RPL As Specialised Pedagogy Linda Cooper,Alan Ralphs.2017-07-01 Internationally, Recognition of Prior Learning (RPL) has become a standard component of education policy reforms aimed at meeting the requirements of a globalised labour market on the one hand, while responding to demands for widening access to further and higher education on the other. However, despite the promises of RPL to enable 'optimal inclusion', this ideal is not easily realised in practice. Drawing on case study research of RPL practices in four different contexts in South Africa, *RPL as Specialised Pedagogy: Crossing the Lines* offers a novel theoretical framework for understanding RPL not simply as an assessment practice, but as a specialised pedagogy for navigating knowledge boundaries across different contexts. The book develops a conceptual language for describing what is common and distinctive about RPL practices across different sites and contexts, thus providing a unique contribution to a field that has traditionally been under-theorised. *RPL as Specialised Pedagogy* will be of significant interest to RPL practitioners and educators, to researchers and students in the field, and to policy researchers and policy makers.

*Postgraduate Supervision* Magda Fourie-Malherbe,Ruth Albertyn,Eli Bitzer.2016-11-21 The 24 chapters contained in this volume provide diverse but also congruent perspectives on future foci for research into postgraduate education and supervision in the knowledge society. The chapters move from deliberations on challenges for postgraduate supervision at macro level (such as the pressure to increase postgraduate output and the implications of increasingly managerialist institutions) to meso level matters (the form and function of postgraduate education in specific countries) to the micro (rich case studies of individual institutions, programmes and supervisors).

**Global Tuberculosis Report 2017** World Health Organization.2017-12-13 WHO's Global Tuberculosis Report provides a comprehensive and up-to-date assessment of the TB epidemic and of progress in care and prevention at global, regional and country levels. This is done in the context of recommended global TB strategies and associated targets, and broader development goals. For the period 2016-2035, these are WHO's End TB Strategy and the United Nations' (UN) Sustainable Development Goals (SDGs), which share a common aim: to end the global TB epidemic. The main data sources for the report are annual rounds of global TB data collection implemented by WHO's Global TB Program since 1995 and databases maintained by other WHO departments, UNAIDS and the World Bank. In WHO's 2017 round of global TB data collection, 201 countries and territories that account for over 99% of the world's population and TB cases reported data.

*Renewing Workers' Education* Linda Cooper,Sheri Hamilton.2020 Renewing workers' education focuses on educational methods created by workers for workers. It extends beyond trade unions to include a range of educational initiatives aimed at the working class including working class women, casual and informal sector workers, migrant workers, and workers' political parties. This book fills a gap in the South African literature on workers' education and documents the recent history as well as current practices and perspectives, including some international experiences. It explores conceptual tools that may assist in reflecting on and theorising the practice of workers' education and analyses current challenges. This captivating book also seeks to inform future policy and practices on workers' education and is key for those who wish to reinvigorate and contribute to building an alternative future for workers' education. --Back cover.

**South African Social Attitudes** Udesch Pillay,Benjamin Roberts,Stephen P. Rule.2006 A country's attitudinal profile is as much a part of its social reality as are its demographic make-up, its culture and its distinctive social patterns. It helps to provide a nuanced picture of a country's circumstances, its continuities and changes, its democratic health, and how it feels to live there. It also helps to measure the country's progress towards the achievement of its economic, social and political goals, based on the measurement of both 'objective' and 'subjective' realities. South African Social Attitudes: Changing Times, Diverse Voices is a new series aimed at providing an analysis of attitudes and values towards a wide range of social and political issues relevant to life in contemporary South African society. As the series develops, we hope that readers will be able to draw

meaningful comparisons with the findings of previous years and thus develop a richer picture and deeper appreciation of changing South African social values. This, the first volume in the series, presents the public's responses during extensive nation-wide interviews conducted by the HSRC in late 2003. The findings are analysed in three thematic sections: the first provides an in-depth examination of race, class and politics; the second gives a critical assessment of the public's perceptions of poverty, inequality and service delivery, and the last explores societal values such as partner violence and moral attitudes. *South African Social Attitudes* is essential reading for anyone seeking a guide to contemporary social or political issues and debates. It should prove an indispensable tool not only for government policy-makers, social scientists and students, but also for general readers wishing to gain a better understanding of their fellow citizens and themselves.

**Transforming Practices** Stephen Kemmis.2022-01-29 This textbook shows how people can and do transform the world through transforming their practices and the practice architectures that shape them, and contributes to contemporary practice theory. It provides an authoritative, comprehensive, and contemporary account of the theory of practice architectures, illustrated through examples drawn from years of research by participants in the Pedagogy, Education, and Praxis international research network from Australia, New Zealand, Finland, Norway, Sweden, the Netherlands, Colombia, and the Caribbean. Its content provides a variety of resources for researchers who are new to research using the theory of practice architectures. It includes tables to assist with the analysis of practices, and provides clear examples to aid understanding and application. This textbook provides readers with a thorough grounding in the theory and ways the theory of practice architectures has been used in investigations of social and educational practice.

**OECD Public Governance Reviews Preventing Policy Capture Integrity in Public Decision Making** OECD.2017-03-30 This report exposes how “policy capture”, where public decisions over policies are consistently or repeatedly directed away from the public interest towards a specific interest, can exacerbate inequalities and undermine democratic values, economic growth and trust in government.

**Ideas and the Use of Force in American Foreign Policy** Rees, Morgan.2021-11-10 The decision to mount an armed foreign intervention is one of the most consequential that a US president can take. This book sets out to explain why and when presidents choose to use force. The book examines decisions to use force throughout the post-Cold War period, via flashpoints including the Balkans, the ‘War on Terror’ and the Middle East. It develops new explanations for variation in the use of force in US foreign policy by theorizing and demonstrating the effects of the displacement and repression of ideas within and across different US presidential administrations, from George H.W. Bush to Donald Trump. For students, scholars and anyone with an interest in international relations and global security, this book is an original perspective on a defining issue of recent decades.
