The Only Kayak Kim Heacox.2020-05-01 Winner of the 2020 National Outdoor Book Award for Outdoor Classic! In this coming-of-middle-age memoir, Kim Heacox, writing in the tradition of Abbey, McPhee, and Thoreau, discovers an Alaska reborn from beneath a massive glacier, where flowers emerge from boulders, moose swim fjords, and bears cross crevasses with Homeric resolve. In such a place Heacox finds that people are reborn too, and their lives begin anew with incredible journeys, epiphanies, and successes. All in an America free of crass commercialism and overdevelopment. Braided through the larger story are tales of gold prospectors and the cabin they built sixty years ago; John Muir and his intrepid terrier, Stickeen; and a dynamic geology professor who teaches earth science as if every day were a geological epoch. Nearly two million people come to Alaska every summer, some on large cruise ships, some in single kayaks--all in search of the last great wilderness, the Africa of America. It is exactly the America Heacox finds in this story of paradox, love, and loss.

Becoming Coastal Alex Zimmerman.2020 In this collection of narratives Victoria technologist, environmentalist and writer Alex Zimmerman tells stories not only of self-propelled travel and adventure but also of nature, the magnificent environment and of interesting people that he meets on the coast of British Columbia. Zimmerman is not the first to paddle and write about the BC Coast, but he brings a fresh and personal perspective as he details how he learns the necessary physical and mental skills of solo travelling. His encounters with the non-human inhabitants of the coast, the whales, wolves, bears and a super-pod of dolphins, are brought to life with a thrilling immediacy. Zimmerman's writing evokes vivid visual imagery and he conveys to the reader a strong sense of being there. You will share with him the wonder, joy, fear and awe he experienced as he discovered the coast's geography, its ecology, its people and his own growing capabilities in the process of becoming coastal.

Sea Kayaking John Dowd.2015-04-20 Still regarded as “the bible” for both new and experienced kayakers after more than thirty years in print, Sea Kayaking covers the basics of equipment and technique, including types of paddles and strokes, as well as such essential skills as how to read the weather and the water, how to navigate with and without GPS and how to travel with a group. Drawing on his many years of experience paddling in all climates, John Dowd presents practical advice on dealing with potential hazards (from surf to sea ice to sharks), carrying out rescues and planning for long-distance expeditions. New for this edition are hints about digital technologies for planning and navigating while kayak touring as well as lots of tips for outfitting boats, adapting equipment and finessing fishing technique while kayak angling—whether casting and jigging for fun on a day trip or trolling for dinner on a longer expedition. Also fully updated are the sections on managing risk and the inspiring stories of adventure, including Freya Hoffmeister's record-breaking circumnavigation of Australia and Japanese paddlers' increasingly challenging trips around the islands and beyond. As a sport, sea kayaking continues to evolve. Once the sport of a very few long-distance paddlers embarking on international expeditions, then the recreational pursuit of many weekend tourers, sea kayaking is now popular with many day trippers as well. As more and more paddlers take to the water—for the day, the weekend or many months, this classic guide continues to be required reading for those seeking adventure on the open ocean.
