The Music Makers, Op. 69 Arthur O'Shaughnessy.2007-10-30 This 35-minute work is sometimes thought of as Elgar's answer to his contemporary Richard Strauss' tone poem Ein Heldenleben. It was given its premiere at the Birmingham Music Festival on Oct. 1, 1912 with the composer at the podium. Elgar quotes extensively from his own previous works throughout. This new vocal score is an unabridged digitally-enhanced reprint of the one issued by Novello & Co., Ltd. in 1912, enlarged to a more readable A4 size. A welcome addition for Elgar enthusiasts, alto soloists, choruses, and pianists. Matching full score and orchestra parts also available from Serenissima Music.

Women Performers in Bengal and Bangladesh Manujendra Kundu.2023-10-31 Covering nearly 225 years, this volume tries to capture a broad spectrum of the situation of women performers from Gerasim Lebedeff's time (1795), who are considered to be the first performers in modern Bengali theatre, to today's time. The moot question is whether the role of women as performers evolved down the centuries. Whether this question will lead us to their subjugation to their male counterparts, producers, and directors has been explored here to give readers an understanding of when, where, by whom the politics began, and, by tracing the footprints, we have tried to understand if the politics has changed, or remains unchanged, or metamorphosed with regard to the woman's question in the performance discourse. We have explored, in this regard, how her body, mind, and sexuality interacted with and negotiated the phallogocentric hierarchy. The essays included are on (i) Baiji/Tawaif culture in eastern and western Bengal; (ii) prostitute/'fallen' women/ patita,

beshya performers; (iii) IPTA and the Naxalbari movement; (iv) group and commercial/professional theatre of Kolkata; (v) women's position in the theatre of Bangladesh; (vi) Cabaret (with an interview with Miss Shefali) (vii) Jatra; (viii) Baul tradition. (ix) Besides, there are chapters on English, Anglo-Indian, Jew, Nachni performers and the illustrious dancer Amala Shankar, and film-music-dance in general.

Elementary Aspects of the Political Prathama Banerjee.2021-01-04 In *Elementary Aspects of the Political* Prathama Banerjee moves beyond postcolonial and decolonial critiques of European political philosophy to rethink modern conceptions of the political from the perspective of the global South. Drawing on Indian and Bengali practices and philosophies from the late nineteenth and early twentieth centuries, Banerjee identifies four elements of the political: the self, action, the idea, and the people. She examines selfhood in light of precolonial Indic traditions of renunciation and realpolitik; action in the constitutive tension between traditional conceptions of karma and modern ideas of labor; the idea of equality as it emerges in the dialectic between spirituality and economics; and people in the friction between the structure of the political party and the atmospherics of fiction and theater. Throughout, Banerjee reasserts the historical specificity of political thought and challenges modern assumptions about the universality, primacy, and self-evidence of the political. In formulating a new theory of the political, Banerjee gestures toward a globally salient political philosophy that displaces prevailing Western notions of the political masquerading as universal.
