The Routledge Companion to Sinhala Fiction from Post-War Sri Lanka Madhubhashini Disanayaka Ratnayake.2022-09-27 This companion presents a critical collection of Sinhala resistance literature from Sri Lanka. It includes translated short stories and excerpts from Sinhala novels, written after the civil war in the country. Featuring national award-winning writers, the selected texts share a common theme of resistance as the writers write against an exclusivist nationalism that was propagated through mass media and platforms of party politics in Sri Lanka during the war. The volume addresses crucial issues such as the fate of civilians in war, the role of religion in Sri Lankan polity, media censorship, the experience of women in war, as well as the current education system and youth problems in present day Sri Lanka. It highlights an alternate discourse that runs among the ethnic Sinhala group and contributes to the overall movement towards peace and reconciliation among the different ethnic communities in Sri Lanka. A unique addition to the growing oeuvre of translated Sinhala literature, the companion will be indispensable to students, scholars, and researchers of ethnic studies, war and peace studies, peace and conflict

studies, literature, cultural studies, political sociology, and South Asian studies, particularly those interested in Sri Lankan literature.

So begins Imbolo Mbue's powerful second novel, *How Beautiful We Were*. Set in the fictional African village of Kosawa, it tells of a people living in fear amid environmental degradation wrought by an American oil company. Pipeline spills have rendered farmlands infertile. Children are dying from drinking toxic water. Promises of cleanup and financial reparations to the villagers are made—and ignored. The country's government, led by a brazen dictator, exists to serve its own interests. Left with few choices, the people of Kosawa decide to fight back. Told from the perspective of a generation of children and the family of a girl named Thula who grows up to become a revolutionary, *How Beautiful We Were* is a masterful

With the killer growing increasingly brazen, Linnear must summon all his strength and training before his own family becomes the next target. Fake Photos Hany Farid. 2019-09-10 A concise and accessible guide to techniques for detecting doctored and fake images in photographs and digital media. Stalin, Mao, Hitler, Mussolini, and other

dictators routinely doctored photographs so that the images aligned with their messages. They erased people who were there, added people who were not, and manipulated backgrounds. They knew if they changed the visual record, they could change history. Once, altering images required hours in the darkroom; today, it can be done with a keyboard and mouse. Because photographs are so easily faked, fake photos are everywhere—supermarket tabloids, fashion magazines, political ads, and social media. How can we tell if an image is real or false? In this volume in the MIT Press Essential Knowledge series, Hany Farid offers a concise and accessible guide to techniques for detecting doctored and fake images in photographs and digital media. Farid, an expert in photo forensics, has spent two decades developing techniques for authenticating digital images. These techniques model the entire image-creation process in order to find the digital disruption introduced by manipulation of the image. Each section of the book describes a different technique for analyzing an image, beginning with those requiring minimal technical expertise and advancing to those at intermediate and higher levels. There are techniques for, among other things, reverse image searches, metadata analysis, finding image imperfections introduced by JPEG compression, image cloning, tracing pixel patterns, and detecting images that are computer generated. In each section, Farid describes the techniques, explains when they should be applied, and offers examples of image analysis.

Biographies of Florenese Musical Instruments and Their Collectors Paula R. Bos.1998-12-31 The Tropenmuseum possesses a unique music collection from Flores. The more than 300 musical instruments, 350 musical recordings, 300 photographs and slides were collected and documented by the renowned ethnomusicologist Jaap Kunst in the 1930s and by his student, the missionary Father Pi Rozing, in the 1950s-1960s. The author of the present bulletin, Paula Bos, followed in their footsteps, collecting musical instruments and documenting them for the Tropenmuseum during her stay on Flores in 1994. In *Biographies of Florenese musical instruments and their collectors*, the collections of Kunst, Rozing and Bos are compared from the viewpoint of the biography of objects, considering the musical instruments in the light of social change in Florenese society and developments in musical culture from the thirties onward. It focuses on the meaning that the Florenese musical instruments have for the Florenese themselves. As the biographies of objects are closely related to the biographies of their collectors, this bulletin also describes and analyses the viewpoint from which Kunst, Rozing and Bos conducted their fieldwork and their methods of collecting musical instruments. The bulletin contains a case study of one particular instrument, the *foi meze* flute, carried out by Paula Bos, in which the biography of objects viewpoint is elaborated more extensively.

Look Up Sonali Acharjee.2016-05-01 Is a text the same as a hug? Can trolling be a full-time career? Is FOMO turning out to be a real psychological threat? Indian millennials have not only embraced the virtual space and all its extensions but are also living the fake reality. We now have the ability to reinvent ourselves online and keep our digital ego on fleek—flirting, preening, posting and filtering our way to a perfect profile. Social media has led to trading our offline family for virtual ones,

relationships for app-based affairs and birthday greetings for emojis. This constant interaction with the screen is taking a massive toll on our daily lives. Young adults are risking their lives for the perfect selfie; troll wars and cyber stalkers are driving people to depression; cyber porn, for small-town religious teens, is dangerously becoming an addiction. So where do we draw the line? How much is too much? Are parental controls and restrictions effective? In this book, the author, through a series of real conversations, breaks down the digital revolution of India and seeks to understand why we've turned into a society of hashtags, tweets, shares and likes.

The Photoload Sampling Technique Robert E. Keane.2007 Fire managers need better estimates of fuel loading so they can more accurately predict the potential fire behavior and effects of alternative fuel and ecosystem restoration treatments. This report presents a new fuel sampling method, called the photoload sampling technique, to quickly and accurately estimate loadings for six common surface fuel components (1 hr, 10 hr, 100 hr, and 1000 hr downed dead woody, shrub, and herbaceous fuels). This technique involves visually comparing fuel conditions in the field with photoload sequences to estimate fuel loadings. Photoload sequences are a series of downward-looking and close-up oblique photographs depicting a sequence of graduated fuel loadings of synthetic fuelbeds for each of the six fuel components. This report contains a set of photoload sequences that describe the range of fuel component loadings for common forest conditions in the northern Rocky Mountains of Montana, USA to estimate fuel loading in the field. A companion publication (RMRS-RP-61CD) details the methods used to create the photoload sequences and presents a comprehensive evaluation of the technique.

Wild And Wilful Neha Sinha.2021-02-10 A profound truth of the wild, and the world at large, is that we are a part of it, not owners of it. Is there any animal we love and hate as much as the Royal Bengal Tiger? Tigers are feared and poached, but they also endure, becoming pin-ups for candlelight marches. Indian elephants are trapped by railway lines and fences, but are reclaiming their bodies and colonizing new areas in central India. And in our dirty cities, the sparkling Plain Tiger Butterfly flourishes as one of our last links to wildlife. Wild animals exist beyond our control. They are harmless, only occasionally dangerous. They live with us, or in spite of us. Those who know them understand that wild animals require acceptance for what they are, not enslavement for what we want them to be. In this book, we meet fifteen iconic Indian species in need of conservation and heart. The author explores what these creatures need, and how they exert agency and decision-making. With an equal emphasis on human and animal, science and skilled prose, Wild and Wilful reveals the magic of the wild in our daily lives. It will take you from fear to wonder.

American Geography Matt Black.2021-12-07 Award-winning photographer Matt Black traveled over 100,000 miles to chronicle the reality of today's unseen and forgotten America. When Magnum photographer Matt Black began exploring his hometown in California's rural Central Valley—dubbed

“the other California,” where one-third of the population lives in poverty—he knew what his next project had to be. Black was inspired to create a vivid portrait of an unknown America, to photograph some of the poorest communities across the US. Traveling across forty-six states and Puerto Rico, Black visited designated “poverty areas,” places with a poverty rate above 20 percent, and found that poverty areas are so numerous that they’re never more than a two-hour’s drive apart, woven through the fabric of the country but cut off from “the land of opportunity.” American Geography is a visual record of this five-year, 100,000-mile road trip, which chronicles the vulnerable conditions faced by America’s poor. This compelling compilation of black-and-white photographs is accompanied by Black’s own travelogue—a collection of observations, overheard conversations in cafe’s and public transportation, diner menus, bus timetables, historical facts, and snippets from daily news reports. A future classic of photography, this monograph is supported by an international touring exhibition and is a must-have for anyone with an interest in witnessing the reality of an America that’s been excluded from the American Dream.
