Shamanic Transformations Itzhak Beery. 2015-08-17 Inspiring accounts from renowned contemporary working shamans about their first moments of spiritual epiphany • With contributions by Sandra Ingerman, Hank Wesselman, John Perkins, Alberto Villoldo, Lewis Mehl-Madrona, Tom Cowan, Lynn Andrews, Linda Star Wolf, and others • Also includes shamanic awakening experiences from those with unique shamanic paths--teachers, mothers, social workers, academics, and even rappers How does one receive the “call” to enter onto the shamanic path? What causes some people to change their safe, uneventful, and ordinary lives and start on a spiritual search? For many it is a singular instant, a flash when the mystical reveals itself and the person is drawn into the world of shamanic power. For a few, it is a more gradual awakening, filled with numinous events that build upon one another until the calling of the shamanic path can no longer be ignored. In this book of remarkable stories, we learn firsthand about the many different forms of the “aha” moment of shamanic awakening, whether they arise from ceremony, near-death experiences, dream messages, or entheogenic substances. We travel alongside Sandra Ingerman, Hank Wesselman, John Perkins, Alberto Villoldo, Lewis Mehl-Madrona, Tom Cowan, Lynn Andrews, Linda Star Wolf, and other well-known shamanic practitioners as they begin their transformations into the prominent shamans we know them as. We experience the real-life shamanic epiphanies of those with unique shamanic paths--teachers, mothers, social workers, academics, healers, and even rappers who have all experienced a moment in time in which they were awakened and the shamanic path showed itself to them. As each of these unique and beautiful stories of unexpected realization, insight, and inspiration unfolds, we see how these single moments--usually entirely unexpected--are able to transform the individual’s life, clearing their vision and allowing a new consciousness to emerge. As a whole, this collection paints a breathtaking portrait of the intricacies of the shamanic path and the paradigm shift of which we all are part.

Tarot experts Rachel Pollack and Johannes Fiebig focus on the daily Tarot card and simple magical practices and offer interpretations for each of the 78 Tarot cards which can easily be put into practice. In addition, they discuss perspectives reaching until 2024 the current crucial period of transformation with 'Pluto in Capricorn'. It has become common practice, since the time of the renowned Order of the Golden Dawn, to assign the Tarot cards to individual sections of the yearly cycle (the decans). This quality of time, which the Tarot cards also express (which, however, is largely unknown) is skilfully used by the authors.

History of Western Astrology Kocku von Stuckrad. 2013-12-31 Astrology numbers among mankind's oldest sciences. It played a prominent role not only in the advanced civilizations of antiquity but also in the cultural history of Europe. It contributed to the development of the natural sciences, primarily astronomy, physics and chemistry, was an integral element of philosophies and religions and influenced political decisions, some of which had substantial consequences. Kocku von Stuckrad masterfully interweaves the disparate aspects of this often neglected or gingerly approached field and provides a thorough synopsis of a central stream in the European history of science and ideas. Not least, this well organized and highly informative book will serve as a first-class introduction to systems of astrological interpretation. It includes a glossary which defines the most important concepts. A must for all who are interested in astrology today or in historical times, regardless of whether they are searching for relationships between the vault of heaven and the earth. In this first comprehensive history of astrology Kocku von Stuckrad describes how celestial science emerged in Mesopotamia and played a significant role in ancient Egypt. Over the course of antiquity, the Middle Ages and the Renaissance, knowledge of the course of planets and stars grew more sophisticated. The author examines the role of astrology in various philosophical systems and in major religions, and he discusses the new approaches astrology took in modern times after its legitimacy increasingly came under fire.

Jung and Tarot Sallie Nichols. 1980-06-01 Highly innovative work presenting a piercing interpretation of the tarot in terms of Jungian psychology. Through analogy with the humanities, mythology and the graphic arts, the significance of the cards is related to personal growth and individuation. The major arcana becomes a map of life, and the hero's journey becomes something that each individual can relate to the symbolism of the cards and therefore to the personal life. Sallie Nichols, in her profound investigation of Tarot, and her illuminated exegesis of its pattern as an authentic attempt at enlargement of the possibilities of human perceptions has ... performed an immense service for analytical psychology. Her book enriches and helps us to understand the awesome responsibilities laid upon us by consciousness On top of it all, she has done this not in an arid fashion, but as an act of knowing derived from her own experience of Tarot and its strangely translucent lights. As a result her book not only lives but quickens life in whomever it touches. --from the Introduction by Laurens van der Post

The Problem of Disenchantment Egil Asprem. 2018-05-31 Challenges the conventional view of a "disenchanted" and secular modernity, and recovers the complex relation that exists between science, religion, and esotericism in the modern world. Max Weber famously characterized the ongoing process of intellectualization and rationalization that separates the natural world from the divine (by excluding magic and value from the realm of science, and reason and fact from the realm of religion) as the "disenchantment of the world." Egil Asprem argues for a conceptual shift in how we view this key narrative of modernity. Instead of a sociohistorical process of disenchantment that produces increasingly rational minds, Asprem maintains that the continued presence of "magic" and "enchantment" in people's everyday experience of the world created an intellectual problem for those few who were socialized to believe that nature should contain no such incalculable mysteries. Drawing on a wide range of early twentieth-century primary sources from theoretical physics, occultism, embryology, radioactivity, psychical research, and other fields, Asprem casts the intellectual life of high modernity as a synchronic struggle across conspicuously different fields that shared surprisingly similar intellectual problems about value, meaning, and the limits of knowledge. "The Problem of Disenchantment is, in its entirety, extraordinarily well researched, argued, and written" representing at once the most complete and nuanced treatment of the notion of disenchantment within this network of scientific, religious, philosophical, and esoteric discourses and currents. " Nova Religio

Astrology and Popular Religion in the Modern West Dr Nicholas Campion. 2012-09-01 This book explores an area of contemporary religion, spirituality and popular culture which has not so far been investigated in depth, the phenomenon of astrology in the modern west. Locating modern astrology historically and sociologically in its religious, New Age and millenarian contexts, Nicholas Campion considers astrology's relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology. This book challenges the notion that astrology is either 'marginal' or a feature of postmodernism. Concluding that astrology is more popular than the usual figures suggest, Campion argues that modern astrology is largely shaped by New Age thought, influenced by the European Millenarian tradition, that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west.

The Prenatal Epoch E. H. Bailey. 2007-09-01 In Astrological terms, the prenatal epoch starts at the moment of conception. According to the author, the prenatal epoch is a certain moment of time, occurring approximately at the commencement of the gestative period... when the degree ascending on the eastern horizon, and the longitude of the moon thereat, interchange with the longitude of the moon and the degree ascending at birth, or their respective opposite points. (pg. 19) What this means is that your prenatal moon was your birth ascendant, and your prenatal ascendant is your birth moon, or the opposite points in the zodiac. There are four possibilities: If the natal moon is above or below the horizon at birth, and if it is increasing or decreasing in light. So what good is this? For one thing, it helps explain infant abnormalities, as well as infant mortality, in cases where there are no other astrological factors. It also aids in reading charts for multiple births: Twins, triplets, quads and quints. Closely allied to the Prenatal Epoch is the Law of Polarity, or sex. Properly calculated, the Prenatal Epoch will not only confirm the sex of the individual, it will also serve to rectify the birth-time itself. Unlike other methods of rectification, where absurdly large time changes can result,

Prenatal Epoch calculations correct minor errors in clock-time, thus enabling greater precision in forecasting.

The Stormy Search for the Self Christina Grof.1992-06-01 Many people are undergoing a profound personal transformation associated with spiritual opening. Under favorable circumstances, this process results in emotional healing, a radical shift in values, and a profound awareness of the mystical dimension of existence. For some, these changes are gradual and relatively smooth, but for others they can be so rapid and dramatic that they interfere with effective everyday functioning, creating tremendous inner turmoil. Unfortunately, many traditional health-care professionals do not recognize the positive potential of these crises; they often see them as manifestations of mental disease and respond with stigmatizing labels, suppressive drugs, and even institutionalization. In *The Stormy Search for the Self*, Christina and Stanislav Grof, the world's foremost authorities on the subject of spiritual emergence, draw on years of dramatic personal and professional experience with transformative states to explore these spiritual emergencies, altered states so powerful they threaten to overwhelm the individual's ordinary reality. This book will provide insights, assurances, and practical suggestions for those who are experiencing or have experienced such a crisis, for their families and friends, and for mental-health professionals. It is also a valuable guide for anyone involved in personal transformation whose experiences, though generally untraumatic, may still at times be bewildering or disorienting.

Overcoming School Refusal Joanne Garfi.2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. McCarthy's Bar Pete McCarthy.2014-03-18 It was half past five in the morning as I lurched through the front door of the B&B. Mrs. O'Sullivan appeared just in time to see me pause to admire the luminous Virgin holy water stand with integral night-light, and knock it off the wall. Politely declining the six rounds of ham sandwiches on the tray she was holding, I edged gingerly along the hallway to the wrong bedroom door and opened it. Despite the many exotic places Peter McCarthy has visited, he finds that nowhere else can match the particular magic of Ireland, his mother's homeland. In *McCarthy's Bar*, his journey begins in Cork and continues along the west coast to Donegal in the north. Traveling through spectacular landscapes, but at all times obeying the rule, never pass a bar that has your name on it, he encounters McCarthy's bars up and down the land, meeting fascinating people before pleading to be let out at four o'clock in the morning. Through adventures with English hippies who have colonized a desolate mountain; roots-seeking, buffet-devouring American tourists; priests for whom the word father has a loaded meaning; enthusiastic Germans who here since many years holidays are making; and his fellow barefoot pilgrims on an island called Purgatory, Peter pursues the secrets of Ireland's global popularity and his own confused Irish-Anglo identity. Written by someone who is at once an insider and an outsider, *McCarthy's Bar* is a wonderfully funny and affectionate portrait of a rapidly changing country.

Academia's Gendered Fringe Miriam Kauko,Sylvia Mieszkowski,Alexandra Tischel.2005 Eine erhellende Studie, die Impulse der Gender Studies für die Wissenschaftsgeschichte aufzuzeigen vermag. Auch Wissenschaft hat ein Geschlecht. Die Konsequenzen dieser These untersucht der vorliegende Band am Beispiel der Kulturwissenschaften. Mit dem Zeitraum von 1890 bis 1945 konzentriert er sich auf jene Epoche, in der sich die Universitäten für die Frauen öffnen und sie zum ersten Mal regulär am System Wissenschaft partizipieren lässt. Das Verhältnis von Wissenschaft und Geschlechterdifferenz kommt dabei in seiner Vielgestaltigkeit in den Blick: Es wird einerseits auf der Ebene des wissenschaftlichen Diskurses, seiner Rhetorik und seiner Epistemologie, analysiert. Andererseits wird die Arbeit einzelner Wissenschaftlerinnen, die innerhalb oder jenseits des universitären Betriebs tätig waren (z.B. Hilma Borelius, Ricarda Huch, Vernon Lee), vorgestellt. So belegen die fünfzehn internationalen Beiträge aus ganz verschiedenen Perspektiven, welche Impulse die Gender Studies der Wissenschaftsgeschichte zu vermitteln mögen. Aus dem Inhalt: Ben Knights: Reading as a Man: Women and the Rise of English Studies in England Sylvia Mieszkowski: Vernon Lee - Gen(i)us Loci of Academic Periphery Gesa Dane: Ricarda Huchs Romantik und Der Dreißigjährige Krieg Alexandra Tischel: Die Arbeiten der Germanistin Helene Herrmann Barbara Hahn: 'Wunderbar artikulierte Herrscherin im Reich des Bewußten'. The section on *Tassellations* combines a variety of shapes into geometric outlines with surprisingly organic results. And the last section, *Diagonals*, will take you

True and Invisible Rosicrucian Order Paul Foster Case.1989-01-01 This is a thorough presentation of the Rosicrucian system of initiation by Dr. Paul Foster Case. He explains that Rosicrucianism is based upon earthly organizations, but on personal unflodment, and clearly describes the distinctive marks of a Rosicrucian. The treatise is divided into two main parts by Dr. Case. The first is a careful examination and interpretation of the principle Rosicrucian manefestos, the Fama Fraternitatis and the Confessio Fraternitatis. The second part is an explanation of the Rosicrucian grade system, as applied to the diagram of the Tree of Life and tarot attributions. By participating in the outlined procedures, aspirants are put on the right track of preparing themselves for union with the Higher Self, which may or may not include group work with an outer order or fraternity. The first editions of 1927, 1928 and 1933 were of limited publication. The fourth and most complete expansion of the text by Paul Case was finished in 1937, revised by him in 1953 just before his death and published in by Weiser in 1985. It represents the full maturity of his thought on this subject.
