsh conditions of his impoverished village, Riad's mother Clementine has had enough. Refusing to live in a country where women have no rights, she returns with her children to live in France with her own mother... until Abdel-Razak shows up unexpectedly to drag the family on yet another journey. As the series builds to a climax, we see Riad struggle with problems both universal (bullies at school) and specific (his mother's sudden illness, the judgment of his religious relatives).

And as Abdel-Razak returns again to the same fantastical dreams he pursued in previous books, we see him become more and more unhinged, until ultimately he crosses the line from idealism to fanaticism, leading to a dramatic breaking point. Full of the same gripping storytelling and lush visual style for which Sattouf's previous works have won numerous awards, *The Arab of the Future 4* continues the saga of the Sattouf family and their peripatetic life in France and the Middle East.

Robert Garnier in Elizabethan England Marie-Alice Belle,Line Cottegnies.2017-09-11 This volume gathers together, for the first time, Mary Sidney Herbert's *Antonius* (1592) and Thomas Kyd's *Cornelia* (1594), two significant and inter-related responses to Robert Garnier's Roman plays, *Marc Antoine* (1578) and *Cornélie* (1574). As a unique diptych the translated plays offer invaluable insight into the often ghostly presence of French literature in Elizabethan culture. They also mark an important chapter in the development of early modern neoclassical drama, with Sidney Herbert and Kyd creatively engaging, each in their own way, with Garnier's learned, Senecan tragedies. This edition offers a critical introduction situating the plays in the rapidly shifting context of the 1590s and discussing their critical reception as translations. The footnotes aim to illuminate Sidney Herbert's and Kyd's distinctive translation practices by signaling significant amendments to Garnier's text and by tracing the web of intertextual allusions that connects each translation, not

only with Elizabethan practices of patronage, readership, and text circulation, but also with the wider intellectual and political debates of the late European Renaissance. Also featuring textual notes, a list of neologisms, and a glossary, this edition documents each text's material and editorial history, as well as their joint contribution to the linguistic creativity of the Elizabethan age. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Times; color: #ffffff}
