Raffaele Pettazoni and Herbert Jennings Rose, Correspondence 1927-1958 Domenico Accorinti.2014-05-08 The correspondence between Raffaele Pettazoni and Herbert Jennings Rose (1927-1958) sheds light on the behind-the-scenes activity of two great modern scholars and provides an interesting perspective on the history of religions in the first half of the twentieth century.

Of Bodies and Symptoms Sylvie Fainzang, Claudie Haxaire. 2011-06-20 The question of the social treatment of the body and its transformations emerges in relation to issues of varying types (economic, therapeutic, ideological, cultural, aesthetic, commercial, technical). This book examines the various ways of managing bodily symptoms or transformations and the social stakes and systems of knowledge which relate to them, both on the medical and social level. The contributions provide analyses that concern a broad range of countries. Through the themes it tackles and the subjects it examines, this book reveals both the universal nature of the questions it asks, and the evolution of the objects and approaches of anthropology itself.

Third International Conference on System Science in Health Care W. van Eimeren, R. Engelbrecht, C. D. Flagle. 2012-12-06 In the early stages of planning the Third International Conference in System Science in Health Care, the steering committee members, most of whom had participated in the first conference in Paris (1976) and the second in Montreal (1980), made some basic decisions about organization of subject matter. The earlier meetings had been very successful in bringing together specialists from the health professions and the traditional sciences. In addition to physicians and nurses, these were representatives of the disciplines of the behavioral sciences, system theory, economics, engineering, and the emerging fields of management science and informatics - all concerned with the development of health resources in a broad system context. The reported research and experience of the many disciplines represented had dealt with one or more of three concerns: 1) a major health problem, such as cardiovascular disease, or an important population at risk, such as the elderly or children or workers; 2) some generic aspect of organization and decision making, including trial and evaluation of innovative health strategies; and 3) the

methodology of research and analysis in system of health service. The challenge to the conference organizers lay in the eliciting and arranging of experiences in such a way that the health services could be seen as purposeful, living, evolving systems.

The Event Safety Guide Event Safety Alliance. 2016-09-27 EBOOK ONLY FRENCH EDITION The Event Safety Guide is the United States' first published safety guidance directed specifically at the live event industry. Culled from existing life safety standards and the insight of top professionals within the event industry, The Event Safety Guide compiles the best operational practices currently available in the live event industry in a single easily referenced manual. The guide is not a "how-to book" or a complicated set of standards. Rather, it is intended to help busy industry professionals know what safe workplace practices might be, heighten their understanding of the importance of safety in everything they do, and apply these best practices in their daily work. Designed for field use, The Event Safety Guide is categorically organized and written in straightforward and easily understood language. Thirty-nine chapters and five appendixes address a broad range of subjects relevant to most events, including emergency planning, weather preparedness, and fire safety, as well as specific technical issues such as pyrotechnics, rigging, and temporary staging. Included appendixes provide additional resources, including helpful planning checklists and information on the National Incident Management System (NIMS) Incident Command System (ICS). All referenced standards are thoroughly cited within the text to ensure readers know precisely where to turn for additional information. Whether you're a seasoned veteran or just starting out in the event industry, you'll find The Event Safety Guide to be an indispensable reference when planning your next event.

Health and the Millennium Development Goals World Health Organization. 2005 This WHO's report provides a global overview of progress towards each of the health MDGs to date and

identifies the challenges to be addressed if we are to meet the goals. It presents the essential elements - the strategies and inputs - that will help the international community working collectively, to tackle the health crisis facing many poor countries, and in doing so, contribute to poverty reduction.

Children's Health Issues in Historical Perspective Cheryl Krasnick Warsh, Veronica Strong-Boag. 2006-01-01 From sentimental stories about polio to the latest cherub in hospital commercials, sick children tug at the public's heartstrings. However sick children have not always had adequate medical care or protection. The essays in Children's Issues in Historical Perspective investigate the identification, prevention, and treatment of childhood diseases from the 1800s onwards, in areas ranging from French-colonial Vietnam to nineteenth-century northern British Columbia, from New Zealand fresh air camps to American health fairs. Themes include: the role of government and/or the private sector in initiating and underwriting child public health programs; the growth of the

profession of pediatrics and its views on “proper” mothering techniques; the role of nationalism, as well as ethnic and racial dimensions in child-saving movements; normative behaviour, social control, and the treatment of “deviant” children and adolescents; poverty, wealth, and child health measures; and the development of the modern children’s hospital. This liberally illustrated collection reflects the growing academic interest in all aspects of childhood, especially child health, and originates from health care professionals and scholars across the disciplines. An introduction by the editors places the historical themes in context and offers an overview of the contemporary study of children’s health.

Negotiated Breastfeeding Caroline Chautems. 2021-10-18 Based on an ethnography of postpartum consultations by independent midwives in Switzerland, this book produces unique insights into home-birth parents’ breastfeeding journey from the first hours after birth to weaning. Considered the natural continuity of childbirth without intervention, breastfeeding is a fundamental component of the holistic, continuous and individualised care independent midwives provide as they engage with parents in a shared construction of meaning around breastfeeding. This book offers new perspectives on the conceptualisation of breastfeeding as a shared process. Parents, in collaboration with their midwife and baby, are jointly constructing negotiated breastfeeding. As the child grows and develops, questions arise regarding the management of risks, the construction of the lactating body and the body work required, and the perception of breastfeeding as a means of communication with the child, consistent with a child-centred approach to parenting. Fostering a reflection on the contrasts and similarities between the marginal model of holistic care and the dominant biomedical model, this book sheds light on issues of a broader scope: the relationship to health risks and health promotion, gender inequalities regarding parental roles and responsibilities, the concept of the child

as a project, and the consequential intensification of parenthood. The book also explores transversal themes by outlining how reproduction and parenting are undertaken in Switzerland, framed by the local cultural, political and economic context, including the gender system and resulting power relationships.

The Evaluation of Toxicological Data for the Protection of Public Health W. J. Hunter, J. G. P. M. Smeets. 2016-07-29 The Evaluation of Toxicological Data for the Protection of Public Health: Proceedings of the International Colloquium, Luxembourg, December 1976 focuses on the review of toxicological tests and methods used in toxicological evaluation of chemicals and reconsideration of these procedures in identifying decision-making processes involved in the protection of public health. The selection first discusses reviews of toxicological tests, including introductory remarks and comments on acute toxicity; problems associated with the testing of environmental mutagens; and the testing of carcinogenic potentials. The publication also examines the uncertainties related to the evaluation of the health hazards of environmental chemicals from toxicological data and epidemiological monitoring of indices of chemical hazards. The book takes a look at safety factors and their application in toxicological evaluation; ecotoxicological approaches for the protection of environment and health; and use of biological materials as environmental pollution gauges. The text also discusses acute toxicity, teratogenic effects of pollutants, and examples of ecotoxicological research. The selection is a dependable source of data for readers interested in the evaluation of toxicological data relative to the protection of public health.

Promoting Healthy and Supportive Acoustic Environments: Going beyond the Quietness Francesco Aletta, Jian Kang.2020-11-04 This book gathers 14 original contributions published in an IJERPH Special Issue that deal with the perception of environmental sounds and how such sounds are likely to affect human quality of life and well-being and the experience of a place. The research focus over the years has been gradually shifting from treating sound simply as "noise" and something that cities should get rid of to a potential "resource" to promote and support community life in public spaces. Three main topics or "needs" to be addressed by researchers and practitioners emerged from this Special Issue: (1) the need to re-think "quietness" in cities as something that goes beyond the mere "pursuit of silence", (2) the need to integrate additional contextual factors in the characterization and management of urban acoustic environments for public health, and (3) the need to consider the acoustic quality of indoor spaces as opposed to an outdoor-only perspective. The contributions collected in this book will hopefully trigger new questions and inform the agenda of future researchers and practitioners in the environmental acoustics domain.

African Journal of Reproductive Health Friday Okonofua.2016-06-30 African Journal of Reproductive Health (AJRH) is a multidisciplinary and international Journal published quarterly (March, June, September, and December) by the Women's Health and Action Research Centre (a Non-governmental Organization with headquarters in Nigeria). The publication of the journal started in 1997. As of March 2016, 64 editions have been published. The journal focuses on publishing original research, comprehensive review articles, short reports and commentaries on reproductive health in Africa. It strives to provide a forum for both African and foreign authors working in Africa to share findings about all aspects of reproductive health and also to disseminate innovative, relevant, and useful information on reproductive health throughout the continent.

Canadian Health Policy in the News: Why Evidence Matters Noralou Roos, Sharon Manson Singer, Kathleen O'Grady, Shannon Turczak, Camilla Tapp. Canadian Health Policy in the News is a compendium of the commentaries (or OpEds) published by Evidence Network in major newspapers across the country from April 2011 up to October 2012. It is a timely, balanced and non-partisan snapshot of what's new and controversial concerning our healthcare system and related social

programs that affect health and well-being in our country — with evidence at the forefront. This book is available free-of-charge so that you can share it widely, in your classrooms, amongst your friends and colleagues, on your websites and via social media. Canadian health policy will always be emerging and unfolding, responding to changing environmental and economic factors, new technologies, publicly held values and differing political landscapes. Canadian Health Policy in the News captures a moment in time and presents the issues that concern Canadians most, grounding our national discourse and debate on healthcare in the best evidence. With thanks to the Canadian Institutes of Health Research and the Manitoba Health Research Council whose funding supports EvidenceNetwork.ca.

Compétences pour minimiser le stress chez les professionnels de santé - E-BOOK Shannon

Dames.2023-12-28 Développez la résilience et prospérez en tant que professionnel des soins !

Compétences pour minimiser le stress chez les professionnels de santé : un guide pour renforcer votre racines aborde des méthodes pour prendre soin de soi et prévenir la fatigue émotionnelle et l'épuisement professionnel dans les milieux de travail très stressants. Ce livre utilise une approche factuelle qui examine comment les professionnels de la santé peuvent développer l'autocompassion, la pleine conscience, les relations avec leurs collègues et leur satisfaction en leur carrière. Rédigé par Shannon Dames, enseignante et chercheuse réputée, ce manuel pratique montre comment mettre en pratique ces connaissances et améliorer votre bien-être dans de vrais contextes de soins. En raison de la prévalence plus élevée chez les professionnels de la santé de problèmes de santé mentale comme le syndrome de stress post-traumatique (SSPT) et le trouble dépressif majeur (TDM) une ressource comme celle-ci n'a jamais été aussi nécessaire ! Focaliser à la fois sur la théorie et la

pratique permet aux étudiants de s'autoévaluer, de renforcer leur résilience et de s'épanouir, grâce à des concepts soutenus par la recherche. UNIQUE ! Les études de cas Parcours illustrent l'expérience ou les préoccupations réelles d'un professionnel de la santé, ce qui amène les étudiants à réfléchir, pendant leur lecture, à la façon dont ils gèreraient la situation exposée. La fin du chapitre propose une méthode efficace pour gérer la situation, et démontre comment mettre en pratique les leçons apprises. UNIQUE ! L'écriture claire sur le ton de la conversation et le cadre métaphorique des racines et de l'arbre établissent un lien avec les lecteurs et facilitent l'apprentissage conceptuel. Des exercices pratiques intégrés permettent aux étudiants de développer et de renforcer leurs propres racines métaphoriques. Des vignettes tout au long du texte démontrent comment les concepts s'appliquent aux scénarios du monde réel. S'adapter au parcours à venir résume le contenu à la fin de chaque chapitre pour que les étudiants comprennent bien les concepts principaux. UNIQUE ! Des encadrés présentant la contribution du Dr Crosbie Watler, M.D., FRCPC aident les étudiants à naviguer et à comprendre les enjeux en santé mentale qui touchent les professionnels de la santé.

Health Information Management: What Strategies? Suzanne Bakker.2013-03-09 Health Information Management: What Strategies? contains the Proceedings of the Fifth European Conference on Medical and Health Libraries and gives a full account of the state-of-the-art of European medical librarianship. This book is the fifth in a well-received series of proceedings of the European conferences and together the volumes form a valuable source for medical librarians in Europe. The quality of papers reflects the growth of the European Association for Health Information and Libraries (EAHIL) towards maturity and the ongoing professional development of its members. The

field of medical and health information has no geographical borders, therefore medical librarianship needs to be an international and multinational cooperation. The book reflects the important developments ongoing in medical informatics and medical information management. These subjects are touched upon as they have a close connection to medical librarianship. The future of medical libraries will be dominated by strong alliances with computer departments and health and hospital management departments. Many contributions deal with the strategies medical librarians can or will develop in order to incorporate the many tools of modern information technology into library policy and practice.
