**Digital Marketplaces Unleashed** Claudia Linnhoff-Popien, Ralf Schneider, Michael Zaddach. 2017-09-14 This collection of different views on how digitalization is influencing various industrial sectors addresses essential topics like big data and analytics, fintech and insuretech, cloud and mobility technologies, disruption and entrepreneurship. The technological advances of the 21st century have been massively impacted by the digital upheaval: there is no future without digitalization. The sale of products and services has left the classical point of sale and now takes place on a variety of channels. Whether in the automotive industry, travel and traffic, in cities, or the financial industry - newly designed ecosystems are being created everywhere; data is being generated and analyzed in real time; and companies are competing for mobile access channels to customers in order to gain knowledge about their individual contexts and preferences. In turn, customers can now publicly share their opinions, experiences and knowledge as User Generated Content, allowing them to impact the market and empowering them to build or destroy trust.

**Telling the Stories of Life Through Guided Autobiography Groups** James E. Birren, Kathryn N. Cochran. 2001-07-05 Birren has conducted more than twenty-five years of autobiography groups, where participants recall, write, and share their life stories. He offers how-to tips for organizing, complementing, and understanding oral history works. He finds that the exercise is rewarding for adults entering periods of transitions, such as the elderly population, and encourages the sharing of experiences with others on the same journey.

**Feminists in Development Organizations** Rosalind Eyben, Laura Turquet. 2013 Through a series of case studies written by women in development organizations this book reflects on the progress of gender mainstreaming. It shows how feminists can build effective strategies to influence development organizations and attempts to foster greater understanding and forge more effective alliances for social change.

**Leadership in Early Education in Times of Change** Johanna Heikka, Eeva Hujala, Jillian Rodd, Petra Strehmel, Manjula Waniganayake. 2019-07-29 The collection brings together the latest work of researchers from Australia, Africa, Asia, and Europe focusing on early childhood leadership matters. It covers different aspects of leadership in early education: professional education and development, identity and leadership strategies as well as governance and leadership under different frame conditions.

**Energizing Sustainable Cities** Arnulf Grübler, David Fisk, David J. Fisk. 2013 The twenty-first century will be increasingly urban.

**Eurythmy Therapy** Rudolf Steiner. 2013-04-16 Created in 1911, eurythmy was developed for years as an artistic and educational discipline. Although Rudolf Steiner pointed out its healing aspects from the very beginning, it was only in 1921 that he gave a course of lectures that gave the art of eurythmy a vital new application. To the assembled eurythmists and doctors, he presented what one participant described as '...a complete and detailed method of eurythmy therapy, in which we could directly experience that even today the creative and therapeutic power of the word ... is still at work'. Steiner's comprehensive lectures, republished here in a thoroughly revised translation, describe the principles of therapeutic eurythmy, giving many specific exercises. Primarily intended for practising eurythmists, these lectures also contain much material of particular interest. Steiner reveals the intricacies of rhythmic interplay between human physiology and the life-forces in the world around us. He describes the qualities of language and the dynamism contained in the individual vowels and consonants, elucidating their relationship with eurythmical movements and human experience. Through such movements, individuals are able to access the healing etheric forces. The exercises, referred to by Steiner as 'inner

gymnastics', contain enormous potential for psychological and physiological well-being. Gaining ever-wider recognition today, they complement conventional medicine, offering a therapeutic process concerned with mind, soul and body. This new edition of these important lectures - previously published under the title *Curative Eurythmy* - includes an appendix with reminiscences by early eurythmists, as well as additional commentary from Dr Walter Kugler.

Cycling Cultures Peter Cox.2015-05-27 Cycling studies is a rapidly growing area of investigation across the social sciences, reflecting and engaged with rapid transformations of urban mobility and concerns for sustainability. This volume brings together a range of studies of cycling and cyclists, examining some of the diversity of practices and their representation. Its international contributors focus on cases studies in the UK and the Netherlands, and on cycling subcultures that cross national boundaries. By considering cycling through the lens of culture it addresses issues of diversity and complexity, both past and present. The authors cross the boundaries of academia and professional engagement, linking theory and practice, to shed light on the very real processes of change that are reshaping our mobility.

Reunion Planner Phyllis A. Hackleman.2009-06 If there is a reunion in your future, whether as the organizer or a helping hand, *Reunion Planner* is one book you won't want to be without. *Reunion Planner* leaves nothing to chance. The contents include sections on the following: choosing the proper kind of reunion, recruiting volunteers, selecting the time and place, creating the program, guest speakers, budgeting, notifying the participants and promoting the event, planning meals and decorations, accommodations and transportation, souvenirs and fund raisers, photographers and videographers, building a genealogy, and finishing touches from road signs to thank-you notes and more.

**Hard Passage** Arthur Kroeger.2007-01-15 In the 1920s, 20,000 Mennonites left the newly formed Soviet Union and emigrated to Canada. Among them were Heinrich and Helena Kroeger and their five children. Based on Heinrich's diaries and letters, and archival research, *Hard Passage* speaks to the indomitable spirit of Mennonite immigrants to the Canadian West.

**Free, Fair, and Alive** David Bollier, Silke Helfrich.2019-09-03 The power of the commons as a free, fair system of provisioning and governance beyond capitalism, socialism, and other -isms. From co-housing and agroecology to fisheries and open-source everything, people around the world are increasingly turning to 'commoning' to emancipate themselves from a predatory market-state system. *Free, Fair, and Alive* presents a foundational re-thinking of the commons — the self-organized social system that humans have used for millennia to meet their needs. It offers a compelling vision of a future beyond the dead-end binary of capitalism versus socialism that has almost brought the world to its knees. Written by two leading commons activists of our time, this guide is a penetrating cultural critique, table-pounding political treatise, and practical playbook. Highly readable and full of colorful stories, coverage includes: Internal dynamics of commoning How the commons worldview opens up new possibilities for change Role of language in reorienting our perceptions and political strategies Seeing the potential of commoning everywhere. *Free, Fair, and Alive* provides a fresh, non-academic synthesis of contemporary commons written for a popular, activist-minded audience. It presents a compelling narrative: that we can be free and creative people, govern ourselves through fair and accountable institutions, and experience the aliveness of authentic human presence.

**Embodied Social Justice** Rae Johnson.2017-08-09 *Embodied Social Justice* introduces a body-centered approach to working with oppression, designed for social workers, counselors, educators, and other human service professionals. Grounded in current research, this integrative approach to social justice works directly with the implicit knowledge of our bodies to address imbalances in social power. Consisting of a conceptual

framework, case examples, and a model of practice, Embodied Social Justice integrates key findings from education, psychology, traumatology, and somatic studies while addressing critical gaps in how these fields have understood and responded to everyday issues of social justice.

**The Shallows: What the Internet Is Doing to Our Brains** Nicholas Carr.2011-06-06 Finalist for the 2011 Pulitzer Prize in General Nonfiction: “Nicholas Carr has written a Silent Spring for the literary mind.”—Michael Agger, Slate “Is Google making us stupid?” When Nicholas Carr posed that question, in a celebrated Atlantic Monthly cover story, he tapped into a well of anxiety about how the Internet is changing us. He also crystallized one of the most important debates of our time: As we enjoy the Net’s bounties, are we sacrificing our ability to read and think deeply? Now, Carr expands his argument into the most compelling exploration of the Internet’s intellectual and cultural consequences yet published. As he describes how human thought has been shaped through the centuries by “tools of the mind”—from the alphabet to maps, to the printing press, the clock, and the computer—Carr interweaves a fascinating account of recent discoveries in neuroscience by such pioneers as Michael Merzenich and Eric Kandel. Our brains, the historical and scientific evidence reveals, change in response to our experiences. The technologies we use to find, store, and share information can literally reroute our neural pathways. Building on the insights of thinkers from Plato to McLuhan, Carr makes a convincing case that every information technology carries an intellectual ethic—a set of assumptions about the nature of knowledge and intelligence. He explains how the printed book served to focus our attention, promoting deep and creative thought. In stark contrast, the Internet encourages the rapid, distracted sampling of small bits of information from many sources. Its ethic is that of the industrialist, an ethic of speed and efficiency, of optimized production and consumption—and now the Net is remaking us in its own image. We are becoming ever more adept at scanning and skimming, but what we are losing is our capacity for concentration, contemplation, and reflection. Part intellectual history, part popular science, and part cultural criticism, *The Shallows* sparkles with memorable vignettes—Friedrich Nietzsche wrestling with a typewriter, Sigmund Freud dissecting the brains of sea creatures, Nathaniel Hawthorne contemplating the thunderous approach of a steam locomotive—even as it plumbs profound questions about the state of our modern psyche. This is a book that will forever alter the way we think about media and our minds.

*The Production of Lateness* Rahel Rivera Godoy-Benesch.2020-05-11 This study examines how selected authors of the late 20th and early 21st centuries write about their creative processes in old age and thus purposefully produce a late style of their own. Late-life creativity has not always been viewed favourably. Prevalent peak-and-decline models suggest that artists, as they grow old, cease to produce highquality work. Aiming to counter such ageist discourses, the present study proposes a new ethics of reading literary texts by elderly authors. For this purpose, it develops a methodology that consolidates textual analysis with cultural gerontology.

*Framing the hijab : the governance of intersecting religious, ethnic and gender differences in France, the Netherlands and Germany* Doutje Nynke Lettinga.2011

*Radical Feminism* F. Mackay.2015-02-17 Feminism is not dead. This groundbreaking book advances a radical and pioneering feminist manifesto for today's modern audience that exposes the real reasons as to why women are still oppressed and what feminist activism must do to counter it through a vibrant and original account of the global Reclaim the Night March.

**Cycling Futures** Professor Regine Gerike,Professor John Parkin.2015-11-28 Tensions at the heart of the nature of cycling remain: on the one hand cycling is frequently viewed as being a risky activity, while on the other hand it is seen as being a way of allowing populations to live healthier lives. Reviewing this dichotomy, the authors in this book consider the ways that cycling is planned and promoted. This is done partly in relation to these issues of risk and health, but also from the broader perspective of behavioural response to the changing nature of cycling. A section on methodologies is also included which outlines the current state-of-the art and points a way to future research.

**China's Global Disruption** Chi Lo.2021-01-11 China's Global Disruption: Myths and Reality is the first book to bring world-systemic analyses of China into dialog with domestic analyses, and in so doing, to show how each can challenge or refine the assumptions of the other, ultimately showing that much of the global "common sense" about China is misinformed.

**The Politics of Social Media Manipulation** Richard Rogers,Sabine Niederer.2020-10-23 Disinformation and so-called fake news are contemporary phenomena with rich histories. Disinformation, or the willful introduction of false information for the purposes of causing harm, recalls infamous foreign interference operations in national media systems. Outcries over fake news, or dubious stories with the trappings of news, have coincided with the introduction of new media technologies that disrupt the publication, distribution and consumption of news -- from the so-called rumour-mongering broadsheets centuries ago to the blogosphere recently. Designating a news organization as fake, or der Lügenpresse, has a darker history, associated with authoritarian regimes or populist bombast diminishing the reputation of 'elite media' and the value of inconvenient truths. In a series of empirical studies, using digital methods and data journalism, we inquire into the extent to which social media have enabled the penetration of foreign disinformation operations, the widespread publication and spread of dubious content as well as extreme commentators with considerable followings attacking mainstream media as fake.

**Romanesque** Rolf Toman.2010 All over Europe, examples of Romanesque architecture shape our image of the Middle Ages. This volume presents the grand views of cathedrals along with fascinating details drawn from sculpture and painting. The Romanesque was the first epoch of medieval art that encompassed all of Europe. Its origins harken back to characteristic elements of Roman construction - reflected in the name of the period - and in the course of the High Middle Ages developed into the embodiment of Christian sacred art. Architecture, painting, and sculpture were permeated with the Christian worldview and the spirit of the religion. The book at hand helps us understand and even experience this tight integration and masterfully explains the manifold aspects of Romanesque artistic composition, in which the hopes and fears of the people of the time found their expression. AUTHOR: For this work, editor Rolf Toman gathered contributions from nine renowned authors with profound expertise in the fields of architecture and art history whose competent knowledge clearly elucidates the art of the Romanesque period. SELLING POINTS: Comprehensive contributions which incorporate aspects of culture and the mentality of the times in addition to art historical information An extensive introduction to the forms and shapes of the Romanesque explains the stylistic tools of sacred architecture, from round arches to the most varied development of choirs or crypts A separate chapter is devoted to the pictorial realm of Romanesque sculpture Photographs taken specially for this book show the diversity of forms of Romanesque architecture over 750 illustrations

*Indexing Books, Second Edition* Nancy C. Mulvany.2009-11-15 Since 1994, Nancy Mulvany's *Indexing Books* has been the gold standard for thousands of professional indexers, editors, and authors. This long-awaited second edition, expanded and completely updated, will be equally revered. Like its predecessor, this edition of *Indexing Books* offers comprehensive, reliable treatment of indexing principles and practices relevant to authors and indexers alike. In addition to practical advice, the book presents a big-picture perspective on the nature and purpose of indexes and their role in published works. New to this edition are discussions of information overload and the role of the index, open-system versus closed-system indexing, electronic submission and display of indexes, and trends in software development, among other topics. Mulvany is equally comfortable focusing on the nuts and bolts of indexing—how to determine what is indexable, how to decide the depth of an index, and how to work with publisher instructions—and broadly surveying important sources of indexing guidelines such as *The Chicago Manual of Style*, Sun Microsystems, Oxford University Press, NISO TR03, and ISO 999. Authors will appreciate Mulvany's in-depth consideration of the costs and benefits of preparing one's own index versus hiring a professional, while professional indexers will value Mulvany's insights into computer-aided indexing. Helpful appendixes include

resources for indexers, a worksheet for general index specifications, and a bibliography of sources to consult for further information on a range of topics. *Indexing Books* is both a practical guide and a manifesto about the vital role of the human-crafted index in the Information Age. As the standard indexing reference, it belongs on the shelves of everyone involved in writing and publishing nonfiction books.

The Scrum Culture Dominik Maximini. 2015-01-08 This book is a guide for managers, Scrum Masters and agile coaches who are interested in agile organizational methods and who are planning to introduce Scrum at their own company. Scrum is not only a product development framework but can also be used to structure activities for agile and lean organizational development. Divided into five major parts, the book first introduces and defines the Scrum Culture. It explains its relevance, highlights a number of pain points typical for first encounters with Scrum, and embeds it in an introduction to organizational change. This is complemented with many real-life examples that help to apply the concepts to readers' own specific contexts. The second part describes the principles of introducing Scrum in detail, while the third part embarks on the practical application of these principles, drawing on a wealth of experience gathered in many successful introduction projects. Part four focuses on a detailed case study of a Scrum transformation before part five provides, in closing, a number of appendices offering extensive information on Scrum and its principles.

**Forests, Trees and Human Health** Kjell Nilsson, Marcus Sangster, Christos Gallis, Terry Hartig, Sjerp de Vries, Klaus Seeland, Jasper Schipperijn. 2010-10-10 The link between modern lifestyles and increasing levels of chronic heart disease, obesity, stress and poor mental health is a concern across the world. The cost of dealing with these conditions places a large burden on national public health budgets so that policymakers are increasingly looking at prevention as a cost-effective alternative to medical treatment. Attention is turning towards interactions between the environment and lifestyles. Exploring the relationships between health, natural environments in general, and forests in particular, this groundbreaking book is the outcome of the European Union's COST Action E39 'Forests, Trees and Human Health and Wellbeing', and draws together work carried out over four years by scientists from 25 countries working in the fields of forestry, health, environment and social sciences. While the focus is primarily on health priorities defined within Europe, this volume explicitly draws also on research from North America.

**On the Art of Teaching** Horace Mann. 1989 A classic essay on the knowledge and characteristics a teacher should have, the skills needed for teaching, and the importance of developing the character as well as the mind.

**Human Interaction, Emerging Technologies and Future Applications IV** Tareq Ahram, Redha Taiar, Fabienne Groff. 2021-04-15 This book reports on research and developments in human-technology interaction. A special emphasis is given to human-computer interaction, and its implementation for a wide range of purposes such as healthcare, manufacturing, transportation, and education, among others. The human aspects are analyzed in detail. Innovative studies related to human-centered design, wearable technologies, augmented, virtual and mixed reality simulation, as well as developments and applications of machine learning and AI for different purposes, represent the core of the book. Emerging issues in business, security, and infrastructure are also critically examined, thus offering a timely, scientifically-grounded, but also professionally-oriented snapshot of the current state of the field. The book is based on contributions presented at the 4th International Conference on Human Interaction and Emerging Technologies: Future Applications, IHET-AI 2021, held on April 28-30, 2021, in Strasbourg, France. It offers a timely survey and a practice-oriented reference guide to researchers and professionals dealing with design and/or management of the new generation of service systems.

*Aliens in Wonderland* Alpha. 2010-02 An informative in-depth look at the lives of several extraterrestrials (E.T.'s), Extraterrestrial Biological Entities (E.B.E.'s), and aliens, what their lives are like on their planets in their galaxies, what their spaceships are like, and how they are connected to us here on Earth. In addition, the book delves into how they are important to our religion and military strength. This novel also looks at some historical

revelations, future predictions, and current happenings including an interesting collection of anecdotes regarding an ex-CIA agent who gets his wishes granted. It's the author's intention to, at the very least, bridge the gaps that exist between the religions of our generation. One gap is between our present long standing accepted knowledge of our concept of God, and our comprehensible real God. As well, a gap exists between how we are told we should interpret and demonstrate the meaning of God and how we show our faith and prove our belief in the living Creator. These are some things that the author thinks everyone needs to know about God, Satan, and UFOs. This book has been a long time in the making, twenty years, but somehow it still manages to remain ahead of its time, in most cases.

**Our Courage - Jews in Europe 1945-48** Kata Bohus,Atina Grossmann,Werner Hanak,Mirjam Wenzel.2020-10-12 After the Shoah, Jewish survivors actively took control of their destiny. Despite catastrophic and hostile circumstances, they built networks and communities, fought for justice, and documented Nazi crimes. The essays, illustrations, and portraits of people and places contained in this volume are informed by a pan-European perspective. The book accompanies the first special exhibition at the re-opened Jewish Museum in Frankfurt.

Principles and Practice of Case-based Clinical Reasoning Education Olle ten Cate,Eugène J.F.M. Custers,Steven J. Durning.2017-11-06 This book is open access under a CC BY 4.0 license. This volume describes and explains the educational method of Case-Based Clinical Reasoning (CBCR) used successfully in medical schools to prepare students to think like doctors before they enter the clinical arena and become engaged in patient care. Although this approach poses the paradoxical problem of a lack of clinical experience that is so essential for building proficiency in clinical reasoning, CBCR is built on the premise that solving clinical problems involves the ability to reason about disease processes. This requires knowledge of anatomy and the working and pathology of organ systems, as well as the ability to regard patient problems as patterns and compare them with

instances of illness scripts of patients the clinician has seen in the past and stored in memory. CBCR stimulates the development of early, rudimentary illness scripts through elaboration and systematic discussion of the courses of action from the initial presentation of the patient to the final steps of clinical management. The book combines general backgrounds of clinical reasoning education and assessment with a detailed elaboration of the CBCR method for application in any medical curriculum, either as a mandatory or as an elective course. It consists of three parts: a general introduction to clinical reasoning education, application of the CBCR method, and cases that can be used by educators to try out this method. *American Automobile Names* Ingrid Piller.1996

Fathers in Work Organizations Brigitte Liebig,Mechtild Oechsle.2017-04-24 This book is dedicated to the role of work organizations when it comes to the realization of an active fatherhood. Firstly, it deals with barriers for active fatherhood and its correlating mechanisms of inequality: Which aspects of discrimination and social closure do fathers face today if they assert a claim for active fatherhood, and with what kind of barriers are they confronted? Secondly, capabilities of fathers are addressed: Which is their possible scope of action, who are relevant actors, what is the effect of policies and programs on change and organizational learning with respect to fatherhood?

**Informationsintegration in mehrsprachigen Textchats** Felix Hoberg. Die vorliegende Arbeit widmet sich der Informationsintegration in maschinell übersetzten, mehrsprachigen Textchats am Beispiel des Skype Translators im Sprachenpaar Katalanisch-Deutsch. Der Untersuchung von Textchats dieser Konfiguration wurde sich bislang nur wenig zugewendet. Deshalb wird der zunächst grundlegend explorativ ausgerichteten Forschungsfrage nachgegangen, wie Personen eine maschinell übersetzte Textchat-Kommunikation wahrnehmen, wenn sie nicht der Sprache des Gegenübers mächtig sind. Damit einher geht auch die Untersuchung der Informationsextraktion und -verarbeitung zwischen Nachrichten, die in der eigenen Sprache verfasst wurden, und der Ausgabe der Maschinellen Übersetzung. Zur Erfassung des Nutzungsverhalten im Umgang mit Skype und dem Skype Translator wurde mit einer deutschlandweit an Studierende gesendeten Online-Umfrage gearbeitet. In einer zweiteiligen, naturalistisch orientierten Pilotstudie unter Einsatz des Eye-Trackers wurde das Kommunikationsverhalten von Studierenden mit deutscher Muttersprache einerseits in maschinell vom Skype Translator übersetzten Chats mit katalanischen Muttersprachler-innen und andererseits, als Referenz, in monolingualen, rein deutschsprachigen Chats ohne Skype Translator untersucht. Bei den Teilnehmer-innen an diesen Studien handelt es sich um zwei unabhängige Gruppen. Beide wurden ebenfalls mit Fragebögen zum Nutzungsverhalten und zu den Eindrücken des Skype Translators erfasst. Das sicher überraschendste Ergebnis der Studie ist, dass die Versuchspersonen einen substantiellen Teil der Chatkommunikation auf der MÜ-Ausgabe in beiden beteiligten Sprachen verbringen. Die Untersuchung der Sakkaden und Regressionen deutet auf einen sprunghaften Wechsel zwischen Originalnachricht und MÜ hin. Der Schwerpunkt der Aufmerksamkeit liegt dabei konsequent auf den neusten Nachrichten. Es ist daher anzunehmen, dass die Versuchspersonen die MÜ-Ausgabe aktiv in die Kommunikation miteinbeziehen und wesentliche Informationen zwischen Original und MÜ abzugleichen versuchen.

**Modeling for Decision Support in Network-Based Services** Daniel Dolc,Janusz Granat.2012-01-11 This book originated from several recent workshops and related activities conducted by the IFIP Working Group 7.6 on Optimization-Based Computer Aided Modeling and Design. This group has been active for 20 years with the stated objective of developing "high-performance computer-aided systems to support modeling, decision analysis, optimization and multi-criteria decision making." Recently, the group has turned its attention to the application of modeling and optimization to service science, management and engineering (SSME). SSME is still a young research field searching for its theoretical underpinnings, and one which offers many opportunities for analytical modeling to not only advance the understanding, but also to help form the

foundation of a new discipline. This book is the result of the group's introductory foray into the application of quantitative modeling to the nascent field of service science with special emphasis on the network aspects of services. The 11 papers presented are grouped into sections on Network Science, Computational and Analytical Modeling, and Knowledge Science. They showcase the value of modeling in a new and timely context and provide many seeds for further exciting research.

**Literarische Perspektiven auf den Kapitalismus** Annika Gonnermann, Sina Schuhmaier, Lisa Schwander. 2021-03-08 Über die Epochen hinweg haben sich literarische Werke und Genres explizit oder implizit mit dem Kapitalismus auseinandergesetzt. Doch gerade die vergangenen Jahrzehnte, in welchen der Kapitalismus nach Mark Fisher zum ausgeweglosen Vorstellungshorizont avanciert ist, zeugen von einer vermehrten Infragestellung des Kapitalismus in der literarischen Produktion sowie der Literaturwissenschaft. Vor diesem Hintergrund vereint der interdisziplinäre Sammelband Beiträge aus der Germanistik, Romanistik, Amerikanistik und Anglistik, die den Blick auf verschiedene zeitgenössische Manifestationen des globalen Kapitalismus und deren literarische oder filmische Repräsentationen richten.
