Investing in Collateralized Debt Obligations Frank J. Fabozzi,Laurie S. Goodman.2001-05-15 The fastest growing sector of the asset-backed securities market is the collateralized debt obligation (CDO) market. CDOs are securities backed by a pool of diversified assets and are referred to as collateralized bond obligations (CBOs) when the underlying assets are bonds and as collateralized loan obligations (CLOs) when the underlying assets are bank loans. Investing in Collateralized Debt Obligations covers not only the fundamental features of these securities and the investment characteristics that make them attractive to a broad range of institutional investors, but also the tools for identifying relative value. Nearly a dozen of today's best known analysts discuss emerging market CBOs, relative value frameworks, pricing strategies and techniques, and more.

Cash Management Frank J. Fabozzi.2000-09-15 Cash, as opposed to more rewarding but riskier assets, such as stocks or bonds, is preferable for meeting large, short-term liabilities that are well defined and predictable. Holding cash is also the only sensible investment choice for meeting uncertain (contingent) liabilities that arise in an emergency. The range of cash management alternatives is sufficiently wide and complicated to warrant careful planning when deciding on which specific cash vehicles to hold. The general principles of modern portfolio management can and should be applied to professional cash management.
